| Project Activities----- | 3.6.7.8. |
| Community Organization----- | 9. |
| Fairs----- | 9 |
| Miscellaneous----- | 9. |

INTRODUCTION

The contents of this report is a complete narrative summary of the Extension program in Goodland County for the year 1929, summarizing, the aims and goals of the program; the degree of accomplishment; and the expectation of various items not recorded in the statistical report.

The county's Extension organization is composed of a County Agent and Home Demonstration Agent, each having an Advisory Council. The County Agent's council consists of six farmers, three supervisors, and the county agent, representing as nearly as possible each district.

The purpose of this body is to work out plans of programs for developing the county agriculturally and educationally, and aid the county agent in putting the plan of work across, that they have mapped out for the year. Before attempting to plan the county's work the council with the county agent meets and considers the projects advisable to undertake, how much to undertake, how to do the things planned.

One of the policies of the Extension organization is to advocate and encourage such practices that will tend to improve the soil, the quality of production, and give greater returns for less labor. It further encourages a more diversified agriculture; the supplementing of the one crop farming system with one that will insure an income, should one individual crop fail. It stresses the value of dairying, poultry, hogs, and sheep, as alternatives for a part of their previous cash crops. It cooperates closely with the farm women and men for economical production and orderly marketing of their products. It further encourages the boys and girls through 4-H club work to take an active part in fostering improved farm practices, establishing a cooperative spirit and community building.

The work in the county for the past year has been pleasing to the agent in many respects. The attitude of a large proportion of the people towards extension work has been very gratifying. At the time the appropriation was made the District Agent was sick, this forced the county agent to go before the Board of Supervisors, to ask for the appropriation. Instead of some opposition as there had been before, the Board voted unanimously for the work to be continued for another year.

There are in the county, twelve communities in which some part of the Extension program has been carried out. Southland being a rural community, with the school houses as community centers, all meetings for the betterment of the community are held at the school houses. The community leagues that are established in most all of the schools have done added work in helping the agent with 4-H club work in the schools and communities. They have helped with the raising of money to send club members to District and State Short Courses, and in furthering other phases of community work.

PROGRAM OF WORK

A tentative plan, or program of work for the ensuing year was drawn up in December, by the agent. The program was essentially the same as for the preceding year, and the major projects were, dairying, farm crops, work on soils, and 4-H club work.

After the program was completed the agent had the Advisory Council, to pass on this, and a copy was given to each member of the council. Four of the members on the council took an active part in helping the agent carry out the program.

PLAN OF WORK FOR DOONAN COUNTY,

1929

Soils.

| Goals | Achievements. |
|---------------------------|---|
| High analysis fertilizers | 16 Demonstrations |
| lime | 40 Demonstrations with 1000 tons used. |
| Soil improvement | 14 Demonstrations. |

Farm Crops.

Cereals

Wheat

22 Demonstrations.

| Goals | Achievements. |
|------------------------|---------------------------------------|
| Wheat | 13 Demonstrations |
| Ope | 2 Demonstrations |
| Oats | 3 Demonstrations |
| Barley | 1 Demonstration. |
| Legumes. | |
| Alfalfa | 18 Demonstrations. |
| Soybeans | 17 Demonstrations. |
| Sweet Clover | 18 Demonstrations. |
| Red & Alsike Clover | 4 Demonstrations. |
| Crimson Clover | 9 Demonstrations. |
| Lupedena | 3 Demonstrations. |
| Perennial pasture | 7 Demonstrations. |
| Livestock. | |
| Dairying. | |
| Purebred Halls | 6 Faced |
| Purebred Heifers | 2 Faced |
| Grade Heifers | 15 Faced |
| Increase cream shipped | 15 Farmers started to shipping cream. |
| Dairy Meetings | 2 Held |
| Beef Cattle. | |
| Purebred Halls | 2 Faced. |
| Purebred Heifers | 3 Faced. |
| Hogs. | |
| Purebred Hogs | 7 Faced. |
| Purebred Sows | 6 Faced |
| Grading | 3 Demonstrations. |

