

NARRATIVE ANNUAL REPORT

J. W. FREEMAN, COUNTY AGENT

DECEMBER 1, 1940 TO NOVEMBER 30, 1941

SUSSEX COUNTY, SUSSEX, VIRGINIA

REPORT FILES  
EXTENSION WORK

*W*

TABLE OF CONTENTS

- I - DESCRIPTION OF TYPE OF AGRICULTURE
- II - REGULAR EXTENSION ACTIVITIES
  - A - Result Demonstration
  - B - Program Planning
  - C - Rural Organization
  - D - Other Activities
    - 1. Immunisation of hogs
    - 2. Work with farm credit agencies
    - 3. Miscellaneous
- III - WORK IN CONNECTION WITH THE A.A.A.
- IV - RECOMMENDATIONS AND OUTLOOK

**I - DESCRIPTION OF TYPE OF AGRICULTURE:**

Sussex County's source of agricultural income is derived primarily from peanuts, timber and hogs, respectively. Slightly over 20,000 acres of peanuts were harvested in 1941 with an average yield of 1200 pounds per acre. The price averaged 5¢ per pound. The peanut crop occupied over one-third of the 56,000 acres of cropland in the county. Timber land in Sussex County occupies approximately 60 per cent of the total land area. Figures are not available for the total value of this crop but reliable estimates place it second in importance only to peanuts. The number of hogs increased approximately 25 per cent in 1941 with estimates indicating that 30,000 head were marketed in the period covered by this report. Good prices were received making swine production also an important cash crop.

In addition to the cash crops mentioned above, corn, cotton and flue-cured tobacco is also produced. However, the corn is considered in relation to the production of hogs, with 16,000 acres being produced annually. With the increased production of hogs, however, this acreage will have to be increased considerably in 1942. About 1200 acres of cotton and 500 acres of tobacco are produced annually in Sussex County. This helps materially to supplement the agricultural income.

Very little dairy and poultry farming is practiced although a number of farmers are stocking their farms with beef cattle. The final source of farm income on a scale large enough to be considered is the production of soybeans for seed. This promises to be a major source of income in the years to come.

The use of crimson clover, rye and rye grass furnish the principal winter and spring grazing and green manure and winter cover crops together with lespedeza as a summer grazing.

**II - REGULAR EXTENSION ACTIVITIES:**

**A - Result Demonstrations**

The Agent, in cooperation with Mr. S. B. Fenne, Extension Plant Pathologist assisted eight cooperators in carrying out "sulfur dusting" demonstrations with peanuts. Each cooperator dusted a measured area of peanuts with sulfur three times at two-week intervals. A measured check plot, equal in area, cultivation, soil type, etc. was left undusted. The motive for the use of sulfur was to control leaf spot, a disease of peanuts that reduces the yield materially. The dusted areas secured an average yield increase of 30 per cent over the "check" plots. As a result of such demonstrations in previous years, many farmers are following this practice. The agent feels that this is one of the most important demonstrations ever conducted in his county. The results have proven practical and conclusive. One farmer expressed the opinion that the use of sulfur for the control of leaf spot would prove the most revolutionary thing in peanut production since the invention of the peanut picker.

**B - Program Plannings**

After considerable effort on the part of the Agent with the admirable cooperation of professional workers and farm leaders, a Board of Agriculture has been organized. Although the Board has not been completely organized and has not drawn up its objectives, the Agent feels that it will furnish the necessary machinery to plan and execute a sound, well-balanced farm program in Sussex County. It will be able to reach neighborhoods and farms which have heretofore been inaccessible in an educational way.

**C - Rural Organizations**

One phase of rural organization has been dealt with under the head of "Program Planning" and will not be discussed here. Other efforts of the Agent in rural organization has been largely in an advisory and educational capacity, centering largely around the Virginia Peanut Cleaners Cooperative, the Peanut Growers' Cooperative and the Sussex Cooperative Farm Bureau. All three organizations play an important role in the economic life of the farmers of Sussex County and the Agent is proud to have had some part in the continuing growth of them.

