Status of County Extension Organization.

A. The Buckingham County Agricultural Advisory Council is composed of the six members of the Board of Supervisors and in addition, one man and one woman from each of the six districts, a business man, a Banker, and the Superintendent of schools.

B. The Council has been in existence for four years. The Council did not have any meetings during the past year, however individual members have given much help in private consultation in advising the County Agent on important matters.

C. The policies of the 4-H Club Work are formulated by a County 4-H Club Council, composed of the Club leaders and officers of the organized Clubs. The organization works out the details relative to the Club Rally programs, the Club Booth exhibits at the Fair, and policies pertaining to the Club work in general in the county. The Chairman of this Council is a member of the County Agricultural Advisory Council.

D. The Buckingham County Fair Association, is a volunteer service organization. The heads of the various Departments give the County Agent their hearty support. The out-standing features of the Fair are, free admission, the schools of the county have educational exhibits and athletic contests, the poultry exhibits exceptionally large for a county fair, the 4-H Club booths especially fine.

E. It has been the policy of the County Agent to co-operate with all existing agencies. At the present time there is no county-wide organization that brings the farmers together. Civic League organizations have given the County Agent opportunity to present some phases of the agricultural problems to the people at their public meetings. The use of the Moving Picture machine has been a great help in drawing a crowd at unorganized points.

Program of Work.

The Factors considered in determining the Program of Work are;

A. That in practically all sections of the county tobacco is the determining factor for all other farm operations.

B. That the use of lime is the chief limiting factor in the growing of clovers and alfalfa, and also measurably affects the production of many other crops.

C. That the humus content and fertility of the soil have been greatly depleted by past practices.

D. That the limited area of open fields, natural pasture grasses, and inadequate fencing greatly handicap the possibilities for dairying, the raising of cattle, sheep and hogs.

E. That the county has very limited markets for the products raised for human consumption.

Program of Work for 1929.

In view of the fact that the Board of Supervisors have decided to discontinue the work January 1st, 1929, a Program for the next year has not been made out.

Project Activities.

The discussion of the project activities will cover the five year period 1924 to 1928 inclusive, the period of service of the writer in this county, as well as the activities for the year, December 1st, 1927 to November 30th, 1928.

Club Work;

The consolidation of the schools has greatly reduced the number of schools in the county that have enough children of Club age to justify the organization of 4-H Clubs. In 1924 there were eleven organized clubs, in 1928 only seven. The total enrollment also was larger the first year. The completed reports were much less however, only 50% completions in 1924

as compared to 91% completions in 1928. The reasons that there were so many more completions for 1929 than in previous years are, that definite programs were outlined by Project Chairmen in each club, at the February meetings, covering all meetings of the year; and that the Record Books were kept at the place of meeting and with the help of the Club leader and the County agent, checked up monthly. This method stimulated interest.

The total value of crops and livestock produced by 4-H Club members amounted to \$5341.58. A greater valuation of products than that grown any previous year.

The District Short Course at Hampden-Sidney was attended by 35 boys and girls from this county. A greater number than any previous year. The District Short Course has been so satisfactory that no Club members were anxious to attend the State Short Course. The difference in expense had much to do with them making such a decision.

One boy who has been a Club member for six years, competed in the State Cern Judging Contest, winning second place. He has consistently exhibited at the County Fair every year. This year won Sweep-stakes over all cern exhibited.

Adult Work.

Fertilizers:

During the five year period there has been a marked change in the analysis and amount of fertilizer used by the farmers. A great deal of emphasis has been placed upon the economy of using high analysis fertilizers. Moving pictures have been used to illustrate the effect of fertilizers and and the sources from which they are derived. In individual cases, recommendations have been made only after careful inquiry with reference to the probable fertility of the soil and the crops grown in that particular field during the past few years, and the crops to be grown.

Lime:

The use of lime has made a remarkable increase during the past five years. More carloads used this than ever before. During the fall of 1924 a careful survey of the county was made. It was found that for a period of years there was an average of five car loads of lime shipped into the county annually. Since that time the County Agent has made the application of lime a major project, with the result that for the past four years there has been an average of 20 carloads annually.

Alfalfa:

With the use of lime has also come the increased sowing of alfalfa. Most of the alfalfa is sowed in the wheat in the spring, as in the case of clover. Early fall preparation and

sowing comes at a time when the farmer is usually busy cutting tobacco, so that the more common practice is to sow in the spring, with usually good results. The uncertainty of the pea and soy bean hay crop has lead many farmers to turn to alfalfa. Lime has been applied and every preparation made for the sowing of alfalfa by twice the number of farmers than have done so in any previous year.

