Goochland County, Va. Distribution of Local Agents activities.
The county is divided into communities.

County Organizations.

1. Advisory Board

- (a) Farmers of each community constitute its membership.
- (b) This board helps in making a county plan of work.
- (c) This board meets twice yearly.

2. Community Clubs.

- (a) Farmers and their wives constitute the membership.
- (b) These clubs help in making community plans of work.

3. County Fair Association.

- (a) Local Leaders constitute the membership.
- (b) This association plans and helps to carry on a county fair each year.

4. Tobacco Growers Association.

- (a) Farmers in certain communities constitute its membership.
- (b) This organization is for cooperation of farmers and better prices for tobacco.

5. Boys Clubs.

- (a) Club boys constitute the membership of these.
- (b) Five of these clubs are organized to help carry out plans of work for club boys.

Adult Demonstrations.

Corn.

The average yield of corn made by the adult demonstrators is 80 bushels per acre.

Fifty farmers made corn to sell to local markets.

Thirty farmers adopted improved practices relative to the corn work in the county.

Five farmers planted improved seed for the first time.

One farmer who produced sixty bushels of corn on his demonstration plots followed carefully the extension service methods of plowing and manuring the soil, also cultivating and selecting good seed. This farmer said, "I'll make as much corn as I did last year, which was sixty bushels per acre."

4

Wheat.

The average yield of wheat on the demonstration plots is 18 bushels per acre. The highest yields on farms for entire crops are from 50 to 150 bushels for those who followed instructions of the extension service.

Several farmers produced selected seed wheat. They sold an estimated amount of 150 bushels of seed.

Other wheat producers have been benefited by following advice to get rid of smut and wild onions.

To secure fertility on the wheat plots, eight farmers were advised to use large quantities of manure plowed under legumes and some fertilizer and lime.

While talking to a farmer about his wheat plot he said, "Before I learned to use lime and peas on this soil I could not get a crop of anything from it." He made 13 bushels per acre

Wheat.

One demonstrator made 120 bushels of wheat on his six acre plot. He had followed instructions in using lime and sowing peas on his plot before seeding the wheat. Another made 90 bushels on his five acre plot.

Tobacco.

The tobacco crop among the demonstrators will weigh 800 pounds per acre. The average crop for the entire county is 600 pounds per acre.

The following are some reports of sales taken from last year's crop. 4,000 pounds were made on a four acre plot. It was sold for \$400⁰⁰. \$2,100⁰⁰ worth was sold from another plot.

Extension methods of cultivation were followed for the production of this crop on 10 farms

6.
Hay

Cowpeas Clover Alfalfa mixed.
The hay crops on the 20 demonstration plots yielded from $1\frac{1}{2}$ to 2 tons per acre. The average yield on all farms for the entire county is 1 ton per acre. In instances where the other crops failed to get planted, summer hay was sowed on the plots.

The summer cutting of hay was done as early as possible in order that a fall growth might be produced on the clover plots.

Alfalfa was cut three times.

Twenty-six farmers sowed summer legumes for hay. They made on an average of three tons per farm.

Mixed hay crops such as peas and millet, timothy and clover, cane and peas, and soja beans and peas were produced. The average yield on these crops is one ton per acre. One demonstrator who followed instructions made $2\frac{1}{2}$ tons per acre on his three acre plot.

Soil Improvement.

Rye, clover and cow peas were used as soil improvement crops.

On these turned down plots, corn, tobacco and wheat were planted. Little fertilizer was used, therefore the expense to produce the corn and tobacco was cut one-half compared with other plots where the cover crops were absent. Besides the special demonstrations on this project of soil improvement there has been a revival of building the soil with cow peas throughout the county. This legume is sowed in the corn fields at the last cultivation.

Rotation of crops, lime fertilizer and manure are other ways and products used to the best advantage by the extension service methods for soil improvement.

One farmer who is following our methods of soil improvement on his farm said, "The boys and I will make three hundred bushels of corn, for the soil was manured."

Soil Improvement.

8.

Another farmer said, "My boy will make more tobacco than I will again this year although I have in a larger plot than he has. He uses all the manure he can get for his plot."