**D - Other Activities**

**1 - Immunization of hogs**

The Agent immunized slightly over 7000 hogs against cholera in the period covered by this report. Personal service of this kind, while valuable to the farmer, consumes entirely too much of the Agent's time, preventing him from doing the other more important duties required. However, this seems to be a duty expected of the Agent and since there are no veterinarian services available in the county, the Agent is trying to teach a few farmers in each community the mechanics of immunizing their hogs and those of their neighbors.

**2 - Work With Farm Credit Agencies**

The Agent has had the pleasure of cooperating and working with the committees of the Production Credit Association, the Farm Loan Association, The Tenant Purchase Program and the Farm Security Program. This assistance has been entirely in an advisory capacity to them and in an educational capacity to the farmers.

**3 - Miscellaneous**

Miscellaneous duties have centered around such activities as advice and assistance to individual farmers relative to problems in Agronomy, horticulture, animal, dairy and poultry husbandry, agricultural economics, engineering, etc.

### III - WORK IN CONNECTION WITH THE A.A.A.

The A.A.A. programs were administered by the county committee and the Chief Clerk, Mr. R. A. Redman. They are to be commended for the fine and efficient work rendered. The Agent assisted them in the educational phases of the programs which is an essential and integral part of the success of such programs. The outstanding success of the A.A.A. programs, as viewed by the Agent, was the record-breaking seeding of winter cover and green manure crops, the increased use of lime and the proper fertilization of permanent pastures. Such programs as these are well worth many times the money expended.

There were 1250 work sheets in the County, approximately 1100 of which earned a payment. There are 56,000 acres of cropland in the county, of which 20,000 were devoted to peanuts, 1200 acres to cotton and 500 acres to flue-cured tobacco. Fewer acres of winter cover and green manure crops were seeded than the previous year due to extremely dry weather during the planting season.

### IV - RECOMMENDATIONS AND OUTLOOK

Successful operation of the Board of Agriculture promises to be the most important single objective in 1942. Properly functioning, the Board can coordinate agricultural activities, including all agencies, in each neighborhood and community. Obviously, it will be the duty of each community committee, assisted by the professional workers, to determine the type of program or programs to be conducted. The Agent feels that this is a herculean task, one which will not be completed in one year or two years, but one worthy of the time required to obtain its goal.

and State Agricultural Colleges  
Cooperating

Extension Service  
Washington, D. C.

## COMBINED ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is for use by county extension agents in making a combined statistical report on all extension work done in the county during the year. Agents resigning during the year should make out this report before quitting the service.

State Virginia County Dussel

<u>Assistant Agricultural Agent.</u>	

READ SUGGESTIONS, PAGES 2 AND 3

Approved: \_\_\_\_\_  
Date \_\_\_\_\_ State Extension Director.

## SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT

The annual report should be a summary, with analysis and interpretations, for presentation to the people of the county, the State, and the Nation of the extension activities in each county for the year, and the results obtained by the county extension agents assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agents and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support of extension work.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

### STATISTICAL SUMMARY

Where two or more agents are employed in a county they should submit a single statistical report showing the combined activities and accomplishments of all county extension agents employed in the county during the year. Results obtained through assistance rendered agents by specialists should also be included. This report shows, insofar as possible, the part each agent has taken in forwarding the extension program. The county totals should be the sum of the activities and accomplishments of individual agents minus duplications due to two or more agents participating in the same activity or accomplishment. The county totals, when properly recorded, show the progress made in the county during the year in forwarding the entire extension program. Negro men and women agents should prepare a combined statistical report separate from that of the white agents.

The statistical summary should be a report of this year's activities and results that can be verified by records on file in the county office. Where records are not available careful estimates are desired. Such estimates should be marked "Est."

### NARRATIVE SUMMARY

A separate narrative report is desired from the leader of each line of work, such as county agricultural agent, home demonstration agent, boys' and girls' club agent, and Negro agent. Where an assistant agent has been employed during a part or all of the year, the report of his or her work should be included with the report of the leader of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked.

