| Total number of method demonstrations held | 52 |
| Total number of miles covered in discharge of duties | 9541 |

* * * *

INTRODUCTION

The contents of this report is a complete narrative summary of the extension program in Alleghany County for the year of 1938, containing the degree of accomplishment and the explanation of various items not recorded in the statement of the report.

The county's extension organization is composed of a county agent and a home demonstration agent, each having an advisory council. The county agent's council consists of thirty-two farmers and business men, representing as nearly as possible every section of the county and all of the principal farming and business interests. It is divided into the following committees: Agronomy, Horticulture, Livestock, Dairy and Publicity.

The advisory council is the backbone of extension work in the county, and is consulted by the agent in all important phases of the extension program. The agent submits his programs to conform to their recommendations. The agent realizes that the council is composed of the outstanding men in the county, men who are capable of studying local and county-wide conditions in an intelligent manner, and that their recommendations are always worthy of consideration.

One of the policies of the extension organization is to advocate and encourage such practices that will tend to improve the soil and quality of products and give greater return for less labor. It further encourages a more diversified agriculture; less supplanting of the one-crop farming system with one that will insure an income, should one individual crop fail. It stresses the previous cash crops. It cooperates with the various farm organizations for the benefit of the people, and works for and encourages more concerted action on the part of farm men and women for the economical production and orderly marketing of their products. It further encourages the boys and girls, through 4-H club work, to take an active part in furthering improved farm practices, cooperative spirit and community building.

* * * *

AGRONOMY

The Soil Conservation Program has done and is doing more for the farmers in Alleghany County in the way of building up the fertility of their soil than, we think, any other program could have possibly done.

Practically all of our farmers are using lime and better grades of fertilizer. We have had six farm meetings with Mr. W. H. Byrne, Agronomy Specialist, from Blacksburg, with a farm demonstration at each of these meetings.

A number of our farmers have sown alfalfa this year who have never done so before and are applying lime and fertilizer to this alfalfa under the directions of the Extension Work. They are also seeding more clover than ever before and by applying lime are getting real results.

We have had about 15 demonstrations on pasture improvement by the use of lime and acid phosphate, and the results from these demonstrations are creating an interest that is going to allow us to have a great many more such demonstrations in the coming year.

We have one farm in the county that used 700 lbs. of fertilizer per acre under the directions of Mr. W. H. Byrne. This means the heaviest application we have ever had in our county and we are using this as a demonstration and expect to have meetings with our farmers to show the results.

We have had Three (3) farmers growing certified seed in the county: one wheat, one corn and one barley.

2880 tons of lime have been used in our county this year.

Practically every farmer in the county is using certified seed corn and one car load of certified seed wheat was brought into the county this year and sold to the farmers for seed and they are all using a high grade fertilizer recommended by the Extension Force.

We have had a number of fields of corn this year that produced as high as 90 bushels per acre and very few of our farms, working under this program, went under this yield.

* * * *

ACRONOMY PROJECT

ANIMAL HUSBANDRY

Animal husbandry could be classified as one of the major projects of extension work in this county. This can be verified by the facts showing that more time is being devoted to the work than any one phase of the agents services.

We are working towards a county-wide adoption of pure bred herds of cattle. A car load of high grade western herford heifers have been distributed to the farmers in the county. This, of course, will mean a great deal towards bringing up better stock.

The grading of cattle and sheep for market has become a regular practice among a great many of our farmers. The County Agent has assisted in grading, approximately, 1500 lambs for market this year.

The majority of the cattle were sold direct to feeders through the efforts of the agent. Three or four car loads were shipped direct to market.

A great deal of time has been spent in veterinary work. Practically all of this kind of work for the farmers of the county has been done by the county agent. This service is given at no cost to the farmers except the small cost of the serum or other medicine used in treating the animals. The total animals treated are as follows: Vaccinated 850 hogs for cholera, and vaccinated 250 calves, castrated and docked 950 lambs, castrated 25 calves, dehorned 120 cattle, treated 1200 sheep for stomach-worm and treated 25 cows, 10 horses and 5 hogs for other diseases.

* * * *

ANIMAL HUSBANDRY

DAIRY

The dairy business continues to grow in this county and extension service has seemed to be of great value to the dairy farmers. A better quality of milk and dairy products is the result of proper feeding and grazing of dairy cattle, better sires and breeds.

