COUNTY AGENT WORK

NARRATIVE REPORT FOR

CRAIG COUNTY

1925

William O. Martin

County Agt.

ORGANIZATION

Craig county has a number of strong organizations among the farmers through which the county agent devotes the most of his activities.

The Farmers Cooperative Unions have locals in all the important communities of the county. The Lamb Shipping Association, The Craig County Wool Pool, The Farmers Cooperative Exchange together with the County Agricultural Advisory Council composed of some of the leading business and professional men of the county. The Agricultural Advisory Council is considered the most important as they direct, in an advisory way the activities in agricultural work, for the year.

Two meetings are held each year. The one in the spring to devise plans of work for the agent during the year and the one in the fall to check up on the work done.

Other farm organizations in the county which the county agent assisted in the formation and through which he frequently works, are the Farmers Mutual Fire Insurance Co., A Farmers Bank and a Federal Farm Loan Association.

SOILS & FARM CROPS

Realizing that a permanent agriculture is dependent on soil improvement, I have therefore started demonstrations towards a more permanent agriculture in this county. The past year a number of farmers started with crop rotations which will include a legume crop to be turned under for soil improvement.

This rotation will also call for two tons of ground limestone to each acre and the use of more fertilizer and a fertilizer carrying a higher analyses. Clovers were purchased by the farmers cooperatively direct from Western seedmen who guarantee them to be home grown.

FARM CROPS

More attention has been given during the past year to the preparation of seed beds for all crops. We have found where just a little more work was done in the way of dragging, harrowing and disking before a crop was seeded, has shown by actual demonstrations, that from three to ten bushels more grain can be produced to the acre.

Better seeds, has been our slogan all over the county. Corn selected in the field and properly cared for during the winter. Wheat, oats, rye etc. well graded and treated for smuts. Soy beans and cowpeas of the right variety to mature and give the maximum amount of feed, and in every instance to be inoculated.

SOY BEANS

Many farmers, owning small farms depleted in plant food by continuous cropping to corn were induced to plant this same land in soy beans or cowpeas the past season. The majority of them were well pleased with the results as very much more forage for stock was gotten from the beans than from the corn, beside the improvement to the soil.

I mean to follow up these demonstrations by having crimson clover or some other legume crop turned under during the rotation and when the corn rotation comes around I want to be able to show that double the amount can be grown on the soils that had the legumes as part of the rotation.

2

ANIMAL HUSBANDMANRY

Craig county being a mountain county the lands being rolling and steep is not adapted to much farming, but being a limestone section the blue grass grows abundantly, therefore a majority of the farmers are interested in live stock.

SHEEP

Possibly more than one third of my time has been devoted to the sheep industry during the past twelve months.

Sheep work began five years by the present county agent, when the flocks were small, inbred and scrubby, diseased and showing no profit to owners.

Improvements in the management and marketing have been made gradually each year, until the number of sheep kept have been greatly increased, the quality and uniformity improved by introducing better breeding stock, made more healthy by the treatment for stomach parasites (from two to three times annually). By better feeding and by docking and castrating together with better breeding has given us quality which has justified our shipping cooperatively to the Jersey City markets where our lambs were sold during the past season at top prices. Practically every farmer in the county has a flock of sheep on his farm at this time and they are making money.

So enthusiastic are the farmers, that they are sending to the county papers records of what their flocks did the past season.

In a recent issue of The New Castle Record the following appeared:

KEFFER GETS THE CAKE.

Sinking Creek, Va. Nov. 18th. 1925.

Dear Editor: I think I have a sheep record that beats anything you have published up to this time, Four ewes raised eight lambs which net \$99.50 and sheared \$12.00 worth of wool-a total of \$111.50 or an average of \$27.88 per head.

Stephen B. Keffer.

Thirty four head of registered breeding animals, rams and ewes were brought into the county this year for the improvement of flocks. Ninety percent of the sheep in Craig County had at least two treatments for stomach worms during the present year.

