COOPERATIVE MARKETING

CLUB WORK

INTRODUCTION

The extension work in Craig county has been made easier by the splendid organized cooperation of the County Agricultural Advisory Board and the Farmers Unions, which at all times have worked in perfect harmony with the county agent.

The above organizations are responsible, to a great extent, for what progress has been made in the county as they have shown a willingness at all times, not only to suggest, but to lend a helping hand until the job is done.

This narrative report will not show an attempt to cover a great field, but to accomplish those things most needed and work along the lines that meet a response from the majority who face the same difficulties.

AGRONOMY

SOILS.

A permanent agriculture is dependent on the farmers of today and it has always been my policy to advocate soil fertility as one of the basis problems of profitable farming, therefore I have encouraged the use of lime where needed and the growing of some of the legume crops in all rotations.

LIME.

Craig county has an abundance of limestone and for this reason a number of portable lime grinding plants are used in different localities to crush the stone for agricultural purposes.

The farmers get out the stone, a number of them joining together get the stone ready for the crusher, doing the same amount of work and sharing equal in the crushed stone, which is hauled to their different farms.

The stone is gotten ready for the crusher during off seasons when farm work is not pressing, consequently the expense of liming is reduced to a minimum.

LEGUMES.

Six years ago very few acres of soy beans were grown in the county. Those who tried usually failed because they did not use cultures to inoculate their crops, neither did they prepare a good seed bed or fertilize properly. These first failures lead all farmers to believe soy beans and peas were unprofitable crops and it was hard to get a farmer to run a demonstration.

The county agent succeeded in having a few demonstrations in several localities, properly seeded, inoculated and fertilized which showed splendid results. These demonstrations put new life in the growing of soy beans and cow peas and the production of these crops are increasing each year.

The use of lime has helped with stands of clovers it is true, but the use of well adapted native grown seed has proven to be responsible for the good crops we are now producing. The majority of the farmers of the county purchase certified clovers at reasonable prices and never shop around for cheap seeds as they find them very dear in the long run.

FERTILIZERS.

The use of better fertilizers is increasing. A few years ago the local fertilizer dealer rarely carried anything better than 16 percent acid, 10-2 and 10-4. There was no demand for anything else. This year in our cooperative buying, which is done in car lots no farmer purchased a lower analysis than 2-8-6 and the majority better.

7

AGROBOMY continued,

CORN,

Sixteen demonstrations in corn this year resulted in a slight increase in bushels per acre, over the last two years, with a season very unsatisfactory. These demonstrations were fall broken and a much better seed bed resulted. The seed used was tested for germination which assured a good stand and the cultivation was shallow and often. The average increase was four and one half bushels per acre.

WHEAT,

Twelve demonstrations in wheat showed an increase over the average crops in the neighborhood. Special care was taken in the grading and selection of the seed. Treatment for smuts were given and the seed bed was dragged and harrowed until perfect before seeding was done. High analyses fertilizers were used in every instance.

ORCHARDS,

There are no commercial orchards in Craig county and as there is no demand for fruit, other than for home use the home orchard is sadly neglected. The agent has succeeded in having considerable work done in a number of old orchards in the way of pruning and fertilizing. Quite a number of the younger bearing orchards are now being regularly sprayed and pruned. Thirty odd farm homes have been induced to plant small fruits, such as strawberries, raspberries, currants etc.

GARDENS,

The most of the garden work done by agent was in the control of insect pests. Fifty demonstrations were given for control of the Mexican Bean Beetle. A number of demonstrations were given potato growers, both as to control of beetles and for control of blight. Forty farm homes grew winter storage crops, such as cabbage, parsnips, carrots etc., to be used during the winter. These homes had never grown crops of this nature before, depending on the market or surplus from other farmers, when this was not available they did without. Thirty-five gardens for the first time used a supply of lime and seeded crimson clover in the maturing crops to be plowed under the coming spring, in order to add fertility to the soil. A greater variety of garden products, seeded to mature at regular intervals, was encouraged and met with hearty response. This will be increased another year I am sure.

ANIMAL HUSBANDRY,

Something over one year ago Craig County freed itself of all grade and scrub bulls. Nothing but good type registered bulls are used and the sentiment among the beef cattle farmers is so strong, that no one would think of purchasing anything but a good registered bull.