In cases where the legume crops failed to grow high enough for machine cutting, the farmers were advised to turn them down for green manure crops for wheat.

Mr. G. said "Since this farm extension work has come to me I am making a good living on a few acres and I do not have to work as hard over so many infertile acres as I used to do."

One of the most progressive merchants of the county said "This work you are carrying on is a good thing for it helped the county financially. J. A. W. of Alma sold off \$384.49 worth of farm products last year. He has been following instructions from the extension service for several years. I encouraged him.

to send two of his club boys
off to school. They entered college
in September.

Mr. S. M. said to me, "If the
farmers had taken the same
pains to improve the soil 25
years ago by the use of legumes
and crop rotation as they do
now, they would be 70 % better
off."

Mr. H. said, "Everybody around
here now is improving their
soil by sowing peas."

Mr. S. sold off \$5554.⁰⁰/₁₀₀ worth
of farm products. He has been a
demonstrator for 5 years, and has
twenty acres of soil improved.

Poultry.

The poultry projects of great interest to the women of the county as well as the farmers. In fact they keep all the records of their poultry products.

Eleven demonstrators worked for standardization of flocks.

Five flocks were culled for better breeds and for larger egg production. Four crescite oil demonstrations were given to rid houses of lice and mites.

Four modern sanitary poultry houses were built. ~~with~~

Mr. A. J. of Chapel said to me "I am very much pleased with my pure bred Plymouth Rock Cochin. I purchased. I shall not keep any other

kind on my farm but the Plymouth

Poultry.

11

Rock breeds. I get better prices for them than I can for mangrels."

One demonstrator sold \$71.88 of poultry and \$56.87 of eggs. Another demonstrator said "I sold \$100⁰⁰ worth of poultry products in two months. Another sold off \$197.10 worth of poultry products. Oyster shell and slaked lime were advised by the extension service to several who complained of hens eating eggs. Ratibon for young chicks was also given together with advice for poultry diseases among both young and old chickens.

Mr. G. F. said to me "Since you built me a sanitary poultry house my birds have been very healthy. I must say that it is due to the sanitary house, all farmers should have one."

Family Cow.

Efforts have been put forth to produce better breeds of cows.

Two breeding centers have been established with two pure bred sires. Other farmers have obtained high grade cows.

One farmer sold off \$10000 worth of butter.

Better pastures and housing conditions for cows are being encouraged through talks, bulletins and demonstrations.

Hogs.

Two pure bred Poland China boars were purchased for the purpose of establishing two breeding centers. Several pure bred and high grade females are also making good records for breeding purposes. Fifteen pigs is one of the largest litters of pigs produced in the fall.

One farmer sold off \$92.99 worth of meat from last year's killing.

Other farmers received instructions on pasturing and feeding. One hog weighed 450 lbs. and another 300 lbs. when killed.

Gardening.

Farmers and farm women were benefited by the extension service through bulletins, talks and demonstrations on this project. They were encouraged to can dry, and put up root vegetables in large quantities in order that these would help to make up for the shortage of some of the farm products. As high as twenty varieties of vegetables were grown on some farms.

Home Improvement.

Social leaders are of great influence in promoting this phase of the work. In many instances they put over different kinds of improvement in their own homes that are copied by the community such as painting, whitewashing, beautifying yards, repairing, construction of outbuildings and digging of wells. One outstanding farmer who has been improving his homestead is ^{Wendell} G. H. Wickens. The

extension service has assisted
him in building a new poultry
house and a new privy. The
following design will illustrate
the model on which the privy
is built.

Activities and Results of Organizations

Hampton State Farmers conference.

I attended the Hampton Farmers conference. It was really worth while. Mr. J. R. Hutchison, State Director delivered an excellent address on "Cooperative Marketing", which gave inspiration to all agents and farmers.

A demonstration was given by Mr. F. S. Gammack on "The care of young chicks" another was given by Fore G. C. Ferrell on "Hog inoculation" which was very interesting and valuable. Mrs. M. M. Davis spoke on the "Problems confronting the Farm Women of To-day." Her address was full of interesting facts on the subject. Mr. Warren H. Wilson spoke on "Out of the soil we make Men." This talk was a schooling within itself. It gave food for thought. Mr. J. B. Pierce gave instructions on "The County Program of Work for Agents."