The pictures on this page show farmers loading a shipment of fourteen car loads of spring lambs for the New York markets. Every lamb in this shipment had been docked and castrated and all had been treated once for stomach worms when turned out on pastures.

The lambs are loaded on the cars by the farmers themselves, without any expense.

The grading is done by disinterested parties who see that no lamb is included in the shipment unless it weighs sixty pounds or more and is fat and well conditioned.

This year by shipping cooperatively the sheep growers saved \$3010.42.

That is the farmers who sold cooperatively received the above amount more than those who sold to local dealers.

During the past five years the cooperative shipments have saved the sheep growers nearly nine thousand dollars.

BEEF CATTLE

Beef cattle like sheep have made wonderful stride during the past few years.

Six years ago there were not a single registered beef animal in the county. There were a number of what they called, just as good as registered.

This year Craig was fourth in the pure bred sire campaign and brought about thirty beef animals, all registered, into the county to be used to improve our grazing beef cattle.

Early this spring a survey of the beef bulls of the county was made by the county agent which showed the following,

18	Hereford Registered bulls		
10	Shorthorn	"	"
3	Angus	"	"
18	Grade or Scrub bulls.		

A map of the county, three by five feet, showing each neighborhood with a picture of the bulls in that particular vicinity, whether Shorthorn, Hereford or scrub was shown.

This map was displayed at all public meetings. The farmers began to get interested and were anxious to see the scrub bulls taken off of the map.

When a grade bull was castrated or sold the picture was removed and if a registered bull was purchased a picture of the registered bull was put in the scrubs place.

This map has helped to eliminate eleven scrub bulls as a recent survey shows that Craig County has only SEVEN scrub bulls. Our slogan has been NO SCRUB BULLS IN CRAIG COUNTY AT THE END OF 1926.

4

Showing a photograph of part of the Bull Map.

COOPERATIVE BUYING & SELLING.

Ninety percent of the lambs and eighty percent of the wool of the county has been marketed cooperatively very satisfactorily this year and the farmers are all well pleased and will try to produce more and better stuff another year. Fertilizers, grass seeds, binder twine amounting to around five thousand dollars was purchased cooperatively at a good saving.

CLUB WORK & CLUB FAIR.

Seven clubs working in corn and poultry did very good work. All the poultry club members used standard bred eggs for their demonstrations.

This stock will provide breeding stock for other farmers who are anxious to get some better breeding.

Corn club boys used seed furnished by the Board of Supervisors which matured well and will be sold to farmers for spring planting.

The club show and exhibit of agricultural products this year was excellent.

The Agricultural Advisory Council has recommended that a larger and better fair be held next year.

A movement is now on foot to sell stock and purchase grounds for a bigger and better fair in 1926.

Some Poultry Club Exhibits.

Washington, D. C.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Craig
Report of H. O. Montoy County Danmont Agent.
From December 1st 1924 to November 30th 1925.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

READ DEFINITIONS, PAGES 3 AND 4

COUNTY AGENT WORK

FIRST CHECK	TRANSFER DATE

Approved:

Date _____

State or District Supervisor.

Date _____

State Extension Director.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. If two or more extension agents are employed in a county, each in charge of a different line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blueprints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
- (1) Form of organization—changes and development.
- (2) Function of local people, committees, or project leaders in developing the program of work.
- (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
- (1) Factors considered and methods used in determining program of work.
- (2) Project activities and results.
- (a) Soils
- (b) Farm crops
- (c) Horticulture
- (d) Home gardens
- (e) Beautification of home grounds
- (f) Forestry
- (g) Rodents, predatory animals, and birds.
- (h) Animal husbandry
- (i) Dairy husbandry
- (j) Home dairy
- (k) Poultry husbandry
- (l) Home poultry
- (including diseases and insects).
- (including diseases and insects).

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT—Continued.

IV. Program of work, etc.—Continued.

(2) Project activities and results—Continued.