Seven (?) new dairy buildings have been constructed under the advice of extension specialist who visited the farms and assisted in the plans.

A meeting of the dairy farmers was held at the court house for the purpose of furthering the organization of the local dairymen. Plans . This organization has not been perfected yet but is still pending. Mr. R. G. Connely of the Dairy Department, Blacksburg, was in charge of the meeting.

* * *

ENGINEERING

There have been four (4) visits from the Agricultural Engineers for the purpose of assisting the farmers in engineering problems. Advice has been received and plans completed on installing 1 ram for water supply, 2 storage structures, 2 drainage systems, and 3 silos.

* * *

TRUCK AND SMALL FRUITS

4 demonstrations were given in raspberries and strawberries and splendid results reported. The farmers are being convinced that extension methods and proper care of small fruits far repay them for time and labor by the increase in yield and quality of the fruit produced.

2 demonstrations were conducted on pruning and spraying apple and peach trees.

* * *

POTATOES

By special request the Alleghany Milling Company purchased a car load of certified seed potatoes and sold to the farmers. In this way we helped the farmers to get a good start towards better potato crops.

A check-up on several of the plantings showed a yield of from one to three-hundred bushels per acre.

We sent a special county exhibit of potatoes to the State Fair at Richmond and won third place.

In the 4-H Club exhibit at the State Fair the Alleghany County members won 2nd, 3rd, and 4th places.

The County Fair exhibit was so large that we found it a problem to handle all exhibits due to lack of space.

POULTRY

There has been a general county-wide improvement in poultry by the application of extension methods. The farmers are being encouraged to buy certified baby chicks and are getting good results. Better housing and feeding has also helped to improve flocks.

This project was in charge of the Home Demonstration Agent. All of my 4-H club poultry members entered the special contest which was sponsored by the Bell Telephone Company.

* * * *

WOOL POOL

The wool pool was not as successful this year as in previous years because of the low market prices. Many of our farmers preferred to hold their wool hoping for a rise in the market.

Seventy (70) farmers pooled wool with a total of 10,337 pounds shipped, and an advance of 20¢ per pound. At the final sale of the National Wool Pool the farmers received 7¢ more per pound, which made a total of 27¢. This advance has made the ones who refused to pool with us this year feel that they would have been better off financially had they continued with us. We feel sure our pool will be much larger next year than this.

* * * *

1938 ALLEGHANY COUNTY VIRGINIA WOOL POOL

4-H Club

The 4-H Potato Club members had outstanding projects this year and their yield was good and their prices fair. All received a nice little income from same. There were 52 exhibits made at the County Fair; 5 exhibits at the State Fair, which exhibits won from second to sixth prize.

4 exhibits were sent to the Corn and Grain Show in January. All four (4) exhibits received honors. Our 4-H Club Corn Project has been considered one of our outstanding projects. One boy hopes to grow certified seed for the coming year. This boy carried his demonstration off perfectly and received about 65 bushels of Boone County corn per acre.

We have a number of members who planted strawberries for the first time and made a very nice showing with this project. We believe this project will induce the parents to enlarge on this project for the home and market.

Our Sheep Club is, we believe, one of the most outstanding projects for it has certainly proved profitable to our members. We have one member who is in high school and is banking her earnings from this project in order to help her through college. She hopes to take home economics and study for a home demonstration agent. Another of our girl members is using her earnings to finish her course as a nurse. Practically every boy is having a little bank account from this project.

4-H CLUB ACHIEVEMENT DAY

Two hundred and fifty (250) 4-H Club members and visitors attended the Achievement Day exercises held in the Jeter Auditorium November 9th, 1938.

Reports of the year's work was read by the Club Presidents from 15 clubs.

Rev. Smith, pastor of the Covington Christian Church, was the principal speaker, and gave a splendid talk on the meaning of 4-H club work.

The program consisted of special songs, group singing and stunts put on by the members of various 4-H clubs.

Prizes were awarded for outstanding achievements in the work. Winners in the State Fair exhibits were awarded ribbons and the prize checks were presented.

After lunch the entire group attended a movie at the local theater as guests of the manager, Mr. H. W. Robertson.

* * *

4-H Club Camp.

Instead of our usual 4-H Club Rally, the members decided to send delegates from each club to the 4-H Club camp.

