number	111
attendance	13,812
No. 4H Club meetings attended	139
Visits from district agents, specialists and club agents	25

IV. Status of County Organization.

1. County organizations not organized by agent.

The work is supported by representative men and women from each magisterial district in the County. It is financed by the County board of Supervisors. A detailed report is made to them each month.

The County School Board co-operates by giving school time once or twice a month for club meetings. They allow the clubs to use the school buses once a month if they pay the drivers and pay for the gas they use.

2. County organization supporting the work.

(1) The County home demonstration board is composed of twenty-nine women. The Chairman is from the community known as the Covington Community as represented on the map, and the other twenty eight members are from the five organized communities: Dunlap, Boiling Spring, Barber, Low Moor and Longdale.

The board assists in planning the women's work for the year. This is done at an annual meeting in Covington, with the help of the District Home Demonstration agent and the County Home Demonstration Agent. A second meeting of the board was called to elect a member to go to Blacksburg to the Homemakers' meeting. One of the members was sent, and enough money raised to pay her expenses while there.

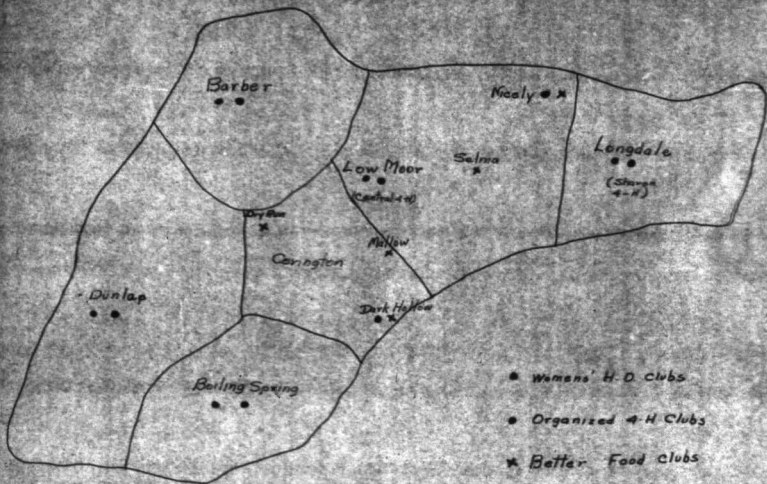

The board is made up of the committee members from the five organized communities, each committee having from five to seven members.

2. The 4H Club council is made up of the officers from the eight organized 4H clubs in the county. Two meetings were held this year, one with an attendance of twenty-nine and the other twenty-five. Several leaders attended each meeting. At the first meeting which was held in March, plans were made for the County Rally; and at the one in October plans were made for achievement day. The council is an organized group with all its officers. The president is an All-Star boy.

3. The work is carried on entirely through a spirit of co-operation. I try to co-operate with, and welcome co-operation from all other organizations. An instance of this has just been cited in the case of the school board. We appreciate their letting us use the school

Community Map of Allegheny Co. 1930

buses and are careful to not abuse the privilege. We never use the buses as often as once a month and the drivers, if they charge for their services, are paid promptly. They seldom make any charges except for gas and oil used.

V. Program of work:

1. Index to map of county - 1930

Red dots -- Women's H. D. Clubs
 Blue " -- Organized 4H Clubs
 Red crosses- Better food clubs.

The County was organized at the beginning of the year into six communities. Women's clubs were organized in five of them, with a total enrollment of One Hundred and twenty members, including the Homemakers' committee at Boiling Spring which was already functioning with thirty members. Barber, Dunlap, Low Moor and Longdale were the new ones organized. The enrollment was as follows:

Barber	enrollment	26	meetings	8
Bongdale	"	15	"	5
Low Moor	"	23	"	8
Boiling Spring	"	34	"	9
Dunlap	"	22	"	8

The 4H clubs were already organized when I came to the County over a year ago. I had project work in seven of the organized Clubs, and also had a three better foods Clubs in smaller school which were not organized because there were no projects which ran throughout the year, at these clubs. The better foods clubs ran three months.