- (a) Rural engineering.
- (b) Rural engineering—home.
- (c) Agricultural economics, including farm management and marketing.
- (d) Home marketing.
- (e) Foods.
- (f) Nutrition.
- (g) Clothing.
- (h) Home management.
- (i) House furnishings.
- (j) Home health and sanitation.
- (k) Community activities.
- (l) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonym: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and culling of poultry.
A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child-feeding, corn-culture, and orchard-management demonstrations.
7. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
9. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
10. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
11. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.

DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.

17. A **FARMERS' INSTITUTE** is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN **EXTENSION OR MOVABLE SCHOOL** is an itinerant school usually of two to six days' duration, where practical but systematic instruction is given to persons not resident at the college. AN **EXTENSION SHORT COURSE** differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **RECORDS** consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARM OR HOME PRACTICE ADOPTED** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

GENERAL ACTIVITIES.

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report. 1
W. O. Martin County Agent 12
Working three days per week (Months of service this year)
2. Number of communities in county where extension work should be conducted. 12 2
3. Number of above communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 10 3
4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program with— 4
 - (a) Juniors 6
 - (b) Adults 7
5. Number of clubs carrying on extension work: 5
 - (a) Junior 7
 - (b) Adult 6
6. Membership in above clubs: 37
 - (a) Boys 37
 - (b) Girls 513
 - (c) Men 200
 - (d) Women 70
7. Number of club members completing: 34 7
 - (a) Boys 45
 - (b) Girls 45
 - (c) Men 70
 - (d) Women 70
8. Number of members in junior club work for four or more years: 2 8
 - (a) Boys 2
 - (b) Girls 2

GENERAL ACTIVITIES—Continued.

9. Number of junior judging or demonstration teams trained. 9
10. Number entering college this year who have been club members. 10
11. Total number of farm visits¹ made in conducting extension work. 11
12. Number of different farms visited. 12
13. Total number of home² visits made in conducting extension work. 13
14. Number of different homes visited. 14
15. Number of calls³ relating to extension work. (a) Office. 305 15
(b) Telephone. 59 16
16. Number of days agent spent in office. 59 16
17. Number of days agent spent in field. 100 17
18. Number of individual letters written. 517 18
19. Number of fairs at which extension exhibits were made. (a) Community. 1 19
(b) County. 1 19
20. Training meetings³ held for local leaders. (a) Number. 33 20
(b) Leaders in attendance. 179 20
21. Method and result demonstration meetings³ held (do not include meetings reported in number 20). (a) Number. 33 21
(b) Attendance. 179 21
22. Farmers' institutes³ held. (a) Number. 22 22
(b) Attendance. 22 22
23. Extension schools³ and short courses held. (a) Number. 23 23
(b) Attendance. 23 23
24. Junior club encampments held: 24
(a) Number: 24
(b) Attendance by club members: (1) Boys. 24
(2) Girls. 24
(c) Total attendance: 24
25. Other extension meetings attended and not previously reported. (a) Number. 17 25
(b) Attendance. 285 25
26. Number of meetings at which were shown. (a) Lantern slides. 26
(b) Motion pictures. 3 26
(c) Charts. 3 26

[Use space below to include other important data.]

¹ Do not count the same visit as both a farm visit and a home visit.
² See definition on page 3.

PROGRAM SUMMARY

List below information on each project of the program of work for the year. If an assistant agent has been employed during the year, include his or her time with that of the agent. This page should not be filled out until the questions on the following pages have been answered.

Title of project	Number of communities participating ¹	Number of local leaders assisting ¹	Days specialists helped	Days agent devoted to projects	
(a)	(b)	(c)	(d)		
(Illustrative entry.) Poultry	5 ⁶	3 ⁷	1 ⁸	12	27

² The individual entries in this column should not exceed entry for question 4, page 4.

6-5188

FARM-DEMONSTRATION WORK.

SOILS.¹

Report only this year's extension activities and results that are supported by records.

