INTRODUCTION.

The contents of this report make a complete narrative summary of the Extension Program in Nelson County, for the year beginning December 1st, 1934, and ending December 1st, 1935. This summary gives full details of all work recorded in the Statistical Report, and also many other activities of Agent, for which no place in the Statistical Report has been provided.

The A. A. A. Program has taken about eighty per cent of the Agent's time this year, and consequently the Narrative Report will be different from former years but very much like the previous year.

The stenographic help furnished by the A. A. A. in 1934 has been continued through 1935. Without this help the Agent would be powerless to carry on the work of the Extension Program.

The Agent wishes to express his appreciation to all Federal, State and Local Agencies for the splendid guidance, advice, and help given him the past year. The past two years have been years of difficulties and problems. This has been due to the many changes in the various contracts, forms, etc. Without the whole hearted cooperation and patience of those in authority it would have been impossible to have accomplished, in any manner, the many and varied tasks put before the Agent.

The Plan of Work given below was adopted by the Advisory Committee at its Annual Meeting in January.

Below is a brief outline of the Plan of Work and Achievements for 1935:

**Plan of Work:**

1. A. A. A. Program in all details. (major).
2. Minors - a. Agronomy, b. 4 H Club Work, c. Fruit Work, d. Better Sires and e. Meet all emergencies that may arise.

**Achievements.**

1. The Program has been carried out in all details. The tobacco referendum held. All necessary work attached to the 154, two-year tobacco contracts, accomplished. 123, 1935-only contracts, and 16 Special Base contracts signed. 12 Corn Hog Contracts signed. All necessary work attached to two old wheat contracts attended to and five applications for 1936-1939 wheat contracts signed. Applications for Tax-Exempt Tobacco Warrants filled out for four farms. Three of these farms were granted allotments.
  2. Three demonstrations conducted with Red Clover and seventeen with Lespedeza. Approximately fifty bushels of red clover seed and 30,000 pounds (estimated) of Lespedeza seed, saved for seed.
  3. Six 4 H Clubs organized with an enrollment of 145 boys and girls. 65 members turned in complete record books. 4 H Club Achievement Day held. Banner for year won by Tye River Club. Total amount of money earned by members was \$ 1338.52.
  4. Three pruning demonstrations kept going in three organized communities. Fourteen other pruning demonstrations given. (Beaches and apples.)
- Two joint Fruit-Growers meetings (Aberst and Nelson) held. One in winter and one in summer.
- The Spray calendar service continued.

Seven peach thinning demonstrations given.

Much help and advice given peach growers.

5. Two purebred Angus Bulls and two purebred Rams placed.

Two thousand pounds of wool sold cooperatively.

Four hundred ninety-five lambs shipped cooperatively.

Ram Show held at Montebello.

Fifteen Docking and castrating demonstrations given. 275 lambs operated on by Agent. (Most of sheep owners have learned to do this work themselves.)

Nine stomach worm treatment demonstrations given. 390 sheep treated.

Practically all sheep treated by owners.

Notices of time to treat sheep sent out every month during grazing season.

Conducted Livestock tour.

6. All emergencies have been met, namely:

a. Gave all possible assistance to Rural Rehabilitation Workers, and Relief Garden Director.

b. Three surveys for orchard water supply made.

c. Meetings (3) held to give information about Tobacco diseases. (Lantern slides used.)

d. Three Road meetings addressed.

e. One meeting held to interest people in growing cucumbers for pickling plant.

f. Two Community League meetings addressed on "Better Gardens".

g. Much work done about Fair Association.

h. One demonstration meeting held to treat tobacco seed.

i. Presided at County Health Day Meeting.

- j. Addressed Production Credit Association meeting and worked with Association closely during year.
- k. Help given Bee Keepers.

#### 1. A. A. A. PROGRAM.

As was stated in the Introductory remarks, the A. A. A. Program in its entirety has taken up about eighty per cent of the Agent's time this year. All of the detailed work operating the Tobacco and Corn Hog Associations has fallen on the County Agent's office.