The agents and farmers returned

to their homes with new ideas and a greater inspiration to put things over on the farm and in the house.

Advisory Board Meeting

The Advisory Board meets in the Spring and in the fall, to plan extension work, to appropriate money for the extension work and to make plans for the fair and other meetings.

Outstanding examples of the extension service work is also discussed among the farmers. They tell in detail how they follow the extension service methods and give the results produced by so doing. An example of this phase of the meeting is as follows.

Said a farmer "The extension service has helped my community by advising the use of lime on sour soils. We are being benefited by a former purchase of this product and expect to get more."

Community Meetings.

These meetings were held for the purpose of planning work for communities. Local leaders are appointed by the community to conduct the meetings with the assistance of the agents. Plans of work for next year were made out and the work started on wheat plots winter cover-crops, and fall plowing.

County Fair.

Held the County Fair in October at the County Training School. Three hundred people attended. Secured the cooperation of the county preachers and teachers as well as the adult and junior agricultural workers. Among those who made addresses were Rev. J. W. Ross who is principal of the Second Union School. Rev. P. J. Morris of Powhatan county, and Rev. W. A. Banks of Manakin. Teachers who gave addresses

were Mr. Matt Jackson, Mrs. Mary Clark and Miss Fussy Whitlock. These speakers encouraged the agricultural workers to make the fair the best in the state, by producing still higher grades of farm products.

There were 232 entries. The club boys exhibited 40 of these. Among the exhibits were hogs, pigs, chickens, farm products, quilts, sawing, sewing and flowers.

Summary of Adult Demonstrations.

<u>Goal</u>	<u>Results</u>
10 - corn (to increase yield)	10 - completed
4 - tobacco (to increase yield)	4 - "
<u>Small Grains</u>	
10 - Wheat (to increase yield)	10 - "

5 - cow peas to be turned down	5 - " "
5 clover " " "	7 - " "
<u>Cooperative Buying</u>	
1 car load of fertilizer	2 car loads purchased
1 car load of lime	none purchased.

Junior Demonstrations.

Corn.

The extension service work among the 45 corn club boys of the county is the main cause of the yield on their plots this year. To begin their work the boys in all sections of the county had good seed produced from the last year's crop, and it was carefully selected during the fall. The selected varieties planted are Casey's Pure Bred, Boone County and White and Yellow Dent. On their acre plots they could carry out very carefully the work with seed bed preparation and cultivation. In addition to these the boys had book lessons on corn production at their club meetings taken from the bulletin called "Twenty Lessons on Corn Production" which were distributed and studied. On some plots the yield is 50 bushels per acre. The estimated average yield is 32 bushels per acre. Some of the boys won prizes

at the state fair on corn.

An outstanding corn club boy is Alfred Grinnell. He produced the rate of 50 bushels per acre. The seed bed was well manured, selected seed was planted and three flat cultivations were given.

Pig.

There are two pig club boys that have their pigs weighing around 250 pounds. Instructions were given them on how to feed pigs for quick growth. One of these pigs took the first prize at the county fair.

24
Potatoes.

Ten club boys planted potatoes. The average yield on these plots is 45 bushels per acre. Both white potatoes and sweet potatoes were grown.

Four boys won prizes at the State Fair on potatoes.

Tobacco.

Three club boys made an average yield of 700 pounds of tobacco per acre.

One club boy who made a special effort to produce all he could on his plot secured a soil rich in nitrogen from last year's planting of a legume crop. He manured it heavily and used a high grade of fertilizer. He plowed the soil well. His yield will be 875 pounds per acre. "I'll bank some of my money," said he.

Club Boys' Meetings.

The annual Boys' Outing was held at the county Training School in July. An interesting program was rendered by the boys. Songs and games were enjoyed by all. A father of two club boys gave a very helpful talk to the groups. He said, "Your teacher is telling you just what you should do boys.

Learn to work and save your money."

Dinner was served by the girls.

