STATUS OF COUNTY EXTENSION ORGANIZATION 1928.

The "Augusta Agricultural Advisory Council" is the name of the Extension organization in this county. It has as members, the six members of the Board of Supervisors, seven members from each of the six districts, Senator, Superintendent of schools, two bankers and the county agent, a total of fifty-two (52) members. Every type of farming and business interest of the county is represented in this body.

The purpose of this organization is to work out plans or programs for developing the county agriculturally and educationally, and to aid the county agent in putting the plans across after they are worked out. Before attempting to plan the county's work, the Council with the county agent, meets around the table to consider projects advisable to undertake, how much to undertake, how to do the things planned, and who is to do it. The Council is of untold value to the county agent in working out the five year plan we adopted and other problems. /

In addition to the Council, there is a County Farmers' Union organization, with six active local units in six different communities of the county, which are great assets to the county agent in his work in these communities. These locals are just as active as any of their kind in the state, but the county agent has been unable to get community programs adopted and worked out in these locals to any degree of satisfaction, except in Fishersville where we are using the Hummel Plan.

One of the outstanding pieces of work accomplished by the Agricultural Advisory Council was that of working out a Five Year Program, in connection with the big State Five Year Program, for developing Augusta County's

Agriculture. This program was printed by the Extension Division, and these printed programs were mailed to approximately fifteen hundred (1500) farmers and business men of the county. This long-time program in printed form seemed to encourage the people of the county to study more closely the actual existing conditions of the county and on their own farms. The Augusta County Agricultural Council cooperates with all organizations in the county for the advancement and progress of developing Augusta County as a whole.

PROGRAM OF WORK.

The Agricultural Council, after making out a long-time program covering a period of five years, beginning with 1925, knew that the whole could not be accomplished in one year, and in order to attack the problem in a sound and economic way and accomplish something practical, the Council asked the county agent to make from year to year of the five years a plan of the long-time program.

This years program was accepted by the County Council as following:

- Farm Crops and Diseases.
- Horticulture - Diseases and legumes and grading.
- Dairying - Cow Testing Association - Pure Bred Sires.
- Beef Cattle - Finishing Feeders - Pure Bred Sires.
- Club Work - 100 members completing their projects.
- Sheep - Better care of stock - Docking and Castrating.
- Hogs - Get rid of parasites - grow pasture.
- Poultry - Cleaner housing and culling.
- Fairs - Four Community Fairs.
- Young Men's Business Athletic Association - Keep 100 organized in group.
- Civic Leagues - Three to work in County.
- Farmers Union Locals - Active and direct saving to its members.
- Shipping Association- Enlarged and greater benefit to farmers.

The following are the projects undertaken as the major part of the 1928 program: Work on Soils, Farm Crops and Diseases, Home Gardens and Insects, Horticulture, Marketing, Animal Husbandry, Agricultural Fairs, Shipping Association, Boys' and Girls' Club Work, Civic Leagues and Farmers Union Locals.

PROJECT ACTIVITIES

SOILS

There were eight (8) demonstrations of corn with and without Fertilizer, also Nitrate. When corn was about two feet being very dry about the time of earing this test was not successful. It will be run again next year, also watching what benefit it will be to wheat following.

All demonstrations using lime on slate or shale have made large gains. Also made a lot of Soil Tests and find always where lime has not been used in the last four years the ground is acid.

Going to the County keeping a larger number of livestock the ground is receiving more stable manure. We find the best results from rough manure when it is placed on ground in August to be plowed the following year for corn, and fine manure after ground is plowed in spring for corn.

FARM CROPS.

Finding our farmers crop yields too small for the acreage especially on upland, we have done a great deal of good in getting them to plant less acres and giving it more attention in fertilizer and manure. We have given the most important crops the most attention in this report.

CORN The work conducted with this crop was seed selections, varieties, cultural methods and fertilization. Having so many different types of soils it is hard to define what variety to use, but find Boone County, Yellow^{sew} and White Cap about covers the need. Most farmers use 2-12-2 without manure or 20% phosphate with stable manure.

PROJECT ACTIVITIES

FARM CROPS (con't)

WHEAT V. P. I - 131 wheat is getting quite popular with good yields. Here farmers are using wheat of a known variety, and we have five growing Certified wheat. We had one exhibitor winning a large part of the first at State Fair on wheat. The average yield this year was about eighteen (18) bushels per acre, having one farmer making average of thirty-nine (39) bushels on eighty (80) acres. There was mighty little of stinking smut in county last year. The wheat known here as 1/2 bushel wheat is still popular with good yields. The work of the Crop Improvement Association has been a benefit to the farmers.

OATS Oats is an uncertain crop with us, but is used extensively as a catch crop. Smut has been a great disadvantage. This year we have treated a good many plots with very good success. The average yield this year was about forty (40) bushels with treated plots making as high as seventy (70) bushels.

POTATOES Augusta has planted 50% more potatoes than they do now. The market condition has been uncertain, many dry years and late silt have put a lot out of this business. This year has been the best production we have had for five (5) years. Farmers treating for early and late silt were successful.

BARLEY It is becoming more popular every year. It can be sown earlier than wheat and is suitable to take the second year in rotation of wheat and gives you a better chance for a stand of grass. We have run a great many experiments on Bearded and Beardless Barley. We do not find much difference in the yield, probably Beardless on high ground

PROJECT ACTIVITIES

FARM CROPS (con't)

the better. Our average yield this year was about forty (40) bushels per acre.