Sweet clover.

Sweet clover is gaining rapidly as a pasture crop, is especially so for pasturing hogs. The acreage will be double that of any previous year. Sweet clover is also sown in the wheat in the spring. This practice is giving very satisfactory results.

Corn;

The major part of the work done with corn has been in securing good seed. Eight farmers planted specially selected Certified seed. The State Corn and Grain Show held in a neighboring county in January, was a means in getting these farmers interested in growing a better type of corn. Severe storms in August, blew down the corn so badly that there will be very little corn good enough for seed.

Wheat;

The demonstrations put on three years ago for treating wheat with copper carbonate to prevent smut, has been very generally adopted throughout the county. Very little wheat was seriously damaged this year. In no case have we heard of there being smut, where the seed was treated as directed.

Rye;

The sowing of rye for cover crop and winter pasture was seriously hindered by excessive rains in September and October followed by continued drought. Many of the farmers who have sheep were induced to make extra effort to get rye sowed for pasture.

MILK STOCK.

There has been a decided increase in the county, in the production of all kinds of live stock during the last eighteen months. This is especially true of sheep and poultry, and in the other lines of cream production and market hogs.

Dairyland:

The farmers have not been encouraged to go into dairying in the sense of large herds of milk cows and whole milk production, but rather small herds of five to ten cows for cream production. Five years ago no one was selling sour cream. Three years ago the County Agent at all public meetings and farm visits, if farm conditions warranted it, urged very strongly the production of surplus cream. A cream receiving station was advocated, with the result that such a station was established in September. The shipments of cream are steadily increasing, and indications are that there will be considerable cream shipped out of the county in 1929. The statistice gathered from farmers who have been delivering cream to another county have been used in chart form at eight public meetings in December, also exhibited at the County Fair. As a result of this publicity several farmers have indicated their intentions to sell cream in the near future.

C R E A M P R O D U C T I O N .

Herd No.	Cows	Calves	Hogs	Cream sold	Income total	Feeds bought	Income for farms
1	12	\$270.00	\$180.00	\$665.90	\$1315.90	\$438.00	\$877.90
2	12	185.00	375.00	898.02	1425.02	290.00	1225.02
3	5	65.00	96.00	658.90	658.90	57.00	601.90

Sheep:

The sheep production has steadily increased during the past five years, so that it has almost doubled both in number of sheep and number of fleeces. Over 60% of the farmers are breeding for stomach worms. At all public meetings for the last three years, the advantages of raising sheep have been presented. Moving plots have been used to illustrate the management of sheep at fifteen meetings. Statistice gathered from a number of farmers have been used in chart form at fifteen meetings and at the County Fair and private interviews. From remarks that have been made the indications are that the increase in the number of sheep in the county will be more rapid than in the past five years.

RECORDS of LAMB PRODUCTION PER SHEP.

Flock No.	No. ewes	Lambs sold		Wool sold		Lambs retained	Cash returns per ewe.	Estimated returns per ewe.	
		No.	Value	Lbs.	Value				
1	12	17	\$162.75	95	\$36.10	0	\$16.50	\$16.50	
2	36	35	250.00	148	155.20	8	11.28	15.28	
3	16	8	85.00	74	21.12	9	6.19	11.82	
4	7	5	85.00	43	25.00	3	10.14	15.00

10	25	20	201.52	170	68.65	5	15.20	17.00	
Totals		200	177	\$1885.02	1051	431.56	48	Ave. 11.08	Ave. 13.46

Lambs on hand valued at \$9.00 in making the estimated return per ewe.

Hogs:

According to careful investigation we believe we can safely say that at no time for ten years have so many fat hogs been shipped out of the county. More hogs were raised on pasture this year than at any previous time, and to good advantage. The most satisfactory pasture was sweet clover. Moving pictures illustrating the life history and prevention of the round worm, McLain method of sanitation, description and treatment of hog cholera were used at twenty public meetings.

Poultry:

In no line has the county made as much progress as in the production of eggs. Five years ago there was not a single flock of 100 hens. It was universally believed that there is no money in poultry. Last year there was one flock of over 400, and a few of over 100. This year there are four flocks of 500, five flocks of 250 to 300 and numerous smaller flocks that are being properly housed and fed. Several of the men who have turned to poultry have been successful tobacco raisers, but they have read the signs of the times and are dividing their interests with splendid success. Moving pictures have been used at 15 meetings illustrating the methods of culling, poultry houses, embryology of the egg, prevention and treatment of lice, and marketing eggs. The following charts have been used at 11 public meetings, at the County Fair and personal interviews. The indications are that in another year there will be double the number of flocks of over 100 birds.