A report of the boys' work was given, of which the following are some of the items of it.

\$450 amount banked by boys during 1923

900 bushels of corn produced

\$16 amount won in prizes at the state fair.

2 boys will enter college this fall

3 girls will enter high school.

1 boy will enter high school.

note - (All six of these are in school.)

Boys and Girls Short Course.

A delegate was sent to the Girls and Boys Short Course at Hampton Institute. The group was entertained by ~~Mr. C. G. Purcell of Blackburg~~ ~~who was State Boys club agent.~~ Mr. J. D. Purcell, Field agent of the Negro Extension Service and Miss H. J. Hughes, State Girls club agent of Blackburg, and others.

Reports were given by county delegates.

The boys were given a corn judging contest. They visited the poultry plant and Shellbanks Farm. They were given instructions on pig raising and soil improvement.

Club Meetings.

Thirteen Boys' club meetings attended for the purpose of planning project work and to discuss the following topics, seed bed preparation, how to save money by banking it, how

to select seed corn, methods of
cultivating plots and judging
corn.

The study of "Twenty Lessons
on Corn Production" was also
taken up in these meetings.
Songs, yellows and reports were
enjoyed.

Summary of Junior Demonstrations.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Goochland
Report of P. M. Bradley County Local County Agent
(Name)
From December 1, 1923 to November 30, 1924
(Year)

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

NEGRO EXTENSION
COUNTY AGENT WORK

Approved:

Date Dec. 16, 1924

John L. Charity
County District Supervisor

Date _____

State Extension Director

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—changes and development.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

(a) Soils	}	(including diseases and insects).
(b) Farm crops		
(c) Horticulture	}	(including diseases and insects).
(d) Home gardens

- (s) Home furnishings.
- (t) Home health and sanitation.
- (u) Community activities.
- (v) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMUNITY, for the purpose of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
 - A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonym: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and calling of poultry.
 - A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child-feeding, corn-culture, and orchard-management demonstrations.
7. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
9. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
10. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
11. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economic information, as a result of which some definite assistance or information is given.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.

DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.

17. A **FARMERS' INSTITUTE** is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN **EXTENSION OR MOVABLE SCHOOL** is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. AN **EXTENSION SUMMER COURSE** differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **RECORDS** consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARM OR HOME PRACTICE ADOPTED** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

GENERAL ACTIVITIES.

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report.

G. W. Bradley (Name) Local Agent (Title) (Duration of service this year) 12 months

2. Number of communities in county where extension work should be conducted 15
3. Number of communities in which the extension program has been cooperatively worked out by extension agents and people concerned 12
4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program with—

[Use space below to include other important data.]

¹ Do not count the same visit as both a farm visit and a home visit.² See definition on page 2.

PROGRAM SUMMARY.

List below information on each project of the program of work for the year. If an assistant agent has been employed during the year, include his or her time with that of the agent. This page should not be filled out until the questions on the following pages have been answered.

Title of project.	Number of extension-participating.	Number of local leaders meeting.	Days specialists helped.	Days agent devoted to project.	Number of home demonstrations completed or started through the year. ¹	Meetings of rural demonstration.		Method-demonstration meetings.		Other meetings in relation to projects.		Number of different farms or homes adopting improved practices. ²

(a) Boys						
(b) Girls			—			
146. Number of animals involved in junior club work completed			2			
147. Number of farms assisted in obtaining purebred sires this year			2			
148. Number of farms assisted in obtaining high-grade or purebred females this year			2		2	
149. Number of farms culling herds or flocks for the first time					4	
150. Number of animals in such herds or flocks						
151. Number of animals discarded						
152. Number of stallions, bull, ram, or boar circles, clubs, or associations organized during the year						
153. Number of members in preceding circles, clubs, etc.						
154. Number of breed associations or clubs organized during the year			2			
155. Number of members in these associations or clubs						

* Indicate by name.

* Clubs which do not organize clubs on a project basis should not report on this question but should report on enrollment and completion.

8-4124

RURAL ENGINEERING.

Report only this year's extension activities and results that are supported by records.

