ADDITIONAL STATISTICAL REPORT	PAGE 8

SUMMARY OF SURRY COUNTY

Surry County from both soil and climate conditions, is well adapted to a large variety of field crops, such as small grains, corn, peanuts, soybeans, field peas, truck and garden vegetables, also various hay crops.

This has been a year of unfavorable weather conditions and the quality of our main cash crop peanuts is not as good as in the preceding years. We have an unusual large crop of peanuts and the prices are not very favorable. Without the Oil Diversion Program it would not be possible for any farmer in Surry County to show a profit on his peanut crop. Very few of the Surry County farmers qualified for maximum payment under the Agricultural Conservation Program due to overplanting their allotted acreage of peanuts, and not meeting their maximum soil-building goal.

We are successful growers of soybeans for both hay and forage crops for livestock. Thousands of acres are planted in corn, and without corn, for these purposes each year.

Small grains mainly barley has increased considerably during the past year. This is due to the fact that there has been a great increase in the number of combines in the county. Rye, oats, and wheat are seeded mostly for spring grazing and winter cover crops to be turned under in the spring.

Considerable acreage is seeded to crimson clover in the fall for spring pasturage purpose and green fallow. A great acreage of lespedeza is seeded in the spring on land with small grain.

Corn is a very necessary field crop and is grown on every farm in the county, and responds to treatment as well as any crop grown here, while the yield ordinarily is not so very high, crops of a hundred bushels per acre has been grown in a few instances. It is not commercially grown, but has its place on every farm.

SUMMARY OF ACTIVITY AND ACCOMPLISHMENTS

We have not accomplished a great deal in the field of organization this year, but we have aided the Farm Bureau and instigated the Southside Peanut Cleaning Cooperative, and helped out in all of our organizations both cooperative and non cooperative. We have the following list of organizations which we have aided and in turn have had our work supported.

1. Surry County Farm Bureau
2. Surry County Agriculture Conservation Association
3. Virginia Peanut Growers Co-operative, Inc.
4. Peanut Cleaning Cooperative, Inc.
5. Ruritan Club
6. Farmers Club
7. Farmers Union
8. Three & H Clubs

Most of these organizations are fairly active and have shown interest in the agricultural affairs of the county.

We have given information pertaining to all of the agricultural field and have met with good results. Some of the information was such as fertilizers and seed recommendations.

We have had considerable soil tested, and due to this we have had quite an increase in yields.

We have also accomplished a lot in getting farmers to treat hogs for cholera and hemorrhagic septicemia. We also have given our service in treating sick farm animals.

We have encouraged and aided farmers in getting pure bred sires in their herds of swine.

One of our greatest accomplishments is that we have worked very cooperatively with different government agencies and have received whole hearted cooperation from them.

PAGE 4

CHANGES IN COUNTY EXTENSION ORGANIZATION

We have made many changes in our County Extension organization mainly through our Agriculture Workers Council. We expect to and have started the work of organizing our County Board of Agriculture. We are holding regular monthly meetings in five different communities in the county and through this type of meeting we expect to put our Extension Program over to a better advantage. We consider our greatest accomplishment of the year the promotion of the "Live at Home Program". We are again glad to report that practically every farm in Surry County maintains a year around garden and at least one cow.

The only change worthy of noting is that the Agriculture Workers Council now meet at our office once a month instead of called meetings. We have met with considerable success in working cooperatively with all other agricultural agencies in Surry County.

PROGRAM OF WORK

Surry County 1940

Paul S. Blandford, Co. Agt.
O. M. Cokes, Asst. Co. Agt.

A-AGRICULTURAL CONSERVATION PROGRAM

1. Assist County ACP Committee in:

- (a) preparing and forwarding ACP applications to State Office
- (b) delivering 1939 ACP payments.
- (c) holding educational meetings to explain various AAA programs to farmers
- (d) checking performances of producers in 1940 ACP and other AAA programs
- (e) work dealing with various miscellaneous duties in connection with Cotton Parity Payments and cotton marketing quotas.

B-EXTENSION ACTIVITIES

1. Cooperative Buying and Selling

(a) Assist in:

- (1) Continuing successful operation of Surry Farm Bureau in its various projects.
- (2) securing a larger Farm Bureau membership and in expanding its activities in the county.
- (3) Continuing to cooperate with the Southside Cooperative Farm Bureau, Inc. which includes Surry County.

2. Rural Electrification

- (a) Assist various communities in Surry County in securing electric service through the REA. We have completed one project and it is working very successfully.