The enrollment and number meetings of the 4H Clubs are as follows:

Barber	enrollment	21	meetings	20
Boiling Spring	"	42	"	24
Central	"	23	"	17
Dunlap	"	31	"	24
Sharon	"	9	"	16

Nicely	enrollment	12	meetings	7
Dark Hollow	"	10	"	3
Dry Run	"	18	"	3
Hallow	"	15	"	3
Selma	"	70	"	3
				<u>3</u>

120

The council planned at their last meeting to form committees to see to achievement day. The four larger clubs were selected to make up the four committees needed--decoration, reception, recreation and parade. The officers of the clubs made up these committees. Boiling Spring was in charge of decoration, and they had the stage nicely decorated with hemlock. Central was in charge of the thirty minute recreation which was enjoyed during the program. This was directed by the member from Central Club who has taken the recreation course at the State Short Course the past two summers. She was assisted by two other members. Dunlap officers were ushers, wearing green and white sashes with the word "usher", and performed their duties most efficiently. Barber club was in charge of the parade, which unfortunately could not be held because of rain. However, all arrangements for it had been made.

2. Women's Work.

(1) The women had as their major project this year, home management, which dealt principally with the improvement and re-arrangement of their kitchens in order to lessen the time and labor spent there. As a minor project, poultry was selected. The five organized groups carried both of these projects, there being a total enrollment of one hundred and twenty women, and thirty eight meetings. Six meetings were held on the major at all the clubs except at Longdale, and this group never seemed interested in the work. No one came to the last three meetings. At the other clubs there was very good attendance usually, and a large number of fine improvements were made in the kitchens as well as twenty four simple re-arrangements which saved time and steps. Twenty walls, wood work or floors were refinished; fourteen storage facilities were improved; one hundred and forty four labor saving appliances were purchased and twenty six working heights were adjusted to suit the individual. One lady had two large porches screened, one on each side of the kitchen,

(This page to go in at middle of page 7.)

The adult achievement day was held in October, with three of the five clubs represented and a total attendance of 25 people. In the morning, separate committee meetings were held for the men and the women, each planning their own work.

Reports were heard from the three clubs covering the work done by them this year. The reports were very good considering the present conditions and also that this is the first year for the work under the present organization.

The work for the coming year was planned by those who were present. The major subject decided upon was "The Family Meals", a very appropriate subject for this year owing to scarcity of food and the lack of variety. Some of the topics which will be taken up are "Essentials of Meal Planning", "Food for the Very Young" (2 meetings), "School Meals", "Table Service", and "Main Dishes for Supper". Other subjects may be selected by the individual club if desired.

The two minor subjects decided upon were Poultry and Vegetable Gardening.

In the afternoon a public meeting was held. Interesting reports were heard from both men and women, and summary reports by the two agents. Low Moor home demonstration club added much to the program by the skit gotten up by two of their members.

Interesting talks were made by Miss Davis, Mr Hummel and Mr Shackelford, who congratulated the people of Allegheny on the past years work and urged them to go forward and do even better work the coming year.

During Better Homes week, Mrs Christine B. Carter, interior decorator from New York, was secured to hold two meetings with the women in the county. One was held at Clifton Forge and the other at Covington, with a total attendance of 36. Mrs Carter's subject was "Personality in the Home", and was illustrated with lovely wall papers and draperies. They were very interesting and were enjoyed by those who attended.

one of which included the milk house and the well.

As a community project, the Low Moor group raised \$20.00 and secured the services of the red cross nurse in Blifton Forge who came to their club and gave a series of four lectures and demonstrations which were beneficial to mothers with little babies. She took up the subjects "Weight", "Cleanliness", "Sleep", "Clothing" and "Food" and the babies were brought to her, weighed, and advice given to the mothers when needed. Proper clothing and food and baths were demonstrated, and sleep discussed. Twenty mothers received help at these meetings, and their babies were better cared for and made more comfortable during the hot weather.