| Goals | Achievements. | |
|--|------------------------|------------|
| Chocolate for Choleza | 156 Treated. | |
| Mineral Histories. | 15 Demonstrations. | |
| Feeding. | 10 Demonstrations. | |
| Sheep. | | |
| Purebred Bucks | 5 Placed. | |
| Purebred ewes. | 8 Placed. | |
| Stomach worms | 9 Demonstrations | |
| | 110 Treated. | |
| Cooperative marketing of wool. | 50¢ Sold Cooperatively | |
| Poultry. | | |
| Calling Schools. | 2 Schools Held. | |
| | 1600 Called. | |
| Breeder Houses. | 4 Built. | |
| Laying Houses. | 6 Built. | |
| Club Work. | | |
| Community Clubs | 8 Clubs. | |
| To enroll club members in the following projects. | Enrolled----- | Completed/ |
| Corn | 9 | 9 |
| Fat Pig. | 13 | 10 |
| Lardon | 7 | 6 |
| Soybean | 2 | 2 |
| Dairy Calf | 3 | 4 |
| Tobacco | 1 | 1 |
| | ----- | ----- |
| Total. | 55 | 50 |

| Goals | Achievements. |
|------------------------------|--|
| Fairs, | |
| County Exhibit at State Fair | Exhibit was made. |
| Held County Fair | County Fair held. |
| Community, | |
| Community work. | 2 Recreational held. Assisted in planning programs for Community Leagues. |

Soils.

Farmers in Cochland County have increased the amount of lime used by 15 cars. At least 42 car load lots have been shipped in and spread during the year. The increase has been influenced to a large extent by the increased demand for clover and alfalfa hay, due to the increased grazing capacity of pastured alfalfa hay, due to the rapidly growing dairy industry. The time to take care of the rapidly growing dairy industry. The time has been reached for several years that grass and clover cannot be grown without the use of lime, except on the James River bottom land.

Educational work in the more use of lime for soil improvement was carried on by the agent through demonstrations, in the county. The agent had on farms in different communities, in the county. The agent had on three cars of lime given for the freight, to be divided out among several farmers who ran a demonstration with the lime given.

Some progress has been evident in the use of high grade fertilizers. This is particularly true of such crops as tobacco, corn, alfalfa and wheat. The agent especially encouraged the tobacco farmers to use better fertilizer to increase the quality of tobacco grown.

Farm Crops.

Cereals.

The demonstrations conducted with this crop, were the use of fertilizer and seed. The fertilizer was applied broadcast and disked into the soil before planting. The fertilized plots averaged 15 bushels more, than the unfertilized plots.

Nitrate of soda was used to top dress, in several cases where the farmer had only used 185 super phosphate in planting the corn. The check on this gave an increase yield of 10 bushels.

Wheat: The work with this crop was to get the farmers to use more fertilizer than seeding and to use better seed. This being a bad year and the yield of wheat being very low, it was not a fair test.

Barley: The agent realizing that the farmers should grow their dairy feeds at home, as nearly as possible, got a demonstration started. The barley is up and looking good, and the agent has great hopes in getting more seeded next fall.

Legumes.

Alfalfa: The agent realizing that alfalfa being the forage crop for the dairy cow, encouraged the seeding of small plots where the land was strong enough and could get lime used. In these demonstrations, two tons or more of ground limestone, three to four hundred pounds of a high grade fertilizer and three hundred of 185 superphosphate were used per acre. These demonstrations were also sown before seeding. The agent used two methods of seeding this crop, one in the fall, using 20 lbs. of alfalfa and 2 pounds of red or Alsike clovers and one in the spring, seeding the seed in about or cold. Both methods have proved successful and the farmers having these demonstrations are going to seed more the coming year.

Soybeans: The soybean is being a great help to the farmer both as a forage crop and a grain. The grain is used to supplement for getting seed meal in dairy rations, the beans being ground and mixed with corn, oats, and bran, in most cases. The yield of the beans being very good in the county, having yielded as high as 40 bushels to the acre, thus the farmers can well afford to raise them.

Sweet Clover: This is a very valuable crop in the county both for soil improvement and as a crop to graze. The latter being used in the majority of cases, to help make pastures, for the cattle.