3. Agronomy

(a) Encourage

- (1) wider and more practical use of cover and green manure crops. Much success has been obtained thus far in this endeavor.
- (2) use of approved crop rotations.
- (3) use of best seeds available, free from diseases and as near perfect as possible in all respects.
- (4) wider and more efficient and practical use of fertilizers and lime.
- (5) stricter adherence to the "Live at Home" program so as to provide adequate food and feed crops for family and livestock.

4. Animal Husbandry

(a) Encourage

- (1) use of better sires and dams, with a view towards building a purebred herd.
 - (2) use of more practical hog houses and brooder houses. Surry farmers are sadly lacking in proper swine housing.
 - (3) use of more approved pastures, both for hogs and other livestock.
 - (4) disease control and preventive methods, especially immunization of hogs against cholera.
- (b) The above points to be accomplished in the manner outlined in 3 (b) above.

5. 4 H Club Work

- (a) carry on 4 H club meetings

6. Care of Livestock

- (a) Due to the lack of Veterinarian will aid farmers as much as possible with sick animals.

PAGE 7

OUTLOOK AND RECOMMENDATIONS

The outlook for 1941 is not very promising for Surry County farmers. Prices on our main cash crops (peanuts and hogs) are below the cost of production as we now farm. The outlook for the coming crop is good due to the fact that farmers are seeding many acres of cover crops. There has been a great increase in the last few years of better farming practices such as cover crops and a more sound rotation of crops.

We recommend absolute control of peanuts similar to that of cotton and tobacco. We also recommend more cooperation with Federal Agencies and a larger per cent of compliance with the Agricultural Conservation Program. We are advocating the use of the government grant of aid in the form of ground limestone and 20% superphosphate. This has and will continue to be of great service to Surry County farmers as most of the soil tends to be high in acidity.

Our program of work will continue as last year and that is to meet with other governmental agencies once a month and work in cooperation with them for the mutual benefit of the farmer.

We wish to submit also a statistical report as follows:

Days in field-----	200
Days in office-----	362
Days sick leave-----	28
Days annual leave-----	29
Farm visits made-----	1177
Phone calls-----	1427
Office visits-----	3645
Individual letters-----	3092
Circular letters-----	38
Articles for press-----	9
Miles traveled-----	22706
4 H Club meetings-----	27
Attendance on same-----	636
Cows treated-----	419
Horses and mules treated-----	327
Hogs treated for cholera-----	4271
Hogs treated for intestinal and other trouble-----	1904
Poultry vaccinated against fowl pox-----	575
Poultry culled for egg production-----	3728

COMBINED ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is for use by county extension agents in making a combined statistical report on all extension work done in the county during the year. Agents resigning during the year should make out this report before quitting the service.

State Virginia County Surry

REPORT OF

_____ (Name) Home Demonstration Agent.	From _____ to _____, 1940
_____ Assistant Home Demonstration Agent.	From _____ to _____, 1940
_____ 4-H Club Agent.	From _____ to _____, 1940
_____ Assistant County Agent in charge of Club Work.	From _____ to _____, 1940
<u>Paul S. Blandford</u> Agricultural Agent.	From <u>12-1-39</u> to <u>12-1</u> , 1940
<u>O.M. Cowlen</u> Assistant Agricultural Agent.	From <u>12-1-39</u> to <u>12-1</u> , 1940

READ SUGGESTIONS, PAGES 2 AND 3

Approved: _____

Date _____ State Extension Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT

The annual report should be a summary, with analysis and interpretations, for presentation to the people of the county, the State, and the Nation of the extension activities in each county for the year, and the results obtained by the county extension agents assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agents and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support of extension work.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

STATISTICAL SUMMARY

Where two or more agents are employed in a county they should submit a single statistical report showing the combined activities and accomplishments of all county extension agents employed in the county during the year. Results obtained through assistance rendered agents by specialists should also be included. This report shows, insofar as possible, the part each agent has taken in forwarding the extension program. The county totals should be the sum of the activities and accomplishments of individual agents *minus duplications due to two or more agents participating in the same activity or accomplishment.* The county totals, when properly recorded, show the progress made in the county during the year in forwarding the entire extension program. Negro men and women agents should prepare a combined statistical report separate from that of the white agents.

The statistical summary should be a report of this year's activities and results that can be verified by records on file in the county office. Where records are not available careful estimates are desired. Such estimates should be marked "Est."

