COOPERATIVE EXTENSION WORK IN AGRICULTURE
AND HOME ECONOMICS

U. S. Department of Agriculture
and State Agricultural Colleges
Cooperating.

States Relations Service
Office of Extension Work-South

REPORT OF WORK OF THE COUNTY AGENT

CALENDAR YEAR 19

State

Virginia

County

Patrick

Report of

S. L. Cole

County Agent

From January 1 to December 31, 19__

Approved:

State Agent

Date Forwarded

Director of Extension Work

ANNUAL REPORT FORM AND INSTRUCTIONS TO AGENTS

The agent's annual report should be a complete summary of all the work performed during the year. This is the only record that the officials of the Extension Division of the State and the Department have of the agent's activities.

The only means of making such a report is to keep field notes or a field diary of everything that is done each day. It is well to not only keep notes of things actually done, but to make some brief observations of general conditions as found from time to time. Many things which seem of minor importance to the agent may be very valuable to the head offices when asked for detailed information regarding certain localities.

An agent's efficiency and the success of his work is necessarily judged from this office by what is contained in his report. Your district and State agent may know that you are rendering efficient service, but it is absolutely essential to have something on record to show that the work has been done, when outside parties who can not possibly inspect your work desire definite and accurate information in regard to the results that are being accomplished in local territory.

Every agent in the work has been instructed, by circular letter and by the supervising force at agents' meetings, as to the importance of keeping systematic records throughout the year. If this advice has been followed you should have no difficulty in rendering your annual report upon the forms which are herewith attached. These are broad enough to include the activities of the agents in the entire territory covered by the Extension Work in the South. Some of the questions will not apply to your local territory, and these, of course, need not be answered.

In some instances you will observe that the same form is used for several crops. Be sure to use separate sheets for each crop named under the heading. For example, take the sheet headed "Small Grains", under which are included oats, wheat, barley, and rye. In this case all the demonstrations in oats should be included on one sheet, all the demonstrations in rye on another, and so on for all the crops included under this heading.

Be sure to answer the questions in the order in which they are asked, and see that you give the information called for. If this is done, all the reports will be uniform when they are sent in to the State agent's office, and in like manner the State agent's reports will be uniform when sent to the Director's office in the State and then to the Washington Office.

It should be distinctly understood that these forms are only to summarize the statistical part of the report, and under each crop or heading such remarks, observations or points of interest as may be useful should be briefly written out. The back of the respective sheets may be used for remarks on the crops reported on. No doubt many interesting features will be called to mind, which, if written up and sent in to the State agent's office along with the replies to these definite questions, would be very valuable in giving the report that personal touch which proves of great value and interest in all reports of this nature.

In collecting the replies to the questions of a personal nature, the agent will have to depend on his tact and good judgment in approaching the farmer. A few, no doubt, will be averse to furnishing you with some of the information asked for, but if reliable data could be collected with reference to these points, it would enable the Department to get a rather definite idea as to the beneficial effects of the demonstration work in your section.

The forms that we are sending out include the following crops, groups of crops, and other miscellaneous work of the county agent:

C R O P S:

Corn
Cotton
Tobacco
Small grain
Hay and forage
Cover crops
Summer legumes
Potatoes (Irish and Sweet)
Truck crops and gardens
Sugar cane
Orchards

L I V E S T O C K:

Horses
Dairy cattle
Beef cattle
Hogs
Sheep and goats
Poultry
Live stock diseases and pests

O T H E R W O R K:

Fertilizers
Farm manures
Silos
Dipping vats
Seed selection
Lime
Irrigations
Pastures
Organizations
Farm buildings
Drainage
Farm machinery and tools
Clearing land, stumps, etc.
Timber and wood lots
Miscellaneous demonstration work
Effect of demonstration work on
community, and human interest
features
Successful undertakings
Work with negroes
Boys club work

If there is anything in any of these forms that is not thoroughly understood discuss the matter with your district or State agent or write to this office for a more specific explanation.

MAP OF COUNTYSHOWING KIND AND DISTRIBUTION OF WORK

The following sheet is to be used for an outline map of your county, to show the kinds and distribution of your work. Maps larger in size than this sheet may be used if desired. In some states, suitable maps, showing topography, railroads, rivers, election districts, etc., are obtainable from the Office of the State Geological Survey. It is suggested that a copy of the map furnished with your report be kept for your own office record, unless you already have one answering the same purpose.

