Organizational Objectives	Source of Assistance	Methods	When	By Whom
To maintain the existing Rad committee. Set up appropriate sub-committees	RAD Executive committee Technical Panel Releases on RAD	Meet with RAD Committee to determine necessary sub-committees Meet with the Technical panel. Ask the members to work with sub-committees in his field. Report findings of sub-committees	Monthly As Sub-Committees are appointed At regular meetings of RAD committee	Agents, and any appropriate resource persons. Sub- Committee Chairman

Evaluation:

Ask State Extension Personnel to assist with criteria for evaluation

E. Major Emphasis - Organizational Plan

Project Area - Community and Public Affairs

Phase - Rural Area Development Fiscal Year 1962 - 1963

The Situation - The population has shown a decrease since census data has been available. A nine percent decrease occurred during the period 1940 - 1960. It appears that a large portion of this decrease occurred in the 20 - 40 year age group. The median income is approximately eleven hundred dollars less than the State average. Number of farms has gradually decreased and about three percent of farmers would leave the farm for other employment if it were available.

Specific Problem - Lack of coordinated effort to survey the situation, fine the problem and make plans for county improvement.

The Program Objectives

To maintain an active county improvement committee with appropriate sub-committees that will make a complete analysis of the county resources and make plans for the use of the resources for the most human satisfaction.

2. Other Activities

Camps
Short Course
Contest
Officer Training
Judging Training
Achievement Program

Evaluation

Devise a system for personal observation to determine the committees change in the effectiveness of the total 4-H Program.

Organizational Objectives	Source of Assistance	Methods	When	By Whom
2. To provide key leaders with knowledge of the over-all objectives of the 4-H Club Program	Virginia 4-H Club Leaders Handbook Bulletin 270	Meetings Discussions	Oct.	Agents
3. To secure leaders, organizational and project, and to get sponsors for various projects and activities		Meetings Discussions	Quarterly	Agents and 4-H Leaders

Area - 4-H and Other Extension Youth Programs

Other Phases of Work

1. Projects

Clothing
Management
Food Preservation
Meal Preparation
One Cylinder Engine Project
Automotive Care and Safety
Light Horse - Pony
Electricity

Livestock Projects
Crop Projects

D. Major Emphasis - Organizational Plan

Project Areas - Four-H and Other Youth Extension Youth Programs

Phase - 4-H Adult Advisory Committee - Fiscal Year 1962 - 1963

The Situation - The County Agents in Greene have, in the past, been responsible for planning the 4-H Program. Generally there is a lack of understanding and support of 4-H club work.

The Specific Problem - There is a lack of understanding and acceptance of the 4-H Club Program.

The Program Objective - To increase the effectiveness of the county 4-H club program by group planning process.

Organizational Objectives	Source of Assistance	Methods	When	By Whom
1. To stimulate interest among key leaders in the county in the 4-H club program	State 4-H Club Staff District Agents	Individual Contacts	Aug. Sept.	Agents 4-H Staff Dist. Agents

Evaluation:

Make a check at the beginning of the program of the homemakers knowledge of nutrition. At the end of the year check to see how much improvement has been made or how many have used the information.

Project Area - Extension Home Economics

Other Phases of Work

Clothing - Selection of Shoes for Comfort, Health, and looks.

Special Interest Meetings in Clothing Construction.

Civil Defense -

Phases, other than food

Teaching Objectives	Source of Subject Matter	Methods	When	By Whom
To re-emphasize the importance of basic information on planning meals from the standpoint of combining foods to get a balanced diet and to serve attractive meals for all the family.	Extension Bulletins Charts from Institute of Baking Professional Magazines	Discussion and actual planning of meals	June	Agent
To assist the homemakers in developing skills in preparing baked foods for freezing	Extension Bulletins	Method Demonstrations	Aug.	Agent
Planning for a safe food and water supply in case of an attack.	Rural Civil Defense	Discussion	Oct.	Agent
To develop skills in preparing quick breads	Extension Bulletins	Method Demonstrations Leaders to be trained by agent	Nov.	Leaders

C. Major Emphasis - Educational Plan

Project Area - Extension Home Economics

Phase Nutrition Fiscal Year 1962 - 1963

The Situation:

Trends in the homemaking activities show that more and more women are employed outside the home. In addition to being employed and running the home they also take part in many civic activities. There is a need for planning and preparing well balanced and nutritious meals.

The Specific Problem

Homemakers want and need information on planning and preparing food for their families.

The Program Objective:

To assist homemakers in planning and preparing foods that provide proper nourishment for all family members.

Evaluation: By Observation

Other Phases of Work

Keep Farm Supply Dealers informed of new developments in fertilization, insect control, and varietal recommendations. Make a visit with them to the research station at Orange.