NARRATIVE SUMMARY

A separate narrative report is desired from the leader of each line of work, such as county agricultural agent, home demonstration agent, boys' and girls' club agent, and Negro agent. Where an assistant agent has been employed during a part or all of the year, the report of his or her work should be included with the report of the leader of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked.

The narrative report should summarize and interpret, under appropriate subheadings, the outstanding results accomplished and the extension methods used for each project. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with necessary data from the statistical summary. Use a descriptive style of writing, giving major accomplishments first under each project. Give extension methods fully relating to outstanding results only, and where practicable illustrate with photographs, maps, diagrams, blueprints, or copies of charts and other forms used. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs and reasonably good margins. The pages should be numbered in consecutive order.

The following outline is merely suggestive of how the narrative report may be clearly and systematically presented. Each agent should prepare an outline to fit the situation and the work to be reported.

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT

- I. Cover and title page.
- II. Table of contents.
- III. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning of the narrative report.
- IV. Changes in county extension organization made during the year to improve regular procedures or to meet emergencies.
- V. County extension program.
 - (1) Problems determining extension program.
 - (2) Influence of State and National agricultural agencies operating in county upon extension program.
 - (3) Activities and results.

Under appropriate headings present in some detail for each major problem or line of work the goals set up, the methods used, the cooperation received, the coordination effected, the results achieved, and the significance of these results in terms of problem solution.

- VI. Outlook and recommendations.

TERMINOLOGY

To insure reports which convey the intended meaning to others and to facilitate the compilation of satisfactory national statistics on extension, it is extremely important that terms be used in accordance with accepted definitions. The following definitions of extension terms have been approved by the United States Department of Agriculture and the Association of Land Grant Colleges and Universities. Agents should read these definitions before starting to write the annual reports.

DEFINITIONS OF EXTENSION TERMS

1. An extension program is a statement of the specific projects to be undertaken by the extension agents during a year or a period of years.
2. A plan of work is a definite outline of procedure for carrying out the different phases of the program. Such a plan provides specifically for the means to be used and the methods of using them. It also shows what, how much, when, and where the work is to be done.
3. A community is a more or less well-defined group of rural people with common interests and problems. Such a group may include those within a township, trade area, or similar limits. For the purpose of this report a community is one of the several units into which a county is divided for conducting organized extension work.
4. A project leader, local leader, or committeeman is a person who, because of special interest and fitness, is selected to serve as a leader in advancing some phase of the local extension program. A project leader may be either an organization or a subject-master leader.
5. Demonstrations as contemplated in this report are of two kinds—method demonstrations and result demonstrations. A method demonstration is a demonstration given by an extension worker or other trained leader for the purpose of showing how to carry out a practice. Examples: Demonstrations of how to can fruits and vegetables, mix spray materials, and cull poultry. A result demonstration is a demonstration conducted by a farmer, home maker, boy, or girl under the direct supervision of the extension worker, to show locally the value of a recommended practice. Short a demonstration involves a substantial period of time and records of results and comparisons, and is designed to reach others in addition to the person conducting the demonstration. Examples: Demonstrating that the application of fertilizer to cotton will result in more profitable yields, that underweight of certain children can be corrected through proper diet, that the use of certified seed in growing potatoes is a good investment, or that a large farm business results in a more efficient use of labor. The adoption of a farm or home practice resulting from a demonstration or other teaching activity employed by the extension worker as a means of teaching is not in itself a demonstration.
6. A result demonstrator is an adult, a boy, or a girl who conducts a result demonstration as defined above.
7. A cooperator is a farmer or home maker who agrees to adopt certain recommended practices upon the solicitation of an extension worker. The work is not directly supervised by the extension agent and records are not required, but reports on the success of the practices may be obtained.
8. A 4-H Club is an organized group of boys and/or girls with the objectives of demonstrating improved practices in agriculture or home economics, and of providing desirable training for the members.
9. 4-H Club members enrolled are those boys and girls who actually start the work outlined for the year.
10. 4-H Club members completing are those boys and girls who satisfactorily finish the work outlined for the year.
11. A demonstration meeting is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
12. A leader-training meeting is a meeting at which project leaders, local leaders, or committeemen are trained to carry on extension activities in their respective communities.
13. An office call is a call in person by an individual or a group seeking agricultural or home-economics information, as a result of which some definite assistance or information is given. A telephone call differs from an office call in that the assistance or information is given or received by means of the telephone. Telephone calls may be either incoming or outgoing.
14. A farm or home visit is a call by the agent at a farm or home at which some definite information relating to extension work is given or obtained.
15. Days in office should include those spent by the county extension agent in the office, at annual and other extension conferences, and on any other work directly related to office administration.
16. Days in field should include all days spent on official duty other than "days in office."
17. Letters written should include all original letters on official business. (Duplicate letters should not be included.)
18. An extension school is a school usually of 2 to 6 days' duration, arranged by the Extension Service, where practical instruction is given to persons not resident at the college. An extension short course differs from an extension school in that it is usually held at the college or another educational institution and usually for a longer period of time.
19. Records consist of definite information on file in the county office that will enable the agent to verify the data on extension work included in this report.
20. The county extension association or committee is that county organization, whether a membership or a delegate body, which is recognized officially in the conduct of extension work in the county.