Clover: Both red and Alsike clovers are coming back as a hay crop, where the farmers are using lime. The red and Alsike are the most important clovers used in the rotations, in the county. Realizing that we have to rotate our crops, to improve the soil, and make efficient feed to feed the stock, several farmers have started a rotation, and in most cases it is a three year rotation, with corn followed by a small grain, and clover being planted in the small grain, in the spring. The first crop of clover to be cut for hay and the second is plowed under and cut for seed.

Livestock.

Dairying: The agent through dairy meetings and personal visits has gotten eight farmers started on the most important improvements for tobacco and cow farming systems. I have encouraged the farmers to get a few cows and start gradually into the dairy business. This has been very satisfactory to the ones starting, the longer they stay in, the better they like it.

Hogs: Hogs are used by all of the cream shippers, to utilize the skim milk and the shippers are making a fair profit from their hogs. Hogs are also used by the river farmers who raise seed corn, the hogs being grazed and fed the unsalable seed corn.

Sheep: Sheep are one of the most profitable livestock raised in the county. At present there are a small number of sheep in the county, but this number is being gradually increased each year. The work done by the agent with sheep, consists of treating for stomach worms, castrating and docking, and the cooperative marketing of wool. This year 85% of the sheep growers marketed their wool cooperatively.

Poultry: Poultry production has shown a substantial increase over the preceding year, and improved poultry practices are largely responsible for this condition. A large proportion of the poultry work is done by the Home Demonstration agent, both independently and in conjunction with the Farm Agent. The two agents cooperate in getting over poultry institutes or calling schools, eight calling schools were held this year. The farm agent does all the specializing demonstrations, resulting this year in more than eight hundred birds going to the market at an average of 40 cents per pound live weight has been received for this type of poultry. Blood testing for white diarrhoea has been started this year for the first time in the county, and several poultrymen are testing and calling their eggs to commercial hatcheries at a nice increase over market price.

One poultryman did about an average of \$200.00 a month business in raising broilers. He dressed his birds and sold them to the clubs and hotels in Richmond at 10 cents per pound over live weight. This poultryman also has about 100 capons, which he expects to sell in March at a good price.

Poultry brings in more money to the county than any other livestock, thus the agent is encouraging the farmers in the county to keep at least 50 hens per farm, to house and to feed them well.

Club Work.

Club work continues to be a very popular phase of Extension work in the county. It is doing a great part in helping the agent get his program over to the adults. The agent had only 37 members enrolled this year, of which 30 completed their projects and turned in their Record books in good shape.

The Farm agent works in conjunction with the Home agent in 4-H Club programs, Short Courses, and leaders training schools. The agents held a Recreational School, which was led by Miss Ella Gardner. The school lasted for one night and the following day. All club leaders and older club members as well as others interested attended this meeting, there being 88 in attendance at each meeting. Since this school we find that it has been a great help to the club leaders in planning the program.

Community Organization work.

Very little has been done by the agent along this line, however, he helped to plan the community leagues program, and attends whenever it is possible.

Fairs.

The agent with the cooperation of the Home agent and people again held a county fair, at the county seat. The agent was greatly surprised at the increase in the number of exhibits and quality of same over last year. The prizes were secured from the business men in the county, nearly all of the merchants and business men gave small sums of money of merchandise to be used as prizes.

A county exhibit was put up at the state fair, by the Farm agent with the help of the Home agent.

Miscellaneous.

The agent found much miscellaneous work to be done. This consisted mostly of veterinary service, such as treating sick cows, haystacks.

COOPERATIVE EXTENSION WORK IN AGRICULTURE AND HOME ECONOMICS

Washington, D. C.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home agent, club agent, and negro agent, reporting on their respective lines of work.

Date 11-26-24 1924 County Yorkland
Report of W. B. Gardner County County Agent Agent
From December 1, 1924 to December 1, 1925

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should mark out this report before quitting the service.

READ DEFINITIONS, PAGES 3 AND 4

COUNTY AGENT ANNUAL REPORT.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in such county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made. One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. The report to the Washington office should be sent through the State extension office.

