NARRATIVE REPORT FOR LEE COUNTY

BY

H. B. ELLER

COUNTY AGENT.

COUNTY AGENT ANNUAL REPORT.

TABLE OF CONTENTS

- I. SUMMARY OF NARRATIVE
- II. FINANCIAL SUMMARY
- III. NARRATIVE REPORT
- IV. PICTURE SUPPLEMENT

2

SUMMARY OF NARRATIVE

I. Program Planning

Fifty discussion meetings led by community leaders were attended by five hundred fifty farmers.

II. Agricultural Conservation Program

A total of seven hundred forty-two farmers cooperated in this program. They used 7020 tons of lime and 240 tons of 16% superphosphate. 8700 acres of legumes were seeded by these farmers. Cash benefit payments estimated to be \$34,338.00

III. Cooperative T. V. A. program

Two field meetings were held - cooperating farmers were furnished 280.6 tons of triple superphosphate worth at commercial prices \$12,255.00. Three new area demonstrations were approved and worked.

IV. Cattle

Twenty purebred bulls were placed in the county. Five thousand calves were vaccinated for blackleg and hemorrhagic septicemia. Estimated value to beef cattle industry \$5,300.00.

V. Sheep

One hundred per cent. of the wool was sold through county wool pool, the total amount was 11,123 pounds which sold for ten cents per lb. more than could have been obtained otherwise, or \$1,112.30. Ninety and six tenths⁹⁰ of the lambs were graded and sold cooperatively for a gain of \$2060.00 over local prices. Twelve hundred and eighty-one lambs and old sheep were graded.

VI. 4-H Club

4-H Club members made a profit of \$1,776.00 on their projects. A live-

stock judging team was trained for the state contest. Fifteen baby beeves were shown in Lee County, Tazewell County, Virginia State Fair and at Baltimore.

VII. Agronomy

A series of meetings were held for discussion of fertilizers, lime and crop rotation. A \$3000.00 grass seed order was pooled. Five men thrashed red clover seed for the first time.

VIII. Strawberries

A strawberry shipping association was organized. Twenty-three hundred fifty-one crates were sold in Ohio for \$2.51 per crate, a saving of \$2351.00 to the twenty-two growers cooperating.

4

FINANCIAL SUMMARY

The financial return of the Extension Program to the farmers of the County is as follows:

Agricultural Conservation Program	\$ 34,338.00
Value of T. V. A. fertilizer	12,256.00
Saving to Beef Cattle Producers	5,300.00
Saving to Sheep Growers	5,392.00
Saving to Strawberry Growers	2,351.00
Profit made by 4-H Clubs	1,776.00
TOTAL	\$ 61,412.00

5

NARRATIVE REPORT FOR 1937

LEE COUNTY VIRGINIA

H. B. ELLER - COUNTY AGENT

MAJOR PROJECTS:

I. Program Planning

Beginning in January of 1937 and running for six weeks, a series of program planning meetings were held with the assistance of local discussion leaders. Leader training meetings were held and considerable information relative to the topics discussed was handled through the office. Approximately fifty meetings were held with a total attendance of about 550. At the close of the series of meetings an attempt was made with the help of the discussion leaders to formulate long-time planning recommendations.

I feel that the series of discussion meetings would have been better attended and would have accomplished more if more interesting topics had been selected.

II. The 1937 Soil Conservation Program

A total of seven hundred forty-two (742) farmers cooperated in the 1937 Soil Conservation Program. This program has led to a greater use of lime, phosphate and a seeding of more legumes. Meetings were held in practically every community for the purpose of explaining the program to all the farmers. The community and county committees have carried on the program in a business-like manner, keeping the cost of operation to a minimum. The program has accomplished more in the way of soil conservation and improvement than it has in the control and reduction of certain crops, especially burley tobacco.

6

III. Cooperative T. V. A. Program

One field meeting was held on one of the outstanding unit demonstration farms, at which time pasture fertilization, crop rotation, thrashing of home grown seed, especially red clover, and live stock management were discussed. Also, a two day field trip was taken by several of the unit demonstrators to visit the State Pasture Fertilization Experiments in Rich Valley.

