REPORT OF WORK OF THE COUNTY AGENT

CALENDAR YEAR 1910

(Due December 31st)

State Va County Page

Report of Chas F. Wampler County Agent

From January 1 to December 31, 1910

Approved:

State Agent

Date Forwarded

Director of Extension Work

ANNUAL REPORT FORM AND INSTRUCTIONS TO AGENTS

The agent's annual report should be a complete summary of all the work performed during the year. This is the only record that the officials of the Extension Division of the State and the Department have of the agent's activities.

The only means of making such a report is to keep field notes or a field diary of everything that is done each day. It is well to not only keep notes of things actually done, but to make some brief observations of general conditions as found from time to time. Many things which seem of minor importance to the agent may be very valuable to the head offices when asked for detailed information regarding certain localities.

An agent's efficiency and the success of his work is necessarily judged from this Office by what is contained in his report. Your District and State Agent may know that you are rendering efficient service, but it is absolutely essential to have something on record to show that the work has been done, when outside parties who can not possibly inspect your work desire definite and accurate information in regard to the results that are being accomplished in local territory.

Every agent in the work has been instructed, by circular letter and by the supervising force at agents' meetings, as to the importance of keeping systematic records throughout the year. If this advice has been followed you should have no difficulty in rendering your annual report upon the forms which are herewith attached. These are broad enough to include the activities of the agents in the entire territory covered by the Extension Work in the South. Some of the questions will not apply to your local territory, and these, of course, need not be answered.

In some instances you will observe that the same form is used for several crops. Be sure to use separate sheets for each crop named under the heading. For example, take the sheet headed "Small Grains", under which are included oats, wheat, barley and rye. In this case all the demonstrations in oats should be included on one sheet, all the demonstrations in rye on another, and so on for all the crops included under this heading.

Be sure to answer the questions in the order in which they are asked, and see that you give the information called for. If this is done, all the reports will be uniform when they are sent in to the State Agent's office, and in like manner the State Agents' reports will be uniform when sent to the Director's office in the State and then to the Washington Office.

It should be distinctly understood that these forms are only to summarize the statistical part of the report, and under each crop or heading such remarks, observations or points of interest as may be useful should be briefly written out. The back of the respective sheets may be used for remarks on the crops reported on. No doubt many interesting features will be called to mind, which, if written up and sent in to the State Agent's office along with the replies to these definite questions, would be very valuable in giving the report that personal touch which proves of great value and interest in all reports of this nature.

In collecting the replies to the questions of a personal nature, the agent will have to depend on his tact and good judgment in approaching the farmer. A few, no doubt, will be averse to furnishing you with some of the information asked for, but if reliable data could be collected with reference to these points, it would enable the Department to get a rather definite idea as to the beneficial effects of the demonstration work in your section.

The forms that we are sending out include the following crops, groups of crops, and other miscellaneous work of the County Agent:

CROPS:

Corn
Cotton
Tobacco
Small Grain
Hay & Forage
Cover Crops
Summer Legumes
Potatoes (Irish & Sweet)
Truck Crops & Gardens
Sugar Cane
Orchards

LIVE STOCK:

Horses
Dairy Cattle
Beef Cattle
Hogs
Sheep & Goats
Poultry
Live Stock Diseases & Pests

OTHER WORK:

Fertilizers
Farm Manures
Silos
Dipping Vats
Seed Selection
Lime
Rotations
Pastures
Organizations
Farm Buildings
Drainage
Farm Machinery & Tools
Clearing Land, Stumps, etc.
Timber & Wood Lots
Miscellaneous Demonstration Work
Effect of Demonstration Work on
Community, and Human Interest
Features.
Successful Undertakings

If there is anything in any of these forms that is not thoroughly understood, discuss the matter with your District or State Agent or write to this Office for a more specific explanation.

12. How many carloads of beef cattle have been shipped cooperatively from your county this year? _____
13. How many carloads in all have been shipped from your county this year? 50

(Use reverse side for remarks)

Two years ago when the demonstration work started in Page county there was considerable interest in Shorthorn cattle but the business did not seem to have enough backing to ever amount to much. I got busy took a lot of farms to various fairs, sales, etc, which aroused considerable enthusiasm. We then organized a county Shorthorn Breeders Assn. which is now progressing nicely and we have more than 10 pure bred now to one when the work started.