ABRUZZI RYE Is now very popular after proving to the farmers that it will furnish more pasture and then yield as well. It is fitting nicely on the dairy farms. Last year through this office we placed with the farmers for seeding over three hundred (300) bushels, practically all in places that never used Abruzzi before.

SWEET CLOVER This and alfalfa have not made the success we would like, but some places are very successful. It is still a question whether Grim is better than Northwestern. Sweet Clover is used on the dairy farms for grazing.

RED CLOVER This is the popular legume in Augusta, it will grow well on most land. Sometimes have a good crop where clover seed has not been sowed for eight (8) years. Most of this seed is seeded February or March with hand sower or April drilled in. Home grown seed is the best we can use, on all demonstrations it proved the best. This year we had a heavy crop of clover, not much seed. It was too wet in August for the seed to mature. Last year we sold over 2000 bushels more than we used.

HOME GARDENS

Our four (4) demonstrations in gardening were very successful this year, using wilt proof cabbage and more phosphate. It is the general habit to use fine stable manure without any phosphate. Coarse stable manure with five hundred (500) pounds of phosphate proved more suitable for the clay garden.

PROJECT ACTIVITIES

HOME GARDENS (cont)

Practically all of our homes have fought the bean beetle but not with a great deal of success. The wet spray proved better than the dry. This project needs much attention.

HORTICULTURE

We had three (3) Nitrate Tests from three to five pounds to a tree with an advantage of 30% on treated trees.

We had three (3) pruning and four (4) thinning demonstrations with a good attendance with a larger yield on the trees that were thinned. As a whole our Horticultural people had a good year with a large crop of peaches and apples, sold at a fair price, and a market for drops and culls. Using U. S. grades helps the selling end of the game, this is one crop that brings outside money in to our county.

MARKETING

Our Livestock Shipping Association has made good in every respect. We have two shippers that have shipped 334 head of cattle, 3704 hogs, 6283 sheep and lambs and 411 head of calves, which makes a total of 10742 head and a total value of \$159,996.55. This project has cleared the farmers at least 1 1/2 % and has been very satisfactory. Under our new management we had less cattle shipped than last year, but in a healthy condition.

PROJECT ACTIVITIES

ANIMAL HUSBANDRY

BEEF CATTLE Animal Husbandry is the major project in this county with beef cattle doing good. I have helped to place nine (9) registered bulls and twelve (12) pure bred cows. More bulls have been sold this year than have been replaced, lot of these were grades so this leaves a place for a lot of good pure bred bulls. Our farmers are inclined to raise more feed suitable for livestock, and more steers that can be finished at two (2) years old. We have been able to do some good demonstration work on better care of calves through the first winter. The weak point with our feeders is to sell cattle before finished. I have had the opportunity to have eight (8) feeders to feed thirty (30) days, longer than intended, also to have five (5) men to buy 1/2 as many and feed twice as long that made good money on their projects. Also played a good part in having Georgia cattle eliminated from this County.

DAIRY CATTLE This project is growing in interest in this county, dairying is a major project. The people are taking hold of this industry and it is one of the outstanding extension projects this year. The county agent has helped to place five (5) bulls and eight (8) pure bred cows, also helped to cull and sell sixty-eight (68) unprofitable cows out of our better herds. One (1) demonstration herd increased his butterfat 40% by the use of high producing sire. The creameries are giving all the assistance asked in helping production and care of milk and cream. The creameries gave a luncheon and grading demonstration in April with good results and about fifty (50) present. Our Cow Testing Association has twenty-one (21) members, 321 cows. We have changed testers three times this year, making a handicap

PROJECT ACTIVITIES

ANIMAL HUSBANDRY (con't)

in the work. There is some talk of placing a Milk Condensary in the County and probably it would be some help to our low grade milk.

SHEEP The problem of better care of sheep and wool has been given a great deal of attention. Many farms are polluted with worms, changing pasture after treating has been followed. I have helped to place and replace sixty-two (62) registered sires and eight (8) ewes, docked and castrated 380 lambs at eleven (11) demonstrations, given advice and helped to build four (4) vats, given six (6) demonstrations in dipping for scab and treated at twenty-one (21) demonstrations 722 sheep for stomach worms. This year we had a successful Wool Pool with eighty-nine (89) men. 4500 sheep pooling 34725 pounds of wool with a direct saving of \$900.00. This brought direct to the wool growers \$17452.00 as will be given in Shipping Association. Selling lambs cooperatively has been a success. We held a district ram sale in county, selling sixty-nine (69) rams and ewes, bringing satisfactory prices.

HOGS The hog project has not been so good but have placed three (3) pure bred boars, sixteen (16) sows, gave six (6) demonstrations for stomach worms, five (5) demonstrations of sweet clover and oats for pasture with good results. Had two (2) farmers to pack their meat when hogs were cheap, one farmer made a clear profit of \$350.00

POULTRY This is a good project that most every farm carries. This year I have culled 3400 birds, finding 30% unprofitable at ninety-six (96) culling demonstrations. Gave eighteen (18) demonstrations on feeding,

PROJECT ACTIVITIES

ANIMAL HUSBANDRY (cont)

nine (9) demonstrations on building and replanning houses, fourteen (14) demonstrations on cleaning houses and twenty-two (22) demonstrations on treating diseases. I have not been able to do all the work that has been asked, but I think I have covered this territory very well.

COUNTY AND LOCAL FAIRS

We have on of the largest County Fairs in the State cooperating in every way with the county agent and extension force possible. Every year the Club Exhibits have gained, also Local and County Exhibits have increased. There is a possibility of making this fair the Western part of the State Club Show. Spettswood, Towers, Meyers Cave and New Hope have local fairs all gaining in products and good attendance. All fairs cooperating with County Agent.