Pens have been built on two unit farms with different soil types, where clippings of fertilized and unfertilized pasture grasses could be taken and weighed. The results for the first summers clippings show a fifty per cent. increase in weight of the T. V. A. fertilized pasture over that of the unfertilized. Practically all of the unit demonstrators have increased the number of live stock on their farms due to the increased carrying capacity of their pastures brought about by the use of this fertilizer.

Three new areas have been approved and fertilizer distributed in same. The T. V. A. phosphate received this year totals 280.6 tons.

IV. Live Stock

A. Cattle

A purebred bull campaign was carried on during the month of November, which resulted in the purchase of ten purebred bulls from Missouri, two from Tazewell, Virginia, and two from Russell County. A total of twenty were placed during the year. Approximately 5000 cattle were vaccinated for blackleg and hemorrhagic septicemia. Several farmers have agreed to start new cow and calf herds, others to add better heifers to their herds.

B. Sheep

A special effort was made to get more people interested in growing sheep, which resulted in the purchase of two hundred ewes, only a small per cent.

of the increase that we should have. One hundred per cent. of the county's wool (11,123 lbs.) was pooled at a saving of ten cents per pound. Ninety and six tenths per cent. of the lamb crop was graded and sold cooperatively. The docking and castrating of lambs was stressed, as well as the treatment for stomach worms. A total of \$5,392.00 was saved the sheep growers through cooperative marketing and use of better management practices.

A barbecue supper and meeting was held for all sheep growers which was attended by sixty per cent. of the sheepmen. Approximately sixty per cent. of the fleeces were tied with paper twine for the first time, which was distributed at the barbecue supper.

One of our two purebred breeders exhibited a pen of ewe and ram lambs at the Southwest Virginia Sheep Show. A total of eight purebred rams were placed among the breeders this year.

C. Hogs

Around four hundred hogs were vaccinated for cholera, and several treated for stomach worms. Information relative to protein supplements was also distributed.

V. 4-H Club Work

Six clubs of fifty members were organized, projects carried out for baby beef, cow and calf, sow and litter, breeding gilt, tobacco, corn and potatoes. Each club has held one picnic and one social during the year. One club sponsored an amateur program to raise funds to send delegates to the 4-H Short Course - another club held a measuring party to raise funds. Ten boys attended the Short Course. The Livestock Judging Team was trained which entered the State Judging Contest and placed second.

8

The first Achievement Day program for the county was held this year with considerable success. The program was carried out entirely by the members. Dinner was served on the ground with the program following in the afternoon.

VI. Agronomy

A series of meetings were held for the purpose of discussing crop rotation, the value of lime and fertilizers with emphasis placed on fertilizers of high analysis. From the statement of several fertilizer dealers, the demand for fertilizer of high analysis seemed to be the result of these meetings.

Crop rotations were worked out for several farmers, and the growing of more legumes, especially red clover, was encouraged. A grass seed order of \$3,000.00 was handled for fifty farmers in order that seeds of good quality would be sown. A campaign for more home grown seed has resulted in the thrashing of red clover by five farmers for the first time. Certified seed corn was planted in one community which will serve as a source of seed for that community next year.

A total of approximately 500 recommendations have been made as to the use of fertilizer for corn, wheat, tobacco and red clover.

MINOR PROJECTS:

I. Dairying

One meeting was held for the purpose of explaining the value of D. H. I. A. work with the idea of having an association formed. Three herds were tested for T. B. and Bang's disease.

II. Horticulture

Notices of proper time and kind of sprays for fruits were sent out from the office.

One of the most successful projects for the year was the organization of a strawberry shipping association. Information was obtained as to the possibilities of a new market, cost of hauling and method of handling, which information was placed before the growers during two meetings. After considerable discussion, the growers decided to form an association and sell the berries cooperatively. A selling committee of three men was elected to determine whether the berries were to be sold on the Cincinnati market, or to bidders after they had carefully studied the market report for the preceding day.