45. Number of method demonstrations given. (See definition 6, page 3.)	38	45
46. Number of result demonstrations started or under way. (See definition 6, page 3.)	16	46
47. Number of result demonstrations completed or carried through the year.	14	47
48. Number of acres involved in these completed demonstrations.	14	48
49. Number of farms adopting improved practices in the use of commercial fertilizer this year.	25	49
50. Tons involved in preceding question.	75	50
51. Number of farms taking better care of farm manures this year.	30	51
52. Number of farms using lime or limestone for the first time.	18	52
53. Tons of lime or limestone so used.	90	53
54. Number of farms plowing under cover or other green manure crops for the first time.	22	54
55. Acres of cover and green manure crops so plowed under.	75	55
56. Total number of different farms adopting improved practices, relative to the soils work reported on this page. (Include questions 47, 49, 51, 52, and 54 less duplications.)	115	56

[Use space below to include other important data relating to soils.]

Fifty percent of the Commercial Fertilizers purchased this year, was by Farmers Clubs buying Cooperatively. All these Cooperative purchases were of a much higher grade than that sold by local Dealers. In the future we expect to buy all our Fertilizers Cooperatively which will enable us to get goods of a much higher analyzing at the price we have been paying local dealers for the ordinary kind.

¹ For drainage, irrigation, land clearing, and terracing see "Rural Engineering," page 16.

CEREALS

Report only this year's extension activities and results that are supported by records.

Item	(a) Corn	(b) Wheat	(c) Oats	(d) Rye	(e) Barley	(f) Other ¹

RURAL ENGINEERING.

Report only this year's extension activities and results that are supported by records.

167. Number of method demonstrations given	167
168. Number of result demonstrations started or under way	168
169. Number of result demonstrations completed or carried through the year	169
170. Number of farms installing drainage systems this year	4 181 170
171. Acres drained	171
172. Number of farms installing irrigation systems this year	172
173. Acres irrigated	173
174. Number of farms constructing terraces or soil dams this year	174
175. Acres on which soil erosion was so prevented	175
176. Number of dwellings constructed this year according to plans furnished	176
177. Number of dwellings remodeled this year according to plans furnished	177
178. Number of sewage-disposal systems installed this year according to plans furnished	178
179. Number of water systems installed this year according to plans furnished	7 179
180. Number of heating systems installed this year according to plans furnished	180
181. Number of lighting systems installed this year according to plans furnished	181
182. Number of farms on which buildings other than dwellings were constructed or remodeled this year according to plans furnished	18 182
183. Number of buildings involved in preceding question	(a) Barns 3
	(b) Hog houses 1
	(c) Poultry houses 14
	(d) Silos
	(e) Other
184. Number of farms clearing land of stumps or boulders this year	3 184
185. Acres of land so cleared	7 185
186. Total number of different farms adopting improved practices relative to the rural-engineering work reported on this page	10 186

[Use space below to include other important data relating to rural engineering.]

Report only this year's extension activities and results that are supported by records.

187. Number of method demonstrations given.....	187
188. Number of farm-account books distributed this year.....	188
189. Number of farmers keeping records in such account books throughout the year.....	189
190. Number of farmers assisted in summarizing and interpreting their accounts.....	190
191. Number of farmers making changes in their business as result of keeping accounts.....	191
192. Number of other farmers adopting cropping, livestock, or complete farming systems this year according to recommendations.....	192
193. Number of junior farm-account clubs.....	193
194. Number of members enrolled.....	194
195. Number of members completing.....	195
196. Number of farmers advised relative to leases this year.....	196
197. Number of farm-management and farm-account exhibits held this year.....	197
198. Number of farmers assisted in keeping cost-of-production records this year.....	198
199. Total number of different farms adopting improved practices relative to the farm-management work reported on this page.....	199

200. Number of farm-loan or other credit associations organized this year with assistance of extension service	200
201. Membership in above associations	201
202. Number of other farmers assisted in obtaining credit	202

294. List below the cooperative-marketing associations organized during this year upon suggestion or with counsel of the extension service. 294

AGRICULTURAL ECONOMICS—Continued

Report only this year's extension activities and results that are supported by records.