A YOUNG BULL PURCHASED FROM STATE COLLEGE

The calves from the type of bulls we are now using are selling from \$12.50 to \$15.00 more on the head at weaning time than those from the ordinary bulls used a few years ago. The calf crop will add hundreds of dollars to the profits of their owners and many thousands of dollars as matured beef steers.

CALVES FROM REGISTERED BULLS, JUST WEANED.

ANIMAL HUSBANDRY, Continued.

Much interest is being taken in the livestock industry in the county at this time. The farmers are eager to know more about types and breeds, feeding and marketing. Field meetings were held the past summer in the different cattle growing sections where extension workers from the State Agricultural College gave their assistance. These meetings were held in the field with the cattle where comparisons could be made and strong and weak points shown.

LOOKING THEM OVER IN THE FIELD.

A campaign put on by the county agent, resulted in the testing of all cows in the county for tuberculous. While very little dairying is done in the county on account of a market not being available, still the beef cattle breeders fell in line for the testing and helped make it possible. The interest and enthusiasm brought about on account of the elimination of all grade bulls from the county will in a short time double the output and increase the revenue many times on the livestock sold out of the county.

SHEEP, next to cattle in importance, comes sheep and lambs. The county being well adapted to the growing of sheep, ninety percent of the farmers keep from twenty-five to one hundred fifty on each farm. Several breeding flocks have been started and a great majority of these flocks are headed by a registered ram. The sheep are treated regularly for stomach worms, scab and sheep ticks. The lambs are all docked and the males castrated when a few weeks old. The lambs are fed during the early spring in order to finish well and early.

POULTRY,

The growing of turkeys in the county has been profitable, the annual income from the sale of same ranges around Sixty Thousand dollars.

During the past two years an investigation by the county agent reveals the fact that just a few more than sixty percent of the young turkeys hatched are raised to maturity.

The past year several demonstrations were run with turkeys, New lots and grounds removed from where chickens had been raised or had been allowed to run on at all were used. The coops were kept scrupulously clean and a ration recommended by the Poultry Husbandman of the State College was used.

Where the instructions were followed the demonstrations were very satisfactory, so much so that during the coming year the same methods will be recommended.

TURKEY DEMONSTRATION, 96 hatched, 87 raised to maturity.

Considerable work was also done with the farm flocks of poultry in the way of grading and culling and standardizing. The breeding is much better and it is being realized that egg production can be increased by a better system of feeding.

Demonstrations have proven to many of the farm flocks that it is better to sell some of the corn that was usually fed to poultry and purchase an egg laying mash that furnishes a suitable ration to produce eggs, while corn alone will not. Much better feeding methods are practiced, also the housing shows wonderful improvements.

Very few farm flocks are not provided with a good house well ventilated and with a good scratching shed attached.

COOPERATIVE MARKETING,

To do cooperatively marketing successfully you must be certain that you have the quantity of the product and second you must have quality and uniformity.

We have this in spring lambs and wool. The marketing of these two products cooperatively by the farmers of Craig county has been very profitable for several years.

The past year fifty six farmers participated in the lamb pool which saved them \$1540.00, this amount was less than had been saved during past years on account of a slump on the market at time of shipments.

During the eight years the farmers have been shipping cooperatively around Fifteen Thousand Dollars have been saved. That is the lambs sold for this much more money than had been offered by local dealers.

This saving in price has also stimulated better production, both quantity and quality.

No lambs are allowed to enter the pool unless they have been docked and the males castrated. The flock must have had a certain number of treatments for stomach worms and all lambs at shipping time must undergo a strict grading for finish and uniformity.

Ninety farmers were members of the wool pool last year and all were well pleased with the sale.

After wool is clipped bids are asked for same which must come to a committee on a certain day arranged at a meeting of the wool growers. These bids are opened and sold to highest bidder and arrangements made for delivery, which is done to suit the buyer. One day is sufficient time to deliver the wool at car, weigh and receive pay for same.

A saving of \$720.00 was made last season over offers made by local buyers.

CLUB WORK OF BOYS & GIRLS,

Ninety club members were enrolled in corn, potatoes and poultry during 1928.

Eighty completed their projects.

It has been our policy for the past three years to give prizes to all club members who complete their project and send in a report, this has stimulated the work.

The End.

Washington, D. C.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Craig
 Report of W. C. Martin County Dumfriesham Agent.
 From December 1st 1927 to December 1st 1928.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

Date _____ State or District Supervisor.

Date _____ State Extension Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be inclosed with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. The report to the Washington office should be sent through the State extension office.