CIVIC LEAGUES

We proposed to get three started this year, having one at Fishersville with 485 members, running partly under the Bunsell Plan. We have two others partly started.

FARMERS UNION LOCALES

We have six (6) active Farmers Union Locals in the county holding monthly meetings. They cooperate with Farmers Stores, Shipping Association, Wool Growers, and together they bought eight (8) carloads of fertilizer at wholesale price, twelve (12) tons of binder twine saving under local market \$900.00. The Farmers Union is a great benefit to the county agent and Shipping Association.

HORTICULTURAL SOCIETY

This society meets quarterly and is a great benefit to the apple

PROJECT ACTIVITIES

growers in keeping informed to Markets, Grades and Freight Rates.

GUERNSEY BREEDERS ASSOCIATION

This association meets monthly and it is trying to form a Guernsey Testing Association. They will also probably hold a sale this year.

SHORTHORN BREEDERS ASSOCIATION

This association meets twice a year and helps to stimulate the production of Shorthorn Cattle in Augusta County. It also helps with the Club Work.

4-H CLUB WORK

This is the major project of the program and report. We have accomplished more work and good to the public through our Club Work than all other work put together. A great many places we have Fathers and Mothers following the footsteps of Sons and Daughters that are in club work. We have club members making more clear money out of one calf than their fathers made out of a cow load. Also one boy making more clear money in one year out of 100 hens than his mother made in three (3) years on the same number.

Following is the report and profit for the year:

Our Livestock Judging team won second place at State Fair only losing by six (6) points, scoring 1273 points out a possible 1500. The next team to them scoring 1185 a margin of ninety (90) points. Also had one boy on State Dairy Judging team making a good score. Our Poultry Judging team making fifth place not doing so well, but under conditions they were handicapped.

PROJECT ACTIVITIES

4-H CLUB WORK (cont.)

Having a Home Demonstration Agent in the county keeps our projects somewhat mixed. We have thirteen (13) clubs, eighty-four (84) boys and six (6) girls working with county agent, the others making report to the Home Demonstration Agent. Out of ninety (90) boys and girls starting work in my department, eighty-three (83) finished, making a good showing.

BABY BEEVES Nineteen (19) boys and one (1) girl in this work for the year with twenty-three (23) calves, making a total profit of \$1290.38. Also a Judging team out of this department won \$51.00. We had a real live bunch of boys winning three (3) seconds in baby beef, first carload and three (3) steers at State Fair. Making enough profit in open classes to pay for all expenses on shipping and attention at the State Fair. Most of them have their calves for next year.

BABY CALVES & HEIFERS Twelve (12) boys and five (5) girls feed twenty-four (24) calves and most of them exhibited at County Fair, some few at State Fair, making a total profit of \$1655.93. One member winning Champion Heifer in Guernsey Class at State Fair. The competition in county is getting more rural and hope to make some gain next year.

CLUB HOGS Twenty-nine (29) boys feeding sixty (60) pigs making a total profit of \$559.20. Twelve (12) boys in this lot showing at County Fairs, also winning all open classes against the breeders. These are the best results we have had with the boys in Pig Club.

POULTRY Twenty-three (23) starting, sixteen (16) finishing, 520 birds, making a total profit of \$536.12, averaging \$1.04 profit per bird. Were carried this project but have not finished their books. Seven (7) in

PROJECT ACTIVITIES

4-H CLUB WORK (con't)

this project showed at the County Fair.

CORN Four (4) boys planted one acre of corn apiece, making a total of 195 bushels on four (4) acres. This making a total profit of \$131.55 using 1/2 with Nitrate.

SUMMARY OF CLUB WORK FOR YEAR

Eighty-eight (88) boys and six (6) girls starting, eighty-three (83) completing with 637 animals. Total income \$9607.86, total cost \$7112.53, total profit \$2415.50, total prizes \$977.13 and the grand total made was \$3412.63

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Augusta
Report of J. C. Comer County County Agent Agent.
(Name) (Title)
From December 1st, 1927 to December 1st, 1928.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the report should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—changes and development.
 - (2) Function of local people, committees, or project leaders in developing the program of work.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
 - A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonym: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and culling of poultry.
 - A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child-feeding, corn-culture, and orchard-management demonstrations.
7. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
9. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
10. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
11. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.

4

DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.

17. A **FARMERS' INSTITUTE** is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN **EXTENSION ON MOVABLE SCHOOL** is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. AN **EXTENSION SHORT COURSE** differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **EXERCISES** consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARM OR HOME PRACTICE ADOPTED** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

GENERAL ACTIVITIES.

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report.

<i>J. C. Coirner</i>	<i>County Agent</i>	<i>4 1/2</i>
(Name.)	(Title.)	(Months of service this year.)

2. County association, if any, fostering extension work. 11

(a) Name <i>Farmers Union and Advisory Council</i>	<i>2</i>
(b) Number of members <i>Farmers Union 300 + Advisory Council 52</i>	<i>352</i>

3. Number of communities in county where extension work should be conducted. 2

Number of above communities in which the extension program has been cooperatively worked out by extension agents and people concerned	<i>14</i>
---	-----------

4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program with— 4

(a) Juniors	<i>16</i>
(b) Adults	<i>52</i>

5. Number of clubs carrying on extension work: 5

(a) Junior	<i>13</i>
(b) Adult	<i>17</i>

6. Membership in above clubs: 6

(b) Girls' <i>12</i>	(d) Women

7. Number of club members completing: 7

(a) Boys' <i>55</i>	(c) Men <i>230</i>
(b) Girls' <i>5</i>	(d) Women

8. Number of members in junior club work for four or more years: 8

(a) Boys <i>22</i>	
(b) Girls <i>5</i>	

* Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the present enrollments reported on page 8 to 22, less any duplications due to the same boy or girl carrying on two or more related-master lines of work.

