ANNUAL NARRATIVE REPORT
ESSEX COUNTY, VIRGINIA
Jan. 1, 1930 to Sept. 30, 1930.
Miss Marian M. Lawrence, Co. Home Dem. Agt.

1 STATUS OF COUNTY EXTENSION ORGANIZATION:

1- Essex County board of supervisors is composed of three members elected from the four magisterial districts of the county, to wit: Central, Coopersia, Nappahannock.

I was sent to Essex County to give a demonstration of home demonstration work. The work in the county was only to cover a period of nine months, working only half time in Essex County and half time in Richmond County. In June my district agent and twelve interested women and I went before the board of supervisors to ask for an appropriation to continue home demonstration work. Again in September, I visited the board to give a report of the work I had accomplished since being in the county and to ask for an appropriation for home demonstration work. As this amount asked for was not included in the county budget the supervisors did not think it was possible to take the responsibility of financing the work at this time. The chairman of the board asked that some representative from the Extension Division be present at the meeting held in March, when the budget is made out for 1930. He felt sure that the amount asked for could be provided for in the budget.

2- Essex County Advisory Board for home demonstration work is composed of eighteen outstanding women for the three magisterial districts. The aim and purpose of the council is to assist and advise the agent in planning and carrying out the work. Meeting the needs of their communities and assisting in meeting them. The officers of the board consist of chairman, secretary, and treasurer and publicity chairman, with a chairman from each district. This group of women were selected by the Board of Supervisors and notified by each board member of their appointment. The first meeting of the board was held in June. The attendance was not large enough to elect officers. The second meeting was held in September, when officers were elected and plans made to continue part of the work which had already been started, and keep demonstration work before the people of the county.

At this meeting women were selected to serve as leaders of home demonstration work from every community in the county. November 15th was set to have a leaders' conference with the food specialist present. A demonstration was given in steam pressure cookery. It was later successfully conducted with twenty-eight leaders present. The advisory board members were extremely interested in demonstration work and will do a great deal toward establishing the work in the county.

3- The women's club of Essex County sponsored demonstration work and a committee was appointed to ask the board of supervisors for an appropriation to continue the work. The Social Service Department bought scales as a request from the home demonstration agent to use in the better food work in the schools in the county. Four pairs of scales were bought and given to the schools.

The agent was invited to the Rotary Club dinner to talk on "Home Demonstration Work". The president of the Rotary offered their support and cooperation in the work.

The superintendent of schools was supporter of home demonstration work and asked his teachers to cooperate with me in the work.

4- PERSONAL REPORT SUMMARY:- Home demonstration work was begun in Essex County March 1, 1939, working only three days a week in Essex County and three in Richmond County. Left September 30, 1939 to take charge of the work in another county. During the period of four and one-half months I made two hundred and thirty-five visits conducting extension work. Number of different homes visited one hundred and sixty-nine. Twenty-five calls and conferences at my office. Eighteen telephone calls. Thirteen days were spent in office work and sixty-nine days spent in the field. Sixty-three news articles were prepared for the press. Two hundred and thirty-three individual letters were written. Ninety-one bulletins distributed. Ninety-six method and result demonstration meetings were held with two thousand eight hundred and twenty in attendance. Ten other extension meetings were held with an attendance of eleven hundred and twenty-eight.

There are nine communities in the county where extension work should be conducted. The extension program has been cooperatively worked out by extension agents and people concerned in eight communities. 3778 miles traveled in conducting extension work. Two hundred and sixteen girls and boys enrolled in twelve clubs with one hundred and ninety-eight completing. One home demonstration club was organized with ten members. From January 1st to February 15th I attended the annual meeting of the home demonstration agents in Blacksburg. At the conclusion of the annual meeting I entered V. P. I. taking a six week's course, offered to all home demonstration agents. Courses we studied were (Public Speaking, Applied Art, Poultry and Marketing). The course was very beneficial and enjoyed.

11. PROJECT ACTIVITIES AND RESULTS:-

1- FOODS:- Seven food preparation demonstrations were given to four groups of women. These demonstrations were attended by large groups of women, who were seemingly interested in goods and learned new and attractive ideas in food preparation. The demonstrations given were Soups, Desserts, Dishes for Social Occasions, Six Breads from one batch of dough; I believe these food demonstrations accomplished a large part toward getting demonstration work before the people of the county.

2- HANDICRAFT:- One home demonstration club with a membership of ten studied basketry and re-seating chairs. Five meetings were devoted to basketry. Two women are ordering their new waterbale and making articles for sale. The women exhibited their baskets and serving trays at the county fair, winning first prize on serving tray and waste paper basket.