The berries of twenty two growers were pooled three days a week during the season and loaded at a central point on the highway where they were shipped by truck to Hamilton, Ohio. Part of the shipments were sold on bids and part on a commission basis. Each man was given a number and the berries sold according to quality, the man producing the best berries receiving the highest price. By this method a bumper crop of 2315 crates were sold cooperatively for twenty-two farmers at a net price of \$2.51 per crate at home, which was an average of \$1.00 per crate more than could have been obtained on local markets after having peddled them around.

By shipping these berries from this one section to Ohio, it left a better local market for the berries produced in the upper or eastern part of the county, and consequently the growers in that section received from \$2.50 to \$3.00 per crate for their berries at the patch.

By the development of this new market for strawberries, it seems possible that they can be and will be grown more extensively as a good cash crop.

III. County Fair

Considerable time and assistance was rendered the Lee County Fair

10

Association in helping with one of the best fairs for the past several years. The entries of livestock were encouraged and several visits to live stock men were made on behalf of the fair. The 4-H Club Baby Beef Show was also held in connection with the fair.

IV. Farm Credit

Information as to the proper place to secure credit was given to several farmers. Applications totaling 78 were taken for the Emergency Crop Loan Office.

COMBINED ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is for use by county extension agents in making a combined statistical report on all extension work done in the county during the year. Agents resigning during the year should make out this report before quitting the service.

State Virginia County Lee

REPORT OF

<u>Miss Ruth Lake</u> (Name) <i>Home Demonstration Agent.</i>	From <u>Dec. 1, 1936</u> to <u>Dec. 1, 193</u>
<u>Frank M. Halsey</u> <i>3-77 Club Agent. Asst. Co.</i>	From <u>Dec. 1, 1936</u> to <u>Dec. 1, 193</u>
<u>H. B. Eller</u> <i>Agricultural Agent.</i>	From <u>Dec. 1, 1936</u> to <u>Dec. 1, 193</u>

READ SUGGESTIONS, PAGES 2 AND 3

Approved:

Date _____

State Extension Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT

The annual report should be a summary, with analysis and interpretations, for presentation to the people of the county, the State, and the Nation of the extension activities in each county for the year, and the results obtained by the county extension agents assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agents and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support of extension work.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

STATISTICAL SUMMARY

Where two or more agents are employed in a county they should submit a single statistical report showing the combined activities and accomplishments of all county extension agents employed in the county during the year. Results obtained through assistance rendered agents by specialists should also be included. This report shows, insofar as possible, the part each agent has taken in forwarding the extension program. The county totals should be the sum of the activities and accomplishments of individual agents minus duplications due to two or more agents participating in the same activity or accomplishment. The county totals, when properly recorded, show the progress made in the county during the year in forwarding the entire extension program. Negro men and women agents should prepare a combined statistical report separate from that of the white agents.

The statistical summary should be a report of this year's activities and results that can be verified by records on file in the county office. Where records are not available careful estimates are desired. Such estimates should be marked "Est."

NARRATIVE SUMMARY

A separate narrative report is desired from the leader of each line of work, such as county agricultural agent, home demonstration agent, boys' and girls' club agent, and Negro agent. Where an assistant agent has been employed during a part or all of the year, the report of his or her work should be included with the report of the leader of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked.

The narrative report should summarize and interpret, under appropriate subheadings, the outstanding results accomplished and the extension methods used for each project. Every statement should be clear, concise, forceful, and, where possible, reinforced with necessary data from the statistical summary. Use a descriptive style of writing, giving major accomplishments first under each project. Give extension methods fully relating to outstanding results only, and where practicable illustrate with photographs, maps, diagrams, blueprints, or copies of charts and other forms used. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs and reasonably good margins. The pages should be numbered in consecutive order.

The following outline is merely suggestive of how the narrative report may be clearly and systematically presented. Each agent should prepare an outline to fit the situation and the work to be reported.