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work not included. Every statement should be clear, correct, concise, logical, and, where possible, presented with simple facts from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, line prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented.

MEMORANDUM OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Phase of organization—changes and development.
 - (2) Functions of local groups, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.

17. A **visiting instructor** is one of a series of paintings of one or two days' duration, arranged by a central State Bureau Institute agency, of which agricultural and home-occupations phases are discussed, usually by suitable speakers employed for this purpose.
18. An **extension or accessible service** is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not enrolled at the college. An extension course extends either from an extension school or from it is usually held at the college or other educational institutions and usually for a longer period of time, but not exceeding two weeks.
19. **Extension credit of definite instruction** filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **Farm or home practical courses** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, raising of fruits and vegetables, use of balanced rations, and hot smoking.

GENERAL ACTIVITIES

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report.

W. B. Jordan County Agent 12
(Name) (Title) (Period of service)

2. County association, if any, forwarding extension work. 11

(a) Name Community League

(b) Number of members 154

3. Number of committees in county where extension work should be conducted. 12

12

4. Number of clubs or committees to which the extension program has been voluntarily invited and by extension agents and people contacted. 12

12

5. Number of voluntary agents, community, or local leaders actively engaged in forwarding the extension program with— 9

(a) Teachers 9

(b) Adults 10

6. Number of clubs carrying on extension work. 9

(a) Men 9

(b) Adult 9

7. Membership in other clubs: 37

(a) Men 37 (b) Men _____

(c) Clubs _____ (d) Women _____

8. Number of club members assisting: 30

(a) Men 30 (b) Men _____

(c) Clubs _____ (d) Women _____

9. Number of members in junior club work for two or more years: 5

(a) Men _____

(b) Clubs 5

*When the total number of extension work is given, include in this work. This total should cover the work of the present year and the work of the past year. Do not include in this work the work of the past year which was done in the present year. Do not include in this work the work of the present year which was done in the past year. Do not include in this work the work of the present year which was done in the past year. Do not include in this work the work of the present year which was done in the past year.

General Activities—Continued.

| | | | |
|---|--------------------------------|------|----|
| 9. Number of junior teams trained | (a) Judges | 3 | 9 |
| | (b) Demonstrators | 9 | |
| 10. Number training sessions this year who may have been club members | | 3 | 10 |
| 11. Total number of girls' visits' made in conducting extension work | | 1071 | 11 |
| 12. Number of different homes visited | | 357 | 12 |
| 13. Total number of junior' visits' made in conducting extension work | | 41 | 13 |
| 14. Number of different homes visited | | 36 | 14 |
| 15. Number of girls' calling in extension work | (a) Other | 163 | 15 |
| | (b) Telephone | 31 | |

| | (b) Clubs | | |
| | (c) Boys | | |
| 212. Number of rooms treated in questions 209, 210, and 211 | (a) Bedrooms | } | 212 |
| | (b) Living rooms | | |
| | (c) Dining rooms | | |
| | (d) Other rooms | | |
| 213. Total number of different rooms adopting improved practices in the home-furnishings work reported on this page | | | 213 |

[Use space below to include other important facts relating to home furnishings.]

HOME HEALTH—SANITATION

Report only this year's extensive activities and results that are appraised by records.

| | | |
|--|---------------------------|-------|
| 281. Number of public talks or groups | (a) Women | } 200 |
| | (b) Families | |
| 282. Number of persons enrolled in home health and sanitation | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 283. Number of persons completing | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 287. Number of special demonstrations given | | 200 |
| 288. Number of special demonstrations started or under way | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 289. Number of special demonstrations completed or started through the year | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| HOMES ¹ | | |
| 290. Number of homes adopting recommended health practices this year | | 200 |
| 291. Number of households adopting recommended practices in— | | 200 |
| (a) Use of health news card | (c) Care of skin and hair | |
| (b) Good posture | (d) Room cleaning | |
| (e) Prevention of falls | (e) First aid | |
| (f) Good illumination | (f) _____ | |
| (g) Care of teeth | (g) _____ | |
| 292. In your health program coordinated with the work of State and county health authorities? | (a) Yes | } 200 |
| | (b) No | |
| REMARKS | | |
| 293. Number of homes exhibiting sanitary checks or notices this year according to plans furnished | | 200 |
| 294. Number of homes assessed for the first time | | 200 |
| 295. Number of homes exhibiting other methods of controlling dirt, mosquitoes, and other insects for the first time | | 200 |
| 296. Total number of different homes adopting improved practices relative to the sanitation work reported on this page | | 200 |

[The space below is to include other important data relating to home health and sanitation.]