167. Number of method demonstrations given.....	6	167
168. Number of result demonstrations started or under way.....	-	168
169. Number of result demonstrations completed or carried through the year.....	-	169
170. Number of farms installing drainage systems this year.....	-	170
171. Acres drained.....	-	171
172. Number of farms installing irrigation systems this year.....	-	172
173. Acres irrigated.....	-	173
174. Number of farms constructing terraces or soil dams this year.....	-	174
175. Acres on which soil erosion was so prevented.....	-	175
176. Number of dwellings constructed this year according to plans furnished.....	-	176
177. Number of dwellings remodeled this year according to plans furnished.....	-	177
178. Number of sewage-disposal systems installed this year according to plans furnished.....	-	178
179. Number of water systems installed this year according to plans furnished.....	-	179
180. Number of heating systems installed this year according to plans furnished.....	-	180
181. Number of lighting systems installed this year according to plans furnished.....	-	181
182. Number of farms on which buildings other than dwellings were constructed or remodeled this year according to plans furnished.....	5	182
	(a) Barns.....	-
	(b) Hog houses.....	-
183. Number of buildings involved in preceding question.....	(c) Poultry houses.....	4
	(d) Silos.....	2
	(e) Other.....	-
184. Number of farms clearing land of stumps or boulders this year.....	-	184
185. Acres of land so cleared.....	-	185
186. Total number of different farms adopting improved practices relative to the rural-engineering work reported on this page.....	5	186

[Use space below to include other important data relating to rural engineering.]

AGRICULTURAL ECONOMICS

Report only this year's extension activities and results that are supported by records.

FARM MANAGEMENT.

187. Number of method demonstrations given	_____	187
188. Number of farm-account books distributed this year	_____	188
189. Number of farmers keeping records in such account books throughout the year	_____	189
190. Number of farmers assisted in summarizing and interpreting their accounts	_____	190
191. Number of farmers making changes in their business as result of keeping accounts	_____	191
192. Number of other farmers adopting cropping, livestock, or complete farming systems this year according to recommendations	_____	192
193. Number of junior farm-account clubs ¹	_____	193
194. Number of members enrolled	(a) Boys _____	194
	(b) Girls _____	
195. Number of members completing	(a) Boys _____	195
	(b) Girls _____	
196. Number of farmers advised relative to leases this year	_____	196
197. Number of farm-management and farm-account schools held this year	_____	197
198. Number of farmers assisted in keeping cost-of-production records this year	_____	198
199. Total number of different farms adopting improved practices relative to the farm-management work reported on this page	_____	199

CREDIT.

200. Number of farm-loan or other credit associations organized this year with assistance of extension service	_____	200
201. Membership in above associations	_____	201
202. Number of other farmers assisted in obtaining credit	_____	202

MARKETING.

203. Number of method demonstrations given	_____	203
204. List below the cooperative-marketing associations organized during this year upon suggestion or with counsel of the extension service.	_____	204

20	01	Supplies and products handled.	Supplies purchased.		Products sold.

266. Number of dress forms made this year by.....	(a) Women.....	266
	(b) Girls.....	
267. Number of dresses and coats made this year by.....	(a) Women.....	267
	(b) Girls.....	
268. Number of undergarments made this year by.....	(a) Women.....	268
	(b) Girls.....	
269. Number of hats made this year by.....	(a) Women.....	269
	(b) Girls.....	

[Use space below to include other important data relating to clothing.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME MANAGEMENT.

Report only this year's extension activities and results that are supported by records.