205. List below this year's results in connection with the cooperative-marketing associations in the county previously organized and with which the extension service counseled or advised.

(a) Name of association or group.	(b) Number of members.	(c) Supplies and products handled.	(d) Supplies purchased.		(e) Products sold.	
			(1) Value.	(2) Selling.	(3) Value.	(4) Profit.
Lawrence Shipping Assn.	75	Spring, Lucents	\$	\$	\$7548.25	\$3010.42
County Wood Prod	85	Wood			6000.00	1200.00
Farmers Focal Assn	200	Farm Supplies	5000.00	850.00		
TOTAL			5000.00	850.00	23548.25	4210.42

2004. Total number of different farms adopting improved marketing practices (include entries for questions 204 (b) and 205 (b) less duplications plus other farms not in cooperative associations)

COMMUNITY ACTIVITIES AND MISCELLANEOUS.

Report only this year's extension activities and results that are supported by records.

Use this space to include work on any other agricultural project not included in the preceding pages, such as bee-keeping, and similar work, i. e., any other information that can be reported statistically and that will help to give a complete account of the year's work.

Item.	(a) Bookkeeping.	(b) ¹	(c) ²	
206. Number of method demonstrations given.				206
207. Number of adult result demonstrations started or under way.				207
208. Number of result demonstrations completed or carried through the year.				208
209. Number of units in these completed demonstrations.				209
210. Number of junior clubs.				210
211. Number of members enrolled.				211
	(a) Boys			
	(b) Girls			
212. Number of members completing.				212
	(a) Boys			
	(b) Girls			
213. Number of units involved in junior club work completed.				213
214. Total number of different farms adopting improved practices relative to the miscellaneous work reported on this page.				214
[Use space below to include other important data relating to miscellaneous work.]				

[Use space below to include other important data relating to miscellaneous work.]

† *fruticosa* name not relevant

² States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME-DEMONSTRATION WORK. FOODS.

Report only this year's extension activities and results that are supported by records.

FOOD PREPARATION.

215. Number of project clubs or groups	(a) Women	215
	(b) Juniors	
216. Number of members enrolled in food preparation	(a) Women	216
	(b) Girls	
	(c) Boys	
217. Number of members completing	(a) Women	217
	(b) Girls	
	(c) Boys	
218. Number of method demonstrations given. (See definition 6, page 3.)		218
219. Number of result demonstrations started or under way. (See definition 6, page 3.)	(a) Women	219
	(b) Girls	
	(c) Boys	
220. Number of result demonstrations completed or carried through the year	(a) Women	220
	(b) Girls	
	(c) Boys	
221. Number of individuals adopting improved practices in bread making this year	(a) Women	221
	(b) Girls	
	(c) Boys	
222. Number of individuals adopting improved practices in meat cooking this year	(a) Women	222
	(b) Girls	
	(c) Boys	
223. Number of individuals adopting improved practices in vegetable cooking this year	(a) Women	223
	(b) Girls	
	(c) Boys	
224. Number of individuals adopting improved practices in preparation of dairy-product dishes this year	(a) Women	224
	(b) Girls	
	(c) Boys	
225. Number of individuals adopting improved practices in meal preparation and service this year	(a) Women	225
	(b) Girls	
	(c) Boys	
226. Number of homes budgeting the family food supply for the first time		226
227. Total number of different homes adopting improved practices relative to the food-preparation work reported on this page. (Include entries for questions 220, 221, 222, 223, 224, 225, and 226 less duplications.)		227

[Use space below to include other important data relating to food preparation.]

FOODS—Continued.

Report only this year's extension activities and results that are supported by records.

FOOD PRESERVATION.