(2) Ten leaders were trained at the three leader training meetings held by the specialist. These were in the major project. No training meetings were held for the minor project. Five leaders assisted me with demonstrations and four gave them alone.

(3) Camps and short courses for women.

None were held in the County for women.

Four women attended the State Homemaker's meeting at Blacksburg. We had hoped to have ten attend but because of sickness in the families of three who had expected to go, and because of the failure of crops in the County, the others had to give up their trips this year. Those who attended were delighted with the meeting, and gave good reports of it at the following meetings of their local clubs. The Boiling Spring club paid the expenses of their delegate, and also paid their club dues in the Association. The delegate from Dunlap went as the delegate from the advisory board and had her expenses paid by them.

The minor project was poultry, and two meetings were held at each club on "Care of Baby Chick" and "culling". There was a total attendance of one hundred and forty-eight at these meetings. The women were told to cull their flocks unusually close this year because of the scarcity and high price of feeds; and because of the low prices being paid for poultry

at this time, were told to can as many culls as possible. The Boiling Spring club requested a pressure cooker demonstration on canning chicken, and twelve women attended the meeting. Three or four of them are planning to use my pressure cooker to can some chicken and also beef and pork.

(4) At the Alleghany County fair, the women from the Home Demonstration clubs brought in a large number of exhibits which were exhibited in the general department, but the most outstanding thing done by them was working out the three activity booths put on by them. Demonstrations were given each day during the fair by the women. Low Moor had a kitchen planned and furnished for a sunny exposure, green and cream and a touch of orange, being the colors used. Other color schemes suitable for other exposures were shown. Boiling Spring showed how to adjust a work table to the individual and also how to refinish a work surface. Barber booth represented a miniature cemetery in which were buried women who had died because of drudgery and lack of conveniences in the kitchen. These booths were something entirely new here, and attracted quite a lot of attention all week. Each of the three received the \$10.00 prize which was awarded by the fair association.

(3) Girls' Work

The girls in Alleghany had Home Improvement for their major project and in this there were 54 girls enrolled in five groups. The minor projects were poultry, with an enrollment of 73, 27 of them being boys and 46 girls enrolled in five groups; and five better foods clubs with an enrollment of 125 boys and girls.

There was some splendid work done by the Home Improvement girls, 21 repairing or remodeling furniture 18 improving window treatment, 13 refinishing walls, woodwork or floors and 17 improving storage facilities. 65 pairs of bookends were covered with colored paper and shellaced and used either in the girls' rooms or used as Christmas gifts. Three rugs and one footstool were made.

The girl who did the best piece of work was in the Barber club. She kalsomined her walls and ceiling a very light blue, stained and waxed her floor, built a clothes closet beside her chimney and put in shelves, a rod and enough hangers to take care of her clothes. As her

windows were very small, her shades were taken down, and new curtains of white cotton material were made, with a valance and tie-backs of cotton print. A laundry bag was made of the same print. The bed, dresser, chairs and wash stand were painted and enameled cream. At the county fair she received first prize on her curtains and second on her laundry bag. The total cost of her room was \$8.30 and she did all of the work herself except build the closet.

In the poultry clubs, the best work was done by one of the boys. He had a flock of 70 Barred Rock and White Leghorn hens. His feed and labor cost \$265.00 and his gain, including the increase in stock and equipment \$370.00. 11,192 eggs were gathered from the 70 hens and were sold for \$265.45. A new brooder house was built.

In the better foods club the most noticeable gain was made in the Nicely club. One little girl who was under weight stopped drinking coffee and drank a quart of milk a day, and at the end of the three months she had gained 12 pounds. Her mother said Frances made her buy green vegetables whenever she went to the store. She looks like a different child and is better fitted for the eight or nine mile ride on the school bus that she has to take each day this year attending high school at Low Moor.

