Annual Report
James City County, Virginia.
Dec. 1st, 1928 - Nov. 30th, 1929.
Mabel Keesey, County Home Demonstration Agent.

James City County, Virginia, was among the first counties to be organized for home demonstration work. It is one of the smallest counties in the United States, having but 164 squaremiles of territory, and about three hundred white families within its borders. Organized work is being conducted in the five community centers in the county.

In this small county there are two consolidated schools, with home economics work being carried on under the supervision of Smith-Hughes teachers. One of these schools is in Williamsburg, in connection with the College of William and Mary, and used for the training of Smith-Hughes teachers. The other is at Poano, twelve miles north of Williamsburg. The State Highway passes through the county from the south-east to the north-west, thirty two miles. This and the exceedingly good sand-clay feeder roads enables the county to transport the children for long distances, hence only two other schools are necessary: one at Five Forks and one at Grove.

County Board of Supervisors. The support of my work by the County Board of Supervisors is whole hearted. Every three months I report to them, officially, on the status of the work in the county. In addition I know all three members of the Board personally and frequently go to their homes to discuss the work. This year the appropriation for the work made by the Board, was increased twenty per cent. The financial support given the work in the county comes entirely from the Board of Supervisors.

James City County Council of Women's Clubs. This organization acts in the place of the usual county advisory board. It is composed of two members from each of the women's clubs in the county and the home demonstration agent. We have been quite fortunate in having, as chairman, for the past three years, a woman of broad education and wide interests, Miss Jeanette S. Kelly. This organization plans for the work of county wide interest, usually two projects each year. These plans are carried back to the clubs by their representatives, and, if approved, the club agent committees to undertake their portion of the work.

In February the County Council gave a reception to the new State Agent, Miss Wallace, thus enabling the women of the county to meet her. There were 172 women and 24 4-K club girls present at this meeting. When one recalls that there are, in round numbers, but three hundred white families in the county, this attendance was most excellent. The meeting was such a success that the clubs have asked the County Council to plan another such get-together next year. A "doubting Thomas" who attended the meeting on the urgent invitation of a friend, found difficulty in securing ~~several chairs~~ a seat when they entered the Hall. The friend was overheard to remark, "You may doubt the desirability of home demonstration work, but, judging from the number here, you are ~~among~~ the small majority."

Personal Report Summary. There are many bits of work done in a year that cannot be credited directly to any organization. On April 17th your agent went to Powhatan county to start some work in re-seating chairs. This work was begun in this county four years ago, and has spread all over Eastern Virginia. From the point of view of the weather, a worse day could not have been selected for the Chair Seating Institute in Powhatan county. In spite of the weather there was a nice group of women at the meeting and six ~~seats~~ were completed, with ten more so well on the way that they would be finished without difficulty. One charming old rocker, with the odd short rockers of early colonial days was well worth the entire meeting, as it saved the charming specimen for future generations. When the chair stood forth in the glory of a new rush seat the owner was "some proud." Though known to be a chair of considerable age, its real value was not appreciated until it was repaired. An agent in a nearby county was asked to give instructions in re-seating chair seats. Not knowing the art she telephoned me to know if I would teach her. She arrived at my apartment with a ~~some~~ charming "slipper chair" after removing many coats of paint we had a lovely curly maple chair, of great value. When this work was completed I taught her to make rush seats, braided rugs and plaited lamp shades. I doubt any club member ever worked as hard as this agent did and accomplished as much, in the very short time she could spare from the work in her county. I have done very little judging this year. An emergency call, by telephone Wednesday night, to judge the New Kent fair on Thursday, was met. The District Teachers Meeting, held at Toms on Sept. 4th, was attended by your agent. In a very short talk I tried to bring the attention of the teachers the aims and objects in the Jamestown 4-K Club Camp. During the summer your agent spent at the Jamestown 4-K Club Camp, 24 entire days, 11 half days and nine 20 trips to the camp. Upon the urgent request of the principal, your agent is spending some time trying to help increase the interest in the programs of the Jamestown 4-K Club Camp. As this is the only community organization in that section of the county, I feel that the time spent is justified.

Community Singing: Misses William &
Orinell, Leaders.
Prizes Meeting.
Demonstration: Inexpensive Christmas
Gifts. Misses Waltrip & Ayers.
Vocal of Home Reading:
Mr. E. C. Dean, Mr. & Mary Cell

The Reginault Baking and Frost Company have again offered prizes to be used in club work. As the offer was not made until the middle of November, the contests for the best public demonstration prize, will not be held until later in the winter. The newspaper publicity in the county this year has been more satisfactory than usual. 230 articles have appeared in the Newport News Press and an article on chair seating was published in the Southern Planter. Your agent has succeeded in arousing interest in the meetings of general interest, being held in the county through the use of the Multistamp. People have become interested in the "art" exhibited in the pictures on the notices and, in discussing them, get the meeting fixed in their minds. This Multistamp, presented to me two years ago, has been of inestimable help in the office work.

Women's Work.