The narrative report should summarize and interpret, under appropriate subheadings, the outstanding results accomplished and the extension methods used for each project. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with necessary data from the statistical summary. Use a descriptive style of writing, giving major accomplishments first under each project. Give extension methods fully relating to outstanding results only, and where practicable illustrate with photographs, maps, diagrams, blueprints, or copies of charts and other forms used. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs and reasonably good margins. The pages should be numbered in consecutive order.

The following outline is merely suggestive of how the narrative report may be clearly and systematically presented. Each agent should prepare an outline to fit the situation and the work to be reported.

#### PROGRESSIVE OUTLINE OF ANNUAL NARRATIVE REPORT

- I. Cover and title page.
- II. Table of contents.
- III. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning of the narrative report.
- IV. Changes in county extension organization made during the year to improve regular procedures or to meet emergencies.
- V. County extension program.
  - (1) Problems determining extension program.
  - (2) Influence of State and National agricultural agencies operating in county upon extension program.
  - (3) Activities and results.
 

Under appropriate headings present in some detail for each major problem or line of work the goals set up, the methods used, the cooperation received, the coordination effected, the results achieved, and the significance of these results in terms of problem solution.
- VI. Outlook and recommendations.

## TERMINOLOGY

To insure reports which convey the intended meaning to others and to facilitate the compilation of satisfactory national statistics on extension, it is extremely important that terms be used in accordance with accepted definitions. The following definitions of extension terms have been approved by the United States Department of Agriculture and the Association of Land Grant Colleges and Universities. Agents should read these definitions before starting to write the annual reports.

## DEFINITIONS OF EXTENSION TERMS

11. An extension program is a statement of the specific projects to be undertaken by the extension agents during a year or a specified period of years.
12. A plan of work is a definite outline of procedure for carrying out the different phases of the program. Such a plan provides specifically for the means to be used and the methods of using them. It also shows what, how much, when, and where the work is to be done.
13. A community is a more or less well-defined group of rural people with common interests and problems. Such a group may include those within a township, trade area, or similar limits. For the purpose of this report a community is one of those rural units into which a county is divided for conducting organized extension work.
14. A project leader, local leader, or committeeman is a person who, because of special interest and fitness, is selected to organize a leader in advancing some phase of the local extension program. A project leader may be either an organization or a subject-matter leader.
15. Demonstrations as contemplated in this report are of two kinds—method demonstrations and result demonstrations. A method demonstration is a demonstration given by an extension worker or other trained leader for the purpose of showing how to carry out a practice. Example: Demonstrations of how to eat fruits and vegetables, mix spray materials, and feed poultry.  
A result demonstration is a demonstration conducted by a farmer, home maker, boy, or girl under the direct supervision of the extension worker, to show locally the value of a recommended practice. Such a demonstration involves a substantial part of time and records of results and comparisons, and is designed to teach others in addition to the person conducting the demonstration. Example: Demonstrating that the application of fertilizer to cotton will result in more profitable yields, that a seed weight of certain children can be corrected through proper diet, that the use of certified seed in growing potatoes is a good investment, or that a large farm business results in a more efficient use of labor.  
The adoption of a farm or home practice resulting from a demonstration or other teaching activity employed by the extension worker as a means of teaching is not in itself a demonstration.
16. A result demonstrator is an adult, a boy, or a girl who conducts a result demonstration as defined above.
17. A cooperator is a farmer or home maker who agrees to adopt certain recommended practices upon the solicitation of an extension worker. This work is not directly supervised by the extension agent and records are not required, but reports on the success of the practices may be obtained.
18. A 4-H Club is an organized group of boys and/or girls with the objectives of demonstrating improved practices in agriculture or home economics, and of providing desirable training for the members.
19. 4-H Club members enrolled are those boys and girls who actually start the work outlined for the year.
20. 4-H Club members completing are those boys and girls who satisfactorily finish the work outlined for the year.
21. A demonstration meeting is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
22. A leader-training meeting is a meeting at which project leaders, local leaders, or committeemen are trained to carry on extension activities in their respective communities.
23. An office call is a call by person by an individual or a group seeking agricultural or home-economics information, as a result of which some definite assistance or information is given. A telephone call differs from an office call in that the assistance or information is given or received by means of the telephone. Telephone calls may be either incoming or outgoing.
24. A farm or home visit is a call by the agent at a farm or home at which some definite information relating to extension work is given or obtained.
25. Days in office should include those spent by the county extension agent in the office, at annual and other extension conferences, and on any other work directly related to office administration.
26. Days in field should include all days spent on official duty other than "days in office."
27. Letters written should include all original letters on official business. (Duplicate letters should not be included.)
28. An extension school is a school usually of 3 to 6 days' duration, arranged by the Extension Service, where practical instruction is given to persons not resident at the college. An extension short course differs from an extension school in that it is usually held at the college or another educational institution and usually for a longer period of time.
29. Records consist of definite information on file in the county office that will enable the agent to verify the data on extension work included in this report.
30. The county extension association or committee is that county organization, whether a membership or a delegate body, which is recognized officially in the conduct of extension work in the county.

