Womens' Club with
30 members

III. Status of County Extension Organization

(1) Form of organization.

The work is supported by representative men and women from each magisterial district. It is financed by the Board of Supervisors.

The Clifton Forge Chamber of Commerce gave garden seeds last spring to those members who were interested in the home garden project.

The county superintendent of schools co-operates by giving the school time for club meetings. The school board passed a rule a short time ago, that each club could use the school buses once a month if they pay the driver and pay for gas used.

The advisory council consists of eleven women who are located in different parts of the county. The chairman lives in Covington. These women co-operate nicely and take an interest in the work.

(2) Function of local people, committees, or project leaders in developing program of work.

There is one standard community organization, the Boiling Spring community, which was organized a year ago, and is functioning well. New officers were elected at the last meeting. Regular monthly programs are held and the attendance is always good. At the last meeting 283 were present,

and this is not an unusual number. Good programs are prepared and much interest is shown.

In this community organization there is a home makers' section which consists of the women of the community, and these women take a great deal of interest in the organization. A report is given at each meeting of the work done by them.

There is a 4 H Club council which meets 3 or 4 times a year and helps to plan the club work. This council consists of the officers of the different local 4 H clubs and is an organized group with all its officers.

There are local 4 H club leaders in some of the clubs. These women assist the local clubs with their work in every way possible. The most outstanding piece of work done by local leaders since I have been in the county, was at the time the 4 H club pageant was held, during the county fair. The leaders and members of the advisory council were called upon to assist with the costumes, and they responded splendidly.

There are seven All-star 4 H club members in the county, and this fall three of them went away to college, and one to the hospital to take training.

(3) General policies, including relationship to other organizations.

The work is carried on entirely thru a spirit of co-operation. I try to co-operate with, and welcome co-operation from all other organizations. An instance of this has just been cited in the case of the school board. We appreciate their offer, and make it a rule to not abuse the privilege.

IV. (1) Program of work, goals established, methods employed and results achieved.

This year there were 229 club members enrolled in clothing, canning, bread, better foods, gardening, and poultry clubs. 441 home visits were made; 67 meetings were held, with an attendance of 2988 people. Ninety-five days were spent in the office and 202½ days in the field. 1064 individual letters were written. 68 news articles were published and 777 bulletins were distributed. Exhibits were made at one community fair, the county fair, and the state fair. Some fruit and vegetables were also sent to Chicago.

(2) Project activities and results.

(h) Home Poultry.

Poultry has been one of the major projects in this county. There is a large poultry club enrollment among the 4 H club members, and some good work has been done. Flocks have been improved, balanced rations fed, houses improved or built, and egg records kept. A very good exhibit was made at the county fair. Practically all the poultry exhibited was by 4 H club members. Some good birds were shown.

A poultry judging team was trained and sent to the state fair in Richmond in October. The C. and O. railroad gave passes to the team from Covington to Richmond. One member of the team made an especially good showing, lacking only a few points of being one of the team selected to go to Madison Square Gardens. This was the first time

member had judged poultry, and he is planning to continue with the work. He is one of the best poultry club members in the county.

Nine women and one man in the Boiling Spring community organization agreed to do poultry improvement this year. Some improved their buildings, some improved their flocks, and others their feeding methods. One piped water to the poultry yard.

(k) Foods.

There were a few canning and bread club members who did good work this year. While the exhibit at the county fair was small, everything was of splendid quality. There were canned fruits, vegetables, soup mixtures, jams, jellies, preserves and pickles, and all of them showed care and skill in handling. There were several exhibits of yeast rolls, loaves of yeast bread, and biscuits, and all of these were good.

(l) Nutrition.

Better foods clubs were organized in the small schools.

The children kept food scores and made noted improvement in their food habits. Charts were made by the children showing the proper foods for a well balanced diet for a child. Colored pictures of fruits, vegetables etc. were cut from magazines and pasted on the charts by the children.

(m) Clothing

Ninety four girls were enrolled in clothing clubs, and fifty-eight of these completed their work. A large number of garments were cleaned and mended. A splendid exhibit was made at the county fair.

The house which was remodeled and repaired by Boiling Spring Community Organization.

Afterward.

Part of the family -

The girl for
whom the work
was done.

End view of house

The women of the Boiling Spring homemakers section had a wash dress contest, and at one of the monthly meetings, they put on a style show which created much interest. Each woman wore and exhibited the dress she had made. The dresses were then exhibited at the Boiling Spring community fair and at the county fair.

Another feature of the community fair was the exhibit of articles and garments which the ladies made from bags. The color was removed from feed bags, the bags dyed or used with the natural color trimmed with contrasting material, then the bags made up into such useful articles as pillow slips, dresser scarfs, luncheon sets, aprons, childrens' dresses etc. They were very pretty, and much interest was shown in this exhibit. It was also shown at the county fair.