228. Number of project clubs or groups ¹	(a) Women	228
	(b) Juniors	
229. Number of members enrolled in food preservation	(a) Women	229
	(b) Girls	
	(c) Boys	
230. Number of members completing	(a) Women	230
	(b) Girls	
	(c) Boys	
231. Number of method demonstrations given		231
232. Number of result demonstrations started or under way	(a) Women	232
	(b) Girls	
	(c) Boys	
233. Number of result demonstrations completed or carried through the year	(a) Women	233
	(b) Girls	
	(c) Boys	
234. Number of individuals adopting improved practices in preserving fruits and vegetables this year	(a) Women	234
	(b) Girls	
	(c) Boys	
235. Number of individuals adopting improved practices in preserving meats and fish this year	(a) Women	235
	(b) Girls	
	(c) Boys	
236. Number of homes providing better food storage for the first time		236
237. Total number of different homes adopting improved practices relative to the food-preservation work reported on this page		237
238. List below amount of food preserved by club members completing:		238

Kind of food.	(a) Women	(b) Girls	(c) Boys
(a) Fruits and vegetables canned	quarts		
(b) Meats and fish canned	quarts		
(c) Jelly and preserves made	quarts		
(d) Fruit juices made	quarts		
(e) Pickles made	quarts		
(f) Fruits and vegetables dried	pounds ²		
(g) Meats cured	pounds ²		

[Use space below to include other important data relating to food preservation.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

² Finished product.

NUTRITION.

Report only this year's extension activities and results that are supported by records.

239. Number of project clubs or groups	(a) Women	239
	(b) Juniors	
240. Number of members enrolled in nutrition	(a) Women	240
	(b) Girls	
	(c) Boys	
241. Number of members completing	(a) Women	241
	(b) Girls	
	(c) Boys	
242. Number of method demonstrations given		242
243. Number of result demonstrations started or under way	(a) Women	243
	(b) Girls	
	(c) Boys	
244. Number of result demonstrations completed or carried through the year	(a) Women	244
	(b) Girls	
	(c) Boys	
245. Number of individuals balancing family meals according to approved methods for the first time	(a) Women	245
	(b) Girls	
	(c) Boys	
246. Number of individuals preparing better school lunches for the first time	(a) Women	246
	(b) Girls	
	(c) Boys	
247. Number of schools induced to serve a hot dish or school lunch for the first time		247
248. Number of children involved in preceding question		248
249. Number of homes carrying out improved practices in child feeding for the first time		249
250. Number of children involved in preceding question		250
251. Total number of different homes adopting improved practices relative to the nutrition work reported on this page		251

[Use space below to include other important data relating to nutrition.]

* States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

CLOTHING.

Report only this year's extension activities and results that are supported by records.

252. Number of project clubs or groups	(a) Women	252
	(b) Juniors	
253. Number of members enrolled in clothing work	(a) Women	253
	(b) Girls	
	(c) Boys	
254. Number of members completing	(a) Women	254
	(b) Girls	
	(c) Boys	
255. Number of method demonstrations given	(a) Women	255
	(b) Girls	
	(c) Boys	
256. Number of result demonstrations started or under way	(a) Women	256
	(b) Girls	
	(c) Boys	
257. Number of result demonstrations completed or carried through the year	(a) Women	257
	(b) Girls	
	(c) Boys	
258. Number of individuals adopting improved practices in selection and construction	(a) Women	258
	(b) Girls	
	(c) Boys	
259. Number of individuals adopting improved practices in renovation and remodeling	(a) Women	259
	(b) Girls	
	(c) Boys	
260. Number of individuals adopting improved practices in millinery	(a) Women	260
	(b) Girls	
261. Number of individuals adopting improved practices in costume designing	(a) Women	261
	(b) Girls	
262. Number of individuals adopting improved practices in infant wardrobe planning	(a) Women	262
	(b) Girls	
263. Number of individuals adopting improved practices in children's wardrobe planning	(a) Women	263
	(b) Girls	
264. Number of individuals adopting improved practices in adult wardrobe planning	(a) Women	264
	(b) Girls	
265. Total number of different homes adopting improved practices relative to the clothing work reported on this page		265
266. Number of dress forms made this year by	(a) Women	266
	(b) Girls	
267. Number of dresses and coats made this year by	(a) Women	267
	(b) Girls	
268. Number of undergarments made this year by	(a) Women	268
	(b) Girls	
269. Number of hats made this year by	(a) Women	269
	(b) Girls	

[Use space below to include other important data relating to clothing.]