Thirty-two (32) members spent a week at the camp near Roanoke, Va. The camp gave the younger members an opportunity to enjoy as much of outdoor life as possible and instruction together.

Short Course

Eighteen (18) 4-H Club members attended the Short Course at Blacksburg,

* * *

4-H CLUB DELEGATES TO SHORT COURSE BLACKSBURG, VA.

1938 ALLEGHANY COUNTY VIRGINIA 4-H SHEEP CLUB

ALL STARS

The County All Star Organization has thirteen (13) members: 5 boys and 8 girls.

This group of young people have held one regular monthly meeting and several call meetings.

At Christmas time they gave a Christmas program and entertained for the Big Ridge 4-H Club children and others. Candy, fruit and a gift was provided for each child. One of the young men dressed up and played Santa Claus. Many of these children would have had nothing for Christmas but for the thoughtfulness of our fine group of All Stars.

These young people payed the expenses of two delegates to the Short Course at Blacksburg.

This group is always ready and willing to assist both the home demonstration agent and the county agent in every way possible.

COMMUNITY ORGANIZATION

There are two (2) community organizations in the county, one at Boiling Springs with about an average attendance of 250 and one at Falling Springs with an average attendance of 200. These organized groups hold monthly meetings at which time an appointed committee gives a program. Community sings are an important feature of this gathering.

* * *

FARMER'S INSTITUTE

The agent and fifteen (15) delegates attended the Farmers' Institute held at Blacksburg.

* * *

FARMERS' PICNIC

Approximately 1200 people attended the Annual Farmers' Picnic.

Mr. W. H. Daughtrey, was the principal speaker and talked on Soil Conservation.

Group Singing, string music, stunts and games were a feature of the program.

After basket lunch the afternoon was spent playing games and swimming.

* * *

COUNTY FAIR

The Alleghany County Fair proved to be a great success. The agricultural exhibits were of fine quality and received many favorable comments from out of the county people.

The poultry exhibit were especially good and there were more entries in this show than we have had in a long time.

There were approximately 1046 exhibits in the 4-H club department. Prizes won by club members totaled about 285.75.

* * * * *

AGRICULTURAL CONSERVATION PROGRAM

We have had 440 work sheets under the 1938 Agricultural Conservation program. Applications for payment will be submitted for, approximately, 350 of this number.

This program has proved to be of great benefit to our farmers. Many farmers are learning through the carrying out of recommended practices the value of soil conservation. While the benefit payments are not so large this year in our county there is an increase in practices carried out and a general interest in soil improvement methods that will be of a lasting value.

* * * * *

FAIR EXHIBITS

MISCELLANEOUS

We have held several meetings this year in an effort to carry out plans for a County Agricultural Building.

We have had two visits from engineers from the extension service for this project. The site for the proposed building has been approved and plans and approximate cost have been submitted to our County Board of Supervisors. This Board seemed to favor the project but have not as yet provided for the necessary appropriation. We expect to work on this project another year and hope it can be carried out.

We have held 12 meetings in connection with the Rural Electrification project.

This project provides for three lines, one coming in from Bath County, the northern section, one from Craig County through Sweet Springs and down Dunlap Creek, from the west, and one from Craig County down through the Rich Patch section.

Mr. O. L. Hamlett, one of our farmers, has given a great deal of his time to this project, canvassing among the farmers, working up interest and getting applications filled out. Mr. J. G. Kyle and Mrs. R. D. Kyle have attended each meeting held and acted as Notaries.

When this project is completed 60% of the farmers of Alleghany County will have the benefit of rural electrification.

* * *

CONCLUSION

The farmers have a brighter outlook now than has been possible for several years. This, I think, is due to the fact that the people as a whole are beginning to truly realize the importance of farming, and the need for better farming methods as well as the conservation of all natural resources. So much has been done to help the farmer get on his feet after the lean years of the past.

Farm loans, Rural Electrification, and the Soil Conservation Program are some of the high lights of the program for helping the farmers. The farmers in Alleghany County are beginning to reap the benefit from these sources, and thus the farmers are able to raise better crops, improve on livestock, and enjoy better homes.

There has been a most gratifying cooperative spirit between the farmers and other people of the county.

COMBINED ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is for use by county extension agents in making a combined statistical report on all extension work done in the county during the year. Agents resigning during the year should make out this report before quitting the service.