COOPERATIVE EXTENSION WORK IN AGRICULTURE AND HOME ECONOMICS

U. S. Department of Agriculture
and State Agricultural Colleges
Cooperating

Extension Service,
Office of Cooperative Extension Work,
Washington, D. C.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Buckingham
Report of J. S. Hamaker County County Agric. Agent.
(Name) (Title)
From Dec. 1 1927 to Nov. 30 1928.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

	MADE / REVIEWED

Approved:

Date _____ State or District Supervisor.

Date _____ State Extension Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. The report to the Washington office should be sent through the State extension office.

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—changes and development.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

<ol style="list-style-type: none"> (a) Soils (b) Farm crops <li style="padding-left: 20px;">(Horticulture) (c) Home gardens <li style="padding-left: 20px;">(Beautification of home grounds) (d) Forestry (e) Rodents, predatory animals, and birds. (f) Animal husbandry <li style="padding-left: 20px;">(Dairy husbandry) <li style="padding-left: 20px;">(Home dairy) (g) Poultry husbandry <li style="padding-left: 20px;">(Home poultry) 	} (Including diseases and insects).
---	-------------------------------------

IV. Program of work, etc.—Continued.

(2) Project activities and results—Continued.

- (i) Agricultural engineering.
- (j) Agricultural engineering—home.
- (k) Agricultural economics, including farm management and marketing.
- (l) Home marketing.
- (m) Foods.
- (n) Nutrition.
- (o) Clothing.
- (p) Home management.
- (q) Home furnishings.
- (r) Home health and sanitation.
- (s) Community activities.
- (t) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phases of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
 - A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonym: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and culling of poultry.
 - A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child-feeding, corn-culture, and orchard-management demonstrations.
7. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
9. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
10. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
11. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.

DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.

17. A **FARMERS' INSTITUTE** is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN **EXTENSION OR MOVABLE SCHOOL** is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. An **EXTENSION SCHOOL** courses differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **RECORDS** consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARM OR HOME PRACTICE ADOPTED** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

GENERAL ACTIVITIES.

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report.

<u>J. H. Lamaker</u>	<u>County Agent</u>	<u>12</u>	
(Name)	(Title)	(Months of service this year)	

2. County association, if any, fostering extension work.

(a) Name <u>Agricultural Advisory Council</u>		<u>1</u>	
(b) Number of members		<u>14</u>	

3. Number of communities in county where extension work should be conducted.

		<u>13</u>	
--	--	-----------	--

4. Number of above communities in which the extension program has been cooperatively worked out by extension agents and people concerned.

			<u>4</u>
--	--	--	----------

5. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program with—

(a) Juniors		<u>11</u>	
(b) Adults		<u>16</u>	

6. Number of clubs carrying on extension work:

(a) Junior		<u>7</u>	
(b) Adult			

7. Membership in above clubs:

(a) Boys'	<u>25</u>	(c) Men	
(b) Girls'	<u>67</u>	(c) Women	

8. Number of club members completing:

(a) Boys'	<u>65</u>	(c) Men	
(b) Girls'	<u>48</u>	(c) Women	

9. Number of members in Junior club work for four or more years:

(a) Boys		<u>14</u>	
(b) Girls		<u>7</u>	

*Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the project enrollments reported on pages 3 and 5, less any duplications due to the same boy or girl carrying on two or more distinct-master lines of work.

**Include those boys and girls enrolled in club work as reported under 6 (a) and 6 (b) who have finished the work undertaken at such portion of it as it was planned to finish during the report year.

GENERAL ACTIVITIES—Continued.

9. Number of junior teams trained	(a) Judging	1	9
	(b) Demonstration		
10. Number entering college this year who may have been club members		6	10
11. Total number of farm visits ¹ made in conducting extension work		1047	11
12. Number of different farms visited		388	12
13. Total number of home ² visits made in conducting extension work			13
14. Number of different homes visited			14
15. Number of calls ³ relating to extension work	(a) Office	220	15
	(b) Telephone	240	
16. Number of days agent spent in office		69	16
17. Number of days agent spent in field		241	17
17a. Number of news articles prepared for press ⁴		28	17a
18. Number of individual letters written		521	18
18a. Number of bulletins distributed		120	18a
19. Number of fairs at which extension exhibits were made	(a) Community		19
	(b) County	1	
20. Training meetings held for local leaders	(a) Junior work	(1) Number	20
		(2) Leaders in attendance	
	(b) Adult work	(1) Number	
		(2) Leaders in attendance	
21. Method and result demonstration meetings ⁵ held (do not include meetings reported in number 20)	(a) Number	1	21
	(b) Attendance	26	
22. Farmers' institutes held	(a) Number		22
	(b) Number of sessions		
	(c) Attendance		
23. Extension schools ⁶ and short courses held	(a) Number	1	23
	(b) Attendance	35	
24. Encampments held	(1) Number		24
	(2) Attendance by club members	(a) Boys	
	(3) Total attendance	(b) Girls	
	(b) Farm women		
25. Other extension meetings attended and not previously reported	(1) Number		25
	(2) Attendance by club members		
26. Number of meetings at which were shown	(a) Number	101	26
	(b) Motion pictures	4394	
	(c) Charts	4	