(2) Each of the Home Improvement clubs had a leader, only one of them being a teacher. Three training meetings were held but were not well attended, five being the total attendance. 10 demonstrations were given by the leaders and four assisted the agent in giving demonstrations. No leaders were trained in the poultry clubs. At the 5 better foods clubs, the teachers acted as leaders, and in all except one, Selma, they were fine about helping the children keep their records and keeping them interested. Very little interest was taken at Selma school by the teachers.

(3) Barber 4H Club made the best record of any club in the County. They had 25 members enrolled, and had good attendance at all of their 12 meetings. The project meetings were also well attended. They had 100% attendance at the County rally; three teams entered the County demonstration contest, one of them winning first place in "Potato Treatment" and went to Blacksburg and entered the State contest where one member was given an efficiency award. It was at the Barber club that the best Home Improvement work was done. This had already been given. Year books were made for the club and also individual ones were made by 8 of the members. Pictures were taken and the books were very attractive. The club fixed up a two

room house on the property of the leader and this was used for a club house. They raised money to pay for painting the inside of the house, painting the floor, and white-washing the outside. They bought a table and mirror, and got benches and folding chairs from their homes for seats. The girls got thin cotton material from the Gluck Mills and made curtains for the windows. It made an attractive place for the meetings to be held, and they also had two parties in it. At one of them they entertained the Central Club. Five girls and three boys attended the State Short Course at Blacksburg, one of them having her way paid by the Margaret King Memorial Scholarship. The club had two suppers and raised \$37.00 which was used to partly pay the expenses of the other seven delegates to the short course. Ten of their members attended the Achievement day program. Much of the success of the club is due to their leader, Mrs. J. J. Robbins, who has given so much of her time to the Club this year. At the County fair this club had a nice exhibit in both the home demonstration and the farm projects, and carried off their share of the prizes. One girl had a particularly nice dressing table which she made from 2 orange cases. Between the two cases she had a drawer, and over the drawer a thin board which pulled out and made a writing desk. She received first prize on this. At the Achievement day program, the Barber club was awarded a nice banner for their fine year's work.

(4)

(a) The 4H Club Rally was held in May at the Jeter Auditorium in Covington with an attendance of 225 club members, leaders, parents and friends. Four school buses ran that day, and brought in the club members. The meeting was conducted by the County president, the roll of clubs was called by the secretary, and was answered by the clubs with the number they had present. Only the Barber club had 100% attendance. Talks were given by Mr. C. A. Montgomery, State club agent, Mr. J. C. Jehne from the C & O, Mr. Ben C. Moosaw from Covington Chamber of Commerce and Mr. Montague the farm agent in Bath County. The county demonstration contest made up most of the morning program. At the noon hour picnic lunch was enjoyed and games were played, then the entire group was entertained at a free movie which was given by the manager of the theatre in Covington.

(b) The County demonstration contest was held rally day, five teams from the home demonstration groups entered the contest. These were all in the home improvement group and demonstrated "Painting Furniture", "The Clothes Closet", "Care of the Bed Room", "Curtains for the Bed Room" and "Making a Dressing Table". All of these were nicely given

and the teams had been assisted by their leaders. The team demonstrating "Painting Furniture" which was from the Boiling Spring club won first place in the contest and received attractive little club pins. They worked up their demonstration much better and went to Blacksburg where they entered the state contest and won third place. Both members received the efficiency award.

(c) The county fair exhibit was very good, articles being exhibited from all the projects. There was very little canning but what was there was of good quality. The home improvement girls had a good exhibit of articles made: dressing tables, counterpanes, pillow cases, runners, laundry and shoe bags, boudoir pillows and curtains. These made a very attractive exhibit. The Central Club had a booth which represented a properly furnished girls' bed room. In it they had a dressing table which had been made by the two girls who demonstrated it in the contest. They also ad the necessary material for making one, and each day during the fair demonstrated making it. This always attracted attention from those who were passing through the tent. The poultry club at Boiling Spring also had an activity booth and each day gave demonstrations in culling, cleaning eggs for market, preserving eggs and feeding chicks. Each of these activity booths received the \$10.00 which was awarded by the fair association.