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT

- I. Cover and title page.
- II. Table of contents.
- III. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning of the narrative report.
- IV. Changes in county extension organization.
 - (1) Form.
 - (2) General policies.
 - (3) Procedure.
- V. County program of work.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

Under appropriate headings and subheadings present in some detail for each major project or line of work the goals set up, the methods used, the results achieved, and the significance of these results in terms of improved farms and homes and of better community life.
- VI. Outlook and recommendations, including suggestive program of work for next year.

TERMINOLOGY

To insure reports which convey the intended meaning to others and to facilitate the compilation of satisfactory national statistics on extension, it is extremely important that terms be used in accordance with accepted definitions. The following definitions of extension terms have been approved by the United States Department of Agriculture and the Association of Land Grant Colleges and Universities. Agents should read these definitions before starting to write the annual reports.

DEFINITIONS OF EXTENSION TERMS

1. A program of work is a statement of the specific projects to be undertaken by the extension agents during a year or a period of years.
2. A plan of work is a definite outline of procedure for carrying out the different phases of the program of work. Such a plan provides specifically for the means to be used and the methods of using them. It also shows what, how much, when, and where the work is to be done.
3. A community is a more or less well-defined group of rural people with common interests and problems. Such a group may include those within a townships, trade area, or similar limits. For the purpose of this report a community is one of the several units into which a county is divided for conducting organized extension work.
4. A project leader, local leader, or committeeman is a person who, because of special interest and fitness, is selected to serve as a leader in advancing some phase of the local extension program. A project leader may be either an organization or a subject-matter leader.
5. Demonstrations as contemplated in this report are of two kinds—method demonstrations and result demonstrations. A method demonstration is a demonstration given by an extension worker or other trained leader for the purpose of showing how to carry out a practice. Examples: Demonstrations of how to can fruits and vegetables, mix spray materials, and cull poultry.
A result demonstration is a demonstration conducted by a farmer, home maker, boy, or girl under the direct supervision of the extension worker, to show locally the value of a recommended practice. Such a demonstration involves a substantial period of time and records of results and comparisons, and is designed to teach others in addition to the person conducting the demonstration. Example: Demonstrating that the application of fertilizer to cotton will result in more profitable yields, that underweight of certain children can be corrected through proper diet, that the use of certified seed in growing potatoes is a good investment, or that a large farm business results in a more efficient use of labor.
The adoption of a farm or home practice resulting from a demonstration or other teaching activity employed by the extension worker as a means of teaching is not in itself a demonstration.
6. A result demonstrator is an adult, a boy, or a girl who conducts a result demonstration as defined above.
7. A cooperator is a farmer or home maker who agrees to adopt certain recommended practices upon the solicitation of an extension worker. The work is not directly supervised by the extension agent and records are not required, but reports on the success of the practice may be obtained.
8. A 4-H Club is an organized group of boys and/or girls with the objectives of demonstrating improved practices in agriculture or home economics, and of providing desirable training for the members.
9. 4-H Club members enrolled are those boys and girls who actually start the work outlined for the year.
10. 4-H Club members completing are those boys and girls who satisfactorily finish the work outlined for the year.
11. A demonstration meeting is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
12. A leader-training meeting is a meeting at which project leaders, local leaders, or committeemen are trained to carry on extension activities in their respective communities.
13. An office call is a call in person by an individual or a group seeking agricultural or home-economics information, as a result of which some definite assistance or information is given. A telephone call differs from an office call in that the assistance or information is given or received by means of the telephone. Telephone calls may be either incoming or outgoing.
14. A farm or home visit is a call by the agent at a farm or home at which some definite information relating to extension work is given or obtained.
15. Days in office should include time spent by the county extension agent in the office, at annual and other extension conferences, and on any other work directly related to office administration.
16. Days in field should include all days spent on official duty other than "days in office."
17. Letters written should include all original letters on official business. (Duplicated letters should not be included.)
18. An extension school is a school usually of 2 to 6 days' duration, arranged by the Extension Service, where practical instruction is given to persons not resident at the college. An extension short course differs from an extension school in that it is usually held at the college or another educational institution and usually for a longer period of time.
19. Records consist of definite information on file in the county office that will enable the agent to verify the data on extension work included in this report.
20. The county extension association or committee is that county organization, whether a membership or a delegate body, which is recognized officially in the conduct of extension work in the county.