The first year's operation with the Tobacco Association showed, while the general average received for Dark Tobacco in the State for 1933 was six cents per pound, the general average of the contract signers of 1934 and tax-exempt allotment growers averaged a little more than ten cents per pound. In addition to this their adjustment payments for the 154 signers have amounted to \$4,421.06

Last December a Referendum was held in accordance with the stipulation in the Kerr-Smith Tax Bill. 489 ballots were prepared, 386 were returned, either by person or by mail. (103 not returned.) The vote showed 286 "yes" voted and 100 "no" voted. The opinion of most of the growers is, that, out of 103 not returned that a very large percentage of these were "yes" votes. The vote was whether the grower favored a tax on tobacco not signed up under the Adjustment contract.

The Special Base Contract. This contract was made to take care of those who could not sign a regular contract. After these contracts were

signed, meetings were held by Committees to adjust the contracts in line with the old contracts.

The rental payment for 1935 for all contracts <sup>to date</sup> totals \$3,238.92. The rental payments and adjustment payments added to the increase of tobacco price on the market is a self evident fact that the Adjustment Program for Tobacco has been a great boom to the growers.

Every ruling and change that has been made in the contract has been for the signer's benefit. The allotment for 1935 was increased 5% over the allotment for 1934, but allowed the growers to receive larger rental checks if he wished to, (could reduce his acreage 30% and still sell 20% reduction in pounds). This ruling increased the 1935 rental payment by approximately \$800.00.

Man after man has come in the office and said to Agent, "My rental check alone is more than my crop of tobacco brought in 1933".

When the Tobacco Acreage was surveyed this summer, eleven producers had excess acreage. All but one agreed readily to destroy the excess.

Much work has been done on the recommendations for 1936-1939 tobacco contracts.

Besides all the work connected with the Tobacco Adjustment Contract, 12 Corn Hog, 1935 contracts were signed up. All the work incident to the Corn Hog Association has been completed up to date. The final Hog count will begin on December 2nd. The Corn Hog signers have been benefitted very, very greatly by the increased selling price of corn and hogs, plus the Adjustment payments. Up to date the 1935 corn hog signers have received \$491.10 on the first

adjustment payment. The second one will not be made until sometime in January, 1936.

There were not enough wheat signers to have an association, (only 2) but the Agent has had to see that all the work incident to these contracts was conducted. Up to date these two signers have received during 1935 in adjustment payments \$104.00.

Five applications have been filled out for the 1935 - 1939 wheat contract. This was not enough to justify an Association and the applications have been send to Buckingham county. The total amount derived from payments of all kinds on all contracts during 1935, <sup>to date</sup> is \$ 3,255.08.

The Agent realized that the money side of any project counts the most in the minds of most people, but after interviewing the hundreds of people who have been in office and who have been met in the field the Agent's conception of the greatest benefit derived from the Adjustment Program is that the best thinking people as a whole are beginning to see that production must be kept in line with demand.

It has been an inspiration to see how many farmers are encouraged by the ~~increase~~ price of their farm commodities and to hear them express delight in the Adjustment Program.

Every consideration has been given the farmer who could not sign the regular or special base tobacco contract. Only one farm was refused a Tax-Exempt allotment for 1935, and this was done because this farmer could have signed a regular contract.

## 2. AGRONOMY

The Advisory Committee deemed it very necessary that work be done to encourage the growing of clovers, the use of lime, and the saving of home grown seeds. It can clearly be seen that the Agent has not had much time to give to this work directly, but every opportunity has been taken advantage of to promote this great work, both by committee members and Agent.

Three Red Clover Demonstrations have been conducted and most remarkable results achieved.

Lespedeza has become the queen clover of Nelson at present, and many hundreds of acres were sown this year that had never been sown before.

There will be approximately 50 bushels of red clover seed saved, and 30,000 pounds of Lespedeza. Pastures have been improved by the use of Lespedeza, and the hay crop has been almost doubled by the use of Lespedeza.