¹ Do not count the same visit as both a farm visit and a home visit.

² See definition on page 2.

⁴ Includes county and farm press, agricultural journals, and home magazines. Do not count items relating to article of meetings only.

7

FARM-DEMONSTRATION WORK.

SOILS¹

Report only this year's extension activities and results that are supported by records.

- | | | | |
|---|---|-----|-----|
| 45. Number of method demonstrations given. (See definition 6, page 2.) | 3 | 49 | 45 |
| 46. Number of result demonstrations started or under way. (See definition 6, page 2.) | | 105 | 46 |
| 47. Number of result demonstrations completed or carried through the year. | | 42 | 47 |
| 48. Number of acres involved in these completed demonstrations. | | 60 | 48 |
| 49. Number of farms adopting improved practices in the use of commercial fertilizer this year. | | 40 | 49 |
| 50. Tons involved in preceding question. | | 37 | 50 |
| 51. Number of farms taking better care of farm manures this year. | | 18 | 51 |
| 52. Number of farms using lime or limestone for the first time. | | 127 | 52 |
| 53. Tons of lime or limestone so used. | | 780 | 53 |
| 54. Number of farms plowing under cover or other green manure crops for the first time. | | 65 | 54 |
| 55. Acres of cover and green manure crops so plowed under. | | 250 | 55 |
| 55½. Number of farms adopting other improved soils practices this year. (Specify below.) | | | 55½ |
| 56. Total number of different farms adopting improved practices, relative to the soils work reported on this page. (Include questions 47, 49, 51, 52, 54, and 55½ less duplications.) | | 108 | 56 |
| | | 127 | |

¹ For drainage, irrigation, land clearing, and leveling see "Agricultural Engineering," page 16.

HORTICULTURE.

Report only this year's extension activities and results that are supported by records.

Item.	(6)	(8)	(9)	(10)	(11)	(12)	
	Tree fruits.	Bush and small fruits.	Grapes.	Market gardening, truck and raising crops.	Home gardens.	Specialization of home gardens.	
100. Number of method demonstrations given.	14				12	5	100
101. Number of adult result demonstrations started or under way.	12				12	5	101
102. Number of adult result demonstrations completed or carried through the year.	10				9	4	102
103. Acres involved in those completed demonstrations.					X X X	X X X	103
104. Increased yield per acre on demonstrations.	bu.	qts.	lbs.	bu.	X X X	X X X	104
105. Number of junior clubs ¹ .							105
106. Number of members enrolled.	(1) Boys				6		106
	(2) Girls				20		
107. Number of members completing.	(1) Boys				5		107
	(2) Girls				19		
108. Number of acres grown by junior club members completing.					6 ⁵	X X X	108
109. Total yield of crops grown by junior club members.	bu.	qts.	lbs.	bu.	bu.	X X X	109
110. Number of farms planting improved stock or seed for the first time.						5	110
111. Number of farms pruning for the first time.	8	?					111
112. Number of units involved in preceding question.	1500 trees	12 acres	acres	X X X	X X X	X X X	112
113. Number of farms spraying or otherwise treating for diseases and insect pests for the first time.	8					2	113
114. Number of units involved in preceding question.	acres	acres	acres	acres	X X X	X X X	114
114 ¹ . Number of farms adopting other improved practices for the first time. (Specify below.)							114 ¹
115. Number of farms adopting improved practices relative to the horticultural work reported on this page. (Include questions 102, 107, 110, 111, 113, and 114 ¹ less duplications.)	12				17	5	115

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report an enrollment and completion.

FORESTRY.

Report only this year's extension activities and results that are supported by records.