** Include those boys and girls enrolled in club work as reported under 4 (a) and 4 (b) who have finished the work undertaken on each portion of it as it was planned to finish during the report year.

GENERAL ACTIVITIES—Continued.

9.	Number of junior teams trained	(a) Judging	3	9
		(b) Demonstration	3	
10.	Number entering college this year who may have been club members		12	10
11.	Total number of farm visits ¹ made in conducting extension work		774	11
12.	Number of different farms visited		602	12
13.	Total number of home ¹ visits made in conducting extension work		105	13
14.	Number of different homes visited		98	14
15.	Number of calls ² relating to extension work	(a) Office	2039	15
		(b) Telephone	1293	
16.	Number of days agent spent in office		81	16
17.	Number of days agent spent in field		228	17
17.	Number of news articles prepared for press ³		48	17
18.	Number of individual letters written		1223	18
18.	Number of bulletins distributed		1200	18
19.	Number of fairs at which extension exhibits were made	(a) Community	3	19
		(b) County	1	
20.	Training meetings held for local leaders	(a) Junior work	6	20
		(1) Number	32	
		(2) Leaders in attendance	3	
		(b) Adult work	26	
		(1) Number	35	
		(2) Leaders in attendance	40	
21.	Method and result demonstration meetings ⁴ held (do not include meetings reported in number 20)	(a) Number	1	21
		(b) Attendance	940	
22.	Farmers' institutes held	(a) Number	2	22
		(b) Number of sessions	56	
		(c) Attendance	2	
23.	Extension schools ⁵ and short courses held	(a) Number	66	23
		(b) Attendance	1	
24.	Encampments held	(1) Number	10	24
	(a) Junior	(2) Attendance by club members	314	
		(a) Boys	10	
		(b) Girls	314	
	(3) Total attendance			
	(b) Farm women	(1) Number		
		(2) Attendance by club members		
		(3) Total attendance		
25.	Other extension meetings attended and not previously reported	(a) Number	62	25
		(b) Attendance	9449	
26.	Number of meetings at which were shown	(a) Lantern slides		26
		(b) Motion pictures		
		(c) Charts	2	

¹ Do not count the same visit as both a farm visit and a home visit.² See definition on page 5.³ Include county and State press, agricultural journals, and home magazines. Do not count those relating to notices of meetings only.

Number of miles travelled during year 12860

PROGRAM SUMMARY

List below information on each project of the program of work for the year. If an assistant agent has been employed during the year, include his or her time with that of the agent. This page should not be filled out until the questions on the following pages have been answered.

Title of project	Number of com- munities partic- ipating ¹	Number of local leaders assisting ²	Days specialists helped ³	Days agent devoted to projects	
	(1)	(2)	(3)	(4)	
[Illustrative entry] Poultry	8	6	2	12	27
27. Soils (page 7)	44	9	6	13	28

TOTAL	X X X	X X X	39	157	

¹ The individual entries in this column should not exceed entry for question 2, page 4.

² The individual entries in this column should not exceed entry for question 4, page 4.

³ Boys and girls' club work should be distributed among the proper subject-matter headings and not entered as a separate project.

FARM-DEMONSTRATION WORK.

SOILS.¹

Report only this year's extension activities and results that are supported by records.

45. Number of method demonstrations given. (See definition 6, page 2.)	8	45
46. Number of result demonstrations started or under way. (See definition 6, page 2.)	5	46
47. Number of result demonstrations completed or carried through the year.	3	47
48. Number of acres involved in these completed demonstrations.	84	48
49. Number of farms adopting improved practices in the use of commercial fertilizer this year.	45	49
50. Tons involved in preceding question.	12	50
51. Number of farms taking better care of farm manures this year.	6	51
52. Number of farms using lime or limestone for the first time.	42	52
53. Tons of lime or limestone so used.	1080	53
54. Number of farms plowing under cover or other green manure crops for the first time.	5	54
55. Acres of cover and green manure crops so plowed under.	120	55
55½. Number of farms adopting other improved soil practices this year. (Specify below.)	55	55½
56. Total number of different farms adopting improved practices, relative to the soils work reported on this page. (Include questions 47, 49, 51, 52, 54, and 55½ less duplications.)	156	56

The farmers are not paying as much attention to soils as they should. We are trying to change rotation of crops to meet the livestock situation. Keep more livestock and pasture (less land cropped) with more attention given to land suitable for crops.

¹For drainage, irrigation, land clearing, and terracing see "Agricultural Engineering," page 18.

CEREALS¹

Report only this year's extension activities and results that are supported by records.