## GENERAL ACTIVITIES

Report Only This Year's Extension Activities and Results That Can Be Verified

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report. Include time of assistants with that of regular agent.

AGENT	Total months of service this year	Days devoted to work with adults	Days devoted to work with 4-H Club and other youth	Total days in office	Total days in field
(Name)	(a)	(b)	(c)	(d)	(e)
Home demonstration agent	(1) -	-	-	-	-
Asst. home demonstration agent	-	-	-	-	-
<i>Park Drinkley</i> 4-H Club agent	(2) 1	-	26	-	26
Assistant county agent in charge of club work	-	-	-	-	-
<i>J. H. Freeman</i> Agricultural agent	(3) 12	274 1/2	10	125 1/2	159
Assistant agricultural agent	-	-	-	-	-

2. County extension association or committee:

(a) Agricultural extension:

(1) Name

*Agricultural Board*

(2) Number of members *34*

(b) Home demonstration:

(1) Name

(2) Number of members *-*

(c) 4-H Club:

(1) Name

(2) Number of members *-*

3. Number of communities in county where extension work should be conducted *6*

4. Number of above communities in which the extension program has been planned cooperatively by extension agents and local committees *6*

5. Number of different voluntary county or community project leaders or committeemen actively engaged in forwarding the extension program:

(a) Adult work { (1) Men *34*  
(2) Women *-*

(b) 4-H Club work { (1) Men *1*  
(2) Women *2*

(3) Older club boys *2*  
(4) Older club girls *2*

6. Number of different paid local leaders engaged in agricultural-conservation and adjustment programs:

(a) Men *36*  
(b) Women *-*

7. Number of clubs or other groups organized to carry on adult home demonstration work *-*

8. Number of members in such clubs or groups *-*

ITEM	Home demonstration agents (a)	4-H Club agents (b)	Agricultural agents (c)	County total (d)
9. Number of 4-H Clubs	-	<i>3</i>	-	<i>3</i>
10. Number of different 4-H Club members enrolled	(1) Boys <i>34</i>	<i>37</i>	-	<i>37</i>
	(2) Girls <i>-</i>	<i>28</i>	-	<i>28</i>
11. Number of different 4-H Club members completing	(1) Boys <i>6</i>	<i>6</i>	-	<i>6</i>
	(2) Girls <i>-</i>	<i>4</i>	-	<i>4</i>

12. Number of different members enrolled in 4-H Club work for:

MEMBERS	1st year	2d year	3d year	4th year	5th year	6th year and over
(a) Boys	<i>16</i>	<i>12</i>	<i>8</i>	<i>1</i>	-	-
(b) Girls	<i>12</i>	<i>8</i>	<i>7</i>	<i>1</i>	-	-

<sup>1</sup> County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or enterprise.