There are many testimonials that can be given at this time but the two given below seem to show more clearly how much the work of the Extension Division has grown and is appreciated.:

One farmer came in office and said, "Besides all the good work you as County Agent have done, you have earned every cent ever paid you, when you introduced Lespedeza in this county. There is no crop that grows out of the ground that is as wonderful".

There is a farmer who has cooperated fully with the Extension Division in every respect in building up the soil by use of lime, clovers, and rotation. A man who works for this farmer said to Agent,

"Since you all have been advising Mr. Sam, his farm has turned from a bramboe patch to a fertile soil and this year made 14 barrels of corn per acre on seven acres of land."

The Nelson farmers are becoming "Clover Minded" which is the greatest step taken by them in the last ten years.

### 3. 4 H Club Work.

4 H Club work has had to suffer during this year much to regret of Agent and others in authority but the pressing emergency work had to be looked after first.

Six 4 H Clubs were organized in which 145 boys and girls were enrolled. The assistance of Club leaders and club members, was greatly responsible for this work.

These clubs were organized at Arrington, Faber, Fleetwood, Shipman, Schuyler, and Tye River. The following projects were chosen: Corn, Poultry, Potato, Fat Pig, Breeding Pig, Forestry, Rabbits, Raspberries, Garden and Dairy Calf.

Only 65 members completed their records. This low percentage was caused by many things, chief among them, the loss of a valuable leader right at the time when the leader was needed most, and that the Agent was unable to give the personal work needed to make the work a success..

The Agent attended 42 Club meetings.

The Parent's Night meeting at the Faber Club was addressed by Agent, and a play given by the Tye River Club was attended and assistance given. The Tye River Club attended the Amherst Fair in a group, accompanied by Agent.

There was no fair held in the county for the members to attend and exhibit their projects.

The total amount of money made by club members completing was \$1,338.52.

The 4 H Club Achievement Day was held on November 2nd, at the Lovington High School. Four clubs were represented and the banner for year was won by the Tye River Club.

Plans were made for several members to attend State Short Course, but this was not held due to infantile paralysis in the State.

The greatness of 4 H Club Work is clearly shown by those club members who stick on and fight for the principles of Club Work.

#### 4 . Fruit Work.

The Horticultural enterprise of Nelson County is the largest money enterprise in the county when apples and peach growing are taken to gether. For this reason the Advisory Committee could not overlook this most important project.

The pruning demonstrations were kept going in the Greenfield, Nellysford, and Fleetwood Communities. The one in the Greenfield was completed, having been operated for five years.

The demonstrations have been keenly watched and many men are adopting better practices of pruning as a result of these demonstrations. Those who attended the meetings have taken much information home with them. Fourteen other pruning demonstrations were given, with apples and peaches. The peach industry has been greatly enlarged in the last few years, and this past season the peach growers of the county were unusually fortunate in having a good crop and hitting a good market. The peach growers this year realize a gross sum of approximately

\$70,000.00.

One orchardist said, "The Extension Division has always helped me with my fruit problems, and I have always made money by following their instructions." There is<sup>a</sup> possibility of the peach planting this fall and next spring in Nelson County to reach 150,00 trees.

Seven peach thinning demonstrations were given this summer. It is impossible to get large size fruit unless the fruit is thinned properly.

The Spray Calendar Service was continued. Each time a spray is scheduled to be put on, the Extension Division notifies each grower the time and what kind and amount of materials to use.

The growers as a whole look for these cards and have learned that by following the instructions they can grow better fruit.

In the winter of 1934 a group of Amherst and Nelson Fruit Growers decided that it would be most helpful to have two joint meetings of the fruit growers. One in the winter and one in the summer. In February the Joint Meeting was held in Lovington. This meeting was well attended by representative fruit growers from Amherst and Nelson (150 attended). A splendid program had been planned and put across in masterfully fashion by those on the program. Topics that were most vital to both Apple and Peach growers were discussed and valuable information given to the growers.

The summer meeting was held in Amherst County (Jordan's Orchard). The one hundred or more people who attended this meeting were shown remarkable results of demonstrations in spraying, thinning, irrigating, and cover crop practices. In the afternoon a program was presented to the growers which was most helpful and pleasing to all present.