Item	CEREALS ¹						Other ²
	00 Corn	01 Wheat	02 Oats	03 Rye	04 Barley	bu.	
57. Number of method demonstrations given	6	5	6		16		57
58. Number of adult result demonstrations started or under way	4	5	6		16		58
59. Number of adult result demonstrations completed or carried through the year	3	2	6		8		59
60. Acres involved in these completed demonstrations	9	108	6		160		60
61. Increased yield per acre on demonstrations	10 bu.	4 bu.	12 bu.		100 bu.		61
62. Number of junior clubs ³							62
63. Number of members enrolled	(1) Boys	4			2		63
	(2) Girls						
64. Number of members completing ⁴	(1) Boys	4			2		64
	(2) Girls	4			2		
65. Number of acres grown by junior club members completing ⁵	4				20		65
66. Total yield of cereals grown by junior club members	195 bu.				800 bu.		66
67. Number of farms planting improved seed for the first time	6	18	6		18		67
68. Number of farms practicing seed selection for the first time	5	2					68
69. Number of farms treating seed grain for smut for the first time	4	50	6		2		69
69a. Number of farms adopting other improved practices for the first time. (Specify below.)	2				4		69a
70. Total number of different farms adopting improved practices relative to the cereal work reported on this page. (Include questions 59, 64, 67, 68, 69, and 69a less duplications.)	22	72	18		34		70

We had several boys trying Nuttall but the corn blew down with not much result.

We are still trying Beardless Barley against Bearded Barley with fairly good results.

Smut is under control, a very few treated this year. We will see what is the result next year.

¹ Report fall-acre crops the year they are harvested.

² Indicate crop by name.

³ Clubs which do not organize clubs on a project basis should not report on this question but should report on enrollment and completion.

⁴ Include those who have finished the work undertaken, or such portion of it as it was planned to finish during the report year.

9

LEGUMES AND FORAGE CROPS

Report only this year's extension activities and results that are supported by records.

Item	00	01	02	03	04	05

181. Number of lighting systems installed this year according to plans furnished.....	181	
181½. Number of farms following suggestions on maintenance and repair of machinery.....	181½	
181¾. Number of farms employing better types of machinery recommended by extension agent.....	181¾	
	(a) Cultivators.....	
	(b) Plows.....	
181½. Number of machines involved in question 181¾.....	(c) Tractors and gas engines.....	181½
	(d) Sprayers.....	
	(e) Harvesters and threshers.....	
	(f) Other.....	
182. Number of farms on which buildings other than dwellings were constructed or remodeled this year according to plans furnished.....	182	
	(a) Barns.....	
	(b) Hog houses.....	
182. Number of buildings involved in preceding question.....	(c) Poultry houses.....	182
	(d) Silos.....	
	(e) Other.....	
184. Number of farms clearing land of stumps or boulders this year.....	184	
185. Acres of land so cleared.....	185	
185½. Number of farms adopting other improved practices for the first time. (Specify below.).....	185½	
186. Total number of different farms adopting improved practices relative to the agricultural engineering work reported on this page. (Include questions 169, 170, 172, 174, 176, 177, 178, 179, 180, 181, 181½, 181¾, 182, 184, and 185½ less duplications.).....	186	

AGRICULTURAL ECONOMICS—Continued.

Report only this year's extension activities and results that are supported by records.

205. List below this year's results in connection with the cooperative-marketing associations in the county previously organized and with which the extension service consulted or advised.

(a) Name of association or group	(b) Number of members	Supplies and products handled.	Supplies purchased.		Products sold.	
			(1) Value.	(2) Quantity.	(1) Value.	(2) Quantity.
Shipping Association	x	Cattle Sheep Hogs + Calves			\$129,448.55	643,999.98
Farmers Union	300	Farm Supplies	\$2,000.00	\$500.00	\$2,000.00	2300.00
Wool Growers	89	Wool - 34722 lbs			19,520.00	900.00
TOTAL			\$2,000.00	\$500.00	\$150,968.55	646,899.98

205d. Total number of different farms adopting improved marketing practices (include entries for questions 204 (b) and 205 (b) less duplications plus other farms not in cooperative associations) 205d

COMMUNITY ACTIVITIES AND MISCELLANEOUS.

Report only this year's extension activities and results that are supported by records.

Use this space to include work on any other agricultural project not included in the preceding pages, such as bee-keeping, and similar work, i. e., any other information that can be reported statistically and that will help to give a complete account of the year's work.

Item.	(a)		(b)
	Exhibiting.	Handled.	
206. Number of method demonstrations given.....			206
207. Number of adult result demonstrations started or under way.....			207
208. Number of result demonstrations completed or carried through the year.....			208
209. Number of units in these completed demonstrations.....			209
210. Number of junior clubs ¹			210
211. Number of members enrolled.....	(1) Boys.....		211
	(2) Girls.....		
212. Number of members completing.....	(1) Boys.....		212
	(2) Girls.....		
213. Number of units involved in junior club work completed.....			213
214. Total number of different farms adopting improved practices relative to the miscellaneous work reported on this page.....			214
[Use space below to include other important data relating to miscellaneous work.]			

¹ Indicate name over column.² States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME-DEMONSTRATION WORK.

FOODS.

Report only this year's extension activities and results that are supported by records.

FOOD PREPARATION.