(d) Achievement day was held in November, the first to be held in this County. Although it poured rain all day there was an attendance of 140 club members, leaders and parents. Talks were made by Mr. C. A. Montgomery, State Club agent and Major R. F. Beirne editor of the Covington paper. Mrs. Guy Tritle made a good talk on "The Value of Club Work from the Viewpoint of a Mother". Reports were given of the best project work done in the county by a poultry club boy from Central, and a home improvement girl from Barber. These were very interesting. Reports of the years work were given by the home demonstration agent and by the farm agent. Several prizes will be offered in the different phases of work, and will be awarded at the next achievement day. The banner was awarded to Barber club for the best work this year, by Mr. E. A. Crawford. Thirty minutes of recreation was enjoyed by the club members, this being conducted by Sula Harnsberger from Central club who has taken the course in recreation at the short course the past two summers. She was assisted by 2 other members from Central.

(5) Short Course.

(4) No community, county or district short courses were held.

Thirty seven boys and girls and three leaders attended

the state short course at Blacksburg. They were taken over there in two of the County school buses. They reported the best short course ever attended, and said this was due to more courses being offered, and the classes smaller than previously. The expenses of the trip were partly paid by the clubs and partly by the members. Three members, two from Central and one from Barber, had their expenses paid by the Margaret King memorial scholarships. The team demonstrating painting furniture won third place in the contest. Two of the girls in the growth class received honors, and one girl was taken into the all-star organization. The leaders who attended said they had gotten more from the leaders meetings than they had before.

VI. Fairs and exhibits.

(b) The county fair was held the same week as the State fair, the first week in September. For this reason it was impossible to send exhibits or a team to the State Fair this year.

The county fair exhibit was very good, articles being exhibited from all the projects. There was very little canning but what was there was of good quality. The home improvement girls had a good exhibit of articles made: dressing tables, counterpanes, pillow cases, runners, laundry and show bags, boudoir pillows and curtains. These made a very attractive exhibit. The Central club had a booth which represented a properly furnished girls' bed room. In it they had a dressing table which had been made by the two girls who demonstrated it in the contest. They also had the necessary material for making one, and each day during the fair demonstrated making it. This always attracted attention from those who were passing through the tent. The poultry club at Boiling Spring also had an activity booth and each day gave demonstrations in culling, cleaning eggs for market, preserving eggs and feeding chicks. Each of these activity booths received the \$10.00 which was awarded by the fair association.

At the Alleghany County fair, the women from the Home Demonstration clubs brought in a large number of exhibits which were exhibited in the general department, but the most outstanding thing done by them was working out the three activity booths put on by them. Demonstrations were given each day during the fair by the women. Low Moor had a kitchen planned and furnished for sunny exposure, green and cream and a touch of orange, being the colors used. Other color schemes suitable for other exposures were shown. Boiling Spring showed how to adjust a work table to the individual and also how to refinish a work surface. Barber booth represented a miniature cemetery in which were buried women who had died because of drudgery and lack of conveniences in the kitchen. These booths were something entirely new here, and attracted quite a lot of attention all week. Each of the three received the \$10.00 prize which was awarded by the fair association.

VII Goals for 1930

Goals	Accomplishments
I County wide Activities	
1 Co. organization. Divide County into six communities	This was done
2 Get women's work started in five of these communities	This was done
3 Two women from each group to attend leader training meetings	This was done
4 Committee members to make up County advisory council.	Not all the committee members active on council
5 County 4H club council with written plan of work. Hold two meetings during year	Two good meetings held. Work planned at first one.
6 County Rally. All clubs to participate	Very successful rally held. Attendance 225.
7 Each club to hold achievement day.	All clubs united to hold achievement day at Covington. Attendance 140
8 Egg laying contest with thirty contestants.	This was not done. Not enough children interested in poultry.

II. Project work. Adults

V. General Goals

1. Hold leader training meeting every 2 months
2. Train poultry judging team
3. 80% completion of all projects.
4. Each community exhibit at County fair.
5. Send delegates to State short course.

General Goals, continued.