<sup>2</sup> Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the project enrollments reported on pages 7 to 24, minus duplications due to the same boy or girl carrying on two or more subject-matter lines of work. Do not include boys and girls enrolled late in the year in connection with the succeeding year's program.

<sup>3</sup> Same as footnote 2 but refers to completions instead of enrollments.

<sup>4</sup> The total for this question should agree with county total, question 10.

## SUMMARY OF EXTENSION INFLUENCE FOR YEAR

It is highly desirable for extension workers to consider the proportion of farms and farm homes in the county which have been definitely influenced to make some substantial change in farm or home operations as a result of the extension program for men, women, boys, and girls. It is recognized that this information is very difficult for agents to report accurately, so a conservative estimate based upon such records, surveys, and other sources of information as are available will be satisfactory. Such estimates should be marked "Est."

Include results of emergency activities as well as the regular extension program.

35. Number of farms in county	1306	35
36. Number of farms on which changes in practices have definitely resulted from the agricultural extension program	650	36
37. Number of farm homes in which changes in practices have definitely resulted from the home demonstration program	0	37
38. Number of other homes in which changes in practices have definitely resulted from the home demonstration program	0	38
39. Number of farm homes with 4-H Club members enrolled	69	39
40. Number of other homes with 4-H Club members enrolled	0	40
41. Total number of different farm families influenced by some phase of the extension program (Include questions 36, 37, and 39, minus duplications.)	200	41
42. Total number of different other families influenced by some phase of extension program (Include questions 38 and 40, minus duplications.)	20	42

County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or accomplishment.

NOTE.—Questions 35-42 refer to the total number of different activities conducted this year. The totals should equal the sums of the corresponding information reported on following pages minus duplications where the same activity applies to two or more lines of work.

<sup>1</sup>For the sake of uniformity it is suggested that each State prepare a list of the more important practices to be reported upon by all agents in that State.

## FORESTRY, WILDLIFE CONSERVATION, AND AGRICULTURAL ENGINEERING

Report Only This Year's Extension Activities and Results. Total One In Twelve

ITEM	Forestry	Wildlife Conservation, <sup>1</sup> and Game Wards	Agricultural Engineering, <sup>1</sup> (Farm and Home)
	(a)	(b)	(c)
141. Days devoted to line of work by: (1) Home demonstration agents.....	—	—	—
(2) 4-H Club agents.....	—	—	—
(3) Agricultural agents.....	—	—	—
(4) Specialists.....	—	—	—
142. Number of communities in which work was conducted.....	—	—	—
143. Number of voluntary local leaders or committees assisting.....	—	—	—
144. Days of assistance rendered by voluntary leaders or committees.....	—	—	—
145. Number of adult result demonstrations conducted.....	—	—	—
146. Number of meetings at result demonstrations.....	—	—	—
147. Number of method-demonstration meetings held.....	—	—	—
148. Number of other meetings held.....	—	—	—
149. Number of news stories published.....	—	—	—
150. Number of different circular letters issued.....	—	—	—
151. Number of farm or home visits made.....	—	—	—
152. Number of office calls received.....	—	—	—
153. Number of 4-H Club men— (1) Boys.....	—	—	—
(2) Girls.....	—	—	—
154. Number of 4-H Club men— (1) Boys.....	—	—	—
(2) Girls.....	—	—	—
154a. Number of 4-H Club members not in special project clubs who participated in forestry or wildlife conservation activities.....	—	—	—
155. Number of units handled by 4-H Club members completing. (This refers to questions 154 and 154a).....	—	—	—

## Forestry—Continued

156. Number of farms on which new areas were reforested by planting with small trees.....	—	—	—
157. Acres involved in preceding question.....	—	—	—
158. Number of farmers planting windbreaks or shelterbelts.....	—	—	—
159. Number of farmers planting trees for erosion control.....	—	—	—
160. Number of farmers making improved thinnings and seedlings.....	—	—	—
160a. Number of farmers practicing selection cutting.....	—	—	—
160b. Number of farmers pruning forest trees.....	—	—	—
160c. Number of farmers cooperating in prevention of forest fire.....	—	—	—
160d. Number of farmers adopting improved practices in production of maple sugar and syrup.....	—	—	—
160e. Number of farmers adopting improved practices in production of maple sugar and syrup.....	—	—	—

<sup>1</sup> 4-H farm shop clubs should be reported under this heading.<sup>2</sup> Includes land practices planned or left standing for wildlife.