215. Number of project clubs or groups ¹	(a) Women _____	} 215
	(b) Juniors _____	
216. Number of members enrolled in food preparation.....	(a) Women _____	} 216
	(b) Girls _____	
	(c) Boys _____	
217. Number of members completing ²	(a) Women _____	} 217
	(b) Girls _____	
	(c) Boys _____	
218. Number of method demonstrations given. (See definition 6, page 2.).....		218
219. Number of result demonstrations started or under way. (See definition 6, page 2.).....	(a) Women _____	} 219
	(b) Girls _____	
	(c) Boys _____	
220. Number of result demonstrations completed or carried through the year.....	(a) Women _____	} 220
	(b) Girls _____	
	(c) Boys _____	
221. Number of individuals adopting improved practices in bread making this year.....	(a) Women _____	} 221
	(b) Girls _____	
	(c) Boys _____	
222. Number of individuals adopting improved practices in meat cookery this year.....	(a) Women _____	} 222
	(b) Girls _____	
	(c) Boys _____	
223. Number of individuals adopting improved practices in vegetable cookery this year.....	(a) Women _____	} 223
	(b) Girls _____	
	(c) Boys _____	
224. Number of individuals adopting improved practices in preparation of dairy-product dishes this year.....	(a) Women _____	} 224
	(b) Girls _____	
	(c) Boys _____	
225. Number of individuals adopting improved practices in meal preparation and service this year.....	(a) Women _____	} 225
	(b) Girls _____	
	(c) Boys _____	
226. Number of homes budgeting the family food supply for the first time.....		226
227. Total number of different homes adopting improved practices relative to the food-preparation work reported on this page. (Include entries for questions 220, 221, 222, 223, 224, 225, and 226 less duplications.).....		227

[Use space below to include other important data relating to food preparation.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.² Include those who have finished the work undertaken, or such portion of it as it was planned to finish during the report year.

FOODS—Continued.

Report only this year's extension activities and results that are supported by records.

FOOD PRESERVATION.

228. Number of project clubs or groups ¹	(a) Women.....	} 228
	(b) Juniors.....	
229. Number of members enrolled in food preservation.....	(a) Women.....	} 229
	(b) Girls.....	
	(c) Boys.....	
230. Number of members completing.....	(a) Women.....	} 230
	(b) Girls.....	
	(c) Boys.....	
231. Number of method demonstrations given.....		231
232. Number of result demonstrations started or under way.....	(a) Women.....	} 232
	(b) Girls.....	
	(c) Boys.....	
233. Number of result demonstrations completed or carried through the year.....	(a) Women.....	} 233
	(b) Girls.....	
	(c) Boys.....	
234. Number of individuals adopting improved practices in preserving fruits and vegetables this year.....	(a) Women.....	} 234
	(b) Girls.....	
	(c) Boys.....	
235. Number of individuals adopting improved practices in preserving meats and fish this year.....	(a) Women.....	} 235
	(b) Girls.....	
	(c) Boys.....	
236. Number of homes providing better food storage for the first time.....		236
237. Total number of different homes adopting improved practices relative to the food-preservation work reported on this page.....		237
238. List below amount of food preserved by club members completing:.....		238

Kind of food.	(1) Women	(2) Girls	(3) Boys
(a) Fruits and vegetables canned..... quarts.....			
(b) Meats and fish canned..... quarts.....			
(c) Jelly and preserves made..... quarts.....			
(d) Fruit juices made..... quarts.....			
(e) Pickles made..... quarts.....			
(f) Fruits and vegetables dried..... pounds ²			
(g) Meats cured..... pounds ²			

[Use space below to include other important data relating to food preservation.]

¹ Clubs which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.
² Finished product.

NUTRITION.

Report only this year's extension activities and results that are supported by records.

239. Number of project clubs or groups ¹	(a) Women.....	239
	(b) Juniors.....	
240. Number of members enrolled in nutrition.....	(a) Women.....	240
	(b) Girls.....	
	(c) Boys.....	
241. Number of members completing.....	(a) Women.....	241
	(b) Girls.....	
	(c) Boys.....	
242. Number of method demonstrations given.....		242
243. Number of result demonstrations started or under way.....	(a) Women.....	243
	(b) Girls.....	
	(c) Boys.....	
244. Number of result demonstrations completed or carried through the year.....	(a) Women.....	244
	(b) Girls.....	
	(c) Boys.....	
245. Number of individuals balancing family meals according to approved methods for the first time.....	(a) Women.....	245
	(b) Girls.....	
	(c) Boys.....	
246. Number of individuals preparing better school lunches for the first time.....	(a) Women.....	246
	(b) Girls.....	
	(c) Boys.....	
247. Number of schools induced to serve a hot dish or school lunch for the first time.....		247
248. Number of children involved in preceding question.....		248
249. Number of homes carrying out improved practices in child feeding for the first time.....		249
250. Number of children involved in preceding question.....		250
251. Total number of different homes adopting improved practices relative to the nutrition work reported on this page.....		251

[Use space below to include other important data relating to nutrition.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

CLOTHING.

Report only this year's extension activities and results that are supported by records.

252. Number of project clubs or groups ¹	(a) Women.....	252
	(b) Juniors.....	
253. Number of members enrolled in clothing work.....	(a) Women.....	253
	(b) Girls.....	
	(c) Boys.....	
254. Number of members completing.....	(a) Women.....	254
	(b) Girls.....	
	(c) Boys.....	
255. Number of method demonstrations given.....		255
256. Number of result demonstrations started or under way.....	(a) Women.....	256
	(b) Girls.....	
	(c) Boys.....	
257. Number of result demonstrations completed or carried through the year.....	(a) Women.....	257
	(b) Girls.....	
	(c) Boys.....	
258. Number of individuals adopting improved practices in selection and construction.....	(a) Women.....	258
	(b) Girls.....	
	(c) Boys.....	
259. Number of individuals adopting improved practices in renovation and remodeling.....	(a) Women.....	259
	(b) Girls.....	
	(c) Boys.....	
260. Number of individuals adopting improved practices in millinery.....	(a) Women.....	260
	(b) Girls.....	
261. Number of individuals adopting improved practices in costume designing.....	(a) Women.....	261
	(b) Girls.....	
262. Number of individuals adopting improved practices in infant wardrobe planning.....	(a) Women.....	262
	(b) Girls.....	
263. Number of individuals adopting improved practices in children's wardrobe planning.....	(a) Women.....	263
	(b) Girls.....	
264. Number of individuals adopting improved practices in adult wardrobe planning.....	(a) Women.....	264
	(b) Girls.....	
265. Total number of different homes adopting improved practices relative to the clothing work reported on this page.....		265
266. Number of dress forms made this year by.....	(a) Women.....	266
	(b) Girls.....	
267. Number of dresses and coats made this year by.....	(a) Women.....	267
	(b) Girls.....	
268. Number of undergarments made this year by.....	(a) Women.....	268
	(b) Girls.....	
269. Number of hats made this year by.....	(a) Women.....	269
	(b) Girls.....	