270. Number of project clubs or groups	(a) Women	270
	(b) Juniors	
271. Number of members enrolled in home management	(a) Women	271
	(b) Girls	
	(c) Boys	
272. Number of members completing	(a) Women	272
	(b) Girls	
	(c) Boys	
273. Number of method demonstrations given		273
274. Number of result demonstrations started or under way	(a) Women	274
	(b) Girls	
275. Number of result demonstrations completed or carried through the year	(a) Women	275
	(b) Girls	
276. Number of individuals following a systematized plan of household work for the first time	(a) Women	276
	(b) Girls	
277. Number of homes obtaining additional labor-saving equipment this year		277
278. Number of kitchens planned and rearranged for convenience this year		278
279. Number of individuals following improved laundry practices for the first time	(a) Women	279
	(b) Girls	
280. Number of individuals making budgets and keeping accounts for the first time	(a) Women	280
	(b) Girls	
281. Total number of different homes adopting improved practices relative to the home-management work reported on this page		281
282. List below the number of labor-saving appliances involved in question 277:		282
(a) Hand washing machines	(f) Kitchen cabinets	
(b) Power washing machines	(g) Electric or gasoline irons	
(c) Fireless cookers	(h)	
(d) Kitchen sinks	(i)	
(e) Power vacuum cleaners	(j)	

[Use space below to include other important data relating to home management.]

* Clubs which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOUSE FURNISHINGS

Report only this year's extension activities and results that are supported by records.

283. Number of project clubs or groups ¹	(a) Women.....	283
	(b) Juniors.....	
284. Number of members enrolled in house furnishings	(a) Women.....	284
	(b) Girls.....	
	(c) Boys.....	
285. Number of members completing	(a) Women.....	285
	(b) Girls.....	
	(c) Boys.....	
286. Number of method demonstrations given		286
287. Number of result demonstrations started or under way	(a) Women.....	287
	(b) Girls.....	
	(c) Boys.....	
288. Number of result demonstrations completed or carried through the year	(a) Women.....	288
	(b) Girls.....	
	(c) Boys.....	
289. Number of individuals adopting improved practices in selection and arrangement of furnishings this year	(a) Women.....	289
	(b) Girls.....	
	(c) Boys.....	
290. Number of individuals adopting improved practices in the repairing and remodeling of furnishings this year	(a) Women.....	290
	(b) Girls.....	
	(c) Boys.....	
291. Number of individuals adopting improved practices in wall, woodwork, and floor treatment this year	(a) Women.....	291
	(b) Girls.....	
	(c) Boys.....	
292. Number of rooms involved in questions 288, 290, and 291	(a) Bedrooms.....	292
	(b) Living rooms.....	
	(c) Dining rooms.....	
	(d) Other rooms.....	
293. Total number of different homes adopting improved practices relative to the house-furnishing work reported on this page		293

[Use space below to include other important data relating to house furnishings.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME HEALTH—SANITATION.

Report only this year's extension activities and results that are supported by records.

294. Number of project clubs or groups ¹	(a) Women.....	294
	(b) Juniors.....	
295. Number of members enrolled in home health and sanitation.....	(a) Women.....	295
	(b) Girls.....	
	(c) Boys.....	
296. Number of members completing.....	(a) Women.....	296
	(b) Girls.....	
	(c) Boys.....	
297. Number of method demonstrations given.....		297
298. Number of result demonstrations started or under way.....	(a) Women.....	298
	(b) Girls.....	
	(c) Boys.....	
299. Number of result demonstrations completed or carried through the year.....	(a) Women.....	299
	(b) Girls.....	
	(c) Boys.....	

HEALTH²

300. Number of homes adopting recommended health practices this year.....		300
301. Number of individuals adopting recommended practices in—		301
(a) Use of health score card.....	(f) Care of skin and hair.....	
(b) Good posture.....	(g) Home nursing.....	
(c) Prevention of colds.....	* (A) First aid.....	
(d) Good elimination.....	(i).....	
(e) Care of teeth.....	(j).....	

302. Is your health program coordinated with the work of State and county health authorities? ³	(a) Yes.....	302
	(b) No.....	

SANITATION.

303. Number of homes installing sanitary closets or outhouses this year according to plans furnished.....		303
304. Number of homes screened for the first time.....		304
305. Number of homes following other methods of controlling flies, mosquitoes, and other insects for the first time.....		305
306. Total number of different homes adopting improved practices relative to the sanitation work reported on this page.....		306

[Use space below to include other important data relating to home health and sanitation.]

¹ Clubs which do not operate clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

² It is assumed that this work is conducted in cooperation with State and county health authorities.

RURAL ENGINEERING—HOME.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 16.