116. Number of method demonstrations given	_____	116
117. Number of adult result demonstrations started or under way	_____	117
118. Number of adult result demonstrations completed or carried through the year	_____	118
119. Number of acres included in these completed demonstrations	_____	119
120. Number of junior clubs ¹	_____	120
121. Number of members enrolled	{ (a) Boys _____ (b) Girls _____	} 121
122. Number of members completing	{ (a) Boys _____ (b) Girls _____	
123. Number of acres handled by junior club members	_____	123
124. Number of forest or woodland plantations established this year	_____	124
125. Acres involved in preceding question	_____	125
126. Number of farms selected in forest management this year	_____	126
127. Acres involved in preceding question	_____	127
128. Number of farms planting windbreaks this year	_____	128
129. Number of farms attempting to control white-pine blister rust for first time	_____	129
130. Number of acres involved in preceding question	_____	130
130 $\frac{1}{2}$. Number of farms adopting other improved practices for the first time. (Specify below.)	_____	130 $\frac{1}{2}$
131. Total number of farms adopting improved practices relative to the forestry work reported on this page. (Include questions 118, 122, 124, 126, 128, 129, and 130 $\frac{1}{2}$ less duplications.)	_____	131

RODENTS AND MISCELLANEOUS² INSECT AND ANIMAL PESTS.

Report only this year's extension activities and results that are supported by records.

Item	Rodents				Other animal pests ³				Insects				
	(a)	(b)	(c)	(d)	(a)	(b)	(c)	(d)	(a)	(b)	(c)	(d)	
132. Number of method demonstrations given													132
133. Number of result demonstrations started or under way													133
134. Number of such demonstrations completed or carried through the year													134
135. Number of acres in those completed demonstrations													135
136. Total number of farms cooperating in control measures this year													136
137. Number of acres involved in preceding question													137

¹ Clubs which do not organize clubs as a project body should not report on this question but should report on enrollment and completion. 8-51a² Do not include work reported under "Crop" and "Livestock" headings.³ Includes by name.

LIVESTOCK.

Report only this year's extension activities and results that are supported by records.

Item.	(1) Dairy units.	(2) Beef units.	(3) Swine.	(4) Hens.	(5) Poultry.	(6) Other.
128. Number of method demonstrations given	9		6	18	18	128
129. Number of adult result demonstrations started or under way	9		4	15	12	129
130. Number of adult result demonstrations completed or carried through the year	9		4	14	12	140
141. Number of animals involved in these completed demonstrations	45		35	265	3500	141
142. Total profit or saving on demonstrations						142
143. Number of junior clubs ¹						143
144. Number of members enrolled	(1) Boys	2	23	2	19	144
	(2) Girls		7		34	
145. Number of members completing	(1) Boys	2	21	2	19	145
	(2) Girls		4		27	
146. Number of animals involved in junior club work completed	2		78	11	1466	146
147. Number of farms assisted in obtaining purebred sires this year	1		2	5	15	147
148. Number of farms assisted in obtaining high-grade or purebred females this year				8	10	148
149. Number of farms culling herds or flocks for the first time				14	26	149
150. Number of animals in such herds or flocks				260	5000	150
151. Number of animals discarded				25	350	151
152. Number of bull, boar, ram, or stallion circles, clubs, or associations organized during the year					X X X	152
153. Num' or of members in preceding circles, clubs, etc.					X X X	153
154. Number of breed associations or clubs organized during the year						154
155. Number of members in these associations or clubs						155

¹ Indicate by name.² States which do not organize clubs on a project basis should not report on this question but should report on enrollment and completion.

4-3148

AGRICULTURAL ENGINEERING.

Report only this year's extension activities and results that are supported by records.

167. Number of method demonstrations given.....	2	167
168. Number of result demonstrations started or under way.....	3	168
169. Number of result demonstrations completed or carried through the year.....	3	169
170. Number of farms installing drainage systems this year.....		170
171. Acres drained.....		171
172. Number of farms installing irrigation systems this year.....		172
173. Acres irrigated.....		173
174. Number of farms constructing terraces or soil dams this year.....	3	174
175. Acres on which soil erosion was so prevented.....	20	175
176. Number of dwellings constructed this year according to plans furnished.....		176
177. Number of dwellings remodeled this year according to plans furnished.....		177
178. Number of sewage-disposal systems installed this year according to plans furnished.....	1	178
179. Number of water systems installed this year according to plans furnished.....	2	179
180. Number of heating systems installed this year according to plans furnished.....		180
181. Number of lighting systems installed this year according to plans furnished.....		181
181½. Number of farms following suggestions on maintenance and repair of machinery.....		181½
182½. Number of farms employing better types of machinery recommended by extension agent.....		182½
	(a) Cultivators.....	
	(b) Plows.....	
181½. Number of machines involved in question 181½.....	(c) Tractors and gas engines.....	181½
	(d) Sprayers.....	
	(e) Harvesters and threshers.....	
	(f) Other.....	
182. Number of farms on which buildings other than dwellings were constructed or remodeled this year according to plans furnished.....		182
	(a) Barns.....	
	(b) Hog houses.....	1
183. Number of buildings involved in preceding question.....	(c) Poultry houses.....	12
	(d) Silos.....	
	(e) Other.....	
184. Number of farms clearing land of stumps or boulders this year.....		184
185. Acres of land so cleared.....		185
185½. Number of farms adopting other improved practices for the first time. (Specify below.).....		185½
186. Total number of different farms adopting improved practices relative to the agricultural engineering work reported on this page. (Include questions 169, 170, 172, 174, 176, 177, 178, 179, 180, 181, 181½, 182½, 182, 184, and 185½ less duplications.).....	3	186