[Use space below to include other important data relating to clothing.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME MANAGEMENT.

Report only this year's extension activities and results that are supported by records.

270. Number of project clubs or groups ¹	(a) Women.....	270
	(b) Juniors.....	
271. Number of members enrolled in home management.....	(a) Women.....	271
	(b) Girls.....	
	(c) Boys.....	
272. Number of members completing.....	(a) Women.....	272
	(b) Girls.....	
	(c) Boys.....	
273. Number of method demonstrations given.....		273
274. Number of result demonstrations started or under way.....	(a) Women.....	274
	(b) Girls.....	
275. Number of result demonstrations completed or carried through the year.....	(a) Women.....	275
	(b) Girls.....	
276. Number of individuals following a systematized plan of household work for the first time.....	(a) Women.....	276
	(b) Girls.....	
277. Number of homes obtaining additional labor-saving equipment this year.....		277
278. Number of kitchens planned and rearranged for convenience this year.....		278
279. Number of individuals following improved laundry practices for the first time.....	(a) Women.....	279
	(b) Girls.....	
280. Number of individuals making budgets and keeping accounts for the first time.....	(a) Women.....	280
	(b) Girls.....	
281. Total number of different homes adopting improved practices relative to the home-management work reported on this page.....		281
282. List below the number of labor-saving appliances involved in question 277:		282
(a) Hand washing machines.....	(f) Kitchen cabinets.....	
(b) Power washing machines.....	(g) Electric or gasoline irons.....	
(c) Fireless cookers.....	(h) Pressure cookers.....	
(d) Kitchen sinks.....	(i) Iceless refrigerators.....	
(e) Power vacuum cleaners.....	(j) Other.....	

[Use space below to include other important data relating to home management.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOUSE FURNISHINGS.

Report only this year's extension activities and results that are supported by records.

283. Number of project clubs or groups	(a) Women	_____	} 283
	(b) Juniors	_____	
284. Number of members enrolled in house furnishings	(a) Women	_____	} 284
	(b) Girls	_____	
	(c) Boys	_____	
285. Number of members completing	(a) Women	_____	} 285
	(b) Girls	_____	
	(c) Boys	_____	
286. Number of method demonstrations given		_____	286
287. Number of result demonstrations started or under way	(a) Women	_____	} 287
	(b) Girls	_____	
	(c) Boys	_____	
288. Number of result demonstrations completed or carried through the year	(a) Women	_____	} 288
	(b) Girls	_____	
	(c) Boys	_____	
289. Number of individuals adopting improved practices in selection and arrangement of furnishings this year	(a) Women	_____	} 289
	(b) Girls	_____	
	(c) Boys	_____	
290. Number of individuals adopting improved practices in the repairing and remodeling of furnishings this year	(a) Women	_____	} 290
	(b) Girls	_____	
	(c) Boys	_____	
291. Number of individuals adopting improved practices in wall, woodwork, and floor treatment this year	(a) Women	_____	} 291
	(b) Girls	_____	
	(c) Boys	_____	
292. Number of rooms involved in questions 289, 290, and 291	(a) Bedrooms	_____	} 292
	(b) Living rooms	_____	
	(c) Dining rooms	_____	
	(d) Other rooms	_____	
293. Total number of different homes adopting improved practices relative to the house-furnishing work reported on this page		_____	293

[Use space below to include other important data relating to house furnishings.]

* States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME HEALTH—SANITATION.

Report only this year's extension activities and results that are supported by records.

294. Number of project clubs or groups ¹	(a) Women.....	294
	(b) Juniors.....	
295. Number of members enrolled in home health and sanitation.....	(a) Women.....	295
	(b) Girls.....	
	(c) Boys.....	
296. Number of members completing.....	(a) Women.....	296
	(b) Girls.....	
	(c) Boys.....	
297. Number of method demonstrations given.....		297
298. Number of result demonstrations started or under way.....	(a) Women.....	298
	(b) Girls.....	
	(c) Boys.....	
299. Number of result demonstrations completed or carried through the year.....	(a) Women.....	299
	(b) Girls.....	
	(c) Boys.....	

HEALTH.²

300. Number of homes adopting recommended health practices this year.....		300
301. Number of individuals adopting recommended practices in—		301
(a) Use of health score card.....	(f) Care of skin and hair.....	
(b) Good posture.....	(g) Home nursing.....	
(c) Prevention of colds.....	(h) First aid.....	
(d) Good elimination.....	(i).....	
(e) Care of teeth.....	(j).....	

302. Is your health program coordinated with the work of State and county health authorities? ³	(a) Yes.....	302
	(b) No.....	

SANITATION.