3- HOME DEMONSTRATION CLUB:- Only one home demonstration club met

organized in the county with a membership of ten. I was invited to talk before the community league in this community and this club was organized from the result of this talk. This club attended 100 per cent to the food preparation demonstrations at a near by community. The members of this club assisted at the county fair this year. Before the club was organized they had never taken an interest in the fair.

111 GIRLS' WORK:-

1- FOODS:- Better Food Clubs were organized in two schools with eighty-one boys and girls keeping score sheets for three months. Talks were made at the schools on foods we should eat and why. Charts were shown, stories told and health songs learned, weight was taken at beginning of contest and at close. Forty-two members gained from one to five pounds and two from five to ten pounds. Thirty-nine members stopped drinking tea and coffee. A large number of children brought milk in bottles to drink with their lunch. Families having plenty of milk sent some to school for those having no milk. The mothers prepared better school lunches and gave their families a better balanced diet. More fruit and vegetables with less meat.--From the result of the better food work. The children were very much interested in their better food project and kept splendid records. The teachers and parents cooperated well, making it an outstanding project.

2- BREAD:- One bread club was organized with seven members. First demonstration on biscuits and muffins was held in the home of one of the members. Another meeting was held in one of the homes and two members made biscuits and muffins before the club.

3- CLOTHING:- Five clubs were organized with an enrollment of 100 eighty-eight completed the project. Total profit made on project \$24.25. Number of articles and garments made 218, needed 254. Total cleaned and remodeled 325.

4- 4-H CLUB CAMP:- Sixteen club members attended Junction Camp, held for five days in June. The mornings were devoted to instructions in bookkeeping, re-planting a maize, supervised games and recreation and health. Afternoons were given over to supervised recreation. Various committees were appointed made up of the club members. They set each day's program to discuss and make plans. Committees performed their duties well. The girls gave a demonstration in "Public Setting and Service." They did it well. Every club member attended the camp reports an excellent and profitable time, with all new experiences and wanting to return the next year.

5- Club members exhibited their club work at Essex County Fair. Amount of money was \$27.00. Two club girls assisted in putting up the exhibits. During the fair the power was made by a large number of people about the splendid showing of club exhibits for only a short time in the county.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Essex
Agent Madison Lawrence County Home Demonstration
From January 1st to September 30th 1934

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

Date _____
State Extension Director

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the work done during the year in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of great value also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. The report in the Washington office should be sent through the State extension office.

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, factual, and where practical, supported with simple data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, line prints, or copies of charts and other matter used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUMMARY'S OUTLINE OF ANNUAL NARRATIVE REPORT

- I. Cover and title page
- II. Table of contents
- III. Summary of county extension organization
 - (1) Types of organizations—character and development.
 - (2) Practice of local people, organizations, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.
 - (a) Soil
 - (b) Pests and weeds
 - (c) Horticulture
 - (d) Poultry
 - (e) Poultry products
 - (f) Poultry husbandry
 - (g) Poultry husbandry
 - (h) Poultry husbandry
 - (i) Poultry husbandry
 - (j) Poultry husbandry
 - (k) Poultry husbandry

2

IV. Program of work, etc.—Continued.

(2) Project activities and results—Continued.