6. Send ten delegates to homemakers' meeting.
- 7.
7. Each club held picnic or other social affair.

Accomplishments.

1. This was done. Attendance was not good.
2. No. team trained for judging. Eight demonstration teams trained.
3. Fell short. here.
4. This was done.
5. Thirty five delegates sent.
6. Four Home Demonstration delegates sent.
7. Two picnics and two parties were held.

VIII. Summary

The County was organized the first of the year into six communities in five of which women's home demonstration clubs were organized. There was a total enrollment of Onehundred and twenty in these five clubs. The major project was Home Management and the minor poultry. A total of thirty eight meetings were held at the five clubs. The women made some fine improvements in their kitchens, and also in other parts of the house. Two large porches were screened at one home. Poultry culling demonstrations were held which resulted in flocks being culled and therefore lessening the amount of feed that will have to be fed to them this winter. The women have been told to can their culls for winter use and one demonstration has been given. Another will be given next week.

The women had good exhibits at the County Fair, especially the three activity booths which were put on and demonstrations given each day. These attracted much attention.

The 4H club girls had as their major project Home Improvement, and as minors poultry and better foods. There were five groups taking each project. Some good work was done in each project.

In the home improvement club walls, woodwork and floors were re-finished, closets were built or remodeled, counterpanes, pillow cases, laundry and shoe bags were made, furniture was re-arranged to make a better appearance, furniture was painted, curtains and boudoir pillows made.

In the poultry club flocks were improved by better feeding, size of flocks increased, houses improved and new stock was bought.

In the better foods clubs, noticeable gains were made in some of the children. Practically every child enrolled gained some during the three months the food scores were kept, the gains being from two to twelve pounds.

There was a good representation from Allegheny at the short course, thirty seven boys and girls attending. They were divided up and some put in each class. Final plans for the trip and the assignment to classes were made at a meeting held just before they went. The leaders

said this was such a help, because heretofore they did not know what class they would be in until they got there and it caused some confusion. It was much easier to plan it here.

The two county council meetings which were held were very successful ones, at one the rally day was planned and at the other the achievement day. Rally and achievement days were very interesting days, having very good attendance at both. The club members enjoyed them. This was the first achievement day ever held in the County.

The demonstration teams trained made a good showing both in the County contest and also the State contest. One team scored third in the State contest.

The Boiling Spring Community organization had had some splendid meetings this year. Good programs have been put on by the school and by the adults in the community. The civic committee had been quite active, securing books for the library and installing electric lights in the building. The homemakers' committee has been active also, holding regular monthly meetings on the major and minor subjects. An extra meeting was held with this group on canning chicken. Reports of this committee's work have been presented at the regular monthly meetings of the community organization.

Although I feel like some good work has been accomplished and some forward steps made this year, still I am not satisfied with several things. I think the completions were entirely too low. I do not think that the club members took as much interest in this as they should have done. I will make an effort to secure a much larger percentage next year.

I do not think the leaders were as interested as they might have been in attending the leader training meetings.

I feel that the committed members of the home demonstration clubs do not take as active a part as is expected in the form of organization. If they did, I am sure the attendance at the meetings would be much larger than it is.

II. Plans and goals for 1931.

The women have elected foods for their major project this year, the unit being "The Family Meals" and the topics taken up will be "Essentials of Meal Planning", "Food for the Very Young", -- Milk and Eggs", "School Meals", "Table Service" and "Main Dishes for Supper". The minor projects will be Vegetable Gardening and Poultry, two meetings being held on each subject.

The girls have elected Clothing for their major project and will all do the first year's work. Two hundred girls have been enrolled and eleven clubs organized. Three of these are at schools which have never had any club work before, and three have not had a project which continued thru the year. The girls seem more interested in this than they did in the project last year. Leaders have been secured for all of the clubs, two of them are old 4H club members.

Leader training meetings will be held every two months for both the women and girls, the first being planned for early in December.

The minor project for the girls will be poultry, and so far very few have enrolled for it, only about thirty.