## FORESTRY—Continued

Report Only This Year's Extension Activities and Results That Can Be Verified

1665. Number of farmers assisted in timber estimating and appraisal.....	166
1677. Number of farmers following wood-preservation recommendations.....	167
1685. Number of farmers following recommendations in the marketing of forest products.....	168

## WILDLIFE CONSERVATION—Continued

1699. Number of farms on which specific improvements for wildlife have been made.....	169
---	-----

ITEM	RABBITS		FOXES AND OTHER FUR ANIMALS		GAME BIRDS		CONSERVATION CAMPS		
	4-H members (a)	Adults (b)	4-H members (c)	Adults (d)	4-H members (e)	Adults (f)	4-H members (g)	Adults (h)

174. Better types of machines.....	—	— machines.	—	174
175. Maintenance and repair of machines.....	—	— machines.	—	175
176. Efficient use of machinery.....	—	X X X X X X X X X	—	176
176 <sup>1</sup> . Better ginning of cotton.....	—	— gin stands.	—	176 <sup>1</sup>
177. All buildings constructed (include silos).....	—	— buildings.	—	177
178. Buildings remodeled, repaired, painted.....	—	— buildings.	—	178
179. Farm electrification.....	—	— farms. <sup>1</sup>	—	179
180. Home equipment (aside sewing machines).....	—	—	—	180
181. Total of columns (a) and (c).....	— farms.	X X X X X X X X X	\$.....	181

182. Number of machines repaired as reported in questions 175 and 180, by type: (a) Tractors.....	—	(b) Tillage implements.....	(c) Harvesters and threshers.....	(d) Plows.....	182
(e) Mowers.....	—	(f) Planters.....	(g) Sewing machines.....	(h) Other.....	

183. Number of buildings and equipment improved as reported in questions 177, 178, 179, 180, by type:					
(a) Dwellings constructed according to plans furnished.....	—	(A) Dairy buildings.....	—		
(b) Dwellings remodeled according to plans furnished.....	—	(i) Silos.....	(1) Regular.....		
(c) Sewage systems installed.....	—		(2) Trench or pit.....	—	
(d) Water systems installed.....	—	(j) Hog houses.....	—		183
(e) Heating systems installed.....	—	(k) Poultry houses.....	—		
(f) Lighting systems installed.....	—	(l) Storage structures.....	—		
(g) Home appliances and machines.....	—	(m) Other.....	—		

<sup>1</sup> Report the number of farms using electricity in farm enterprises for income-producing purposes such as electric milking, milk cooling, incubating, brooding, heated heating, etc.

## POULTRY AND BEES

Report Only This Year's Extension Activities and Results That Can Be Verified

ITEM	Poultry (including turkeys) (a)	Bees (b)	
184. Days devoted to line of work by:			
(1) Home demonstration agents	—	—	184
(2) 4-H Club agents	—	—	
(3) Agricultural agents	✓	—	
(4) Specialists	—	—	
185. Number of communities in which work was conducted	2	—	185
186. Number of voluntary local leaders or committeemen assisting	12	—	186
187. Days of assistance rendered by voluntary leaders or committeemen	18	—	187
188. Number of adult result demonstrations conducted	—	—	188
189. Number of meetings at result demonstrations	—	—	189
190. Number of method-demonstration meetings held	—	—	190
191. Number of other meetings held	—	—	191
192. Number of news stories published	—	—	192
193. Number of different circular letters issued	—	—	193
194. Number of farm or home visits made	12	—	194
195. Number of office calls received	9	—	195
196. Number of 4-H Club members enrolled			196
(1) Boys	—	—	
(2) Girls	—	—	
197. Number of 4-H Club members completing			197
(1) Boys	—	—	
(2) Girls	—	—	
198. Number of units in projects conducted by 4-H Club members completing	— chickens	— colonies	198