One man very aptly said, "The Joint Meetings, both winter and summer, are the most helpful work that has been given our growers in the last few years."

#### 5. BETTER SIRES.

It seems fitting that all livestock work should come under this heading. Only a few purebred sires have been placed this year, but other most important work has been accomplished, which should be given recognition.

Two purebred Angus bulls were placed this year. One of these placements occurred on a farm where the owner did not wish to use his sire any longer. He was a splendid animal and a trade was made between this owner and one who lived in another county, whose sire was a good one. The other placement was made where a farmer wished to buy a young sire and raise him. This young sire was bought from a breeder of purebred Angus bulls who lives in the county.

Three farmers from this county accompanied Agent to meeting of State Aberdeen-Angus Association, which was held on the farm of C. B. Feagens, in Campbell County. After inspecting his splendid herd, a luncheon was served by the host. Following the luncheon, a business meeting of the Association was held and several talks made by prominent men. After the meeting a visit was made to another Angus herd in Bedford County. The men who attended this tour pronounced it a great help to them both educationally and financially.

Most of the work accomplished under this heading was with sheep.

A group of Nelson sheep growers attended the Ram Sale in Staunton, and one purebred Ram was brought back to the County. Another ram was placed by the owner, who bought the one in Staunton, selling to his

neighbor the purebred one he had at home. By this method two Rams were placed.

Previous to the Ram Sale a Ram Show was held in the Montebello Community. (More sheep are raised in this community than any other in the county.)

At this Ram Show the people were taught how to Judge Rams and how to select one from the individual flock. Mr. Paul Swaffer, of the Animal Husbandry Department, gave this demonstration. When the farmer attended the Ram Sale he knew pretty well what he wanted to look for. The high priced bidding caused our farmers to buy only one.

The Ram Show was attended by seventy-five people, who took keen interest in the Judging, etc. Twelve rams were entered in the various classes, and the Judge was puzzled more than once to know how to place them. The Ram Show has always been a great impetus to the growers in the Montebello Community to raise better sheep.

Eleven Sheep growers from Lower Nelson sold their wool through the United Wool Growers Association. The wool was pooled and weighed at Bedford. The price (23cents for good) was far better than any other growers received. Approximately 2,000 pounds were sold and approximately \$560.00 received.

The most outstanding results obtained from the Better Sires Work was clearly shown when the Montebello lambs were shipped cooperatively. The first shipment of 200 lambs graded as follows: 50 Blue Circles, 155 Red Circles, and 15 no marks, and Bucks. The Blue Circles brought (gross) \$9.25 per hundred, Red Circles \$9.10, and no marks and bucks, \$8.15. The Blue circles brought 10 cents per hundred more than the general top average for that day. The growers estimate that they made \$300.00 more than they would have made by selling them locally. A

second car of 275 lambs was shipped from this community about a month later and the price obtained exceeded every expectation. This car consisted of all lambs left in the community, and even at that, out of the 275 there were 12 Blue Circles, and practically all others went in the Red Circle Class. The growers realized around \$500.00 more than they would have by selling locally. The tops brought 11cents, and Red Circles 10½ cents. Mr. K. E. Litton of the Animal Husbandry Department, graded the lambs.

The majority of lambs in the county are docked and castrated by the owners. They have been taught through demonstrations how to do the operating, and have learned by the increased price paid for the docked and castrated ones that it pays a most wonderful premium to have the work done.

The Agent gave 15 docking and castrating demonstrations in which 275 lambs were operated on. There were approximately 1400 operated on by growers.

The wet spring and summer gave the stomach worms chance to do much harm to the sheep. and those who gave their flocks regularly treatment consider that they have saved not only many dollars, but have saved the vitality of their flock which is hard to estimate in dollars and cents.

Sheep treatment notices were sent to all growers regularly each month during the grazing season. Many sheep dose syringes have been bought for the owners the past few years. Besides sending out notices the Agent has given 9 stomach worm treatments demonstrations in which 390 sheep were treated. One owner said, "If you had not treated my sheep I would have lost all my lambs that I wanted to keep over." The Agent was called upon to inspect a flock of sheep and found the young ewes

in such bad condition from effects of stomach worms that the sheep had to be treated once a week for three weeks.