(g) Community Activities.

The community organization at Boiling Springs observed better homes week by remodeling a house for a man, his wife and eight children. The house was repaired inside and out and whitewashed. A new kitchen and front porch were built, and a new roof put on the house. The building material was furnished by a lumber company in Covington, the Rotarians and merchants. Furniture was also given. The work was done by the men and women of Boiling Spring community. This work was done for the sake of the oldest girl in the family who was leading her class in high school.

Last Christmas the Sunday schools in Boiling Spring community united to have their programs and trees. It was held at the school building, and a large crowd attended. Gifts were given to

all the children.

A community fair, the first to be held in the county was put on at Boiling Spring this fall, and was quite a success. Ribbon premiums were offered, and splendid exhibits were brought in all the departments. There were exhibits of clothing, canned fruits and vegetables, bread, cakes, candy, fresh fruits, and vegetables, corn, potatoes and eggs. This fair was well attended by the people in the community and was a means of creating much interest in the organization.

The 4 H clubs put on programs and had suppers to raise money to send delegates to the state short course at Blacksburg. Seventy-five members were sent, the expenses of practically all of them being paid by the clubs. The Alleghany County school buses were used to take them to the short course. A scholarship to the state short course was given by the Barton Heights Womans' Club of Richmond, for a member doing outstanding club work. This was won by Irene Rose.

During the County fair, a 4 H club pageant was given, which included all the club members in the county. Different stunts, games or songs represented the different projects that are being carried on in the county. About 125 club members took part in it, many others who had been rehearsing being kept away because of the infantile paralysis scare in the county at that time. Some of the local business people were very good about letting us have the equipment we needed. The fair association gave us \$10.00 toward expenses. This pageant seemed to be enjoyed by everyone who saw it.

A short time ago, a recreational training school was held at the graded school auditorium in Covington, to train club leaders and members in recreational leadership. This meeting was in charge of Miss Ella Gardner from the Childrens' Bureau Dept. of Labor, Washington. Two sessions were held, one on Friday Nite and one all day Saturday. Both were well attended, about 75 of the leading club members and local leaders being present each time.

Early in the fall a county picnic was held in the Rinehart grove near Covington, to which all the farmers and their families were invited. Several hundred people attended, and a very pleasant day was spent. A program was planned and several of the 4 H Club members took part on it. Picnic lunch was served.

The county rally was held at the auditorium of the graded school in Covington, with an attendance of about 300. Miss Burke and Mr Elean were present and made talks. The work was discussed and planned, reports were given and songs sung. Some of the prominent business men and friends of the club work in Covington gave good talks. After lunch, the Strand Theatre gave a free movie for the club members.

Several women and girls sent canned products to the Sears Roebuck contest. Several jars were sent to the Hazel-Allas contest in Chicago.

The Poultry Judging
team which went
to The State Fair

V. Outlook and recommendations:

A new county plan is to be used in Allegheny this year. Mr. B. L. Hummel has been here and presented the plan to the people. Those who attended the meeting were very much interested in it, and it is expected that in this way more of the county people, especially the women, can be reached. I hope to get several womens' clubs started soon.

At the first meeting held, the women who were present elected home management for their major project, and poultry and yard improvement for minors.

The girls are majoring in home improvement, taking their own bed rooms for the room to be improved. There are four clubs, with an enrollment of sixty-six. We expect to have leaders' training meetings every two or three months for the leaders of this project and those of the womens' project.

In the small schools, better foods clubs have been started, with one hundred thirty six children enrolled. At each club the teacher is acting as leader for the club.

VI. Summary.

I came to this county the first week in August to take over the work after Miss Hamilton resigned.

The first thing I attempted to do, after becoming acquainted with some of the people, was to prepare for a pageant which was to be held at the county fair in September. Each group was drilled in a certain stunt or game, to represent a certain project. Appropriate costumes were planned and made; the advisory council, leaders and all star members assisting.

After the school opened, I got into them as soon as possible and enrolled the club members for next years projects, poultry, room improvement and better foods.

Records for this year were checked up on and as many as possible were collected. In going to the different clubs, and especially in the poultry clubs, I find there are quite a number enrolled who say that they did not enroll for this year, that it was last year that they enrolled. I think this accounts to some extent for the very small completions, as compared with the large enrollment. The clothing project was completed when I came to the Co., and the bread and canning almost completed.

I have found the advisory council very helpful and most of the members willing to work when called upon. The all-stars, before they left for school were helpful in many ways, and have been missed in their clubs.

The Board of Supervisors has co-operated with me in every way. They had an office built for me, and bought a desk, chair, and typewriter table for me, and had the typewriter put into condition to use.