- (a) Agricultural engineering.
- (b) Agricultural engineering—domestic.
- (c) Agricultural extension, including farm management and marketing.
- (d) Rural marketing.
- (e) Pests.
- (f) Nutrition.
- (g) Clothing.
- (h) Rural management.
- (i) Rural foremanship.
- (j) Rural health and sanitation.
- (k) Community activities.
- (l) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A **reference of work** is a definitely outlined plan for accomplishing work.
2. A **reference to a subject, systematic, sequential plan** for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. **Miscellaneous work** includes work which has not yet become a regular part of the program of work—work apart from present work.
4. A **conference**, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A **reference system or series**, known to a person, selected personnel of his or her special interest and those who function as a leader in advancing some phase of the local program of extension work.
6. A **discussion** is an example designed to show the practical application of an established fact. Discussion is accomplished in this report one of two kinds, **discussion** and **panel discussion**.
7. A **method demonstration** is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Examples: Lardless demonstration, *Example* "Show" (demonstration of raising, raising of spray materials, and setting of posts).
8. A **work demonstration** is a demonstration carried on by a farmer, farm woman, boy, or girl, under the direct supervision of the extension worker, to point out clearly the value of a recommended practice. Such a demonstration is limited to a selected group of farm, woman, boy, and woman, and is arranged to be held in such a way as to be a definite part of the program. It should not be confused with the collection of a group of farm women resulting from a demonstration or other learning activity, but which is not organized by the extension worker as a series of teaching. Examples: Demonstrating that the application of fertilizer on corn will result in more profitable yields; that the treatment of certain diseases can be prevented through proper care; that the use of disinfectant is a good procedure in a good household.
9. A **demonstration** is a farmer, farm woman, boy, or girl with, under the direction of the extension worker, methods of such demonstrations.
10. **Workshop** requirements should include those who have satisfactorily completed the work outlined for the current year.
11. A **representative meeting** is a meeting held to give a method demonstration or to show, suggest, or further a study demonstration.
12. A **reference question** is a meeting at which special features of local interest are treated in every or extensive activities in their respective communities.
13. An **extension visit** or **reference visit** is a visit or call by a leader or other person selected agricultural or farm personnel, extension, or a result of which some definite contribution to general.
14. A **work visit** is a visit or a call by the agent or other person selected extension or group on certain phase of work, extension, or other specific information, organized form for farmer regarding his work, or the better practice generally to his neighborhood.
15. A **work visit** is a call or a home by the agent or other person selected extension to give or receive phase of work, extension, or other specific information, organized form and form woman regarding her work, or the better practice generally to her neighborhood.
16. **Form** is any report, form, or other document prepared by the county agent in the office, at county agent conferences, and any other work directly connected with the extension program.
17. **Form** is any report, form, or other document prepared by the county agent in the office, at county agent conferences, and any other work directly connected with the extension program.
18. **Extension program** should include all single letters or official programs.

4

DEPARTMENTS OF THINGS USED IN THIS REPORT—Continued:

17. A seasonal conference in the form of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for this purpose.
18. An experiment on increasing interest in an historical school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. An experiment among women differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. Researches of details, information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. Plans on joint recreation centers in a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: supplying of produce for dinner, canning of fruits and vegetables, use of improved ration, and hot making.

GENERAL ACTIVITIES

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report.

Marian M. Lawrence Home Chem Agt 9

2. County association, if any, handling extension work.

(a) Name _____

(b) Number of members _____

3. Number of communities in county where extension work should be conducted.

_____ 9

4. Number of groups (committees) in which the extension program has been experimentally worked out by extension agents and people concerned.

_____ 8

5. Number of voluntary society, community, or local bodies actively engaged in forwarding the extension program with—

(a) Jewish _____ 5

(b) Aches _____ 12

6. Number of clubs carrying on extension work.

(a) Jewish _____ 2

(b) Aches _____ 1

7. Membership in clubs (clubs)

(a) Boys' _____ 4.5 (b) Men _____ 10

(c) Girls' _____ 13.5 (d) Women _____ 10

8. Number of members in Jewish clubs work for four or more years.

(a) Boys _____

(b) Girls _____

Agents' service reported of different years is given according to that year. This total does not equal the sum of the grand totals because of those agents who are reported in the statistics of one year and not in the statistics of another year.

Quarterly Activities—Continued

127. Number of farms changing kind of drainage on facilities this year		127
128. Acres of land so changed _____		128
129. Number of farms subjected other treatment provided for the last year. (Specify below.) _____		129
130. Total number of different farms subjected improved practices relative to the agricultural work mentioned under question 129. (Specify conditions 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, and 146 for Agriculture.) _____		130

AGRICULTURAL ECONOMICS

Report only this year's activities and results that are supported by records.

CASH MANAGEMENT

127. Number of method demonstrations given.....	127
128. Number of farm-account books distributed this year.....	128
129. Number of farmers keeping records in such account books throughout the year.....	129
130. Number of farmers assisted in accumulating and interpreting their accounts.....	130
131. Number of farmers making changes in their business as result of keeping accounts.....	131
132. Number of other farmers adopting cropping, livestock, or complete farming systems this year according to recommendations.....	132
133. Number of books farm-management clubs'.....	133
134. Number of members enrolled.....	134
(1) Boys.....	
(2) Girls.....	
135. Number of members completing.....	135
(1) Boys.....	
(2) Girls.....	
136. Number of farmers advised relative to loans this year.....	136
137. Number of farm-management and farm-account clubs held this year.....	137
138. Number of farmers assisted in keeping best-of-production records this year.....	138
139. Number of farms adopting other improved farm-management practices this year.....	139
140. Total amount of different farms adopting improved practices relative to the farm-management work reported on this page. (Include questions 136, 137, 138, 139, 140, 141, and 142.)	140

CREDIT

141. Number of persons or other credit associations organized this year with assistance of extension service.....	141
142. Membership in above associations.....	142
143. Number of farm farmers assisted in obtaining credit.....	143

EXHIBITIONS

144. Number of method demonstrations given.....	144
145. List below all progressive-marketing associations organized during this year upon suggestion or with support of the extension service.....	145

Name of association or group	Number of members	Receipts and products handled	Receipts (dollars)		Products sold	
			(1) Value	(2) Weight	(3) Value	(4) Weight
			\$	lb	\$	lb

*These should be reported under the appropriate question in the previous section.