AGRICULTURAL ECONOMICS—Continued.

Report only this year's extension activities and results that are supported by records.

205. List below this year's results in connection with the cooperative-marketing associations in the county pre-205
viously organized and with which the extension service consulted or advised.

(a) Name of association or group.	(b) Number of members.	Supplies and products handled.	Supplies produced.		Products sold.	
			(c) Value.	(d) Barrel.	(e) Value.	(f) Packs.
			\$	\$	\$	\$
TOTAL						

206. Total number of different farms adopting improved marketing practices (include entries for questions
204 (b) and 205 (b) less duplications plus other farms not in cooperative associations) 204

COMMUNITY ACTIVITIES AND MISCELLANEOUS.

Report only this year's extension activities and results that are supported by records.

Use this space to include work on any other agricultural project not included in the preceding pages, such as bee-keeping, and similar work, i. e., any other information that can be reported statistically and that will help to give a complete account of the year's work.

Item.			207
	(a) Boys.	(b) Girls.	
206. Number of method demonstrations given.			206
207. Number of adult result demonstrations started or under way.			207
208. Number of result demonstrations completed or carried through the year.			208
209. Number of units in these completed demonstrations.			209
210. Number of junior clubs ¹ .			210
211. Number of members enrolled.	(1) Boys		211
	(2) Girls		
212. Number of members completing.	(1) Boys		212
	(2) Girls		
213. Number of units involved in junior club work completed.			213
214. Total number of different farms adopting improved practices relative to the miscellaneous work reported on this page.			214
[Use space below to include other important data relating to miscellaneous work.]			

¹ Include home-own entries.² Clubs which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME-DEMONSTRATION WORK.

FOODS.

Report only this year's extension activities and results that are supported by records.

FOOD PREPARATION.

215. Number of project clubs or groups ^a	(a) Women.....	215
	(b) Juniors.....	
216. Number of members enrolled in food preparation.....	(a) Women.....	216
	(b) Girls.....	
	(c) Boys.....	
217. Number of members completing ^a	(a) Women.....	217
	(b) Girls.....	
	(c) Boys.....	
218. Number of method demonstrations given. (See definition 6, page 2.).....		218
219. Number of result demonstrations started or under way. (See definition 6, page 2.).....	(a) Women.....	219
	(b) Girls.....	
	(c) Boys.....	
220. Number of result demonstrations completed or carried through the year.....	(a) Women.....	220
	(b) Girls.....	
	(c) Boys.....	
221. Number of individuals adopting improved practices in bread making this year.....	(a) Women.....	221
	(b) Girls.....	
	(c) Boys.....	
222. Number of individuals adopting improved practices in meat cookery this year.....	(a) Women.....	222
	(b) Girls.....	
	(c) Boys.....	
223. Number of individuals adopting improved practices in vegetable cookery this year.....	(a) Women.....	223
	(b) Girls.....	
	(c) Boys.....	
224. Number of individuals adopting improved practices in preparation of dairy-product dishes this year.....	(a) Women.....	224
	(b) Girls.....	
	(c) Boys.....	
225. Number of individuals adopting improved practices in meal preparation and service this year.....	(a) Women.....	225
	(b) Girls.....	
	(c) Boys.....	
226. Number of homes budgeting the family food supply for the first time.....		226
227. Total number of different homes adopting improved practices relative to the food-preparation work reported on this page. (Include entries for questions 220, 221, 222, 223, 224, 225, and 226 less duplications.).....		227

[Use space below to include other important data relating to food preparation.]

^aStates which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.^bInclude those who have finished the work undertaken, or such portion of it as it was planned to finish during the report year.

FOODS—Continued.

Report only this year's extension activities and results that are supported by records.

FOOD PRESERVATION.