One of the women's groups (Longdale), took so little interest in their work the past year we have decided it would be best to discontinue the work with them for a while. This will leave four women's clubs.

Goals for 1931

I. County Activities.

1. Have monthly meetings with four women's clubs.
2. Have two women from each group attend leader training meetings.
3. Committee members in the four clubs to make up advisory council.
4. County 4H club council with written plan of work. Hold two meetings a year.

5. Hold County 4H Club rally in spring, and achievement day in fall.

6. Hold achievement day for women in fall.

II. Project work -- Adults.

V. General Goals

1. Hold leader training meetings every two months.
2. Have demonstration contest in Clothing, winning team to enter State contest.
3. 100% completion of projects, record books to be collected by clubs by Nov. 1.
4. Each Club exhibit at County fair.
5. Each Club send one or more delegates to State Short Course.
6. Send five delegates to homemakers association.
7. Each club hold picnic or other social affair.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

Revised July 7, 1930

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Alleghany
Report of Josephine Fultz County Home Demonstration Agent
(Name) (Title)
From December 1, 1929 to November 30, 1930

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

READ DEFINITIONS, PAGE 3

HOME DEMONSTRATION WORK

Approved:

Date Jan 12 - 1931

Maudie E. Wallace
State as District Supervisor.

Date _____

State Extension Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT

The annual report should be a summary, with analysis and interpretations, for presentation to the people of the county, the State, and the Nation of the extension activities in each county for the year and the results obtained by the county extension agent, assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support of extension work.

Separate statistical and narrative reports are desired from each leader of a line of work, such as county agricultural agent, home demonstration agent, boys' and girls' club agent, and negro agent, regardless of title. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more agents are employed in a county, each a leader of a line of work, statistics should not be duplicated.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. The report to the Washington office should be sent through the State extension office.

NARRATIVE SUMMARY

The narrative report should summarize and interpret the outstanding results accomplished and the extension methods used, under appropriate subheadings, for each project. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with necessary data from the statistical summary. Use an interesting style of writing, giving major accomplishments first under each project. Give extension methods fully relating to outstanding results only, and where practicable illustrate with photographs, maps, diagrams, blue prints, or copies of charts and other forms used. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented. Each agent should adapt the outline to the situation and the work to be reported.

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—changes and development.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work; listing goals set up, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

<ol style="list-style-type: none"> (a) Cereals. (b) Legumes and forage crops. (c) Potatoes, Irish. (d) Cotton. (e) Tobacco and other special crops. (f) Home gardens and home beautification. (g) Market garden and truck crops. (h) Fruits. (i) Forestry. (j) Rodents and miscellaneous insects. (k) Agricultural engineering and home engineering. (l) Poultry. 	<ol style="list-style-type: none"> (m) Dairy. (n) Other livestock. (o) Farm management. (p) Marketing, farm and home. (q) Foods and nutrition. (r) Child training and care. (s) Clothing. (t) Home management. (u) Home furnishings. (v) Home health and sanitation. (w) Community activities. (x) Miscellaneous.
---	---
- V. Outlook and recommendations, including suggestive program of work for next year.
- VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting:

DEFINITIONS OF TERMS USED IN THIS REPORT

1. A program of work is a statement of the specific lines of extension work to be undertaken by the extension agent during a year or a period of years.
2. A plan of work is a definite outline of procedure for carrying out the different phases of the program of work. Such a plan provides specifically for the means to be used and the methods of using them. It also shows what, how much, when, and where the work is to be done.
3. A community is a more or less well-defined group of rural people with common interests and problems. Such a group may include those within a township, trade area, or similar limits. For the purpose of this report a community is one of the several units into which a county is divided for conducting organized extension work.
4. A project leader, local leader, or committeeman is a person who, because of special interest and fitness, is selected to serve as a leader in advancing some phase of the local extension program. A project leader may be either an organization or a subject-matter leader.
5. Demonstrations as contemplated in this report are of two kinds—method demonstrations and result demonstrations.