In a little valley known as Mountain Valley about 30 families live on rather small farms. Everybody keeps a few common cows and here and there is a scrub bull. After holding three meetings at which most of the farmers were present I succeeded in getting them to organize a bull club and to buy a fine shorthorn calf which I believe is a start to revolutionizing the cattle industry in that valley.

| 6. On how many of these demonstrations were records kept? | | All |
| .. (Report results in dollars, rate of gain, amount and cost of gain, total profit, detailed statements of production, &c, and attach hereto; also report number of farmers, number of hogs, and results of "hogging off" or grazing of crops, in same manner as for feeding demonstration.) | | |
| 7. How many farmers have you induced to start hog pastures? | | _____ |
| 8. How many farmers have you induced to start the growing of grazing crops for hogs? | | _____ |
| 9. Estimate number of hogs fed for cared for according to methods which you advocated. | | _____ |
| 10. Give number of pure-blood bears when demonstration work started. | | 15 |
| Number now | | 40 |
| 11. Give number of ^{pure breeds} hogs in county when demonstration work started. | | 40 |
| Number now | | 300 |
| 12. How many carloads of hogs have been shipped cooperatively from your county this year? | | _____ |
| 13. How many carloads in all have been shipped from your county this ^{year?} | | 22 |

(For remarks, incidents &c use other side and additional sheets if necessary)

Two year ago when I went into Page county I found more Duroc hogs than any other bred but there were very few high class animals and while there was about a dozen men engaged in the business there was no united effort being made to push the bred. I called a meeting and got 8 men to organize a County Duroc Jersey Swine Breeders Assn.

this Assn. now has 18 members and we also have a boar club. About 50 head of first class Durocs have been brought into the county most of which have been kept here. ~~XXXXXXXXXXXX~~

From the time we got our pig club started last spring I began to make plans to take a carload of hogs to the state fair. Everybody thought it would be great ~~XXXXXX~~ if we could make a creditable showing but since none of our farmers had ever even exhibited anything at a small show they felt that I was asking them to undertake too much.

This was nothing more than should be expected so I went right on with my plan with never an idea of failing. When the fair finally came we reported with 25 fine Durocs, and won 15 Ribbons, including one Grand Champion and one Reserve champion. We had two of the largest hogs, considering their age that were ever exhibited at Richmond, so far as I have been able to learn the largest ever exhibited anywhere.

The Cashier of one of our Banks got so much interested in the proposition that he took it upon himself to feed and care for these hogs while they were at ~~ifair~~ the fair. He got in the car with them when they left our station and staid with them until they returned.

None of our farmers had ever attended the state fair but owing to the interest in our exhibit there two club boys and 11 farmers attended this year.

Nov 6 we held our first auction and sold about 40 head making the highest average of any sale ever held in Va. The boys pig club pigs averaged \$113. Page is now one of the leading Duroc counties of Va,

COOPERATIVE EXTENSION WORK
IN
AGRICULTURE AND HOME ECONOMICS
STATE OF VIRGINIA

VIRGINIA AGRICULTURAL AND MECHANICAL
COLLEGE AND POLYTECHNIC INSTITUTE
AND THE OFFICE OF THE DEPARTMENT OF
AGRICULTURE/COOPERATING.

EXTENSION DIVISION,
VIRGINIA AGRICULTURAL AND MECHANICAL
COLLEGE AND POLYTECHNIC INSTITUTE.

Sometime ago a prosperous farmer told me that he thot I was a fool when I came to his place and ~~ta~~ began to talk about letting hogs run to a self feeder and eat all thy wanted and then to make matters worse I told him to buy tankage which cost \$6.00 per 100. But after his son tried it out and kept an accurate account he found that he himself was the fool. His son was the first in Page county to build a self feeder "e is now using four and there are more than 50 in use in the county.

SHEEP AND GOATS

Demonstration

Specify if sheep or goats - separate sheet for each.

1. How many head of pure-bred rams have been brought into the county this year through your influence? _____
How many ewes? _____
2. How many grade ewes have been brought into the county this year for breeding purposes due to your influence? _____
3. How many flocks have been started? _____
4. How many sheep-feeding demonstrations did you supervise? _____
5. How many sheep in these demonstrations? _____
6. On how many of these demonstrations were records kept? _____
(Give statement of production in dollars, rate, amount and cost of gain, profit, etc., and attach hereto; also report results of grazing of crops in same manner as for feeding demonstrations.)
7. How many farmers did you induce to grow grazing crops for sheep? _____
8. Estimated number of sheep fed or cared for according to methods which you advocated. _____
9. Number of pure-blood rams in county when demonstration work started. _____
Number now _____
10. Number of pure-blood sheep in county when demonstration work started _____
Number now _____
11. Report results of campaign for more sheep, eradication of dogs, etc., under "Remarks". _____
12. How many carloads of sheep and goats have been shipped cooperatively from your county this year? _____
13. How many carloads in all have been shipped this year? _____

(For additional remarks, etc., use reverse side of sheet)

LIVE STOCK DISEASES AND PESTS

1. State below how many head of stock you or other extension workers have induced farmers in your county to have treated for diseases or pests:

Cattle treated for;

blackleg	_____	tuberculosis	_____
anthrax or charbon	_____	ticks	_____
digestive and other troubles	_____	lice	_____

Hogs treated for;

cholera (single treatment)	_____	worms	_____
cholera (simultaneous ")	_____	lice	_____
digestive and other troubles	_____	scabs	_____