Assistant County Agent in charge of Club Work.

From _____ to _____, 193

A. B. Surbee
Agricultural Agent.

From Dec. 1, 1937 to Nov. 30, 1938

Assistant Agricultural Agent.

From _____ to _____, 193

READ SUGGESTIONS, PAGES 2 AND 3

Approved:

Date _____ State Extension Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT

The annual report should be a summary, with analysis and interpretations, for presentation to the people of the county, the State, and the Nation of the extension activities in each county for the year, and the results obtained by the county extension agents assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agents and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support of extension work.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

STATISTICAL SUMMARY

Where two or more agents are employed in a county they should submit a single statistical report showing the combined activities and accomplishments of all county extension agents employed in the county during the year. Results obtained through assistance rendered agents by specialists should also be included. This report shows, insofar as possible, the part each agent has taken in forwarding the extension program. The county totals should be the sum of the activities and accomplishments of individual agents *minus duplications due to two or more agents participating in the same activity or accomplishment.* The county totals, when properly recorded, show the progress made in the county during the year in forwarding the entire extension program. Negro men and women agents should prepare a combined statistical report separate from that of the white agents.

The statistical summary should be a report of this year's activities and results that can be verified by records on file in the county office. Where records are not available careful estimates are desired. Such estimates should be marked "Est."

NARRATIVE SUMMARY

A separate narrative report is desired from the leader of each line of work, such as county agricultural agent, home demonstration agent, boys' and girls' club agent, and Negro agent. Where an assistant agent has been employed during a part or all of the year, the report of his or her work should be included with the report of the leader of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked.

The narrative report should summarize and interpret, under appropriate subheadings, the outstanding results accomplished and the extension methods used for each project. Every statement should be clear, concise, forceful, and, where possible, reinforced with necessary data from the statistical summary. Use a descriptive style of writing, giving major accomplishments first under each project. Give extension methods fully relating to outstanding results only, and where practicable illustrate with photographs, maps, diagrams, blueprints, or copies of charts and other forms used. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs and reasonably good margins. The pages should be numbered in consecutive order.

The following outline is merely suggestive of how the narrative report may be clearly and systematically presented. Each agent should prepare an outline to fit the situation and the work to be reported.

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT

- I. Cover and title page.
- II. Table of contents.
- III. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning of the narrative report.
- IV. Changes in county extension organization.
 - (1) Form.
 - (2) General policies.
 - (3) Procedure.
- V. County program of work.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Factors considered and results.
 - (3) Project activities and results.

Under appropriate headings and subheadings present in some detail for each major project or line of work the goals set up, the methods used, the results achieved, and the significance of these results in terms of improved farms and homes and of better community life.
- VI. Outlook and recommendations, including suggestive program of work for next year.

TERMINOLOGY

To insure reports which convey the intended meaning to others and to facilitate the compilation of satisfactory national statistics on extension, it is extremely important that terms be used in accordance with accepted definitions. The following definitions of extension terms have been approved by the United States Department of Agriculture and the Association of Land Grant Colleges and Universities. Agents should read these definitions before starting to write the annual reports.

