HOME DEMONSTRATION WORK

ANNUAL NARRATIVE REPORT

OF

HOME DEMONSTRATION WORK FOR 1925

IN

AMHERST COUNTY VIRGINIA

Mrs. Jno. C. Long - Co. H. Dem. Agent.

HOME DEMONSTRATION CLUBS:

There are four Home Demonstration Clubs in the County, all of which are doing good work.

MONROE CLUB:

Monroe Women's Club is perhaps the most active. This Club put on a Clean Up campaign, which reached 100 homes, and took the Food Unit work. This Club has had considerable trouble with securing a suitable room, however, the women have shown great character in the way they have met these issues...

The library is the special work of the Club. A large bookcase was bought and nicely filled with books. Most of these were given by members and one County woman. A most creditable booth was put on at the County Fair, getting the blue-ribbon and a check for \$20.00.

CLIFFORD CLUB:

This Club took the Food Unit too, this year. Most of the work was centered around the school, however. Money made by the Club was used to help repair and refurnish the school. The school library was worked on to bring it up to the standard required by the State.

A very successful booth was put on at the County Fair, the exhibits conforming to the score for the Standard Club Booths.

BLOOM CLUB:

The object of this Club was mostly Community Work, the members helping to pay off the debt on the High School by entertainments, drives, etc.

The library (of 1,000 books) has had more bookcases built this year and a kitchenette is well on the way to completion, along with a yard campaign and other improvements.

An excellent booth was put on at the County Fair.

SANDIDGE CLUB:

The energies of the women were centered largely around the school and a club room. About \$150.00 is in hands to furnish the club room and equip a kitchenette. Money for a new oil stove has been made, too. This money was made by the women of the Club in entertainments. The sanitary conditions were greatly improved around the school by building two new privies.

The Club has had interesting monthly meetings. It has a splendid booth at the County Fair, consisting of canned fruits, vegetables, handwork, foods, etc., paralleling the Standard Club requirements.

ADVISORY COUNCIL:

The Home Demonstration work in the county is splendidly backed by the Advisory Board.

The Board sent a club leader to the State Short Course and helped to send one girl. The Board gave \$10.00 toward establishing a Loan Fund for the girls

at V.F.I. and have a substantial reserve fund.

COUNTY SHORT COURSE:

The County Short Course was small but far reaching in its good influence. Thirty-two girls were at the County Short Course and 7 girls and one leader went to the State Short Course.

YOUTH ORGANIZATIONS:

There are 26 organized project clubs carrying on work along the following lines: Clothing, Poultry, Bread, Canning, Cooking, Gardening, and Room Improvement, with a total membership of 336.

CLOTHING:

There were 14 clothing clubs with a membership of 163 girls. These girls made 461 garments, and mended 128 garments. By making these garments instead of buying them ready made, there was a saving of about \$541.15. Prizes won on clothing at the County Fair amounted to \$90.00.

These girls were taught not only the principles of sewing but also how to judge and select materials.

POULTRY:

Sixty-eight boys and girls belong to the poultry clubs and they realize from their year's work a profit of \$1000.21. The value of feed was deducted. I assisted three children in getting standard cockerels and six children in getting standard bred eggs. Three members built new houses and two members improved their old poultry houses.

Amount of prizes won at County Fair was \$53.50.

CANNING:

Twenty-four girls actually did the work this year. They put up 1,175 containers with a total valuation of \$45.79 according to the market prices. Value of prizes won by canning club girls amounted to \$46.00.

BREAD:

Thirty-seven girls enrolled and 27 completed the work making bread twice a week during the summer months.

COOKING:

There were two cooking clubs with an enrollment of 32 girls. In this work, the girls learned how to prepare and serve meals and how to know food values.

ROOM IMPROVEMENT:

Ten girls entered and eight girls improved their rooms. One girl made her furniture. Six girls did over their walls and woodwork. All eight girls made bed spreads, curtains, scarfs, etc. Prizes were offered for the greatest improvement in rooms at least cost. These prizes were offered by Lynchburg merchants, valued at \$72.00.

In addition to this \$25.25 were won by girls at County Fair.

GARDEN:

Seven boys entered and some of them provided vegetables enough for their families. Value of same was \$125.00.

FAIRS:

The boys and girls exhibited at County and State Fairs. The women exhibited at County Fair. Value of all prizes won at Fairs in Home Demonstration Department was \$362.00. Of this amount \$262.00 was solicited by the Home Demonstration Agent from out of the county.

OTHER FUNDS:

Through the efforts of the Home Demonstration Agent, the Lynchburg Kiwanis Club is financing one club girl through business college and that Club also bore the expenses of four girls to the State Short Course at Blacksburg. The prize money, business college scholarship, and expenses of four girls to Blacksburg Short Course totaled \$497.00 - all, which was solicited from outside the county.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
 - A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonyms: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and cooing of poultry.
 - A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child-feeding, corn-culture, and orchard-management demonstrations.
7. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
9. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
10. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
11. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.

5

DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.

17. A **FARMERS' INSTITUTE** is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN **EXTENSION OR MOVABLE SCHOOL** is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. AN **EXTENSION SHORT COURSE** differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **RECORDS** consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARM OR HOME PRACTICE ADOPTED** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

GENERAL ACTIVITIES.

Report only this year's extension activities and results that are supported by records.