The Advisory Board, or the James City Council of Women's Clubs staged a pageant, on April 8th, called "Days in James City County, - 1609 - 1817". This is the second historical pageant that the Council has given, in the Phi Beta Kappa Hall, at the College of William and Mary. They have proven splendid get-together meetings. Nine organizations took part in this pageant - Williamsburg Boy Scouts; Williamsburg Girl Scouts; James City County 4-a Club; Williamsburg Little Theatre League; Jamestown Women's Club; Williamsburg Civic League; The Forge Community Club; The Toano Women's Club and the Scotch Brood Club. The historical incidents depicted took place between the years of 1609 and 1817. In order to present the pageant a study of costumes and household furnishings had to be made by the club members. Miss Jeanette S. Kelly, Chairman of the County Council of Women's Clubs prepared the pageant and every incident was historically correct, the majority of them being based upon contemporary descriptions of the events, as they appeared in the "Virginia Gazette", a paper published in Williamsburg in colonial days. A program of the pageant is appended. The three juvenile organizations presented featured of their work, each organization being allowed ten minutes. These incidents had no bearing on the theme of the pageant, but allowed the organizations recognition among the outstanding county organizations, the result in such more interest in their work. The 1st incident, presented by the Little Theatre League of Williamsburg, was an incident described by Capt. John Smith, and was presented by the professor of English of the College of William and Mary and three associate professors. The 2nd incident, presented by the Jamestown Women's Club, represented a scene during Bacon's Rebellion, which took place at Great Springs, the home of Governor Berkeley. The costumes were those worn by "Ladies of the Court" and the furnishings were genuine antiques. In colonial days there was a military shop in

Williamsburg conducted by a Mrs. Rathall. The Williamsburg Civic League presented an incident that took place in this shop at the time of the "Stamp Act." Some of the costumes were originally worn in Williamsburg many years ago. The most remarkable display of colonial millinery was much enjoyed by the audience. The Home Economics Club presented an incident that took place in the days of political "tea parties". According to an account in the Virginia Gazette, the citizens of James City County collected their tea and made a grand bon fire thereof. Beautiful colonial tea chests were the feature of this scene. The burning was followed by a Virginia Seal. In 1779 in the Chickhomy River, near Soans, floated the Virginia Navy. This fact was brought to the attention of the people of today, by the Soans Women's Club, in a scene in which they were busy making uniforms for the Navy. This scene brought out a wonderful exhibit of the old spinning wheels and looms. Around the fire place, where one of the club members sat boiling down salt water, "to make salt to cure the meat for the navy," there was an excellent exhibit of old cooking utensils. Again the English Branch Club appeared as Quakers. They were very busy packing their household goods, preparatory to leaving Virginia, because they did not believe in slavery. The display of weaving, patch work, braided rugs, hooked rugs, hand wrought brass and iron furnishings, attracted much attention. With a direct object in view, the study of colonial costumes and furnishings proved most interesting to the club women; the friendly rivalry between the clubs developed friendships and interests in one another and the representative audience showed that the county and town folks could all find a mutual interest.

The pageant was begun as a part of Better Homes Week, two years ago, and at the same time the College of William and Mary was interested, by the County Council, in making an exhibit of the home economics work done by the students. The day of the pageant an most excellent exhibit of household linen, underwear, dresses and buttons by the students, were shown. The foods classes had exhibits bearing on special diets. In the diagram and table was laid for a four course dinner. The Child Study Class had an interesting exhibit of health charts. The Brace Class showed, in miniature, many stage settings. At the Practice House tea was served to all the women of the county and town. As usual, the cooperation of the College of William and Mary was all that could be asked for.

The Grange. An organization which is materially helping towards to forward movement of the county is the Grange. I was instrumental, with many others, in getting this organization started in August 1928, and have given much time to the work since, time which I think well spent. Mr. B. L. Samuel, of the Extension Division, has visited this organization four times during the year, three times to help with the definite plan of work and the fourth to talk an organization work before the "Open Meeting" of the Grange. This organization holds two meetings each month, one bearing strictly upon the work of the organization and the other a county get-together, to which the entire county is invited.

All chart setting forth the work, as planned for the year, and showing what has been accomplished, has proven of very material help in keeping up the interest in the open meetings of the Grange.

Membership in the Virginia Federation of Women's Clubs has been acquired by all five women's clubs in the county. The home demonstration clubs are to be congratulated upon the part they are taking in the work of the Sixth District of the Virginia Federation. I was a little dubious regarding the rural clubs becoming a part of the large federation, for fear that they might be absorbed. At the meeting in Suffolk, on May 1st, it began to look as if the "tail might wag the dog." The delegates sent to this meeting by the home demonstration clubs were most excellent women, and Miss Sylvia H. Slocum, District Agent for Eastern Virginia, certainly presented home demonstration and rural work in a most pleasing manner. Three clubs in the county were represented at the State Federation meeting and four at the Sixth District meeting, in October. A delegation of ten women from the county were at Portsmouth. In the absence of the State and District Agents I was asked to present home demonstration work at this time.

Project Activities and Results - Women's Work.

Food: Thirty-nine women have carried on work in food preservation this year. Since this work has been given in the county for the past twelve years, only the new members of the clubs are interested in this phase of the work. Nutrition: Sixteen members of the Jamestown Women's Club followed the work in nutrition. The demonstration that seemed to create the most interest was that of cooking tough cuts of meat. Three women took part in this demonstration, all working on a part of the same very tough roast of meat. One piece was cooked "the ordinary way"; another cooked in a Dutch oven and the third piece was cooked in the steam pressure cooker. A member of the club told me recently that this demonstration has saved her many dollars, at the same time enabling her to serve better meats. One unit of work in Clothing, millinery, was given at the Burg & Community Club. Sixteen "winter bonnets" were completed and many have been made & retanned since. Home Management: Twenty-nine women worked in home management this year. They have done interesting work and added much to the way with which they accomplish their house work, through the use of labor saving devices and the rearrangement of furniture. Home Furnishings: The work in Home Furnishing has been most interesting this year. Owing to the restoration of Williamsburg to its ancient grandeur and, hence, the securing of the necessary furniture for the homes that have been restored, much interest has been aroused throughout the county in antiques. Those that have them - and there is scarce a home in the county without something - are busy cleaning and repairing them and restoring them to their former places of honor in the homes. This aroused interest naturally resulted in a desire on the part of most of the club women to study old furniture. Five clubs had this subject on their regular programs. Thirty-four women in five groups have reported on the work and every where the good