HOME MANAGEMENT.

Report only this year's extension activities and results that are supported by records.

270. Number of project clubs or groups	(a) Women	270
	(b) Juniors	
271. Number of members enrolled in home management	(a) Women	271
	(b) Girls	
	(c) Boys	
272. Number of members completing	(a) Women	272
	(b) Girls	
	(c) Boys	
273. Number of method demonstrations given		273
274. Number of result demonstrations started or under way	(a) Women	274
	(b) Girls	
275. Number of result demonstrations completed or carried through the year	(a) Women	275
	(b) Girls	
276. Number of individuals following a systematized plan of household work for the first time	(a) Women	276
	(b) Girls	
277. Number of homes obtaining additional labor-saving equipment this year		277
278. Number of kitchens planned and rearranged for convenience this year		278
279. Number of individuals following improved laundry practices for the first time	(a) Women	279
	(b) Girls	
280. Number of individuals making budgets and keeping accounts for the first time	(a) Women	280
	(b) Girls	
281. Total number of different homes adopting improved practices relative to the home-management work reported on this page		281
282. List below the number of labor-saving appliances involved in question 277:		282
(a) Hand washing machines	(f) Kitchen cabinets	
(b) Power washing machines	(g) Electric or gasoline irons	
(c) Fireless cookers	(h)	
(d) Kitchen sinks	(i)	
(e) Power vacuum cleaners	(j)	

[Use space below to include other important data relating to home management.]

* States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOUSE FURNISHINGS.

Report only this year's extension activities and results that are supported by records.

283. Number of project clubs or groups	(a) Women	283
	(b) Juniors	
284. Number of members enrolled in house furnishings	(a) Women	284
	(b) Girls	
	(c) Boys	
285. Number of members completing	(a) Women	285
	(b) Girls	
	(c) Boys	
286. Number of method demonstrations given		286
287. Number of result demonstrations started or under way	(a) Women	287
	(b) Girls	
	(c) Boys	
288. Number of result demonstrations completed or carried through the year	(a) Women	288
	(b) Girls	
	(c) Boys	
289. Number of individuals adopting improved practices in selection and arrangement of furnishings this year	(a) Women	289
	(b) Girls	
	(c) Boys	
290. Number of individuals adopting improved practices in the repairing and remodeling of furnishings this year	(a) Women	290
	(b) Girls	
	(c) Boys	
291. Number of individuals adopting improved practices in wall, woodwork, and floor treatment this year	(a) Women	291
	(b) Girls	
	(c) Boys	
292. Number of rooms involved in questions 289, 290, and 291	(a) Bedrooms	292
	(b) Living rooms	
	(c) Dining rooms	
	(d) Other rooms	
293. Total number of different homes adopting improved practices relative to the house-furnishing work reported on this page		293

[Use space below to include other important data relating to house furnishings.]

HOME HEALTH—SANITATION.

Report only this year's extension activities and results that are supported by records.

294. Number of project clubs or groups	(a) Women	294
	(b) Juniors	
295. Number of members enrolled in home health and sanitation	(a) Women	295
	(b) Girls	
	(c) Boys	
296. Number of members completing	(a) Women	296
	(b) Girls	
	(c) Boys	
297. Number of method demonstrations given		297
298. Number of result demonstrations started or under way	(a) Women	298
	(b) Girls	
	(c) Boys	
299. Number of result demonstrations completed or carried through the year	(a) Women	299
	(b) Girls	
	(c) Boys	

HEALTH.