6. MEET ALL EMERGENCIES THAT MAY ARISE.

This heading was used in order that the many accomplishments, which have no place under regular headings may be given recognition.

The Rural Rehabilitation Workers and the Garden Relief Director, were given all possible help. This was accomplished in many ways. Such as attending meetings, acting as County Chairman of Committee, distributing lespedeza seed, referring people to the above workers when they called at office. Two meetings were addressed on "Better Gardens". One by Garden Specialist and one by Agent. Under the New Set up of the R. R. C. The Agent has continued to give all advice and assistance possible.

Three water surveys were made to determine the best method of getting water to spray orchards. Last spring three meetings were held to show the different tobacco diseases and how to control and combat them. Mr. James Godkin, Plant Pathologist, used colored lantern slides, to show the diseases. These meetings were well attended and much interest taken in the lectures. Many people treated their tobacco seed for wild fire disease, as a result of these meetings. The Agent held one treating demonstration and treated seed for four farmers.

There was no fair held in the county this fall, but Agent was called upon to do much work in trying to dispose of property. This was not accomplished.

The County Health Day was presided over by Agent. This Annual Event has attracted the attention of many people, especially those who were born in county and now live elsewhere. Homecoming Day was stressed

and there were many Nelson Boys and Girls of past days, present at the meeting. A wonderful flower show was put on exhibition at same time. This meeting was held on the Fair Grounds.

The Agent has been trying to get people in the Montebello Community interested in growing cucumbers for a pickling plant. The price paid to growers will be 75 cents per bushel for number ones, and 35 cents per bushel for number twos. One meeting has been held. Nothing definitely decided as yet.

The Production Credit Association has been give all possible help. The Agent has no way of knowing what amount has been loaned in county this year, but feels that the Association has filled a great need in helping to solve the lending problem.

The Bee Specialist, Mr. Weatherford inspected a colony of bees belonging to one of our bee keepers. These bees were to be shipped out of the State.

There might be a few more problems that have been brought to the Agent's attention, but the above, in the main, represent practically all of them. (The Agent had Landscape Specialist to make plans for a private yard and school grounds.)

The Agent feels that the program as outlined above, will be most suitable for the 1936 program.

# COMBINED ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is for use by county extension agents in making a combined statistical report on all extension work done in the county during the year. Agents resigning during the year should make out this report before quitting the service.

State Virginia

County Nelson

John B. Whitehead

*Agricultural Agent.*

From Dec. 1, 1934 to Nov. 30, 193<sup>5</sup>

**READ SUGGESTIONS, PAGES 2 AND 3**

Approved:

Date \_\_\_\_\_

## SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT

The annual report should be a summary, with analysis and interpretations, for presentation to the people of the county, the State, and the Nation of the extension activities in each county for the year, and the results obtained by the county extension agents assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agents and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support of extension work.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

### STATISTICAL SUMMARY

Where two or more agents are employed in a county they should submit a single statistical report showing the combined activities and accomplishments of all county extension agents employed in the county during the year. Results obtained through assistance rendered agents by specialists should also be included. This report shows, insofar as possible, the part each agent has taken in forwarding the extension program. The county totals should be the sum of the activities and accomplishments of individual agents *minus duplications due to two or more agents participating in the same activity or accomplishment.* The county totals, when properly recorded, show the progress made in the county during the year in forwarding the entire extension program. Negro men and women agents should prepare a combined statistical report separate from that of the white agents.

The statistical summary should be a report of this year's activities and results that can be verified by records on file in the county office. Where records are not available careful estimates are desired. Such estimates should be marked "Est."

### NARRATIVE SUMMARY

A separate narrative report is desired from the leader of each line of work, such as county agricultural agent, home demonstration agent, boys' and girls' club agent, and Negro agent. Where an assistant agent has been employed during a part or all of the year, the report of his or her work should be included with the report of the leader of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked.