## POULTRY—Continued

199. Number of families following an organized improved breeding plan as recommended	—	199
200. Number of families following recommendations in purchasing baby chicks	—	200
201. Number of families following recommendations in chick rearing	—	201
202. Number of families following production-feeding recommendations	—	202
203. Number of families following sanitation recommendations in disease and parasite control	—	203
204. Number of families improving poultry-house equipment according to recommendations	—	204
205. Number of families following marketing recommendations	—	205
206. Number of families assisted in using timely economic information as a basis for readjusting enterprises	—	206
207. Number of families following other specific practice recommendations: <sup>1</sup>		
(a)	—	207
(b)	—	

## BEES—CONTINUED

208. Number of farmers following recommendations in transferring colonies to modern hives	—	208
209. Number of colonies involved in question 208	—	209
210. Number of farmers following disease-control recommendations	—	210
211. Number of farmers following requeening recommendations	—	211
212. Number of farmers following marketing recommendations	—	212
213. Number of farmers following other specific practice recommendations: <sup>1</sup>		
(a)	—	213
(b)	—	

<sup>1</sup>For the sake of uniformity it is suggested that each State prepare a list of the more important practices to be reported upon by all agents in that State.

## DAIRY CATTLE, BEEF CATTLE, SHEEP, SWINE, AND HORSES

Report Only This Year's Extension Activities and Results That Can Be Verified

## SOIL CONSERVATION—Continued

ITEM	Number of farms	Number of units	
	(a)	(b)	
480. Tests for soil acidity.....	57	600 acres.	480
481. Applying lime materials.....	100	1500 tons.	481
482. Tests for plant-food deficiencies.....	39	200 acres.	482
483. Applying recommended fertilizers.....	-	- tons.	483
484. Proper land use—based on soil types (use of soil-survey maps).....	-	- acres.	484
485. Using recommended crop rotations.....	50	2000 acres.	485
486. Plowing under green manure.....	700	5000 acres.	486 E
487. Controlling soil blowing.....	-	- acres.	487
488. Strip cropping.....	-	- acres.	488
489. Using cover crops.....	800	6000 acres.	489 E
490. Approved summer-fallow.....	300	1200 acres.	490
491. Constructing terraces. (Reported under question 170, p. 13.).....	x x x x	x x x x	491
492. Controlling gullies. (Reported under question 170, p. 13.).....	x x x x	x x x x	492
493. Growing crops on contour. (Reported under question 170, p. 13.).....	x x x x	x x x x	493
494. Pasture and range improvement by contouring.....	-	- acres.	494
495. Grassing waterways.....	-	- acres.	495
496. Depth of moisture tests.....	-	- acres.	496
497. Floodwater control for crop production.....	-	- acres.	497
498. Farms in:			
(1) Legal soil-conservation districts.....	-	- acres.	498
(2) Voluntary soil-conservation associations.....	-	- acres.	
(3) Grazing associations.....	-	- acres.	

WORK IN COOPERATION WITH OTHER FEDERAL AGENCIES<sup>1</sup>—Continued

The purpose of this report on work in cooperation with other Federal agencies is to bring together in one place all the work done in relation to the programs of these agencies regardless of duplication. Include all related work reported under regular project headings on preceding pages, and in addition all other assistance rendered such agencies.

ITEM	Rural Elec- trifi- cation	Tennessee Valley Authority	Works Progress Adminis- tration	National Youth Adminis- tration	Social Security, Public Health, Children's Bureau	All other (including relief)	
	(f)	(g)	(h)	(i)	(j)	(k)	
499. Days devoted to line of work by:							
(1) Home demonstration agents	—	—	—	—	—	—	499
(2) 4-H Club agents	—	—	—	—	—	—	
(3) Agricultural agents	9	—	—	—	—	—