awakened interest in home furnishings is manifest. A club member told us she was not particularly interested in the subject when we began, as she had no antiques. Later she found the study made her modern furniture much more interesting, as, in so many instances, it was made on historical lines. Agricultural Engineering: The interest in home furnishings has reacted in some very definite work being carried on in rebuilding and remodeling homes. Few new homes have been built, six remodeled, sewage installed in eight, thirteen water systems established, four central heating plants installed and nine lighting systems are helping to make the homes pleasant for the owners. Beautification of Home Grounds: Thirty-nine members, in two groups reported definite accomplishments in the work on their home grounds this year. At two homes the grounds have been laid out and planted according to a definite plan. Twelve homes have been painted. Three hundred and fifty-nine shrubs have been planted. The grounds at the Borge Community Hall have been replanted. A drought last year prevented the work done on these grounds being a success. Home Gardens: Almost all the homes in this section have good summer gardens and there are a number of winter gardens. Seven new winter gardens have been added, at eleven homes fruit trees have been planted, small fruits at five homes, grape vines at nine and seventeen homes have had better gardens this year. Poultry: In this section there are a number of professional poultrymen, and the Math-Hughes teacher at the Toano High School is the leader of the local Poultry Association. In spite of this thirty-four women have been helped with their poultry problems.

Home Demonstration Clubs: There are in the county five home demonstration clubs. Jamestown, with 25 members has held twelve meetings; Borge, with 48 members has held 12 meetings; Toano, with 25 members and 12 meetings; Scotch Broom with 20 members and 14 meetings; HomeMakers Committee with 18 members and 14 meetings. Jamestown Club: This club had two units of work this year, nutrition and home furnishings. They redecorated the Community Rooms, at the Jamestown Teachersage. This consisted of painting the walls and woodwork, staining and polishing the floor and the purchase of enough china and silver to serve seventy-five people. On May the 18th they entertained the Scotch Broom Club at the Jamestown 4-H Camp. Thirty-five women attended the meeting. This club took charge of the Red Cross Membership Drive and the sale of Christmas seals. In January they presented an expert mother with a very complete layette. One delegate represented the club at the State meeting of the Virginia Federated Clubs and also went a delegate to the HomeMakers Association meeting in Blacksburg. They contributed towards the scholarship of the Math District, an which two women are being educated at William and Mary College. In the incident they took the part of the incident of the person's rebellion. They contributed their portion towards the county meeting, in honor of the State Agent. This club joined with the Borge Community Club in their historical pilgrimage, described under the account of the work of the Borge Club. Borge Community Club: The unit of work for this club this year was

9

military. This group held four meetings and all blossomed out at Eastern in new hats, sixteen in all. They have made and returned a number this summer, as a result of the work. The Forge Community Club own their hall, which is used as a place of meeting for any and every organization in the county. What the county would do without this Hall I am at a loss to know. The Orange, the Dairyman, the Community Club, the 4-E Club, and two church organizations use it regularly, to say nothing of the extra meetings, plays, etc. This year the furnace in the Hall was repaired and the building painted and repaired inside. Footlights were purchased for the stage and the stage entrance restored. The club gave \$8.00 to the Bear East Relief. They have had two travelling libraries, from the first of which ninety books were read. The second library has not yet been returned. A member of the club, living in the village, cares for this library and she says it has been a blessing to the young people of the community. As a member of the Virginia Federated Clubs the Forge Club contributed to the Scholarship fund, and sent two delegates to the district meeting. The club took part in the pageant and presented the incident of the "Virginia Tea Party" or the burning of the tea in James City County. The Forge and Jamestown Clubs held a joint pilgrimage to South Side Virginia. Thirty-three made the trip, in private cars. Crossing the James River at Jamestown, by ferry, we made our first stop at the Thomas Wolf house. This home of Powhatan's son and Powhatan's grandson, is a well built Dutch Colonial house of red brick, said to have been built by order of Powhatan. From this point we went to Claremont Manor, one of the more interesting old river estates. Next we stopped for dinner at a camp owned by Mr. W. A. Bonarth of Williamsburg, for lunch. After lunch we turned east to the visited Upper Garry Church, in Lanes Creek Parish. From this most interesting ruin we went to Asen's Castle and from there to Fort Myrtles. The gardens at Fort Myrtles were enjoyed more than any other point in the trip, I think, as they were planted with flowers familiar to all. From Fort Myrtles we visited St. Luke's Church, the oldest, Protestant Church in America. Crossing the James River over the new bridge completed a most interesting day, which will long be remembered by all the club members. In the fall the Forge Club entertained the Pocono Club and the James City county teachers. This club joined with the others in the county meeting at Forge in the ~~last~~ meeting, for the entertainment of the State Agent. ~~From~~ ~~James~~ ~~City~~ ~~Club~~. The attention of this club is entirely concentrated upon the building of a new club house. The bricks for the house have been ordered to the lot and the work is expected to begin immediately. This club has joined in community movements. The work

part in the county reception to the State Agent. They are members of the Va. Federation of Clubs and had delegates at the State and District meetings. They also contributed to the District Brotherhood Fund of the Federated Clubs. Their part in the historical pageant was most interesting, representing the women making uniforms for the Virginia Navy. They held a pilgrimage to Yorktown in August. In September they entertained the George Community Club. The lecturer for this occasion was Mr. Renforth and he told us of some of the interesting architectural points, in Colonial buildings with which we were familiar.