The narrative report should summarize and interpret, under appropriate subheadings, the outstanding results accomplished and the extension methods used for each project. Every statement should be clear-cut, concise, forceful, and, where possible, reenforced with necessary data from the statistical summary. Use a descriptive style of writing, giving major accomplishments first under each project. Give extension methods fully relating to outstanding results only, and where practicable illustrate with photographs, maps, diagrams, blueprints, or copies of charts and other forms used. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs and reasonably good margins. The pages should be numbered in consecutive order.

The following outline is merely suggestive of how the narrative report may be clearly and systematically presented. Each agent should prepare an outline to fit the situation and the work to be reported.

### SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT

- I. Cover and title page.
- II. Table of contents.
- III. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning of the narrative report.
- IV. Changes in county extension organization.
  - (1) Form.
  - (2) General policies.
  - (3) Procedure.
- V. County program of work.
  - (1) Factors considered and methods used in determining program of work.
  - (2) Project activities and results.

Under appropriate headings and subheadings present in some detail for each major project or line of work: the goals set up, the methods used, the results achieved, and the significance of these results in terms of improved farms and homes and of better community life.

- VI. Outlook and recommendations, including suggestive program of work for next year.

## TERMINOLOGY

To insure reports which convey the intended meaning to others and to facilitate the compilation of satisfactory national statistics on extension, it is extremely important that terms be used in accordance with accepted definitions. The following definitions of extension terms have been approved by the United States Department of Agriculture and the Association of Land Grant Colleges and Universities. Agents should read these definitions before starting to write the annual reports.

## DEFINITIONS OF EXTENSION TERMS

1. A program of work is a statement of the specific projects to be undertaken by the extension agents during a year or a period of years.
2. A plan of work is a definite outline of procedure for carrying out the different phases of the program of work. Such a plan provides specifically for the means to be used and the methods of using them. It also shows what, how much, when, and where the work is to be done.
3. A community is a more or less well-defined group of rural people with common interests and problems. Such a group may include those within a township, trade area, or similar limits. For the purpose of this report a community is one of the several units into which a county is divided for conducting organized extension work.
4. A project leader, local leader, or committeeman is a person who, because of special interest and fitness, is selected to serve as a leader in advancing some phase of the local extension program. A project leader may be either an organization or a subject-matter leader.
5. Demonstrations as contemplated in this report are of two kinds—method demonstrations and result demonstrations. A method demonstration is a demonstration given by an extension worker or other trained leader for the purpose of showing how to carry out a practice. Examples: Demonstrations of how to can fruits and vegetables, mix spray materials, and cull poultry.  
A result demonstration is a demonstration conducted by a farmer, home maker, boy, or girl under the direct supervision of the extension worker, to show locally the value of a recommended practice. Such a demonstration involves a substantial period of time and records of results and comparisons, and is designed to teach others in addition to the person conducting the demonstration. Example: Demonstrating that the application of fertilizer to cotton will result in more profitable yields, that underweight of certain children can be corrected through proper diet, that the use of certified seed in growing potatoes is a good investment, or that a large farm business results in a more efficient use of labor.  
The adoption of a farm or home practice resulting from a demonstration or other teaching activity employed by the extension worker as a means of teaching is not in itself a demonstration.
6. A result demonstrator is an adult, a boy, or a girl who conducts a result demonstration as defined above.
7. A cooperator is a farmer or home maker who agrees to adopt certain recommended practices upon the solicitation of an extension worker. The work is not directly supervised by the extension agent and records are not required, but reports on the success of the practices may be obtained.
8. A 4-H Club is an organized group of boys and/or girls with the objectives of demonstrating improved practices in agriculture or home economics, and of providing desirable training for the members.
9. 4-H Club members enrolled are those boys and girls who actually start the work outlined for the year.
10. 4-H Club members completing are those boys and girls who satisfactorily finish the work outlined for the year.
11. A demonstration meeting is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
12. A leader-training meeting is a meeting at which project leaders, local leaders, or committeemen are trained to carry on extension activities in their respective communities.
13. An office call is a call in person by an individual or a group seeking agricultural or home-economics information, as a result of which some definite assistance or information is given. A telephone call differs from an office call in that the assistance or information is given or received by means of the telephone. Telephone calls may be either incoming or outgoing.
14. A farm or home visit is a call by the agent at a farm or home at which some definite information relating to extension work is given or obtained.
15. Days in office should include time spent by the county extension agent in the office, at annual and other extension conferences, and on any other work directly related to office administration.
16. Days in field should include all days spent on official duty other than "days in office."
17. Letters written should include all original letters on official business. (Duplicated letters should not be included.)
18. An extension school is a school usually of 2 to 6 days' duration, arranged by the Extension Service, where practical instruction is given to persons not resident at the college. A telephone short course differs from an extension school in that it is usually held at the college or another educational institution and usually for a longer period of time.
19. Records consist of definite information on file in the county office that will enable the agent to verify the data on extension work included in this report.
20. The county extension association or committee is that county organization, whether a membership or a delegate body, which is recognized officially in the conduct of extension work in the county.