AGRICULTURAL ENGINEERING—HOUSE.

Report only this year's activities and results that are supported by records.

Do not list information which has been previously reported on page 18.

| | |
|---|-----|
| 207. Number of ranch demonstrations given..... | 207 |
| 208. Number of ranch demonstrations started or under way..... | 208 |
| 209. Number of ranch demonstrations completed or carried through the year..... | 209 |
| 210. Number of dwellings constructed this year according to plans furnished..... | 210 |
| 211. Number of dwellings remodelled this year according to plans furnished..... | 211 |
| 212. Number of sewage-disposal systems installed this year according to plans furnished..... | 212 |
| 213. Number of water systems installed this year according to plans furnished..... | 213 |
| 214. Number of heating systems installed this year according to plans furnished..... | 214 |
| 215. Number of lighting systems installed this year according to plans furnished..... | 215 |
| 216. Number of poultry houses constructed this year according to plans furnished..... | 216 |
| 217. Total number of different homes adopting improved practices relative to the agricultural engineering work reported on this page..... | 217 |

[Use space below to include other important data relating to agricultural engineering.]

BEAUTIFICATION OF HOME GROUNDS.

Report only this year's activities and results that are supported by records.

Do not list information which has been previously reported on page 18.

| | | |
|---|----------------|-----|
| 218. Number of project clubs or groups..... | (a) Wages..... | 218 |
| | (b) Clubs..... | |
| 219. Number of nurseries installed in beautification of home grounds..... | (a) Wages..... | 219 |
| | (b) Clubs..... | |
| | (c) Boys..... | |
| 220. Number of nurseries completing..... | (a) Wages..... | 220 |

| 224. Number of home grounds planted this year according to a landscape plan..... | | 224 |
| 225. Number of school and community grounds planted this year according to a landscape plan..... | | 225 |
| 226. Number of homes painted or whitewashed this year as a result of instruction in beautification..... | | 226 |
| 227. Total number of different homes beautifying home grounds this year..... | | 227 |

[Use space below to include other important data relating to beautification of home grounds.]

HOME GARDENS.

Report only this year's extensive activities and results that are supported by records.
Do not list information which has been previously reported on page 12.

| | | |
|---|-----------|-------|
| 206. Number of perfect plants or groups | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 207. Number of seedlings received in home gardens | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 208. Number of seedlings transplanting | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 209. Number of useful domestication trees | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 210. Number of small domestications started or under way | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 211. Number of small domestications completed or started through the year | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 212. Number of gardens produced in small domestications | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 213. Number of individuals adopting improved practices in growing fruits from this year | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 214. Number of individuals adopting improved practices in growing fruits and small trees this year | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 215. Number of individuals adopting improved practices in growing grapes this year | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 216. Number of individuals adopting improved practices in growing vegetables this year | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 217. Number of individuals using improved stock or seed for the first time | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 218. Number of homes supplied or obtaining beautiful garden maps for flowers and fruit plants for the first time | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 219. Number of individuals getting white gardens for the first time | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |
| 220. Total number of different persons adopting improved practices relative to the home-garden work reported on this page | (a) Women | } 200 |
| | (b) Girls | |
| | (c) Boys | |

[This space is left to include other important data relating to home gardens.]

HOME POULTRY.