Homemakers Committee. This group, studying home furnishings, is a department of the Williamsburg Civic League. Most of the members are wives of members of the Faculty of the College of William and Mary. Last spring they made a most interesting trip to visit a home in the upper part of the county, that of Mrs. W. G. Rankin. The object of this trip was to see what could be done to make a home attractive, at little cost, if one used their brains. Every one was delighted with the home and the hospitality of the Rankins, and returned with many ideas for their own homes. With Rose Crane's book as a guide this group studied home furnishings and, at the last meeting, made a pilgrimage to Richmond to visit two antique shops, a shop handling reproductions, "May Mount" and the "Virginia House." The latter was worth the trip, not only in order that we might see the wonderful collection of historical paintings of Virginians of colonial days, but the house itself. A most interesting old house, of the Elizabethan period, furnished to correspond. Under the guidance of this group the Williamsburg Civic League held their first monthly meeting *devoted* given to home economics. Dr. R. G. Young, of the College of William and Mary spoke on electricity in the home and Miss Lillian Cummings, of the same college, showed us a splendid exhibit of textiles for use in the home.

English Brown Club. This group all belong to civic organization and churches in Williamsburg, therefore are strictly a group for the study of household matters. This year they have studied antiques in their relation to modern home furnishings. Twelve members have prepared and presented papers in furniture, glass, china, silver, rugs, etc., and have amply illustrated their talks with articles about which they were talking. At the last meeting there were thirty rugs on exhibit, and Mrs. Wood, the leader, showed us how to make the Eastland in the Oriental rug, and then how to make the home made American rug of hooked, crocheted, knitting, weaving and other manufacture. The Jamestown Club were the invited guests on this occasion. This club, instead of making their usual historical pilgrimage in the summer, decided to wait until the fall and join the pilgrimage usually made to the old home of Gloucester county. This pilgrimage was made on Oct. 5th and was a day worth remembering. The planting of the grounds around these old homes gave wonderful ideas for the

JAMES CITY COUNTY, VA.

Concrete Highway
 Sea to 1m. to Jim.

160.29 miles.

ones own home grounds. Then the old houses, their wonderful decorations and furniture, were an inspiration. In one house there was a collection of bottles, old and new, blue, yellow and green and any other color one wished. This collection was arranged in a rather lovely bay window, on glass shelves and made a thing of beauty of the window. A member of the club had in less than two weeks more than two dozen bottles for her bay window. Another member came home and removed a four post bed from her attic and took the bent iron bed she had been using to the second hand man. When she called me in to see the change you would have hardly recognized the room. I find the women get much more useable ideas from visiting stores and homes than from twice as much talking on my part. The president of this club said to me, "So far as I am concerned the mere fact that at a certain date I am to meet a group of women who are interested in the same thing in which I am interested and can 'talk my language' is sufficient justification for spending time in club work. Of course, there are other benefits, but the social contact with other housewives is very well worth while." Another member of this club moved here about ten years ago, and had been thoroughly unhappy ever since, until two years ago, when some one induced her to join the club. She says the club has meant much to her. Now that she has formed acquaintances and meeting with the members in their homes she has taken renewed interest in her own home. Recently she has installed a furnace, screened the porch, graded and planted the yard and, much to her own surprise, she is glad to live here and would not sell her home when a very advantageous opportunity arose. The Scotch Brood Club is a member of the State Federation, contributes to the District Scholarship Fund and has sent delegates to the State and District meetings this year.

Camps: The 4-H Club Camp, located six miles from Williamsburg is used very frequently by the club women of the county for small picnic groups. Last spring the Jamestown Club entertained the Scotch Brood Club at the camp. At the Adult Camp 458 people registered, 39 of whom were new. The majority of those who registered stayed throughout the camp. Nine of the campers were from James City County. As this is a district camp it is rather hard to know just how to report the time I spent there. The time spent at the several camps and the work incident thereto have required 28 entire days and 21 half days, making 54 trips to the camp during the summer. In other words I drove to the camp and back 54 times and spent 43 1/2 days there during the past summer.

County Meetings: In February the state of the county held a rally, in the form of a reception to Miss Wallace, the new State Agent. At this meeting each club told of their plans of work for the year and what had been accomplished at that time. These talks were followed by a talk by Miss Wallace and then a reception was held, at which every one had the pleasure of meeting the new agent. The county was represented at the ~~Williamsburg~~ Association by Miss Virginia Smith, of the Jamestown Club, and Miss Millie Cummings of the Williamsburg Club League.

4-H Club Work, 1929.

The James City County 4-H Club Council was organized this fall, the membership being composed of the officers of the two community clubs in the county. The meeting was held in my apartment and the Jamestown girls gave a luncheon to the Forge girls. They took for their object the coordination of the work in the county this year, and decided to ask both clubs to major in home furnishing this year. This was agreed upon. This Council will meet three times each year, in September, January and June.