## GENERAL ACTIVITIES

Report Only This Year's Extension Activities and Results That Can Be Verified

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report. Include time of assistants with that of regular agent.

AGENT	Total months of service this year (a)	Days devoted to A. A. A. work (b)	Days devoted to relief work (c)	Total days in office (d)	Total days in field (e)
(Name) Home demonstration agent.....	(1)				
Asst. home demonstration agent.....					
4-H Club agent.....					
Assistant 4-H Club agent.....	(2)				
<b>John B. Whitehead</b> Agricultural agent.....	(3)	12	198	11	111
Assistant agricultural agent.....					

2. County extension association or committee:

- (a) Agricultural extension: **Advisory Committee** (2) Number of members **47**
- (b) Home demonstration: (1) Name..... (2) Number of members.....
- (c) 4-H Club: (1) Name..... (2) Number of members.....
3. Number of communities in county where extension work should be conducted..... 9
4. Number of above communities in which the extension program has been planned cooperatively by extension agents and local committees..... 4
5. Number of different voluntary county or community project leaders or committeemen actively engaged in forwarding the extension program: **47**
- (a) Adult work { (1) Men..... **47** (2) Women.....
- (b) 4-H Club work { (1) Men..... (2) Women..... **3** (3) Older club boys..... (4) Older club girls..... **4** }
6. Number of different paid local leaders engaged in A. A. A. program, or in relief work { (a) Men..... **15** (b) Women..... }
7. Number of clubs or other groups organized to carry on adult home demonstration work..... 7
8. Number of members in such clubs or groups..... 8

ITEM	Home demonstration agents (a)	4-H Club agents (b)	Agricultural agents (c)	County total <sup>1</sup> (d)
9. Number of 4-H Clubs.....			6	6
10. Number of different 4-H Club members enrolled.....	(1) Boys <sup>2</sup> .....		83	83
	(2) Girls <sup>2</sup> .....		62	62
11. Number of different 4-H Club members completing.....	(1) Boys <sup>2</sup> .....		34	34
	(2) Girls <sup>2</sup> .....		31	31

12. Number of different members enrolled in 4-H Club work for:<sup>4</sup>

MEMBERS	1st year	2d year	3d year	4th year	5th year	6th year and over
(a) Boys.....	57	14	4	2	3	3
(b) Girls.....	34	6	5	3	4	10

<sup>1</sup> County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or accomplishment.

<sup>2</sup> Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the project enrollments reported on pages 7 to 9, minus duplications due to the same boy or girl carrying on two or more subject-matter lines of work.

<sup>3</sup> Same as footnote 2 but refers to completions instead of enrollments.

<sup>4</sup> The total for this question should agree with county total, question 11.