GENERAL ACTIVITIES

Report Only This Year's Extension Activities and Results That Can Be Verified

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report. Include time of assistants with that of regular agent.

AGENT	Total months of service this year (a)	Days devoted to agr'l-conservation and adjustment programs (b)	Days devoted to relief work (c)	Total days in office (d)	Total days in field (e)
Miss Lucy Embrey 6 Mos. Home demonstration agent. (Name)	13	0	0	228	76
Miss Ruth Lake 6 Mos. Asst. home demonstration agent					
4-H Club agent.	24	80	7	148	461 1/2
Assistant county agent in charge of club work					
H. B. Eller 6 Mos. R. C. Carter 6 Mos. Agricultural agent	24	80	7	148	461 1/2
F. M. Halsey 6 Mos. Assistant agricultural agent					

2. County extension association or committee:

(a) Agricultural extension:

(1) Name Agricultural Advisory Board (2) Number of members 18

(b) Home demonstration:

(1) Name Advisory Board (2) Number of members 48

(c) 4-H Club:

(1) Name 4-H Council (2) Number of members 36

3. Number of communities in county where extension work should be conducted. 20

4. Number of above communities in which the extension program has been planned cooperatively by extension agents and local committees. 15

5. Number of different voluntary county or community project leaders or committeemen actively engaged in forwarding the extension program:

(a) Adult work { (1) Men 27 (2) Women 60 } (b) 4-H Club work { (1) Men (2) Women 12 } (3) Older club boys (4) Older club girls

6. Number of different paid local leaders engaged in agricultural-conservation and adjustment programs. { (a) Men 13 (b) Women }

7. Number of clubs or other groups organized to carry on adult home demonstration work. 12

8. Number of members in such clubs or groups. 325

ITEM	Home demonstration agents (a)	4-H Club agents (b)	Agricultural agents (c)	County total (d)
9. Number of 4-H Clubs	9		6	15
10. Number of different 4-H Club members enrolled. { (1) Boys <u> </u> (2) Girls <u>211</u> }			53	53
11. Number of different 4-H Club members completing. { (1) Boys <u> </u> (2) Girls <u>148</u> }			39	39

12. Number of different members enrolled in 4-H Club work for:*

MEMBERS	1st year	2d year	3d year	4th year	5th year	6th year and over
(a) Boys	20	31	2			
(b) Girls	110	75	31			

* County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or accomplishment.

† Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the project enrollments reported on page 7 to 10, minus duplications due to the same boy or girl carrying on two or more subject-matter lines of work.

‡ Same as footnote 2 but refers to completions instead of enrollments.

§ The total for this question should agree with county total, question 10.

SUMMARY OF EXTENSION INFLUENCE FOR YEAR

It is highly desirable for extension workers to consider the proportion of farms and farm homes in the county which have been definitely influenced to make some substantial change in farm or home operations as a result of the extension program for men, women, boys, and girls. It is recognized that this information is very difficult for agents to report accurately, so a conservative estimate based upon such records, surveys, and other sources of information as are available will be satisfactory. Such estimates should be marked "Est."

Include results of emergency activities as well as the regular extension program.

35. Number of farms in county	3683	35
36. Number of farms on which changes in practices have definitely resulted from the agricultural extension program	1200 Est.	36
37. Number of farm homes in which changes in practices have definitely resulted from the home demonstration program	600 Est.	37
38. Number of other homes in which changes in practices have definitely resulted from the home demonstration program	350 Est.	38
39. Number of farm homes with 4-H Club members enrolled	181	39
40. Number of other homes with 4-H Club members enrolled	76	40
41. Total number of different farm families influenced by some phase of the extension program	1731 Est.	41
42. Total number of different other families influenced by some phase of extension program	151 Est.	42

* County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or accomplishment.

NOTE.—Questions 15-31 refer to the total number of different activities conducted this year. The totals should equal the sums of the corresponding information reported on following pages minus duplications where the same activity relates to two or more lines of work.
