1. STATUS OF COUNTY EXTENSION ORGANIZATION.

1. Home Demonstration Work in Montgomery County is supported by the Montgomery County Board of Supervisors, which is composed of four representatives from the four districts in the county, Blacksburg, Christiansburg, Auburn and Alleghany.

2. Adult Extension Work in Montgomery County is supported by the Montgomery County Advisory Board. This board is composed of sixteen members representing the four districts in the county, who plans the Extension program of work in the county, and assists whenever possible in carrying out this program.

As yet no junior organization supporting Extension Work has been organized, since it has not been felt that a junior organization at this time would be entirely successful.

3. It is a policy of the Extension Agents in Montgomery County to cooperate extensively and maintain approved relationships with all county organizations and institutions. The Montgomery County School Board has seen fit to arrange a definite time at all schools in the county, at which time the Home Demonstration Agent may conduct her 4 - H Club work. The teachers are requested by the board to assist in every way possible with club work, and are given one point on their salary schedule for so doing. In conducting Better Foods Clubs, when the assistance of a Public Health Nurse is available, both the Extension Agent and nurse have cooperated in every way. The Granges which were organized in the county for the first time in 1929, have been of great help in carrying out the programs planned by Extension Agents.

11. PERSONAL SUMMARY REPORT.

1. Number of days agent spent in office.....	105 1/2
Number of days agent spent in field.....	166
Number of homes visited.....	349
Number of news articles prepared for press.....	189
Number of office and phone calls.....	394
Number of letters written.....	565
Number method and result demonstration meetings held	386

111. PROGRAM OF WORK.

1. Women's Work.

(A) Advisory Board.

The Advisory Board is composed of sixteen members representing the four districts in Montgomery County: Christiansburg, Blacksburg, Auburn and Alleghany. One Representative from each district was appointed by the Board of Supervisors and other members then appointed by members of the Board. The function of the Advisory Board is to promote Extension Work in Montgomery County, and to assist with planning the county work. Two meetings of the Board were held last year, at which the county plan of work was made and endorsed, and committees appointed for countywide pieces of work. One of the outstanding pieces of work done by the Advisory Board is the interest shown by individual members within the communities wherein they reside, for the promotion of home demonstration work. The Council this year sponsored a County Achievement Day for the Women's Clubs in connection with a County Wash Dress Contest; appointed committees to secure prizes for contest, 4-R Room Improvement Contest, and also scored rooms in this contest. Membership of the Board in the Virginia Homemakers Association was established, and all assistance possible rendered in conducting the Montgomery County Water Works Campaign.

Mrs. Guy Reop and Mrs. O.N. Moonaw were appointed as a committee from the Advisory Board to score the rooms entered in the Room Improvement Contest at the beginning and close of the contest. Instructions were given this committee on scoring rooms and suggestions in room improvement work by State Training Specialist. Each girl's room

Home Management

was visited and scored by the committee, and then suggestions made for improving the room by treatment of walls and floors, remodeling and finishing old furniture, and suggestions for making furniture out of materials on hand. After the work had been completed by the girls, a final scoring of the rooms was made by the committee and prizes awarded.

(B) Project Activities.

- (a) Food Preparation work was conducted in one Home Demonstration Club with the members carrying the unit of "Uses of Green Vegetables and Fruits in the Diet". Four demonstrations were given to complete the work, one on the preparation and ways of cooking cabbage, one on cooking spinach, and two on the uses of fruits in the diet. Each member decided to grow and encourage her family to eat spinach, and seeds were furnished for this purpose. In this community very few families grow spinach, and out of sixteen women present at the demonstration, only three ate spinach. After the demonstration all members present reported that they liked spinach as it was prepared.

Jelly making was stressed and demonstrations given at two home demonstration club meetings by State Good Specialist. A commercial demonstration on bread making was also held at one club.

- (b) The Wash Dress Unit was carried by the four Home Demonstration clubs in the county, and one unorganized group of women, with the view of holding a wash dress contest on County Achievement Day. All clubs were instructed in the selection of materials and patterns suitable for wash dresses, and garments construction. Outstanding garment construction work was exhibited on these dresses at Community Fairs. At the completion of this work a wash dress contest was held in which each woman wore the dress which she had made, in a parade at which time the dresses were judged. The dress which won first prize was made and worn by a girl who sewed very little, and was not in the habit of making clothes. This dress was made of blue print, total cost amounting to 87¢.

Work was done on the gift unit in two clubs, with special work being put on aprons and laundry bags. A very attractive laundry bag pattern was demonstrated to this club, and each member brought required materials to make a laundry bag at next meeting. A total number of twenty-one laundry bags were made in the clubs.

- (k) The Snowville Home Demonstration Club took as their Community piece of work the cleaning of the two cemeteries in the Snowville community. The Club decided on which day they could best clean the cemeteries, and prepared a picnic lunch for the occasion. One cemetery was cleaned in the morning, lunch was served, then the other cemetery was cleaned in the afternoon. This was reported to be the first time that either of these cemeteries have had any attention with-in the history of the community.

Community Fairs were also sponsored by the Riner and Snowville Home Demonstration Clubs, each raising necessary funds in order that the fairs might be conducted. The Riner Club contributed \$5.00 towards the expenses of a very worthy girl in order that she might attend the State Short Course.

- (l) A unit in reed work was started in Shawsville with view of getting women in the community interested in organizing a Home Demonstration Club. Much interest was shown and as a result a Home Demonstration Club with fifteen members was organized. Splendid work was done in this group with all members completing. Reed work was also conducted with a group of unorganized women at Elliston. One woman who is unable to do close work at night has made and sold \$28.00 worth of trays. Other members have also realized small amounts from their work.