300. Number of homes adopting recommended health practices this year		300
301. Number of individuals adopting recommended practices in—		301
(a) Use of health score card	(f) Care of skin and hair	
(b) Good posture	(g) Home nursing	
(c) Prevention of colds	(h) First aid	
(d) Good elimination	(i)	
(e) Care of teeth	(j)	

302. Is your health program coordinated with the work of State and county health authorities?	(a) Yes	302
	(b) No	

SANITATION.

303. Number of homes installing sanitary closets or outhouses this year according to plans furnished		303
304. Number of homes screened for the first time		304
305. Number of homes following other methods of controlling flies, mosquitoes, and other insects for the first time		305
306. Total number of different homes adopting improved practices relative to the sanitation work reported on this page		306

[Use space below to include other important data relating to home health and sanitation.]

* States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.
 * It is assumed that this work is conducted in cooperation with State and county health authorities.

RURAL ENGINEERING—HOME

Report only this year's extension activities and results that are supported by records.

[Use space below to include other important data relating to beautification of home grounds.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME GARDENS.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 12.

328. Number of project clubs or groups	(a) Women	328
	(b) Juniors	
329. Number of members enrolled in home gardens	(a) Women	329
	(b) Girls	
	(c) Boys	
330. Number of members completing	(a) Women	330
	(b) Girls	
	(c) Boys	
331. Number of method demonstrations given		331
	(a) Women	
	(b) Girls	
	(c) Boys	
332. Number of result demonstrations started or under way	(a) Women	332
	(b) Girls	
	(c) Boys	
333. Number of result demonstrations completed or carried through the year	(a) Women	333
	(b) Girls	
	(c) Boys	
334. Number of gardens involved in result demonstrations	(a) Women	334
	(b) Girls	
	(c) Boys	
335. Number of individuals adopting improved practices in growing fruit trees this year	(a) Women	335
	(b) Girls	
	(c) Boys	
336. Number of individuals adopting improved practices in growing bush and small fruits this year	(a) Women	336
	(b) Girls	
	(c) Boys	
337. Number of individuals adopting improved practices in growing grapes this year	(a) Women	337
	(b) Girls	
	(c) Boys	
338. Number of individuals adopting improved practices in growing vegetables this year	(a) Women	338
	(b) Girls	
	(c) Boys	
339. Number of individuals saving improved stock or seed for the first time	(a) Women	339
	(b) Girls	
	(c) Boys	
340. Number of homes spraying or otherwise treating garden crops for diseases and insect pests for the first time		340
	(a) Women	
341. Number of individuals growing winter gardens for the first time	(b) Girls	341
	(c) Boys	
342. Total number of different homes adopting improved practices relative to the home-garden work reported on this page		342

[Use space below to include other important data relating to home gardens.]

HOME POULTRY.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on pages 14 and 15.

343. Number of project clubs or groups	(a) Women	343
	(b) Juniors	
344. Number of members enrolled in home poultry	(a) Women	344
	(b) Girls	
	(c) Boys	
345. Number of members completing	(a) Women	345
	(b) Girls	
	(c) Boys	
346. Number of method demonstrations given		346
347. Number of result demonstrations started or under way	(a) Women	347
	(b) Girls	
	(c) Boys	
348. Number of result demonstrations completed or carried through this year	(a) Women	348
	(b) Girls	
	(c) Boys	
349. Number of birds in result demonstrations raised or managed by	(a) Women	349
	(b) Girls	
	(c) Boys	
350. Total profit on result demonstrations conducted by	(a) Women	350
	(b) Girls	
	(c) Boys	
351. Number of individuals culling flocks for the first time	(a) Women	351
	(b) Girls	
	(c) Boys	
352. Number of homes culling flocks for the first time		352
353. Number of birds in these flocks		353
354. Number of birds discarded		354
355. Number of homes feeding better-balanced poultry rations for the first time		355
356. Number of individuals assisted in obtaining standard-bred eggs for hatching this year	(a) Women	356
	(b) Girls	
	(c) Boys	
357. Number of homes assisted in obtaining standard-bred cockerels this year		357