AGRICULTURAL ECONOMICS—Continued.

Report only this year's extension activities and results that are supported by records.

203. List below this year's results in connection with the cooperative-marketing associations in the county previously organized and with which the extension service consulted or advised.

Name of association or project	Number of members	Supplies and products handled	Supplies purchased		Products sold	
			in Value	in Quantity	in Value	in Quantity
			\$		\$	
Total						

204. Total number of different farms adopting improved marketing practices (include entries for questions 203 (1) and 203 (2) less duplications plus other farms not in cooperative's jurisdiction)

204

COMMUNITY ACTIVITIES AND MISCELLANEOUS

Report only this year's extension activities and results that are supported by records.

Use this space to describe work on any other agricultural project not included in the preceding pages, such as farm-keeping, and similar work, i. e., any other information that can be reported statistically and that will help to give a complete account of the year's work.

Item	in		204

	(c) Boys	42	
233. Number of result demonstrations completed or worked through the year	(a) Women		233
	(b) Girls	61	
	(c) Boys	42	
234. Number of individuals following healthy meals according to approved method for the first time	(a) Women		234
	(b) Girls	61	
	(c) Boys	42	
235. Number of individuals preparing better school lunches for the first time	(a) Women		235
	(b) Girls	61	
	(c) Boys	42	
236. Number of schools helped to serve a hot dish or school lunch for the first time			236
237. Number of children interested in preparing questions			237
238. Number of homes carrying out improved practices in child feeding for the first time			238
239. Number of children interested in preparing questions			239
240. Total number of different homes adopting improved practices relative to the nutrition work reported on this page		74	240

(Use space below to include other important data relating to nutrition.)

Each child kept a record for several months and when taught the foods they should eat and why. Participating mothers learned from me to give pointers to their children - they stopped drinking tea and coffee some were told not to eat candy - some learned.

CLOTHING

Report only this year's extension activities and results that are supported by receipts.

203. Number of judged clubs or groups	(a) Women	5	203
	(b) Juniors		
204. Number of members enrolled in clothing work	(a) Women	136	204
	(b) Girls		
	(c) Boys		
205. Number of members completing	(a) Women	22	205
	(b) Girls		
	(c) Boys		
206. Number of useful demonstrations given	(a) Women	33	206
	(b) Girls		
	(c) Boys		
207. Number of useful demonstrations started or under way	(a) Women	106	207
	(b) Girls		
	(c) Boys		
208. Number of useful demonstrations completed or started through the year	(a) Women	22	208
	(b) Girls		
	(c) Boys		
209. Number of individuals adopting improved practices in selection and construction	(a) Women	22	209
	(b) Girls		
	(c) Boys		
210. Number of individuals adopting improved practices in construction and remodeling	(a) Women		210
	(b) Girls		
	(c) Boys		
211. Number of individuals adopting improved practices in tailoring	(a) Women		211
	(b) Girls		
212. Number of individuals adopting improved practices in pattern drafting	(a) Women		212
	(b) Girls		
213. Number of individuals adopting improved practices in infant wardrobe planning	(a) Women		213
	(b) Girls		
214. Number of individuals adopting improved practices in children's wardrobe planning	(a) Women		214
	(b) Girls		
215. Number of individuals adopting improved practices in adult wardrobe planning	(a) Women		215
	(b) Girls		
216. Total number of different women adopting improved practices relating to the clothing work reported on this page		70	216
217. Number of dress forms made this year by	(a) Women		217
	(b) Girls		
218. Number of dresses and suits made this year by	(a) Women	46	218
	(b) Girls		
219. Number of undergarments made this year by	(a) Women	231	219
	(b) Girls		
220. Number of hats made this year by	(a) Women		220
	(b) Girls		

[Use space below to include other important data relating to clothing.]

1009 garments were cleaned, mended or remodeled
 214.00 saved on clothing projects
 Exhibits made at county Fair

Number of men, women, boys or girls in a certain class should not report on this page unless they actually do the work themselves and complete it.

HOME MANAGEMENT.

Report only this year's activities unless noted under last two questions by records.

215. Number of project clubs or groups: 215
- | | | |
|--|-----------|--|
| | (a) Women | |
| | (b) Men | |