307. Number of method demonstrations given.....	307
308. Number of result demonstrations started or under way.....	308
309. Number of result demonstrations completed or carried through the year.....	309
310. Number of dwellings constructed this year according to plans furnished.....	310
311. Number of dwellings remodeled this year according to plans furnished.....	311
312. Number of sewage-disposal systems installed this year according to plans furnished.....	312
313. Number of water systems installed this year according to plans furnished.....	313
314. Number of heating systems installed this year according to plans furnished.....	314
315. Number of lighting systems installed this year according to plans furnished.....	315
316. Number of poultry houses constructed this year according to plans furnished.....	316
317. Total number of different homes adopting improved practices relative to the rural-engineering work reported on this page.....	317

[Use space below to include other important data relating to rural engineering.]

BEAUTIFICATION OF HOME GROUNDS.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 12.

318. Number of project clubs or groups.....	(a) Women.....	} 318
	(b) Juniors.....	
319. Number of members enrolled in beautification of home grounds.....	(a) Women.....	} 319
	(b) Girls.....	
	(c) Boys.....	
320. Number of members completing.....	(a) Women.....	} 320
	(b) Girls.....	
	(c) Boys.....	
321. Number of method demonstrations given.....		321
322. Number of result demonstrations started or under way.....	(a) Women.....	} 322
	(b) Girls.....	
	(c) Boys.....	
323. Number of result demonstrations completed or carried through the year.....	(a) Women.....	} 323
	(b) Girls.....	
	(c) Boys.....	
324. Number of home grounds planted this year according to a landscape plan.....		324
325. Number of school and community grounds planted this year according to a landscape plan.....		325
326. Number of homes painted or whitewashed this year as a result of instruction in beautification.....		326
327. Total number of different homes beautifying home grounds this year.....		327

[Use space below to include other important data relating to beautification of home grounds.]

* States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME GARDENS.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 12.

328. Number of project clubs or groups ¹	(a) Women.....	328
	(b) Juniors.....	
329. Number of members enrolled in home gardens.....	(a) Women.....	329
	(b) Girls.....	
	(c) Boys.....	
330. Number of members completing.....	(a) Women.....	330
	(b) Girls.....	
	(c) Boys.....	
331. Number of method demonstrations given.....		331
332. Number of result demonstrations started or under way.....	(a) Women.....	332
	(b) Girls.....	
	(c) Boys.....	
333. Number of result demonstrations completed or carried through the year.....	(a) Women.....	333
	(b) Girls.....	
	(c) Boys.....	
334. Number of gardens involved in result demonstrations.....	(a) Women.....	334
	(b) Girls.....	
	(c) Boys.....	
335. Number of individuals adopting improved practices in growing fruit trees this year.....	(a) Women.....	335
	(b) Girls.....	
	(c) Boys.....	
336. Number of individuals adopting improved practices in growing bush and small fruits this year.....	(a) Women.....	336
	(b) Girls.....	
	(c) Boys.....	
337. Number of individuals adopting improved practices in growing grapes this year.....	(a) Women.....	337
	(b) Girls.....	
	(c) Boys.....	
338. Number of individuals adopting improved practices in growing vegetables this year.....	(a) Women.....	338
	(b) Girls.....	
	(c) Boys.....	
339. Number of individuals saving improved stock or seed for the first time.....	(a) Women.....	339
	(b) Girls.....	
	(c) Boys.....	
340. Number of homes spraying or otherwise treating garden crops for diseases and insect pests for the first time.....		340
341. Number of individuals growing winter gardens for the first time.....	(a) Women.....	341
	(b) Girls.....	
	(c) Boys.....	
342. Total number of different homes adopting improved practices relative to the home-garden work reported on this page.....		342

[Use space below to include other important data relating to home gardens.]

HOME POULTRY.

Report only this year's extension activities and results that are supported by records.
Do not list information which has been previously reported on pages 14 and 15.