Sheep treated for;

stomach worms	_____	grubs	_____
digestive and other troubles	_____	scab	_____
		ticks	_____

Horses treated for;

spinal meningitis	_____	distemper	_____
digestive ailments	_____	accidents	_____
anthrax or charbon	_____	other troubles	_____

(Report results of cattle, hogs, sheep and horse treatments under "Remarks")

2. How many of the above did you personally treat or test?

<u>Cattle</u> :-	blackleg	_____	tuberculosis	_____
	anthrax or charbon	_____		
<u>Hogs</u> :-			hog cholera	_____
<u>Horses</u> :-			anthrax or charbon	_____

3. Have you instruments for such treatments? _____

4. Report results of campaigns for eradication or control of diseases or pests. _____

(Use reverse side of sheet for remarks, etc.)

EFFECT OF DEMONSTRATION
 WORK ON THE COMMUNITY AND
 HUMAN INTEREST FEATURES

The data called for on the other sheets are mostly statistics. The replies to the following questions are intended to furnish a basis from which to make an estimate of the general effect of the demonstration work on the individual and the community. The agent should not restrict his general information to the questions asked, but should give any additional facts that will bring out prominently the good effects of the influence the agent's work has exerted over any individual or over the county in general. Each agent should give at least one human interest story. It would be much better if such stories could take up the work with the individual and follow it through for several years.

HOW MANY OF YOUR DEMONSTRATORS AND COOPERATORS ARE:

1. Raising practically all their home supplies? _____
2. Have opened new bank accounts since beginning demonstration work? _____
3. Have increased their bank deposits since beginning demonstration work? _____
4. Own their farms? _____
5. Have mortgages on their farms? _____
6. Have paid off their mortgages since beginning demonstration work? _____
7. Trading on a cash basis since beginning demonstration work? _____
8. Do the bankers and merchants favor demonstration farmers in placing business, such as in the loaning of money and extension of credit? If so, give examples.

WHAT PER CENT OF YOUR DEMONSTRATORS AND FARMERS ARE:

9. Decreasing their indebtedness along various lines? _____
10. Showing increased interest in agricultural meetings? _____
11. Showing a desire to study their farm business and progress? _____

Space for agent's stamp

SUCCESSFUL UNDERTAKINGS

CHAR. W. WAMPLER,
Emergency Demonstration Agent,
HARRISONBURG, VIRGINIA

Each county agent will be expected to report three (3) important pieces of extension work attempted and successfully accomplished by him during the year. Details of your plan, method of procedure, and results, together with any other interesting facts and observations concerning each piece of work, should be included.

This sheet and as many additional sheets as are necessary should be used for this purpose.

Last year acting against the advise of my Agriculture council I held a corn and poultry show. We made a ~~moder~~ creditable exhibit and about 300 attended. Everybody was pleased and agreed that it was a success and said that we would do better ~~some~~ next year.

This year I had practically the unanimous support and of the farmers and business men in my effort to hold a corn, poultry and pig show, school rally, corn judging contest, etc.

We had a three day affair, the second day was school day and the last day we held our hog sale. ~~The~~

The exhibit of corn and poultry was better than last year and the 65 hogs exhibited made a real hog show. We had a total attendance of about 2000. Plans are now being made for a real county fair next year.

Clarke B- Aged 16, lived with his parents in a tenant house on Mr G's farm. His father was a faithful laborer but for some cause Clarke was usually found absent from the place he was most needed.

Through the summer months he worked on an average about one day per week also never a whole day at one time and in the winter he attended school less than half of the time. Clarke was not an especially bad boy although he goes without saying that a boy who is not kept busy at some worthy endeavor is certain to do many things which would just as well be undone. He happened to be at school the day I called and explained the plans of the pig club and at once became interested, went home and ^{asked} Mr G- to get him a pig. Mr G- having but little faith in the boys pig growing ability refused to get him a pig but agreed to lend him a horse to ride to Mr L-'s farm where he succeeded in getting a good pure bred Duroc boar pig on the contract that he would return the pig to Mr L- at the end of the six month contest and receive the market price for every pound put on.

Now that he had the pig how would he care for him? He had neither feed, money nor credit so he necessarily concluded to go to work.

He started to work regularly for Mr G- and soon had enough money to get all the necessary feed and pasture. The pig grew rapidly and became the pride of Clarke and his parents as well as the neighborhood and neighbors. He won second at the local fair and was so good that he was taken to the state fair at Richmond where he won fourth place. But what was more important than the development of this fine pig was the development of the boy. Having new inspiration and ^{formed} a habit of working he continued right on thru the hot days of July and August never missing a day. It is stated by those who know him best that he did more work this summer than in all his life before.

In addition to paying him full wages for his summer work Mr G- gave him a free trip to the state fair where he had "the time of his life" found out more about the size of the world and returned home with new ideas and ambitions. He now has a pig bought with his own money and is on the road to success and good citizenship.