226. Number of project clubs or groups ¹	(a) Women.....	} 226
	(b) Juniors.....	
228. Number of members enrolled in food preservation.....	(a) Women.....	} 228
	(b) Girls.....	
	(c) Boys.....	
230. Number of members completing.....	(a) Women.....	} 230
	(b) Girls.....	
	(c) Boys.....	
231. Number of method demonstrations given.....		231
232. Number of result demonstrations started or under way.....	(a) Women.....	} 232
	(b) Girls.....	
	(c) Boys.....	
233. Number of result demonstrations completed or carried through the year.....	(a) Women.....	} 233
	(b) Girls.....	
	(c) Boys.....	
234. Number of individuals adopting improved practices in preserving fruits and vegetables this year.....	(a) Women.....	} 234
	(b) Girls.....	
	(c) Boys.....	
235. Number of individuals adopting improved practices in preserving meats and fish this year.....	(a) Women.....	} 235
	(b) Girls.....	
	(c) Boys.....	
236. Number of homes providing better food storage for the first time.....		236
237. Total number of different homes adopting improved practices relative to the food-preservation work reported on this page.....		237
238. List below amount of food preserved by club members completing:.....		238

Kind of food.	(1) Women	(2) Girls	(3) Boys
(a) Fruits and vegetables canned.....	quarts.....		
(b) Meats and fish canned.....	quarts.....		
(c) Jelly and preserves made.....	quarts.....		
(d) Fruit juices made.....	quarts.....		
(e) Pickles made.....	quarts.....		
(f) Fruits and vegetables dried.....	pounds ²		
(g) Meats cured.....	pounds ²		

[Use space below to include other important data relating to food preservation.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.² Pounded product.

NUTRITION.

Report only this year's extension activities and results that are supported by records.

239. Number of project clubs or groups	(a) Women	_____	} 239
	(b) Juniors	_____	
240. Number of members enrolled in nutrition	(a) Women	_____	} 240
	(b) Girls	_____	
	(c) Boys	_____	
241. Number of members completing	(a) Women	_____	} 241
	(b) Girls	_____	
	(c) Boys	_____	
242. Number of method demonstrations given		_____	242
243. Number of result demonstrations started or under way	(a) Women	_____	} 243
	(b) Girls	_____	
	(c) Boys	_____	
244. Number of result demonstrations completed or carried through the year	(a) Women	_____	} 244
	(b) Girls	_____	
	(c) Boys	_____	
245. Number of individuals balancing family meals according to approved methods for the first time	(a) Women	_____	} 245
	(b) Girls	_____	
	(c) Boys	_____	
246. Number of individuals preparing better school lunches for the first time	(a) Women	_____	} 246
	(b) Girls	_____	
	(c) Boys	_____	
247. Number of schools induced to serve a hot dish or school lunch for the first time		_____	247
248. Number of children involved in preceding question		_____	248
249. Number of homes carrying out improved practices in child feeding for the first time		_____	249
250. Number of children involved in preceding question		_____	250
251. Total number of different homes adopting improved practices relative to the nutrition work reported on this page		_____	251

[Use space below to include other important data relating to nutrition.]

* Homes which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

CLOTHING.

Report only this year's extension activities and results that are supported by records.

252. Number of project clubs or groups ¹	(a) Women	252
	(b) Juniors	
253. Number of members enrolled in clothing work.....	(a) Women	253
	(b) Girls	
	(c) Boys	
254. Number of members completing.....	(a) Women	254
	(b) Girls	
	(c) Boys	
255. Number of method demonstrations given.....		255
256. Number of result demonstrations started or under way.....	(a) Women	256
	(b) Girls	
	(c) Boys	
257. Number of result demonstrations completed or carried through the year.....	(a) Women	257
	(b) Girls	
	(c) Boys	
258. Number of individuals adopting improved practices in selection and construction.....	(a) Women	258
	(b) Girls	
	(c) Boys	
259. Number of individuals adopting improved practices in renovation and remodeling.....	(a) Women	259
	(b) Girls	
	(c) Boys	
260. Number of individuals adopting improved practices in millinery.....	(a) Women	260
	(b) Girls	
261. Number of individuals adopting improved practices in costume designing.....	(a) Women	261
	(b) Girls	
262. Number of individuals adopting improved practices in infant wardrobe planning.....	(a) Women	262
	(b) Girls	
263. Number of individuals adopting improved practices in children's wardrobe planning.....	(a) Women	263
	(b) Girls	
264. Number of individuals adopting improved practices in adult wardrobe planning.....	(a) Women	264
	(b) Girls	
265. Total number of different homes adopting improved practices relative to the clothing work reported on this page.....		265
266. Number of dress forms made this year by.....	(a) Women	266
	(b) Girls	
267. Number of dresses and coats made this year by.....	(a) Women	267
	(b) Girls	
268. Number of undergarments made this year by.....	(a) Women	268
	(b) Girls	
269. Number of hats made this year by.....	(a) Women	269
	(b) Girls	

[Use space below to include other important data relating to clothing.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME MANAGEMENT.