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SCHEMATIC OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—changes and development.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

<ol style="list-style-type: none"> (a) Soils (b) Farm crops (c) Home gardens (d) Forestry (e) Rodents, predatory animals, and birds. (f) Animal husbandry (g) Dairy husbandry (h) Home poultry 	}	(Including diseases and insects).
--	---	-----------------------------------

3

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT—Continued.

IV. Program of work, etc.—Continued.

(3) Project activities and results—Continued.

- (a) Agricultural engineering.
- (b) Agricultural engineering—home.
- (c) Agricultural economics, including farm management and marketing.
- (d) Home marketing.
- (e) Foods.
- (f) Nutrition.
- (g) Clothing.
- (h) Home management.
- (i) Home furnishings.
- (j) Home health and sanitation.
- (k) Community activities.
- (l) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
 - A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonym: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and culling of poultry.
 - A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child-feeding, corn-culture, and orchard-management demonstrations.
7. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
9. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
10. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
11. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.

4

DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.

17. A FARMERS' INSTITUTE is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economic problems are discussed, usually by outside speakers employed for the purpose.
18. AN EXTENSION OR MOVABLE SCHOOL is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. AN EXTENSION SENSAR COURSE differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. RECORDS consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. FARM OR HOME PRACTICE DEMONSTRATION is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

GENERAL ACTIVITIES.

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report.
- | | | |
|---------------------|---------------------|--------------------------------|
| <u>N. O. Martin</u> | <u>County Agent</u> | <u>12</u> |
| (Name.) | (Title.) | (Months of service this year.) |
-
14. County association, if any, fostering extension work
- | | | |
|--|--|------------|
| (a) Name <u>Farmers Union & Advisory Council</u> | | <u>2</u> |
| (b) Number of members | | <u>100</u> |
2. Number of communities in county where extension work should be conducted 2
3. Number of above communities in which the extension program has been cooperatively worked out by extension agents and people concerned 3
4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program with— 4
- | | | |
|-------------|--|-----------|
| (a) Juniors | | <u>5</u> |
| (b) Adults | | <u>12</u> |
5. Number of clubs carrying on extension work: 5
- | | | |
|------------|--|----------|
| (a) Junior | | <u>5</u> |
| (b) Adult | | |
6. Membership in above clubs: 6
- | | | | |
|-----------|-----------|-----------|--|
| (a) Boys | <u>56</u> | (c) Men | |
| (b) Girls | <u>34</u> | (d) Women | |
7. Number of club members completing: 7
- | | | | |
|-----------|-----------|-----------|--|
| (a) Boys | <u>51</u> | (c) Men | |
| (b) Girls | <u>29</u> | (d) Women | |
8. Number of members in junior club work for four or more years: 8
- | | | |
|-----------|--|----------|
| (a) Boys | | |
| (b) Girls | | <u>2</u> |

* Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the project enrollments reported on pages 6 to 12, less any duplications due to the same boy or girl carrying on two or more subject-matter lines of work.

** Exclude those boys and girls enrolled in club work as reported under 4(b) and 6(b) who have finished the work undertaken on each portion of 12 as it was planned to finish during the report year.

GENERAL ACTIVITIES—Continued.

9. Number of junior teams trained	{ (a) Judging _____ (b) Demonstration _____	9
10. Number entering college this year who may have been club members		10
11. Total number of farm visits ¹ made in conducting extension work		128

14. Number of different homes visited		38
15. Number of calls ² relating to extension work	{ (a) Office _____ (b) Telephone _____	401
16. Number of days agent spent in office		48
17. Number of days agent spent in field		111
17½. Number of news articles prepared for press ³		52
18. Number of individual letters written		463
18½. Number of bulletins distributed		600
19. Number of fairs at which extension exhibits were made	{ (a) Community _____ (b) County _____	4
20. Training meetings held for local leaders	{ (a) Junior work { (1) Number _____ (2) Leaders in attendance _____ (b) Adult work { (1) Number _____ (2) Leaders in attendance _____	20
21. Method and result demonstration meetings ³ held (do not include meetings reported in number 20)	{ (a) Number _____ (b) Attendance _____	32 110
22. Farmers' institutes held	{ (a) Number _____ (b) Number of sessions _____ (c) Attendance _____	
23. Extension schools ⁴ and short courses held	{ (a) Number _____ (b) Attendance _____	
24. Encampments held	{ (a) Junior _____ { (1) Number _____ (2) Attendance by club (a) Boys _____ (b) Girls _____ (3) Total attendance _____ (b) Farm women _____ { (1) Number _____ (2) Attendance by club _____ (3) Total attendance _____	24
25. Other extension meetings attended and not previously reported	{ (a) Number _____ (b) Attendance _____	25 660
26. Number of meetings at which were shown	{ (a) Lantern slides _____ (b) Motion pictures _____ (c) Charts _____	3

¹ Do not count the same visit as both a farm visit and a home visit.² See definition on page 4.³ Includes society and State press, agricultural journals, and home magazines. Do not count items relating to notices of meetings only.