DEFINITIONS OF EXTENSION TERMS

1. A program of work is a statement of the specific projects to be undertaken by the extension agents during a year or a period of years.
2. A plan of work is a definite outline of procedure for carrying out the different phases of the program of work. Such a plan provides specifically for the means to be used and the methods of using them. It also shows what, how much, when, and where the work is to be done.
3. A community is a more or less well-defined group of rural people with common interests and problems. Such a group may include those within a township, trade area, or similar limits. For the purpose of this report a community is one of the several units into which a county is divided for conducting organized extension work.
4. A project leader, local leader, or committeeman is a person who, because of special interest and fitness, is selected to serve as a leader in advancing some phase of the local extension program. A project leader may be either an organization or a subject-matter leader.
5. Demonstrations as contemplated in this report are of two kinds—method demonstrations and result demonstrations. A method demonstration is a demonstration given by an extension worker or other trained leader for the purpose of showing how to carry out a practice. Example: Demonstrations of how to can fruits and vegetables, mix spray materials, and soil acidity.
6. A result demonstration is a demonstration conducted by a farmer, home maker, boy, or girl under the direct supervision of the extension worker, to show locally the value of a recommended practice. Such a demonstration involves a substantial period of time and records of results and comparisons, and is designed to teach others in addition to the person conducting the demonstration. Example: Demonstrating that the application of fertilizer to cotton will result in more profitable yields, that underweight of certain children can be corrected through proper diet, that the use of certified seed in growing potatoes is a good investment, or that a large farm business results in a more efficient use of labor.
7. The adoption of a farm or home practice resulting from a demonstration or other teaching activity employed by the extension worker as a means of teaching is not in itself a demonstration.
8. A result demonstrator is an adult, a boy, or a girl who conducts a result demonstration as defined above.
9. A cooperator is a farmer or home maker who agrees to adopt certain recommended practices upon the solicitation of an extension worker. The work is not directly supervised by the extension agent and records are not required, but reports on the success of the practices may be obtained.
10. A 4-H Club is an organized group of boys and/or girls with the objectives of demonstrating improved practices in agriculture or home economics, and of providing desirable training for the members.
11. 4-H Club members enrolled are those boys and girls who actually start the work outlined for the year.
12. 4-H Club members completing are those boys and girls who satisfactorily finish the work outlined for the year.
13. A demonstration meeting is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
14. A teacher-training meeting is a meeting at which project leaders, local leaders, or committeemen are trained to carry on extension activities in their respective communities.
15. An office call is a call in person by an individual or a group seeking agricultural or home-economics information, as a result of which some definite assistance or information is given. A telephone call differs from an office call in that the assistance or information is given or received by means of the telephone. Telephone calls may be either incoming or outgoing.
16. A farm or home visit is a call by the agent at a farm or home at which some definite information relating to extension work is given or obtained.
17. Days in office should include time spent by the county extension agent in the office, at annual and other extension conferences, and on any other work directly related to office administration.
18. Days in field should include all days spent on official duty other than "days in office."
19. Letters written should include all original letters on official business. (Duplicated letters should not be included.)
20. An extension school is a school usually of 2 to 6 days' duration, arranged by the Extension Service, where practical instruction is given to persons not resident at the college. An extension short course differs from an extension school in that it is usually held at the college or another educational institution and usually for a longer period of time.
21. Records consist of definite information on file in the county office that will enable the agent to verify the data on extension work included in this report.
22. The county extension association or committee is that county organization, whether a membership or a delegate body, which is recognized officially in the conduct of extension work in the county.

GENERAL ACTIVITIES

Report Only This Year's Extension Activities and Results That Can Be Verified

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report. Include time of assistants with that of regular agent.

| AGENT | | Total months of service this year (a) | Days devoted to agr'l-conservation and adjustment programs (b) | Days devoted to relief work (c) | Total days in office (d) | Total days in field (e) |
|--------------|---|--|---|------------------------------------|-----------------------------|----------------------------|
| (Name) _____ | Home demonstration agent | 12 | | | 63 | 221 |
| _____ | Asst. home demonstration agent | | | | | |
| _____ | 4-H Club agent | | | | | |
| _____ | Assistant county agent in charge of club work | | | | | |
| _____ | Agricultural agent | 12 | 110 | 10 | 112 | 163 |
| _____ | Assistant agricultural agent | | | | | |

2. County extension association or committee:

| | | | |
|-----------------------------|------------------------------|-----------------------|-----------|
| (a) Agricultural extension: | <u>Advisory Council</u> | (2) Number of members | <u>20</u> |
| (b) Home demonstration: | <u>County Advisory Board</u> | (2) Number of members | <u>49</u> |
| (c) 4-H Club: | <u>County Council</u> | (2) Number of members | <u>78</u> |

3. Number of communities in county where extension work should be conducted 30 3

4. Number of above communities in which the extension program has been planned cooperatively by extension agents and local committees 25 4

5. Number of different voluntary county or community project leaders or committeemen actively engaged in forwarding the extension program:

| | | | | |
|----------------|---------------------|-------------------|---------------------|-------------------------------|
| (a) Adult work | (1) Men <u>5</u> | (b) 4-H Club work | (1) Men <u>2</u> | (3) Older club boys <u>3</u> |
| | (2) Women <u>69</u> | | (2) Women <u>15</u> | (4) Older club girls <u>8</u> |

6. Number of different paid local leaders engaged in agricultural-conservation and adjustment programs: (a) Men 7 (b) Women _____ 6