Report only this year's extension activities and results that are supported by records.

270. Number of project clubs or groups	(a) Women	270
	(b) Juniors	
271. Number of members enrolled in home management	(a) Women	271
	(b) Girls	
	(c) Boys	
272. Number of members completing	(a) Women	272
	(b) Girls	
	(c) Boys	
273. Number of method demonstrations given		273
274. Number of result demonstrations started or under way	(a) Women	274
	(b) Girls	
275. Number of result demonstrations completed or carried through the year	(a) Women	275
	(b) Girls	
276. Number of individuals following a systematized plan of household work for the first time	(a) Women	276
	(b) Girls	
277. Number of homes obtaining additional labor-saving equipment this year		277
278. Number of kitchens planned and rearranged for convenience this year		278
279. Number of individuals following improved laundry practices for the first time	(a) Women	279
	(b) Girls	
280. Number of individuals making budgets and keeping accounts for the first time	(a) Women	280
	(b) Girls	
281. Total number of different homes adopting improved practices relative to the home-management work reported on this page		281
282. List below the number of labor-saving appliances involved in question 277:		282
(a) Hand washing machines	(f) Kitchen cabinets	
(b) Power washing machines	(g) Electric or gasoline irons	
(c) Fireless cookers	(h) Pressure cookers	
(d) Kitchen sinks	(i) Iceless refrigerators	
(e) Power vacuum cleaners	(j) Other	

[Use space below to include other important data relating to home management.]

* States which do not require clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOUSE FURNISHINGS.

Report only this year's extension activities and results that are supported by records.

283. Number of project clubs or groups ¹	(a) Women	283
	(b) Juniors	
284. Number of members enrolled in house furnishings	(a) Women	284
	(b) Girls	
	(c) Boys	
285. Number of members completing	(a) Women	285
	(b) Girls	
	(c) Boys	
286. Number of method demonstrations given		286
287. Number of result demonstrations started or under way	(a) Women	287
	(b) Girls	
	(c) Boys	
288. Number of result demonstrations completed or carried through the year	(a) Women	288
	(b) Girls	
	(c) Boys	
289. Number of individuals adopting improved practices in selection and arrangement of furnishings this year	(a) Women	289
	(b) Girls	
	(c) Boys	
290. Number of individuals adopting improved practices in the repairing and remodeling of furnishings this year	(a) Women	290
	(b) Girls	
	(c) Boys	
291. Number of individuals adopting improved practices in wall, woodwork, and floor treatment this year	(a) Women	291
	(b) Girls	
	(c) Boys	
292. Number of rooms involved in questions 289, 290, and 291	(a) Bedrooms	292
	(b) Living rooms	
	(c) Dining rooms	
	(d) Other rooms	
293. Total number of different homes adopting improved practices relative to the house-furnishing work reported on this page		293

[Use space below to include other important data relating to house furnishings.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME HEALTH—SANITATION.

Report only this year's extension activities and results that are supported by records.

294. Number of project clubs or groups	(a) Women	_____	} 294
	(b) Juniors	_____	
295. Number of members enrolled in home health and sanitation	(a) Women	_____	} 295
	(b) Girls	_____	
	(c) Boys	_____	
296. Number of members completing	(a) Women	_____	} 296
	(b) Girls	_____	
	(c) Boys	_____	
297. Number of method demonstrations given		_____	297
298. Number of result demonstrations started or under way	(a) Women	_____	} 298
	(b) Girls	_____	
	(c) Boys	_____	
299. Number of result demonstrations completed or carried through the year	(a) Women	_____	} 299
	(b) Girls	_____	
	(c) Boys	_____	

HEALTH.²

300. Number of homes adopting recommended health practices this year		_____	300
301. Number of individuals adopting recommended practices in—			301
(a) Use of health score card	_____	(f) Care of skin and hair	_____
(b) Good posture	_____	(g) Home nursing	_____
(c) Prevention of colds	_____	(h) First aid	_____
(d) Good elimination	_____	(i) _____	_____
(e) Care of teeth	_____	(j) _____	_____
302. Is your health program coordinated with the work of State and county health authorities?	(a) Yes	_____	} 302