A method demonstration is a demonstration given by an extension worker or other trained leader for the purpose of showing how to carry out a practice. Examples: Demonstrations of how to can fruits and vegetables, mix spray materials, and cull poultry.

A result demonstration is a demonstration conducted by a farmer, home maker, boy, or girl under the direct supervision of the extension worker, to show locally the value of a recommended practice. Such a demonstration involves a substantial period of time and records of results and comparisons, and is designed to teach others in addition to the person conducting the demonstration. Examples: Demonstrating that the application of fertilizer to cotton will result in more profitable yields, that underweight of certain children can be corrected through proper diet, or that the use of certified seed in growing potatoes is a good investment.

The adoption of a farm or home practice resulting from a demonstration or other teaching activity employed by the extension worker as a means of teaching is not in itself a demonstration.
6. A result demonstrator is an adult, boy, or girl who conducts a result demonstration as defined above.
7. A cooperater is a farmer or home maker who agrees to adopt certain recommended practices upon the solicitation of an extension worker. The work is not directly supervised by the extension agent and records are not required, but reports on the success of the practices may be obtained.
8. A 4-H Club is an organized group of boys and/or girls with the objectives of demonstrating improved practices in agriculture or home economics, and of providing desirable training for the members.
9. 4-H Club members enrolled are those boys and girls who actually start the work outlined for the year.
10. 4-H Club members completing are those boys and girls who satisfactorily finish the work outlined for the year.
11. A demonstration meeting is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
12. A training meeting is a meeting at which project leaders, local leaders, or committeemen are trained to carry on extension activities in their respective communities.
13. An office call is a call in person or by telephone by an individual or group seeking agricultural or home-economics information, as a result of which some definite assistance or information is given.
14. A farm or home visit is a call by the agent at a farm or home at which some definite information relating to extension work is given or obtained.
15. Days in office should include time spent by the county extension agent in his office, extension conferences, and any other work directly related to office administration.
16. Days in field should include all days spent on official duty other than those spent in office.
17. Letters written should include all original letters on official business. (Duplicated letters should not be included.)
18. An extension school is a school usually of two to six days' duration, arranged by the extension service, where practical instruction is given to persons not resident at the college. An extension short course differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time.
19. Records consist of definite information on file in the county office that will enable the agent to verify the data on extension work included in this report.

GENERAL ACTIVITIES

Report Only This Year's Activities and Results that can be Verified

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report.

Josephine Falty (Name) Co. Home dem. agt. (Title) 12 (Months of service this year)

2. County extension organization or association.

(a) Name County Advisory Council

(b) Number of members

(1) Men _____
(2) Women 29

3. Number of communities in county where extension work should be conducted. 6

4. Number of above communities in which the extension program has been cooperatively worked out by extension agents and local committees. 5

5. Number of different voluntary county or community local leaders or committeemen actively engaged in forwarding the extension program.

(a) Adult work

(1) Men _____
(2) Women 10

(b) 4-H Club work

(1) Men 1
(2) Women 9
(3) Older club boys _____
(4) Older club girls _____

6. Number of clubs or other groups organized to carry on adult home demonstration work. 5

7. Members in above clubs or groups. 120

8. Number of 4-H Clubs. 10

9. Number of different 4-H Club members enrolled.

(a) Boys 86
(b) Girls 141

10. Number of different 4-H Club members completing

(a) Boys 43
(b) Girls 91

11. Number of members now enrolled in 4-H Club work for:

	1st Year	2d Year	3d Year	4th Year	5th Year	6th Year and Over
(a) Boys	72	4	5	2	2	1
(b) Girls	96	21	19	7	8	5

12. Number of 4-H Club members according to age.

Age	10	11	12	13	14	15	16	17	18	19	20
Boys	18	18	22	10	12	7	4		1		
Girls	23	27	20	18	16	16	7	7	5	2	

* Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the project enrollments reported on pages 1 to 24, less any duplications due to the same boy or girl carrying on two or more subject-matter lines of work.

GENERAL ACTIVITIES—Continued