FARM-DEMONSTRATION WORK.

SOILS.¹

Report only this year's extension activities and results that are supported by records.

45. Number of method demonstrations given. (See definition 6, page 3.)	28	45
46. Number of result demonstrations started or under way. (See definition 6, page 3.)	36	46
47. Number of result demonstrations completed or carried through the year.	12	47
48. Number of acres involved in these completed demonstrations.	76	48
49. Number of farms adopting improved practices in the use of commercial fertilizer this year.	33	49
50. Tons involved in preceding question.	45	50
51. Number of farms taking better care of farm manures this year.	60	51
52. Number of farms using lime or limestone for the first time.	28	52
53. Tons of lime or limestone so used.	200	53
54. Number of farms plowing under cover or other green manure crops for the first time.	22	54
55. Acres of cover and green manure crops so plowed under.	160	55
55½. Number of farms adopting other improved soil practices this year. (Specify below.)		55½
56. Total number of different farms adopting improved practices, relative to the soils work reported on this page. (Include questions 47, 49, 51, 52, 54, and 55½ less duplications.)	98	56

¹ For drainage, irrigation, land clearing, and terracing see "Agricultural Engineering," page 25.

CEREALS¹

Report only this year's extension activities and results that are supported by records.

AGRICULTURAL ECONOMICS—Continued.

Report only this year's extension activities and results that are supported by records.

206. List below this year's results in connection with the cooperative-marketing associations in the county previously organized and with which the extension service consulted or advised.

(a) Name of plantation or group	(b) Number of members	Supplies and products handled	Supplies purchased		Products sold	
			(c) Value	(d) Barrel	(e) Value	(f) Yield
Louis Shipley, Assn	56	Spicy Fruits			\$15400.00	15400.00
Mad Grove Assn	90	Wash			9000.00	7200.00
Farmers Union	100	Farm Supplies	9600.00	650.00		
TOTAL			9600.00	650.00	24400.00	22600.00

206. Total number of different farms adopting improved marketing practices (include entries for questions 204 (b) and 205 (b) less duplications plus other farms not in cooperative associations) _____ 206

COMMUNITY ACTIVITIES AND MISCELLANEOUS

Report only this year's extension activities and results that are supported by records.

Use this space to include work on any other agricultural project not included in the preceding pages, such as bookkeeping, and similar work, i. e., any other information that can be reported statistically and that will help to give a complete account of the year's work.

Item	(a) Bookkeeping	(b) Handwork	(c) ¹	
208. Number of method demonstrations given				208
207. Number of adult result demonstrations started or under way				207
208. Number of result demonstrations completed or carried through the year				208
209. Number of units in these completed demonstrations				209
210. Number of junior clubs ²				210
211. Number of members enrolled				211
212. Number of members completing				212
213. Number of units involved in junior club work completed				213
214. Total number of different farms adopting improved practices relative to the miscellaneous work reported on this page				214
[Use space below to include other important data relating to miscellaneous work.]				

¹ Indicate name over column.² States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME-DEMONSTRATION WORK.

FOODS.

Report only this year's extension activities and results that are supported by records.

FOOD PREPARATION.

215. Number of project clubs or groups ¹	(a) Women.....	215
	(b) Juniors.....	
216. Number of members enrolled in food preparation.....	(a) Women.....	216
	(b) Girls.....	
	(c) Boys.....	
217. Number of members completing ²	(a) Women.....	217
	(b) Girls.....	
	(c) Boys.....	
218. Number of method demonstrations given. (See definition 6, page 3.).....		218
219. Number of result demonstrations started or under way. (See definition 6, page 3.).....	(a) Women.....	219
	(b) Girls.....	
	(c) Boys.....	
220. Number of result demonstrations completed or carried through the year.....	(a) Women.....	220
	(b) Girls.....	
	(c) Boys.....	
221. Number of individuals adopting improved practices in bread making this year.....	(a) Women.....	221
	(b) Girls.....	
	(c) Boys.....	
222. Number of individuals adopting improved practices in meat cookery this year.....	(a) Women.....	222
	(b) Girls.....	
	(c) Boys.....	
223. Number of individuals adopting improved practices in vegetable cookery this year.....	(a) Women.....	223
	(b) Girls.....	
	(c) Boys.....