The map is intended to show the approximate location of your various demonstrations, community clubs, boys' clubs, etc., each kind of demonstration club, or other activity to be indicated by the same sign or mark, so that a glance at the map will give a general impression of the nature and extent of the work. Be sure to enter at some convenient place along the margin of the map sheet a key or explanation to the various marks. For example, some such set of marks and key as the following might be used:

	community organizations;		corn;		cotton;
	tobacco;		wheat;		oats;
	legumes;		potatoes;		orchards;
	poultry;		silo;		boys' clubs; <u>cr</u> cream routes, etc.

Additional signs may be used for other lines of work. The use of colored pencils for these signs, using one color for all the work of the same kind, makes such a map very effective. If further suggestions are desired in this connection write direct to this office. It is believed that a large outline map of the county, showing the kind and the location of the work, could be displayed to advantage in every county agent's office.

COUNTY ORGANIZATIONS

1. Is there a central county organization supporting your work? _____
 If so, what is it called? _____
 Who constitute its membership? _____

 How is membership selected or appointed? _____

 What is the membership fee, if any? ----- \$ _____
 Who are its present officers? _____

 How long has this county organization been in existence? _____
2. How many community farmers' clubs have you assisted in organizing
 this year? _____
 Total membership _____
3. How many community farmers' clubs have you in your county? _____
 Total membership _____
4. How many local lodges of Granges, Farmers' Unions, etc., as community
 organizations, are supporting your work? _____
 Total membership _____
- Are such Granges, Farmers' Unions, etc., included in your
 answers to Nos. 2 and 3? _____
5. How many community farmers' clubs have ceased to exist during
 the year? _____
 (Give reason, using extra pages when necessary)
6. How many of these clubs are organized so as to include the farmer's
 wife, children, and others, in their membership? _____

COUNTY ORGANIZATIONS (Continued)

7. How have these clubs been helpful to the farmer and his family. (Use extra pages if necessary)
- _____
- _____
- _____
- _____
- _____
8. Are these community farmers' clubs dependent on the county agent for their existence and the continuation of their efforts? _____
9. Does each club have a community plan or program of work? _____
(Attach a copy of such plans for the past year)
10. Does the county organization have a definite plan of work with reference to the county? _____
(Attach a copy of such plans for the past year)
11. Have you so thoroughly organized your county that you have someone in every community or school district assisting you in extension work and through whom you can reach EVERY farm family in your county?
- _____
- _____
- _____
- _____
- _____
- _____
- _____

SPECIAL REPORT BY WHITE AGENTS ON WORK WITH
 NEGRO FARMERS

NOTE:- The data reported on this and following page must be included in your report on all work done. Negro agents need not report on these sheets.

1. Number of negro demonstrators (all crops) _____
 2. Number of negro demonstrators reporting (all crops) _____
 3. Total acreage of all crops grown under improved methods on negro demonstration farms _____
 4. Number of negro cooperators (all crops) _____
 5. Total acreage of all crops of negro cooperators _____
 6. Number of negro farmers who planted pure or selected seed on their demonstrations _____
 7. Number of negro farmers you have influenced to select seed for next year's crop _____
 8. Estimated quantity of all seed selected by negro farmers (bushels) _____
 9. Number of negro farmers who fall-plowed their demonstration acres _____
 10. Approximately, how many negro farmers in your territory are following demonstration methods on their farms? _____
 11. Name the principal crops grown under demonstration methods by negro demonstrators and cooperators _____
-

SUCCESSFUL UNDERTAKINGS

Each county agent will be expected to report three (3) important pieces of extension work attempted and successfully accomplished by him during the year. Details of your plan, method of procedure, and results, together with any other interesting facts and observations concerning each piece of work, should be included.

This sheet and as many additional sheets as are necessary should be used for this purpose. During the organization of the Tobacco Growers' Co-operative Association sixty-eight meetings were held throughout the county, with the result that sixty per cent of the growers signed the contract. It may be safely predicted that at least eighty per cent of the tobacco growers of Patrick County will have signed the contract before the closing of the membership drive.

of 136 commercial orchards, ranging in size from 1000 to 86,000 trees, 85 called for assistance and pruning demonstrations. Forty demonstrations were held, and as a result of these demonstrations fifty-five more orchards were pruned and sprayed. One demonstration packing and grading house was erected and a number of packing and grading demonstrations given. a forty thousand barrel capacity cold storage building is being erected.

7012 Under direction of the county agent, 700 bushels of soy beans were purchased for seed, which yielded over two tons of hay per acre. There is now grown in Dutch County five times as much soy bean hay as was grown three years ago. Besides the decided improvement of the soil, planted to soy beans, an abundance of hay was produced for all livestock, and in one section enough hay was produced for local consumption for the first time on record.