Mention has already been made of the recreational training school which was held here this month under the direction of Miss Gardner. It was a most successful meeting, being well attended by the best club members in the Co. and by some of the local leaders and members of the advisory council. I think it will be of great benefit to all those who attended it as well as those who will be reached by them.

1929.

GOALSACCOMPLISHMENTSCOUNTY WIDE ACTIVITIES

1. Well organized county ~~advisory~~ ^{advisory} Board
2. 4H County Council with written plan of work.
3. County Club Rally in which all 4H Club members participated.
4. Achievement Day as part of 4H Poultry Show.
5. Exhibit at County Fair
6. 100% completions in all projects.
7. Record books completed and in Home Demonstration Agent's office by Nov. 1st.

This functioned well.

Had this.

Rally held with all Clubs participating.

Club Pageant on Achievement Day during County Fair.

This was done.

Fell far short of this.

This goal was not attained to any marked extent.

CLOTHING

9 communities with an enrollment of 94 girls.

Cooperating

Extension Service,
Office of Cooperative Extension Work,
Washington, D. C.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Alleghany
Report of Josephine Fultz County Home Dem. Agent.
(Name) (Title)
From August 20, 1929 to November 30, 1929.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

1
READ DEFINITIONS, PAGES 3 AND 4

Approved: _____

Date _____ State or District Supervisor.

Date _____ State Extension Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. The report to the Washington office should be sent through the State extension office.

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double spaces between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and status, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
 - A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonym: Lecture demonstration. Examples: Demonstrations of castrating, mixing of spray materials, and culling of poultry.
 - A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl, under the direct supervision of the extension worker, to point out locally the value of a recommended practice. Such a demonstration involves a substantial period of time, records of results and comparisons, and is designed to teach others in addition to the person conducting the demonstration. It should not be confused with the adoption of a farm or home practice resulting from a demonstration or other teaching activity, but which is not employed by the extension worker as a means of teaching. Example: Demonstrating that the application of fertilizer on cotton will result in more profitable yields; that underweight of certain children can be corrected through proper diet; or that the use of certified seed in growing potatoes is a good investment.
7. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERS COMPLETELY SHOULD include those who have satisfactorily finished the work outlined for the current year.
9. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
10. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
11. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.

DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.

17. A FARMERS' INSTITUTE is one of a series of meetings of one to two days' duration, arranged by a central State farmers' Institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN EXTENSION ON MOVABLE SCHOOL is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. AN EXTENSION SHORT COURSE differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. RECORDS consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. FARM OR HOME PRACTICE ADOPTED is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

GENERAL ACTIVITIES.

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report.

² The individual entries in this column should not exceed entry for question 4, page 4.

³ Boys' and girls' club work should be distributed among the proper subject-matter headings and not entered as a separate project.

FARM-DEMONSTRATION WORK.

SOILS.*

Report only this year's extension activities and results that are supported by records.

45. Number of method demonstrations given. (See definition 6, page 3.)	45
46. Number of result demonstrations started or under way. (See definition 6, page 3.)	46
47. Number of result demonstrations completed or carried through the year.	47
48. Number of acres involved in these completed demonstrations.	48
49. Number of farms adopting improved practices in the use of commercial fertilizer this year.	49
50. Tons involved in preceding question.	50
51. Number of farms taking better care of farm manures this year.	51
52. Number of farms using lime or limestone for the first time.	52
53. Tons of lime or limestone so used.	53
54. Number of farms plowing under cover or other green manure crops for the first time.	54
55. Acres of cover and green manure crops so plowed under.	55
55½. Number of farms adopting other improved soils practices this year. (Specify below.)	55½
56. Total number of different farms adopting improved practices, relative to the soils work reported on this page. (Include questions 47, 49, 51, 52, 54, and 55½ less duplications.)	56

* For definitions, irrigation, land clearing, and leveling see "Agricultural Engineering," page 16.

HORTICULTURE.

Report only this year's extension activities and results that are supported by records.

(f) Fruits and vegetables dried..... pounds ²
(g) Meats cured..... pounds ²

[Use space below to include other important data relating to food preservation.]

Because of very dry weather in this co. during July, Aug. and Sept. the girls and they had very little fruit and vegetables to can. Some of them could not get enough to make up their requirements. However those who did complete had some good products. The exhibit at the county fair, while small, was of splendid quality throughout.

¹ Clubs which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.² Required product.

NUTRITION.

Report only this year's extension activities and results that are supported by records.

239. Number of project clubs or groups: <u>Better Foods</u>	(a) Women		239
	(b) Juniors	<u>2</u>	
240. Number of members enrolled in nutrition	(a) Women		240