Teaching Objectives	Source of Subject Matter	Methods	When	By Whom
Assist Feeder Calf Producers understand benefits of selling in feeder calf sales.	State Feeder Calf Sale Report	Circular letters, news articles and personal contacts	July	Agent and Director
Large lots of same grade, weight and sex Inform farmers of eligibility	State Health Plan and Calf Sale requirements			
Assist farmers understand benefits of selling - Feeder Pigs in large lots of same grade and weight	Feeder Pig Sale Reports	News articles and personal contacts	As sales are held	Agent and Director
Eligibility Requirements	Health Rules and Weight Regulations	Notify farmers at beginning of year of dates of all sales so they breed to farrow at right time.	Jan.	Agent
Inform wool producers of policies, producers price advantage of marketing wool through pools	Board of Directors of Wool Pool	Assist Board of Directors with establishing policies and procedures for selling wool	Feb.	Agent and Board

B. A Major Emphasis - Educational Plan

Project Area: Marketing and Utilization of Agricultural Products

Phase: Marketing Feeder Calves, Feeder Pigs, and Wool

The Situation

There is a feeder calf sale at Orange of which Greene is a part. A feeder pig sale at Culpeper available to Greene and a Wool Pool at Orange for Greene County growers. These are all cooperatives with one or more representatives from Greene on the board of directors.

About fifteen percent of the farmers avail themselves of the benefit of the Feeder Calf Sale. About one percent participate in the Feeder Pig Sale and about seventy-five percent sell wool to the wool pool. There is practically no other market for wool.

The Specific Problem:

Too few farmers take advantage of the marketing opportunities available to them.

The Program Objective :

Higher prices by assembling large lots and selling cooperatively by grades.

Organizational Objectives	Source of Material	Methods	When	By Whom
2. Inform Committees of Responsibilities		Personal contacts	Nov.	Agent
3. Develope Extension Forestry Education Program for 1963	Extension Forester and Professional Workers meet with forestry committee	Preplanning meeting Plan Program	Jan. Feb.	Agent and Professional Workers Agent

Evaluation:

To be determined by the interest of the committee and the quality of the program planned.

A Major Emphasis - Organizational Plan

Project Area : Agricultural Production Management and Natural Resources

Phase : Forestry - Forestry Committee

Situation:

Forty percent of farmland in woodland. Less than five percent of agricultural income is from forest products. Woodland is neglected. There has not been an active and aggressive forestry committee or program in the county.

The Specific Problem:

Lack of organized effort to improve forest management.

The Program Objective

Improve forest management in the county by organized effort.

Organizational Objectives	Source of Material	Methods	When	By Whom
To inform forestry leaders of situation	Professional workers and census reports	Meet with professional workers to study situation and suggest people to serve on committees	Oct.	Agent

Phase - Agronomy -Continued

Corn, small grain, pasture and forage crops. Give seeding, variety, fertilization and insect control information through news paper and circular letters.

Phase - Dairy

1. Stimulate interest among the six dairymen in D.H.I.A. Have Extension Dairy Specialist visit them.
2. Continue calf-hood vaccination clinic for control of Bangs Disease.
3. Continue Cooperating with the State Association on Mastitis Control.

Phase: Livestock

1. Continue Calf-hood vaccination clinic for control of Bangs Disease.
2. Continue sheep dipping clinic to control external parasites.
3. Emphasize use of purebred sires. Inform farmers of purebred sales.

Teaching Objective	Source of Material	Methods	When	By Whom
To provide farmers with knowledge of value of quality forage in livestock and dairy rations	V.P.I. Leaflet 143 V.P.I. Circular 691 State Animal Husbandry and Dairy Science Staff	Meeting of Dairy and Livestock farmers	March	Agent and Specialist
To provide farmers with knowledge of producing harvesting and storing forage	V.P.I. Circular 871	Distribute circular news articles Farm visits	April and August	Agent
To provide farmers knowledge of forage evaluation	State Staff	Hold meetings of farmers to evaluate their own silage and hay. Have analysis made	Nov.	Agent and Extension Specialist

Evaluation:

At the forage meeting have farmers evaluate silage and hay samples to determine the effectiveness of the program.

A. - PROJECT AREA : Agricultural Production. Management and Natural Resource Development

Phase : Agronomy - Quality Forage Production

The Situation

According to the census report farmers in Greene are not using enough silage in their forage program to keep feed costs down. Also they are not taking advantage of high yielding hog crops such as alfalfa. Forage yields are lower than should be.

Both the agronomy and livestock committees agree that their cost could be reduced by using more of the economical forage in livestock and dairy enterprises and that the quality of hay and silage should be improved.

The Specific Problem

Too little corn silage and alfalfa hay used in the forage program.

The Program Objective

To increase the use of corn silage and alfalfa hay and improve the quality of both.

GREENE COUNTY

PLAN OF WORK

1962 - 1963

WM.M.DECKER, COUNTY AGENT

VIOLET NAVY, H.D.AGENT