Report only this year's extension activities and results that are supported by records.
Do not list information which has been previously reported on pages 14 and 25.

| | | |
|--|---|-----|
| 243. Number of project clubs or groups | <input type="checkbox"/> Women <input type="checkbox"/> Junior <input type="checkbox"/> Women <input type="checkbox"/> Club <input type="checkbox"/> Boys | 243 |
| 244. Number of members enrolled in home poultry | <input type="checkbox"/> Women <input type="checkbox"/> Club <input type="checkbox"/> Boys | 244 |
| 245. Number of members completing | <input type="checkbox"/> Women <input type="checkbox"/> Club <input type="checkbox"/> Boys | 245 |
| 246. Number of method demonstrations given | | 246 |
| 247. Number of result demonstrations started as teacher was | <input type="checkbox"/> Women <input type="checkbox"/> Club <input type="checkbox"/> Boys | 247 |
| 248. Number of result demonstrations completed or recited through the year | <input type="checkbox"/> Women <input type="checkbox"/> Club <input type="checkbox"/> Boys | 248 |
| 249. Number of birds in result demonstrations raised or managed by | <input type="checkbox"/> Women <input type="checkbox"/> Club <input type="checkbox"/> Boys | 249 |
| 250. Total profit on result demonstrations conducted by | <input type="checkbox"/> Women <input type="checkbox"/> Club <input type="checkbox"/> Boys | 250 |
| 251. Number of individuals selling birds for the first time | <input type="checkbox"/> Women <input type="checkbox"/> Club <input type="checkbox"/> Boys | 251 |
| 252. Number of homes selling birds for the first year | | 252 |
| 253. Number of birds in these birds | | 253 |
| 254. Number of birds discarded | | 254 |
| 255. Number of homes feeding better-balanced poultry rations for the first year | | 255 |
| 256. Number of individuals assisted in obtaining standard-bred eggs for hatching this year | <input type="checkbox"/> Women <input type="checkbox"/> Club <input type="checkbox"/> Boys | 256 |
| 257. Number of homes assisted in obtaining standard-bred cockbirds this year | | 257 |
| 258. Number of individuals adopting improved practices in early hatching and chick rearing this year | <input type="checkbox"/> Women <input type="checkbox"/> Club <input type="checkbox"/> Boys | 258 |
| 259. Number of homes directly assisted in increasing the family income this year through poultry | | 259 |
| 260. Number of homes controlling poultry insects for the first time | | 260 |
| 261. Total number of different homes adopting improved practices relative to all home poultry work reported on this page | | 261 |

[Use spaces below to include other unreported data relating to "home poultry"]

HOME DAIRY.

Report only this year's extension activities and results that are supported by records.
Do not list information which has been previously reported on pages 14 and 15.

| | | |
|--|-----------|-----|
| 202. Number of project clubs or groups | (a) Women | 202 |
| | (b) Men | |
| 203. Number of members enrolled in home-dairy work | (a) Women | 203 |
| | (b) Men | |
| 204. Number of members completing | (a) Women | 204 |
| | (b) Men | |
| 205. Number of actual demonstrations given | | 205 |
| 206. Number of such demonstrations started or under way | (a) Women | 206 |
| | (b) Men | |
| 207. Number of such demonstrations completed or started through the year | (a) Women | 207 |
| | (b) Men | |
| 208. Number of cases or referrals to such demonstrations asked or managed by | (a) Women | 208 |
| | (b) Men | |
| 209. Number of homes handling better dairy refuse for get best team | | 209 |
| 210. Number of homes adopting better practices in the sanitary production and care of milk this year | | 210 |
| 211. Number of homes adopting better practices in butter or cheese making this year | | 211 |
| 212. Number of pounds of better made | | 212 |
| 213. Number of pounds of cheese made | | 213 |
| 214. Total number of different homes adopting improved practices relative to get home-dairy work reported on this year | | 214 |

(Use space below for any other important data relative to home-dairying.)

RURAL MARKETING

Report only this year's extension activities and results that are supported by receipts.

Do not list information which has been previously reported on pages 17 and 18.

215. Number of method demonstrations given _____ 215

216. List below the cooperative-marketing associations organized during this year upon suggestion and request of the Extension Service. _____ 216

| Name of association or group | Number of members | Fruit and nut products | | Vegetable products | |
|------------------------------|-------------------|------------------------|----------|--------------------|----------|
