Dis(course)

[\(Dis\)course](#) is an ongoing dialogue to discuss relevant issues of gender in society, while bringing to the forefront the work and teachings of VT faculty members. By engaging with both traditional “texts”, as well as contemporary text, such as TV, new media, etc., we are creating a modern day book club that fosters community, is intentionally intersectional, and contributes to and engages with gendered issues.

Discussion groups are in partnership with a variety of faculty members and their courses and will take place via Zoom every other week, with two opportunities to engage during each discussion week.