Project work: In Food Preparation we had three project groups this year, with 38 members. Two of the groups worked all summer on breads and the other had the first year work in cooking last spring. These girls have learned to be fair plain cooks and help a great deal in the work at home. Dorothy Vaiden an princess Morecock of the Jamestown Club gave a most excellent demonstration in making cake frostings, before the Forge Community Club (home demonstration club). A member of the women's club told me afterwards that she certainly envied the girls the training they were getting in making appearances before auditors. In August these two girls went with Miss Bloomer to Accomac County and gave demonstrations in making cake frostings and better bread in an activity booth there. One group of eight, under the leadership of Miss Virginia Smith of the Jamestown School, did some excellent work in Better Foods and were much benefited thereby. Five project groups in Clothing, with 48 members ran throughout the winter. These girls not only did good sewing, but did outstanding work in demonstrations. Thirty-six demonstrations were given by the girls before members of their own group. A girl in this group asked me to show her, after the meeting one day, how to make head flowers. I spent less than a half hour in the lesson, but with that assistance this girl made fifteen dollars clear, by making and selling these costume bouquets. Home Furnishings: In this work a most interesting contest was held, with nine girls, five from Jamestown and four from Forge. The prize offered was a half dozen silver knives and forks (Community) The rooms were scored by Miss Wilkins, of the home economics department of the College of William and Mary, in July and again the first of November. The girl who won the prize had raised her score seventy points at a cost of \$4.25. First she cleaned the plaster in the room and closet, then cleaned the closet, painted the walls, put in a rod and provided for the storage of shoes. She then treated the ceiling of her room with cold water paint and papered the side walls. Next she painted the wood work and stained the floor and waxed it. She took a charming old chest

"As a fitting ending of the bread club work I took the girls to visit the bread shop in Williamsburg and the bakery at the College of William and Mary. As some of them had never seen household table prepared on a commercial scale the trip was most interesting.

from the store room and scraped the old paint from it and polished it. Next she made a hooked rug for her floor. She made curtains, cleaned and polished the furniture, and the miserable hole she started with emerged a charming room in one of the oldest homes in the county. The girls did excellent work. Two girls who had used in which no doors had been hung or the walls finished, had the necessary carpenter's work done in these two bed rooms and then tinted the walls, made dressing tables, curtains and bed spreads, polished their floors and had charming bed rooms of which they are justly proud. Another girl persuaded her father to place two more windows in the diningroom. She then painted the woodwork, and walls. Had a very good linoleum, waxed the floor and polished the furniture. Finally, not satisfied with the lack of color, for ~~even~~ her drapes were ivory, she made gay creton pads for each chair. They certainly added to the room and the diningroom had been changed from a place to stay as short a time as possible to the family living room, it would seem. Two of the girls in this contest do very good work reupholstering chairs. They have cleared \$25.00 through this work during the past year. The three sisters and work together. Another girl has cleared \$20.00 through this work. ~~Another~~ One poultry club member, but that one did good work. This girl was a member of the sewing club last winter and wishes to work on a summer project. She lived in such an isolated section of the county that she could not attend club meetings in the summer, nor could I promise to visit her home often. She was so anxious for chickens that I agreed to let her try to see what she could do. I saw her flock three times during the summer and am pleased to report that she now has fifteen standard breed Rhode Island Red pullets, which promise to give her an abundance of eggs this winter.

4-4 Community Clubs.

There are two 4-4 Community Clubs in the county. As there are two consolidated, Smith-Hughes schools in the county it is very hard for me to keep the older girls interested in club work. Under these conditions I have, for the past three years, met these clubs once each month on Saturday. We get together in time for lunch, each member bringing some contribution towards the lunch. After lunch we hold our club meetings, demonstrations and have our games. There are twenty-four members in the Jewett Community Club and 28 in the Jernigan Community Club. The attendance is usually very good and the meetings are a great help in developing leadership. The Jewett Club is divided into three project groups and the Jernigan into four project groups. A demonstration is given at each meeting. The project groups taking turns at preparing the same. The Jewett Club members had a week end at Camp on May 4th. I agreed to this camp, under the conditions that the girls make, the lunches, purchase the supplies, plan the committee for the week, etc. The Tuesday before we went to Camp they presented to me their needs, lists of supplies, price lists and all. The work was exceedingly well done. Not only was the camp run splendidly, with me as their chief guest, but they had \$1.75 left after serving the group four meals at 50¢ per meal. I was proud of their work. A similar camp was planned for the Jernigan Club, but the

weather turned out unsatisfactory and the camp could not be held. The Jamestown County Club gave a party for their new members this fall, and at this party the new members were formally initiated, according to a ritual in the 4-H Club Hand Book, sent out from Chicago. They had a lovely party and all had a good time.

District Camp: The district camp, held at the Jamestown 4-H Camp in June was attended by 26 girls from the county. Two members of the Sarge 4-H Club acted as instructors in making baskets and resetting chairs, Eloise Bange and Texie Garrett. At this camp the Jamestown City girls gave three demonstrations, before the entire group at the assembly hour. The State Camp was attended by three members from the Sarge and three members from the Jamestown Camps, each group having a leader with them. There was already one All Star member in the county and when this group returned with two more All Stars they were delighted. I do not think the girls ever gained a much from a State Camp as they did this year.

Fairs: A demonstration team, spent two days at the State Fair, working in 4-H activity booths. They were Eloise Bange and Texie Garrett and they made baskets the first day and lamp shades the next. In August two girls went, with Miss Slocum, to the Ansonia Fair - Dorothy Valden and Frances Morecock of the Jamestown Club. They made better bread and cake frostings. These trips are splendid for the girls, as they learn to meet the public without embarrassment. Two members of the Sarge Community (Home Demonstration) Club, Mrs. E. H. Floyd and Mrs. W. A. Bange, attended the State Fair on Monday and gave demonstrations in the removal of stains.

County Council

Accomplished.

Each home dem. club will complete one unit of work, carry a community project and take an Historical tour.

Such help as may be needed will be given from time to time to those raising poultry, specialists being recalled when necessary. The community planting projects, in the use of native plants will be continued.

24 women helped with poultry.

One in good shape this year and being cared for. Other replanted.