303. Number of homes installing sanitary closets or outhouses this year according to plans furnished.....		303
304. Number of homes screened for the first time.....		304
305. Number of homes following other methods of controlling flies, mosquitoes, and other insects for the first time.....		305
306. Total number of different homes adopting improved practices relative to the sanitation work reported on this page.....		306

[Use space below to include other important data relating to home health and sanitation.]

¹ Clubs which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.² It is assumed that this work is conducted in cooperation with State and county health authorities.

AGRICULTURAL ENGINEERING—HOME.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 16.

207. Number of method demonstrations given.....	207
208. Number of result demonstrations started or under way.....	208
209. Number of result demonstrations completed or carried through the year.....	209
210. Number of dwellings constructed this year according to plans furnished.....	210
211. Number of dwellings remodeled this year according to plans furnished.....	211
212. Number of sewage-disposal systems installed this year according to plans furnished.....	212
213. Number of water systems installed this year according to plans furnished.....	213
214. Number of heating systems installed this year according to plans furnished.....	214
215. Number of lighting systems installed this year according to plans furnished.....	215
216. Number of poultry houses constructed this year according to plans furnished.....	216
217. Total number of different homes adopting improved practices relative to the agricultural engineering work reported on this page.....	217

[Use space below to include other important data relating to agricultural engineering.]

BEAUTIFICATION OF HOME GROUNDS.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 12.

218. Number of project clubs or groups ¹	(a) Women.....	} 218
	(b) Juniors.....	
219. Number of members enrolled in beautification of home grounds.....	(a) Women.....	} 219
	(b) Girls.....	
	(c) Boys.....	
220. Number of members completing.....	(a) Women.....	} 220
	(b) Girls.....	
	(c) Boys.....	
221. Number of method demonstrations given.....		221
222. Number of result demonstrations started or under way.....	(a) Women.....	} 222
	(b) Girls.....	
	(c) Boys.....	
223. Number of result demonstrations completed or carried through the year.....	(a) Women.....	} 223
	(b) Girls.....	
	(c) Boys.....	
224. Number of home grounds planted this year according to a landscape plan.....		224
225. Number of school and community grounds planted this year according to a landscape plan.....		225
226. Number of homes painted or whitewashed this year as a result of instruction in beautification.....		226
227. Total number of different homes beautifying home grounds this year.....		227

[Use space below to include other important data relating to beautification of home grounds.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME GARDENS.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 12.

328. Number of project clubs or groups ¹	(a) Women.....	328
	(b) Juniors.....	
329. Number of members enrolled in home gardens.....	(a) Women.....	329
	(b) Girls.....	
	(c) Boys.....	
330. Number of members completing.....	(a) Women.....	330
	(b) Girls.....	
	(c) Boys.....	
331. Number of method demonstrations given.....		331
332. Number of result demonstrations started or under way.....	(a) Women.....	332
	(b) Girls.....	
	(c) Boys.....	
333. Number of result demonstrations completed or carried through the year.....	(a) Women.....	333
	(b) Girls.....	
	(c) Boys.....	
334. Number of gardens involved in result demonstrations.....	(a) Women.....	334
	(b) Girls.....	
	(c) Boys.....	
335. Number of individuals adopting improved practices in growing fruit trees this year.....	(a) Women.....	335
	(b) Girls.....	
	(c) Boys.....	
336. Number of individuals adopting improved practices in growing bush and small fruits this year.....	(a) Women.....	336
	(b) Girls.....	
	(c) Boys.....	
337. Number of individuals adopting improved practices in growing grapes this year.....	(a) Women.....	337
	(b) Girls.....	
	(c) Boys.....	
338. Number of individuals adopting improved practices in growing vegetables this year.....	(a) Women.....	338
	(b) Girls.....	
	(c) Boys.....	
339. Number of individuals saving improved stock or seed for the first time.....	(a) Women.....	339
	(b) Girls.....	
	(c) Boys.....	
340. Number of homes spraying or otherwise treating garden crops for diseases and insect pests for the first time.....		340
341. Number of individuals growing winter gardens for the first time.....	(a) Women.....	341
	(b) Girls.....	
	(c) Boys.....	
342. Total number of different homes adopting improved practices relative to the home-garden work reported on this page.....		342

[Use space below to include other important data relating to home gardens.]

¹ Homes which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME POULTRY.

Report only this year's extension activities and results that are supported by records.
Do not list information which has been previously reported on pages 14 and 15.

343. Number of project clubs or groups ¹	(a) Women.....	343
	(b) Juniors.....	
344. Number of members enrolled in home poultry.....	(a) Women.....	344
	(b) Girls.....	
	(c) Boys.....	
345. Number of members completing.....	(a) Women.....	345
	(b) Girls.....	
	(c) Boys.....	
346. Number of method demonstrations given.....		346
347. Number of result demonstrations started or under way.....	(a) Women.....	347
	(b) Girls.....	
	(c) Boys.....	
348. Number of result demonstrations completed or carried through the year.....	(a) Women.....	348
	(b) Girls.....	
	(c) Boys.....	
349. Number of birds in result demonstrations raised or managed by.....	(a) Women.....	349
	(b) Girls.....	
	(c) Boys.....	
350. Total profit on result demonstrations conducted by.....	(a) Women.....	350
	(b) Girls.....	
	(c) Boys.....	
351. Number of individuals culling flocks for the first time.....	(a) Women.....	351
	(b) Girls.....	
	(c) Boys.....	
352. Number of homes culling flocks for the first time.....		352
353. Number of birds in these flocks.....		353