7. Number of clubs or other groups organized to carry on adult home demonstration work 9 7

8. Number of members in such clubs or groups 182 8

| ITEM | Home demonstration agents (a) | 4-H Club agents (b) | Agricultural agents (c) | County total: (d) |
|---|----------------------------------|------------------------|----------------------------|---------------------------|
| 9. Number of 4-H Clubs | <u>14</u> | | <u>9</u> | <u>23</u> ¹⁷ |
| 10. Number of different 4-H Club members enrolled | (1) Boys: <u>40</u> | | <u>83</u> | <u>121</u> ¹⁰¹ |
| | (2) Girls: <u>269</u> | | <u>25</u> | |
| 11. Number of different 4-H Club members completing | (1) Boys: <u>40</u> | | <u>57</u> | <u>97</u> |
| | (2) Girls: <u>209</u> | | <u>10</u> | |

12. Number of different members enrolled in 4-H Club work for:

| MEMBERS | 1st year | 2d year | 3d year | 4th year | 5th year | 6th year and over |
|-----------|------------|-----------|-----------|-----------|----------|-------------------|
| (a) Boys | <u>35</u> | <u>32</u> | <u>29</u> | <u>16</u> | <u>6</u> | <u>3</u> |
| (b) Girls | <u>133</u> | <u>74</u> | <u>46</u> | <u>17</u> | <u>5</u> | <u>14</u> |

¹ County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or accomplishment.

² Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the project enrollments reported on pages 7 to 24, minus duplications due to the same boy or girl carrying on two or more subject-matter lines of work. Do not include boys and girls enrolled late in the year in connection with the succeeding year's program.

³ Same as footnote 2 but refers to completions instead of enrollments.

⁴ The total for this question should agree with county total, question 10.

| 28. Method demonstration meetings held (include all method demonstrations in both adult and 4-H Club work given by agents and specialists not reported under question 27) | (1) Number | 253 | 52 | 305 | |
| | (2) Total attendance | 4184 | 200 | 4384 | |
| 29. Meetings held at result demonstrations | (1) Number | 1 | | 1 | |
| | (2) Total attendance | 6000 | | 6000 | |

¹ The total for this question should agree with county total, question 14.

² County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or accomplishment.

³ Do not count a single visit to both the farm and home as two visits.

⁴ Do not count items relating to notices of meetings only.

Note.—Questions 18-24 refer to the total number of different activities conducted this year. The totals should equal the sums of the corresponding information reported on following pages minus duplications where the same activity relates to two or more lines of work.

GENERAL ACTIVITIES—Continued

| 34j. Number of above meetings held by agents or local leaders at which discussion group method of presentation was followed | | 14 | | | 14 | 34j | |

SUMMARY OF EXTENSION INFLUENCE FOR YEAR

It is highly desirable for extension workers to consider the proportion of farms and farm homes in the county which have been definitely influenced to make some substantial change in farm or home operations as a result of the extension program for men, women, boys, and girls. It is recognized that this information is very difficult for agents to report accurately, so a conservative estimate based upon such records, surveys, and other sources of information as are available will be satisfactory. Such estimates should be marked "Est."

Include results of emergency activities as well as the regular extension program.

| | | |
|--|----------------------|----|
| 35. Number of farms in county | 618 | 35 |
| 36. Number of farms on which changes in practices have definitely resulted from the agricultural extension program | | 36 |
| 37. Number of farm homes in which changes in practices have definitely resulted from the home demonstration program | 916 | 37 |
| 38. Number of other homes in which changes in practices have definitely resulted from the home demonstration program | 208 | 38 |
| 39. Number of farm homes with 4-H Club members enrolled | 1,256 ^{Est} | 39 |
| 40. Number of other homes with 4-H Club members enrolled | 116 | 40 |
| 41. Total number of different farm families influenced by some phase of the extension program (Include questions 36, 37, and 39, minus duplications.) | 522 | 41 |
| 42. Total number of different other families influenced by some phase of extension program (Include questions 38 and 40, minus duplications.) | 300 | 42 |

¹ County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or accomplishment.

NOTE.—Questions 18-34 refer to the total number of different activities conducted this year. The totals should equal the sums of the corresponding information reported on following pages minus duplications where the same activity relates to two or more lines of work.