WOMEN AS A WHOLE: The greatest gain in the work this year has been in better, and more clearly stated plans for the years work in each club. Three demonstration clubs had year books, and the programs stated exactly who was responsible for the program and demonstrations. In many instances I may have spent more time in training these demonstrators than it would have taken to have done the work myself, but after the women have once taken charge of the subject matter for a meeting and made a success of it, they have as much more faith in themselves! I also note that the demonstrators were made by club members seem to bear more fruit in the homes - probably because they feel that the club member is

a practical housewife and knows what she says to be practical, from her own experience. The two clubs that did not have programs entirely carried out by the members, had several demonstrations given by them. During the year there were forty demonstrations given by club members before their own clubs. I find the same to be true of the 4-H Clubs. When the girls give demonstrations they have more confidence in themselves thereafter and the other members of their clubs think more of them and their work. 4-H Clubs demonstration teams gave three demonstrations at the district camp, two at the State Camp, two in activity booths at the State Fair, and two in activity booths at the Keller Fair, in Academe County. The Jamestown girls gave a demonstration before the Borge Home demonstration club and the Borge 4-H girls also gave a demonstration before the home demonstration club. Finally a Jamestown girls team gave a demonstration before the Jamestown Community League. Twelve public demonstrations, in all, were given by these girls during the year. In addition to these they gave thirty-six before the members of their own clubs.

Plans and Goals, 1930: Adult Work During the coming year I shall do my very best to see that every club has a year book setting forth definite plans for each month in the year, and the person in charge of each program and demonstration. Also I wish every club to have a wall chart setting forth the work of the year, to be placed so that it can be seen by all at each meeting, and the progress accurately checked thereon. I hope to improve the interest and attendance at the 1931 Camp. The plan for the historical pageant has been enlarged. As at present planned it will be given in June, on Jamestown Island and not only will the clubs of the county take part therein, but the rural clubs in the other parts of the Peninsula and surrounding sections will be asked to join with us. 4-H Club work I shall continue to stress the public demonstrations, insist that very definite plans be drawn up for all Community Club meetings, and that a year book and working chart be made out for each club. I shall again try to put on community exhibits.

Respectfully Submitted,

County Home Demonstration Agent.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County James City
Report of Hubert Cassidy County Home Demonstration Agent
From Jan 1st 1928 to Nov 30th, 1928.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

Date _____ Name or Special Experience _____

Date _____ Name Extension Service _____

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the Agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's file, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. The report to the Washington office should be sent through the State extension office.

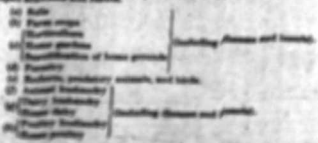

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, its needs, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, factual, and, where possible, reinforced with simple data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, line prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented.

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page
- II. Table of contents.
- III. Nature of county extension organization.
 - (1) Form of organization—changes and development.
 - (2) Purview of local people, communities, or project areas in developing the program of work.
 - (3) General policies, including knowledge or other facilities available.
- IV. Program of work, goals established, methods employed, and results achieved.
 - (1) Purview, geographical and methods used in determining program of work.
 - (2) Project activities and results.

SUMMARY OUTLINE OF ANNUAL NARRATIVE REPORT—Continued.

IV. Progress of work, etc.—Continued.

(3) Project activities and results—Continued.

- (a) Agricultural engineering.
- (b) Agricultural engineering—home.
- (c) Agricultural extension, including farm management and marketing.
- (d) Home marketing.
- (e) Foods.
- (f) Nutrition.
- (g) Clothing.
- (h) Home management.
- (i) Home furnishings.
- (j) Home health and sanitation.
- (k) Community activities.
- (l) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typical pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following forms have been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will give naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A **PROGRAM** or **WORK** is a definitely outlined plan for extension work.
2. A **PROJECT** is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. **MISCELLANEOUS** work includes work which has not yet become a regular part of the program of work—work other than project work.
4. A **COMMUNITY**, for the purpose of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A **PERSON** means an actor, except in a passive, selected because of his or her special interest and talent, who functions as a leader in advancing some phase of the local program of extension work.
6. A **DEMONSTRATION** is an example designed to give the practical application of an established fact. Demonstrations are conducted in this report only in two kinds, **method demonstrations** and **social demonstrations**.
7. A **method demonstration** is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a process. Examples: Lectures, **method demonstrations**, **Exercises**, **Demonstrations of mending, mending of spray materials, and selling of poultry.**
8. A **social demonstration** is a demonstration staged to try a process, such as **weaving, hay, or girl, under the direct supervision of the extension worker**. It is held and usually the victim of a **community project**. Such a demonstration includes a period of time, amount of people, and organization, and is designed to reach various individuals in the community conducting the demonstration. It should not be confused with the adaptation of a home or home project resulting from a demonstration or other teaching activity, but which is not suggested by the extension worker as a source of teaching. Examples: **Demonstrations** which give application of facts to an entire village may be more profitable than the knowledge of certain individuals and be conducted through proper diet, or that the use of artificial seed in growing potatoes is a good investment.
9. A **DEMONSTRATION** is a person, hay, weaver, hay, or girl who, under the direction of the extension worker, conducts a social demonstration.
10. **MISCELLANEOUS** persons should include those who have satisfactorily finished the work outlined for the present year.
11. A **DEMONSTRATION** means in a meeting held to give a method demonstration or to show, inspect, or further a method demonstration.
12. A **PERSON** referred to in a meeting at which project leaders or local leaders are required to carry on extension activities in their respective communities.
13. A **PERSON** is a person who, in a field or soil for a farmer or other person, working agricultural or home extension activities, as a result of which some definite extension or information is given.
14. A **PERSON** is a call of a form for the report at which some definite information is given or extension plan of work outlined, or other definite information obtained from the form regarding the work, or the better practice presented, in his neighborhood.
15. A **PERSON** is a call of a form for the report at which some definite information is given or extension plan of work outlined, or other definite information obtained from the form through extension work, or the better practice presented in his neighborhood.
16. **PERSONS** are those individuals who, in the county report by his office, or county report committees, and other work directly related to office administration.
17. **PERSONS** are those individuals who, in the county report by their office, or county report committees, and other work directly related to office administration.
18. **PERSONS** are those individuals who, in the county report by their office, or county report committees, and other work directly related to office administration.

