

How to Plan a Storytelling Program

☐ Consider the size of the audience

- Will we need a sound system or microphone?
- Will we need an adult to run lights or the sound system?

☐ Consider about the way the stage is set-up

- Will the audience sit on the floor?
- Will they sit at tables or desks?

☐ Consider the types of stories

- Will we feature a mixture of fables and folktales?
- Will we do stories based around a motif?
- Will we do variations on a type?

☐ Grab the audience with the first story, and close with a strong story

- Which storyteller will open the show?
- Which storyteller will close the show?
