Surry - Girls' Work.

Three hundred and forty-six club demonstrations were conducted in the county during the year.

Nine girls were eligible for the All State Prize, but six left for higher schools outside the county, only three finishing the required work in canning, and only one in the fourth year serving.

The grade of work in all demonstrations was noticeably better than any previous year.

Several communities the home demonstration agent had very little work to do because of the good work done by the women the past two years. This gave her more time to develop new territory.

Canning exhibits were held in six communities.

Bread clubs held judging contests in six centers, one club having a contest every month for four months.

County Club Rally was scheduled for the last of August but on account of conflicting arrangements this had to be called off.

County Fair was held the first week in October with good club exhibits.

County was well represented at Petersburg Fair Oct. 9-14th. Two organized clubs had booths, and in the Bread Club Contest Surry won the first place.

Two exhibits were sent to the State Fair, Richmond, as it was held at the same time as the County Fair.

100% demonstrations reports in all lines of work except poultry.

Summary - Women's Work

Two hundred and forty-seven demonstrations were conducted under the direction of the home demonstration agent during the year, this being more than twice the number of demonstrations for 1921.

The work was done mostly by women who could not get into organized clubs.

The various methods in the preservation of food have been the foremost objective with the women.

Statistics will show the number of home communications and improvements.

The work through the civic and other organizations have been very effective, as the organizations co-operating when called on.

The Advisory Council consisting of six women, one from each congressional district, is of untold assistance to the agent.

Plans for greater and better organized work are on for 1923.

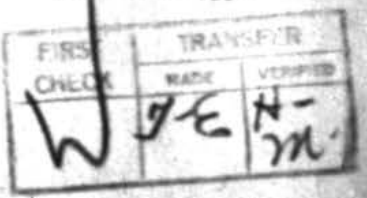
Form No. 753.

98-SRS



To the County Home Demonstration Agents:

It is very important to send in accurate and complete Annual Reports. The future success and support of the Home Demonstration Work depends upon your activities now. It will aid the cooperating authorities greatly to have adequate records of what has been done. The law requires such reports and the lawmakers are greatly interested in the development of all of the extension work.

The statistical part of the Home Demonstration Work has been simplified and condensed. It is hoped that it will be easier for you to make a full and graphic showing of the achievements of your women and girls. Of course it is not expected that every agent will be conducting demonstrations upon every phase of work every year. Do not hesitate, therefore, to have spaces blank where you have no work being done. On the other hand, it will be unjust to your demonstrators and club members to fail to report all of their real results.

Please note that all reports are to be in the offices of the State agents by January 1 of each year. This enables them to prepare their reports promptly and forward copies to the Washington office in the new year. It makes it possible to prepare reports in the United States Department of Agriculture in time for them to do the most possible good.

Do not wait until January 1 to send in your report if it is ready before that time, It should contain data to December 1. It is impossible to fully show the actual development in statistics. It is therefore suggested that you write a narrative report on separate sheets and attach same to this blank.

Send with the report a map of your county showing the number of demonstrators and cooperative agencies. It is suggested that on this map the data for girls' work be recorded in red ink, for women's work in black ink.

Write numbers of girl demonstrators in red and of women demonstrators in black, and if the demonstrators are in organized clubs enclose the figures in a circle of the corresponding color. For example: Demonstrators not in clubs,1; demonstrators in organized clubs, (2). If both women and girls have organized clubs in one community have two circles with figures enclosed, one in black, one in red ink.

Indicate "community clubs" with a square in black ink, with membership numbers inside, as [30] .

Indicate headquarters of county councils and other supporting organizations with stars, showing membership; e. g.

These are minimum suggestions for the map. Other details may well be reported in this graphic form, but it is expected that every agent will send at least a simple map showing the fundamental and essential data indicated.