[Use space below to include other important data relating to miscellaneous work.]			

*Include only new entries.

*Include only the net number of clubs in groups on a school basis should not report on this question but should report on enrollment and attendance.

HOME-DEMONSTRATION WORK.

FOODS.

Report only this year's extension activities and results that are supported by records.

		FOOD PREPARATION.			
215.	Number of project clubs or groups ¹	(a) Women		215	
		(b) Juniors	3		
216.	Number of members enrolled in food preparation	(a) Women		216	
		(b) Girls	38		
		(c) Boys			
217.	Number of members completing ²	(a) Women		217	
		(b) Girls	35		
		(c) Boys			
218.	Number of method demonstrations given. (See definition 8, page 1.)		20	218	
219.	Number of result demonstrations started or under way. (See definition 8, page 1.)	(a) Women		219	
		(b) Girls	22		
		(c) Boys			
220.	Number of result demonstrations completed or carried through the year	(a) Women		220	
		(b) Girls	25		
		(c) Boys			
221.	Number of individuals adopting improved practices in bread making this year	(a) Women		221	
		(b) Girls	25		
		(c) Boys			
222.	Number of individuals adopting improved practices in meat cookery this year	(a) Women		222	
		(b) Girls	18		
		(c) Boys			
223.	Number of individuals adopting improved practices in vegetable cookery this year	(a) Women		223	
		(b) Girls	18		
		(c) Boys			
224.	Number of individuals adopting improved practices in preparation of dairy product dishes this year	(a) Women		224	
		(b) Girls			
		(c) Boys			
225.	Number of individuals adopting improved practices in meat preparation and service this year	(a) Women		225	
		(b) Girls	18		
		(c) Boys			
226.	Number of homes indicating the locally food supply for the first time			226	
227.	Total number of additional homes adopting improved practices relative to the food-preparation work reported on this page. (Statistical section the questions 228, 229, 230, 231, 232, and 233 see instructions.)		227	227	

[The space below is to include other important data relating to food preparation.]

¹Home clubs and 4-H project clubs or groups are a project food group and should be reported on this question. Do not report on organizations and associations. Statistics from other food sources are also included. Do not include 4-H or 4-C clubs or other groups for the report year.

FOODS—Continued.

Report only this year's extension activities and results that are supported by receipts from preservation.

228. Number of project clubs or groups	(a) Women	4	228
	(b) Teachers		
229. Number of members enrolled in food preservation	(a) Women	39	229
	(b) Girls		
	(c) Boys		
230. Number of members completing	(a) Women	39	230
	(b) Girls		
	(c) Boys		
231. Number of method demonstrations given		3	231
232. Number of result demonstrations started or under way	(a) Women	39	232
	(b) Girls		
	(c) Boys		
233. Number of result demonstrations completed or started through the year	(a) Women	39	233
	(b) Girls		
	(c) Boys		
234. Number of individuals adopting improved practices in preserving fruits and vegetables this year	(a) Women	36	234
	(b) Girls		
	(c) Boys		
235. Number of individuals adopting improved practices in preserving meats and fish this year	(a) Women	3	235
	(b) Girls		
	(c) Boys		
236. Number of homes providing better food storage for the food this year			236
237. Total number of different homes adopting improved practices relative to the food preservation work reported on this page		39	237
238. List below amount of food preserved by club members completing:			238

Kind of food	Quantity	In Pounds		
		Wt.	Meat	Fish
(a) Fruits and vegetable meats	quarts	433.6		
(b) Meats and fish meats	quarts	18.7		
(c) Jelly and preserves made	quarts	8.7		
(d) Fruit juice made	quarts	1.3		
(e) Pickles made	quarts	6.7		
(f) Fruits and vegetable chutney	quarts	1.3		
(g) Meats cured	pounds	67.2		

[Use space below to include other important data relating to food preservation.]

NUTRITION.

Report only this year's extension activities and results that are supported by records.

230. Number of projects clubs or groups	(a) Women	1	230
	(b) Juniors	1	
240. Number of members enrolled in nutrition	(a) Women	16	240
	(b) Girls	8	
	(c) Boys		
241. Number of members completing	(a) Women	16	241
	(b) Girls	8	
	(c) Boys		
242. Number of method demonstrations given		4	242
243. Number of result demonstrations started or under way	(a) Women	16	243
	(b) Girls	8	
	(c) Boys		
244. Number of result demonstrations completed or carried through the year	(a) Women	16	244
	(b) Girls	8	
	(c) Boys		
245. Number of individuals following family meals according to approved methods for the first time	(a) Women	5	245
	(b) Girls	8	
	(c) Boys		
246. Number of individuals preparing better school lunches for the first time	(a) Women		246
	(b) Girls	8	
	(c) Boys		
247. Number of schools induced to serve a hot dish or school lunch for the first time			247
248. Number of children involved in providing question			248
249. Number of homes carrying out improved practices in child feeding for the first time		3	249
250. Number of children involved in providing question		8	250
251. Total number of different homes adopting improved practices relative to the nutrition work reported on this page		16	251

[Use space below to include other important data relating to nutrition.]