## GENERAL ACTIVITIES—Continued

Report Only This Year's Extension Activities and Results That Can Be Verified

ITEM	Age	10 and under	11	12	13	14	15	16	17	18	19	20 and over	
13. Number of different 4-H Club members enrolled according to age <sup>1</sup>	(a) Boys	8	9	15	9	14	10	11	2		3	2	13
	(b) Girls	10	9	7	7	7	8	6	4	3	1		

14. Number of 4-H Club members:<sup>2</sup> (a) In school **134** (b) Out of school **11** 14

ITEM	Home demonstration agents (a)	4-H Club agents (b)	Agricultural agents (c)	County total <sup>3</sup> (d)	
15. Number of 4-H Club teams trained					15
	(1) Judging				15
	(2) Demonstration				
16. Number of groups other than 4-H Clubs organized for extension work with rural young people 16 years of age and older					16
17. Members in groups reported in question 16					17
	(1) Young men				17
	(2) Young women				
18. Total number of farm or home visits <sup>4</sup> made in conducting extension work			246	246	18
19. Number of different farms or homes visited			215	215	19
20. Number of calls relating to extension work			3043	3043	20
	(1) Office		443	443	20
	(2) Telephone				
21. Number of news articles or stories published <sup>4</sup>			22	22	21
22. Number of individual letters written			2015	2015	22
23. Number of different circular letters prepared (not total copies mailed)			112	112	23
24. Number of bulletins distributed			393	393	24
25. Number of radio talks made					25
26. Number of events at which extension exhibits were shown					26
27. Training meetings held for local leaders or committeemen	(1) Adult work	(a) Number	16	16	27
		Total attendance of:			
		(b) Men leaders	84	84	
	(c) Women leaders				
(2) 4-H Club	(a) Number				
	Total attendance of:				
	(b) Leaders				
28. Method demonstration meetings held (include all method demonstrations in both adult and 4-H Club work given by agents and specialists not reported under question 27)			13	13	28
	(1) Number		201	201	28
	(2) Total attendance				
29. Meetings held at result demonstrations			2	2	29
	(1) Number		275	275	29
	(2) Total attendance				

<sup>1</sup> The total for this question should agree with county total, question 10.<sup>2</sup> County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or accomplishment.<sup>3</sup> Do not count a single visit to both the farm and home as two visits.<sup>4</sup> Do not count items relating to notices of meetings only.

Notes.—Questions 13-24 refer to the total number of different activities conducted this year. The totals should equal the sums of the corresponding information reported on following pages minus duplications where the same activity relates to two or more lines of work.

## GENERAL ACTIVITIES—Continued

34. Meetings held by local leaders or committeemen not participated in by agents or specialists and not reported elsewhere	(1) Adult work	(a) Number			34
		(b) Total attendance			
	(2) 4-H club	(a) Number			
		(b) Total attendance			

## SUMMARY OF EXTENSION INFLUENCE FOR YEAR

It is highly desirable for extension workers to consider the proportion of farms and farm homes in the county which have been definitely influenced to make some substantial change in farm or home operations as a result of the extension program for men, women, boys, and girls. It is recognized that this information is very difficult for agents to report accurately, so a conservative estimate based upon such records, surveys, and other sources of information as are available will be satisfactory. Such estimates should be marked "Est."

Include results of emergency activities as well as the regular extension program.

35. Number of farms in county	1723	35
36. Number of farms on which changes in practices have definitely resulted from the agricultural extension program		36-32
37. Number of farm homes in which changes in practices have definitely resulted from the home demonstration program		37
38. Number of other homes in which changes in practices have definitely resulted from the home demonstration program		38
39. Number of farm homes with 4-H Club members enrolled	90	39
40. Number of other homes with 4-H Club members enrolled	30	40
41. Total number of different farm families influenced by some phase of the extension program (Include questions 36, 37, and 38, minus duplications.)	90	41
42. Total number of different other families influenced by some phase of extension program (Include questions 38 and 40, minus duplications.)	30	42

County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or accomplishment.

Note.—Questions 35-34 refer to the total number of different activities conducted this year. The totals should equal the sums of the corresponding information reported on following pages minus duplications where the same activity relates to two or more lines of work.

CEREALS<sup>1</sup>

Report Only This Year's Extension Activities and Results That Can Be Verified