343. Number of project clubs or groups	(a) Women	343
	(b) Juniors	
	(c) Women	
344. Number of members enrolled in home poultry	(a) Women	344
	(b) Girls	
	(c) Boys	
345. Number of members completing	(a) Women	345
	(b) Girls	
	(c) Boys	
346. Number of method demonstrations given		346
347. Number of result demonstrations started or under way	(a) Women	347
	(b) Girls	
	(c) Boys	
348. Number of result demonstrations completed or carried through the year	(a) Women	348
	(b) Girls	
	(c) Boys	
349. Number of birds in result demonstrations raised or managed by	(a) Women	349
	(b) Girls	
	(c) Boys	
350. Total profit on result demonstrations conducted by	(a) Women	350
	(b) Girls	
	(c) Boys	
351. Number of individuals culling flocks for the first time	(a) Women	351
	(b) Girls	
	(c) Boys	
352. Number of homes culling flocks for the first time		352
353. Number of birds in these flocks		353
354. Number of birds discarded		354
355. Number of homes feeding better-balanced poultry rations for the first time		355
356. Number of individuals assisted in obtaining standard-breed eggs for hatching this year	(a) Women	356
	(b) Girls	
	(c) Boys	
357. Number of homes assisted in obtaining standard-breed cockerels this year		357
358. Number of individuals adopting improved practices in early hatching and chick rearing this year	(a) Women	358
	(b) Girls	
	(c) Boys	
359. Number of homes directly assisted in increasing the family income this year through poultry		359
360. Number of homes controlling poultry insects for the first time		360
361. Total number of different homes adopting improved practices relative to the home-poultry work reported on this page		361

[Use space below to include other important data relating to home poultry.]

HOME DAIRY.

Report only this year's extension activities and results that are supported by records.
Do not list information which has been previously reported on pages 14 and 18.

362. Number of project clubs or groups	(a) Women	362
	(b) Juniors	
363. Number of members enrolled in home-dairy work	(a) Women	363
	(b) Girls	
	(c) Boys	
364. Number of members completing	(a) Women	364
	(b) Girls	
	(c) Boys	
365. Number of method demonstrations given		365
366. Number of result demonstrations started or under way	(a) Women	366
	(b) Girls	
	(c) Boys	
367. Number of result demonstrations completed or carried through the year	(a) Women	367

	(c) Boys	
368. Number of cows or calves in result demonstrations raised or managed by	(a) Women	368
	(b) Girls	
	(c) Boys	
369. Number of homes feeding better dairy rations for the first time		369
370. Number of homes adopting better practices in the sanitary production and care of milk this year		370
371. Number of homes adopting better practices in butter or cheese making this year		371
372. Number of pounds of butter made		372
373. Number of pounds of cheese made		373
374. Total number of different homes adopting improved practices relative to the home-dairy work reported on this page		374

[Use space below to list other important data relative to home dairying.]

* States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME MARKETING.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on pages 17 and 18.

375. Number of method demonstrations given _____ 375

376. List below the cooperative-marketing associations organized during this year upon suggestion and counsel of the Extension Service. _____ 376

(a) Name of association or group.	(b) Number of members.	Products sold.		Supplies purchased.	
		(c) Value.	(d) Profit.	(e) Value.	(f) Savings.
Curb or bazaar markets.		\$ _____	\$ _____	\$ _____	\$ _____
Egg circles.					
TOTAL.					

377. List below this year's results in connection with the cooperative-marketing associations in the county previously organized and with which the Extension Service counseled or advised. _____ 377

(a) Name of association or group.	(b) Number of members.	Products sold.		Supplies purchased.	
		(c) Value.	(d) Profit.	(e) Value.	(f) Savings.
Curb or bazaar markets.		\$ _____	\$ _____	\$ _____	\$ _____
Egg circles.					
TOTAL.					

378. Number of homes standardizing and grading products for markets: _____ 378

(a) Poultry and poultry products. _____ (d) Fruits and vegetables. _____

(b) Canned goods. _____ (e) _____

(c) Dairy products. _____ (f) _____

[Use space below to list the principal products handled in cooperative-marketing associations reported above.]

MISCELLANEOUS—HOME.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 18.

Use this page to include work on any other home-economics project not included in the preceding pages, such as recreation, basket making, and similar work; i. e., any other information that can be reported statistically and that will help to give a complete account of the year's work.