	(c) Boys.....	
233. Number of result demonstrations completed or carried through the year.....	(a) Women.....	233
	(b) Girls.....	
	(c) Boys.....	
234. Number of individuals adopting improved practices in preserving fruits and vegetables this year.....	(a) Women.....	234
	(b) Girls.....	
	(c) Boys.....	
235. Number of individuals adopting improved practices in preserving meats and fish this year.....	(a) Women.....	235
	(b) Girls.....	
	(c) Boys.....	
236. Number of homes providing better food storage for the first time.....		236
237. Total number of different homes adopting improved practices relative to the food-preservation work reported on this page.....		237
238. List below amount of food preserved by club members completing:.....		238

Kind of food.	(1) Women.	(2) Girls.	(3) Boys.
(a) Fruits and vegetables canned.....	quarts		
(b) Meats and fish canned.....	quarts		
(c) Jelly and preserves made.....	quarts		
(d) Fruit juices made.....	quarts		
(e) Pickles made.....	quarts		
(f) Fruits and vegetables dried.....	pounds ²		
(g) Meats cured.....	pounds ²		

[Use space below to include other important data relating to food preservation.]

¹ Clubs which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

² Finished product.

NUTRITION.

Report only this year's extension activities and results that are supported by records.

239. Number of project clubs or groups	(a) Women _____	} 239
	(b) Juniors _____	
240. Number of members enrolled in nutrition	(a) Women _____	} 240
	(b) Girls _____	
	(c) Boys _____	
241. Number of members completing	(a) Women _____	} 241
	(b) Girls _____	
	(c) Boys _____	
242. Number of method demonstrations given		242
243. Number of result demonstrations started or under way	(a) Women _____	} 243
	(b) Girls _____	
	(c) Boys _____	
244. Number of result demonstrations completed or carried through the year	(a) Women _____	} 244
	(b) Girls _____	
	(c) Boys _____	
245. Number of individuals balancing family meals according to approved methods for the first time	(a) Women _____	} 245
	(b) Girls _____	
	(c) Boys _____	
246. Number of individuals preparing better school lunches for the first time	(a) Women _____	} 246
	(b) Girls _____	
	(c) Boys _____	
247. Number of schools induced to serve a hot dish or school lunch for the first time		247
248. Number of children involved in preceding question		248
249. Number of homes carrying out improved practices in child feeding for the first time		249
250. Number of children involved in preceding question		250
251. Total number of different homes adopting improved practices relative to the nutrition work reported on this page		251

[Use space below to include other important data relating to nutrition.]

* States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

CLOTHING

Report only this year's extension activities and results that are supported by records.

252. Number of project clubs or groups ¹	(a) Women	252
	(b) Juniors	
253. Number of members enrolled in clothing work.....	(a) Women	253
	(b) Girls	
	(c) Boys	
254. Number of members completing.....	(a) Women	254
	(b) Girls	
	(c) Boys	
255. Number of method demonstrations given.....		255
256. Number of result demonstrations started or under way.....	(a) Women	256
	(b) Girls	
	(c) Boys	
257. Number of result demonstrations completed or carried through the year.....	(a) Women	257
	(b) Girls	
	(c) Boys	
258. Number of individuals adopting improved practices in selection and construction.....	(a) Women	258
	(b) Girls	
	(c) Boys	
259. Number of individuals adopting improved practices in renovation and remodeling.....	(a) Women	259
	(b) Girls	
	(c) Boys	
260. Number of individuals adopting improved practices in millinery.....	(a) Women	260
	(b) Girls	
261. Number of individuals adopting improved practices in costume designing.....	(a) Women	261
	(b) Girls	
262. Number of individuals adopting improved practices in infant wardrobe planning.....	(a) Women	262
	(b) Girls	
263. Number of individuals adopting improved practices in children's wardrobe planning.....	(a) Women	263
	(b) Girls	
264. Number of individuals adopting improved practices in adult wardrobe planning.....	(a) Women	264
	(b) Girls	
265. Total number of different homes adopting improved practices relative to the clothing work reported on this page.....		265
266. Number of dress forms made this year by.....	(a) Women	266
	(b) Girls	
267. Number of dresses and coats made this year by.....	(a) Women	267
	(b) Girls	
268. Number of undergarments made this year by.....	(a) Women	268
	(b) Girls	
269. Number of hats made this year by.....	(a) Women	269
	(b) Girls	

[Use space below to include other important data relating to clothing.]