CLOTHING

Report only this year's extension activities and results that are supported by receipts.

202. Number of project clubs or groups	(a) Women	1	202
	(b) Juniors	5	
203. Number of members enrolled in clothing work	(a) Women	16	203
	(b) Girls	88	
	(c) Boys		
204. Number of members completing	(a) Women	16	204
	(b) Girls	88	
	(c) Boys		
205. Number of method demonstrations given		86	205
206. Number of result demonstrations started or under way	(a) Women	16	206
	(b) Girls	88	
	(c) Boys		
207. Number of result demonstrations completed or carried through the year	(a) Women	16	207
	(b) Girls	88	
	(c) Boys		
208. Number of individuals adopting improved practices in selection and construction	(a) Women	16	208
	(b) Girls	88	
	(c) Boys		
209. Number of individuals adopting improved practices in conservation and remodeling	(a) Women	16	209
	(b) Girls		
	(c) Boys		
210. Number of individuals adopting improved practices in millinery	(a) Women	10	210
	(b) Girls		
	(c) Boys		
211. Number of individuals adopting improved practices in costume designing	(a) Women	8	211
	(b) Girls		
	(c) Boys		
212. Number of individuals adopting improved practices in infant wardrobe planning	(a) Women		212
	(b) Girls		
	(c) Boys		
213. Number of individuals adopting improved practices in children's wardrobe planning	(a) Women		213
	(b) Girls		
	(c) Boys		
214. Number of individuals adopting improved practices in adult wardrobe planning	(a) Women		214
	(b) Girls		
	(c) Boys		
215. Total number of different homes adopting improved practices relative to the clothing work reported on this page		64	215
216. Number of dress forms made this year by	(a) Women		216
	(b) Girls		
	(c) Boys		
217. Number of dresses and waists made this year by	(a) Women		217
	(b) Girls		
	(c) Boys		
218. Number of undergarments made this year by	(a) Women		218
	(b) Girls	178	
	(c) Boys		
219. Number of hats made this year by	(a) Women	28	219
	(b) Girls		
	(c) Boys		

[Use space below to indicate other important data relating to clothing.]

31 demonstrations given by 4-H Club members before their own groups.

HOME MANAGEMENT.

Report only this year's extension activities and results that are supported by records.

270. Number of project clubs or groups ¹	(a) Women.....	4	270
	(b) Juniors.....		
271. Number of members enrolled in home management.....	(a) Women.....	29	271

Waterless cookers	12
Electric refrigerators	4
Jack refrigerators	18
Electric stoves	3
Other electric devices	3

¹Home clubs or all women clubs in groups in a grade high school not report on this page; but should report on the Home and Community page.

HOME HEALTH-SANITATION.

Report only this year's extension activities and results that are supported by records.

204. Number of project clubs or groups	(a) Women	204
	(b) Juniors	
205. Number of members enrolled in home health and sanitation	(a) Women	205
	(b) Girls	
	(c) Boys	
206. Number of members completing	(a) Women	206
	(b) Girls	
	(c) Boys	
207. Number of method demonstrations given		207
208. Number of result demonstrations started or under way	(a) Women	208
	(b) Girls	
	(c) Boys	
209. Number of result demonstrations completed or carried through the year	(a) Women	209
	(b) Girls	
	(c) Boys	
RESULTS*		
210. Number of homes adopting recommended health practices this year		210
211. Number of individuals adopting recommended practices in—		211
(a) Use of health care card	(f) Care of skin and hair	
(b) Good posture	(g) Home cleaning	
(c) Prevention of ticks	(h) First aid	
(d) Good sanitation	(i)	
(e) Care of teeth	(j)	
212. Is your health program coordinated with the work of State and county health authorities?	(a) Yes	212
	(b) No	
GENERAL		
213. Number of homes installing sanitary drains or septic tanks this year according to plans furnished		213
214. Number of homes screened for the first time		214
215. Number of homes following other methods of controlling flies, mosquitoes, and other insects for the first time		215
216. Total number of different homes adopting improved practices related to the sanitation work reported on this page		216

[The space below is to include other important data relating to home health and sanitation.]

County Health Officer and County Nurse have entire charge of this phase of rural work

AGRICULTURAL ENGINEERING—HOME.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 15.

207. Number of method demonstrations given	2	207
208. Number of result demonstrations started or under way	14	208
209. Number of result demonstrations completed or carried through the year	14	209
210. Number of dwellings constructed this year according to plans furnished	4	210
211. Number of dwellings remodelled this year according to plans furnished	6	211
212. Number of sewage-disposal systems installed this year according to plans furnished	5	212
213. Number of water systems installed this year according to plans furnished	3	213
214. Number of heating systems installed this year according to plans furnished	4	214
215. Number of lighting systems installed this year according to plans furnished	9	215
216. Number of poultry houses constructed this year according to plans furnished		216
217. Total number of different homes adopting approved practices relative to the agricultural engineering work reported on this page	17	217

[Use space below to include other important data relating to agricultural engineering.]

BEAUTIFICATION OF HOME GROUNDS.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 15.

225. Number of project clubs or groups	(a) Women	2	225
	(b) Juniors		
	(c) Girls		
226. Number of members enrolled in beautification of home grounds	(a) Women	24	226
	(b) Girls		
	(c) Boys		
227. Number of members completing	(a) Women	24	227
	(b) Girls