GENERAL ACTIVITIES

Report Only This Year's Extension Activities and Results That Can Be Verified

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report. Include time of assistants with that of regular agent.

AGENT	Total months of service this year	Days devoted to work with adults	Days devoted to work with 4-H Club and other youth	Total days in office	Total days in field
	(a)	(b)	(c)	(d)	(e)
..... (Name) Home demonstration agent.....					
..... Aast. home demonstration agent.....					
..... 4-H Club agent.....					
..... Assistant county agent in charge of club work.....					
..... Agricultural agent.....		449	123	301	271
..... Assistant agricultural agent.....	12	249	50	119	180
	12	200	73	182	91

2. County extension association or committee:

(a) Agricultural extension:	(1) Name.....	(2) Number of members.....	} 2
(b) Home demonstration:	(1) Name.....	(2) Number of members.....	
(c) 4-H Club:	(1) Name.....	(2) Number of members.....	} 3
3. Number of communities in county where extension work should be conducted.....		10	
4. Number of above communities in which the extension program has been planned cooperatively by extension agents and local committees.....		10	4
5. Number of different voluntary county or community project leaders or committeemen actively engaged in forwarding the extension program:			
(a) Adult work { (1) Men..... (2) Women.....	(b) 4-H Club work { (1) Men..... (2) Women.....	(3) Older club boys..... (4) Older club girls.....	} 5
6. Number of different paid local leaders engaged in agricultural-conservation and adjustment programs.....	(a) Men..... 12 (b) Women.....		
7. Number of clubs or other groups organized to carry on adult home demonstration work.....			7
8. Number of members in such clubs or groups.....			8

ITEM	Home demonstration agents (a)	4-H Club agents (b)	Agricultural agents (c)	County total (d)
9. Number of 4-H Clubs.....			3	3
10. Number of different 4-H Club members enrolled.....			18	18
			55	55
11. Number of different 4-H Club members completing.....			3	3
			8	8

12. Number of different members enrolled in 4-H Club work for:

MEMBERS	1st year	2d year	3d year	4th year	5th year	6th year and over
(a) Boys.....	6	63	5	83	1	0
(b) Girls.....	16	13	18	27	0	1

¹ County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or accomplishment.

² Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the project enrollments reported on pages 7 to 24, minus duplications due to the same boy or girl carrying on two or more subject-matter lines of work. Do not include boys and girls enrolled late in the year in connection with the succeeding year's program.

³ Same as footnote 2 but refers to completions instead of enrollments.

⁴ The total for this question should agree with county total, question 10.

SUMMARY OF EXTENSION INFLUENCE FOR YEAR

It is highly desirable for extension workers to consider the proportion of farms and farm homes in the county which have been definitely influenced to make some substantial change in farm or home operations as a result of the extension program for men, women, boys, and girls. It is recognized that this information is very difficult for agents to report accurately, so a conservative estimate based upon such records, surveys, and other sources of information as are available will be satisfactory. Such estimates should be marked "Est."

Include results of emergency activities as well as the regular extension program.

35. Number of farms in county	820	35
36. Number of farms on which changes in practices have definitely resulted from the agricultural extension program	10036	36
37. Number of farm homes in which changes in practices have definitely resulted from the home demonstration program		37
38. Number of other homes in which changes in practices have definitely resulted from the home demonstration program		38
39. Number of farm homes with 4-H Club members enrolled	50	39
40. Number of other homes with 4-H Club members enrolled	10	40
41. Total number of different farm families influenced by some phase of the extension program (Include questions 36, 37, and 39, minus duplications.)	150	41
42. Total number of different other families influenced by some phase of extension program (Include questions 38 and 40, minus duplications.)	20	42

¹ County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or accomplishment.

NOTE.—Questions 18-34 refer to the total number of different activities conducted this year. The totals should equal the sums of the corresponding information reported on following pages minus duplications where the same activity relates to two or more lines of work.