¹ Clubs which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME MANAGEMENT.

Report only this year's extension activities and results that are supported by records.

270. Number of project clubs or groups ¹	(a) Women.....	_____	} 270
	(b) Juniors.....	_____	
271. Number of members enrolled in home management.....	(a) Women.....	_____	} 271
	(b) Girls.....	_____	
	(c) Boys.....	_____

	(c) Boys.....	
289. Number of individuals adopting improved practices in selection and arrangement of furnishings this year	(a) Women.....	289
	(b) Girls.....	
	(c) Boys.....	
290. Number of individuals adopting improved practices in the repairing and remodeling of furnishings this year.....	(a) Women.....	290
	(b) Girls.....	
	(c) Boys.....	
291. Number of individuals adopting improved practices in wall, woodwork, and floor treatment this year	(a) Women.....	291
	(b) Girls.....	
	(c) Boys.....	
292. Number of rooms involved in questions 289, 290, and 291.....	(a) Bedrooms.....	292
	(b) Living rooms.....	
	(c) Dining rooms.....	
	(d) Other rooms.....	
293. Total number of different homes adopting improved practices relative to the house-furnishing work reported on this page.....		293

[Use space below to include other important data relating to house furnishings.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME HEALTH—SANITATION.

Report only this year's extension activities and results that are supported by records.

284. Number of project clubs or groups	(a) Women _____	} 294
	(b) Juniors _____	
285. Number of members enrolled in home health and sanitation	(a) Women _____	} 295
	(b) Girls _____	
	(c) Boys _____	
286. Number of members completing	(a) Women _____	} 296
	(b) Girls _____	
	(c) Boys _____	
287. Number of method demonstrations given		297
288. Number of result demonstrations started or under way	(a) Women _____	} 298
	(b) Girls _____	
	(c) Boys _____	
289. Number of result demonstrations completed or carried through the year	(a) Women _____	} 299
	(b) Girls _____	
	(c) Boys _____	

HEALTH.²

290. Number of homes adopting recommended health practices this year		300
291. Number of individuals adopting recommended practices in—		301
(a) Use of health course card _____	(f) Care of skin and hair _____	
(b) Good posture _____	(g) Home nursing _____	
(c) Prevention of colds _____	(h) First aid _____	
(d) Good elimination _____	(i) _____	
(e) Care of teeth _____	(j) _____	

292. Is your health program coordinated with the work of State and county health authorities?	(a) Yes _____	} 302
	(b) No _____	

SANITATION.

293. Number of homes installing sanitary closets or outhouses this year according to plans furnished		303
294. Number of homes screened for the first time		304
295. Number of homes following other methods of controlling flies, mosquitoes, and other insects for the first time		305
296. Total number of different homes adopting improved practices relative to the sanitation work reported on this page		306

[Use space below to include other important data relating to home health and sanitation.]

¹ Districts which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.² It is assumed that this work is conducted in cooperation with State and county health authorities.

AGRICULTURAL ENGINEERING—HOME.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 14.

307. Number of method demonstrations given.....	307
308. Number of result demonstrations started or under way.....	308
309. Number of result demonstrations completed or carried through the year.....	309
310. Number of dwellings constructed this year according to plans furnished.....	310
311. Number of dwellings remodeled this year according to plans furnished.....	311
312. Number of sewage-disposal systems installed this year according to plans furnished.....	312
313. Number of water systems installed this year according to plans furnished.....	313
314. Number of heating systems installed this year according to plans furnished.....	314
315. Number of lighting systems installed this year according to plans furnished.....	315
316. Number of poultry houses constructed this year according to plans furnished.....	316
317. Total number of different homes adopting improved practices relative to the agricultural engineering work reported on this page.....	317

[Use space below to include other important data relating to agricultural engineering.]

BEAUTIFICATION OF HOME GROUNDS.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 12.

318. Number of project clubs or groups *.....	(a) Women.....	318
	(b) Juniors.....	
319. Number of members enrolled in beautification of home grounds.....	(a) Women.....	319