No work was conducted with the women in (c), (d), (e), (f), (g), (h), (i), or (j).

- (C) There are four Home Demonstration Clubs in the county, two of which were placed on the standard list last year for the first time. The Riner Home Demonstration Club with an enrollment of 16 held 12 meetings; Shawsville with an enrollment of 15 held 9 meetings; and Childress with an enrollment of 10 held 5 meetings. The Shawsville and Childress Home Demonstration Clubs were organized during the year, and were not able to hold the required number of meetings, but carried a plan of work over the time which they worked. The Riner and Snowville Clubs completed their plan of work 100% for the year. It is hoped that more work with the women can be organized during 1930.

X Indicated Home Demonstration Clubs
* County Seat

- (D) It is hard to estimate the number of Montgomery county women who attended the Virginia Homemakers Association meeting in Blacksburg, since the women in this county have not been in the habit of going in for the meetings and staying for the entire time. Many of the women drive in for the day, or each day that the meeting is in session. However, it is estimated that about fifteen women attended the meeting at different times. Many of the women of this county are interested in dairying and poultry and attend these meetings with their husbands, which are held at the same hour of the Virginia Homemakers Association meetings.

No county camp was held for the women in Montgomery County during 1929.

- (E) A County Achievement Day and Wash Dress Contest was held for the purpose of estimating the work which the Home Demonstration Clubs have done for the past year. At this time the County Wash Dress Contest was held, which was a display of excellent garment construction work, since all of the Home Demonstration Clubs did work in the Wash dress unit. Piece materials suitable for wash dresses were secured by the Advisory Board Committee from local stores as prizes. A good representation from all of the clubs took a part in this contest. Reports on work accomplished were given by the presidents of each of the four clubs. It was found that much has been accomplished by the Home Demonstration Clubs in this county for the past year. This was the first meeting of its kind ever held in this county, and an increase in interest in Home Demonstration Work in the county was most outstanding.

• indicates County Seat.

x indicates 4-H Clubs in County

(2) Girls Work:

(A) A 4-H Club Council has not yet been formed in Montgomery County.

(B) Project Activities.

(a) 4-H Foods work was by far an improvement over that of last year. There were three groups with a total of twenty two members carrying food preparation. In several cases the entire family cooking was done by the club girl. Earlyn Weeks who did much of the family cooking won the blue ribbon on her bread at a community fair over the women of the community. There were four groups with twenty seven doing outstanding foods preservation work. An average of 75 quarts of fruits was canned by each girl with 25 qts. over club requirements. In addition to canning club work done, 48 qts. of fruits were canned by this group and sent to the Crippled Children's Home in Richmond.

There were ten groups with total enrollment of 405 carrying the Nutrition Project in Better Foods Work. A record of foods eaten was kept by each child for a period of three months. This was supervised by the teacher of each room. Splendid score sheets were turned in at the close of work, with marked improvements made in both the appearance and weight of the children. An increase of 362 children completing nutrition work this year over last year. As a result of this work the teachers still require the pupils to keep these records.

(b) Outstanding 4-H Clothing Club work was done the past year in Montgomery County. There were twelve groups with a total of 92 girls carrying clothing work. A Leaders Conference was held prior to Nov. 1st, 1928, in order that leaders might be instructed in clothing work to be conducted this year. Able assistance was rendered by these leaders, with an increase of 34 completing clothing work over last year. A total of 280 garments and articles were made, 272 mended, and 65 cleaned. Total value of garments and articles made valued at \$293.90. Edith Kegley took clothing work with view of making articles for her room which she entered in room improvement contest. She made four articles which added much to her room.

(c) No work done in (c).

(d) A Countywide Room Improvement Contest was conducted with nine girls entering the contest. In each case the girl improved her bed room. Storage space was stressed, and provided for by each contestant. Local prizes were offered by the Furniture Stores and secured by Advisory Committee; the first prize being a \$15.00 cedar chest.

Total amount of prizes offered to \$32.50, with total cost of improvements amounting to \$53.50.

Excellent work was done by all who entered the contest. In one case a fourteen year old girl, Hazel Kirkwood improved her bedroom in her home which is almost unliveable. No repair work had been done on the home for 60 years. This girl took a room which had not been used for years, the walls and floors being in a very bad condition. She removed black paint from an old appraisal bed, made a dressing table out of a sewing machine, put bottoms in her chairs with innertubes, painted wood work, floors, and walls. Total cost of her improvement amounted to \$14.55. This girl, however, won the \$15.00 prize. As a result of this the mother has improved the living room, and now plans to do the entire house over.

No work was done in (e), (g), (h), (i), (j), (k), or (l).

- (f) There were four groups taking garden club work with total enrollment of 60. A garden club contest was put on in the city of Radford with Radford Health Nurse cooperating. \$15.00 was offered for prizes in the contest by the three banks of Radford. The entire family gardening was done in many cases by the 4-H Garden Club members. Vegetables raised amounted to \$297.58, with value of prizes offered amounting to \$33.00. The State Garden Club Championship Prize for 1929 was won by Fenton Heywood, a 14 year old boy. This boy furnished the family with vegetables for the entire summer.

No work was done in (c) with the girls.

- (C) There were seven organized 4-H Community Clubs with an enrollment of 63. Club picnics were enjoyed by these clubs. Assistance was rendered by members helping with Community Fairs. Funds were raised to send representatives to State Short Course.
- (D) No Rally Day, Club Exhibit, or County Club meeting was held.
- (E) Twelve 4-H Club girls attended the State Short Course this year, with one club leader. A demonstration on the "Youngest Member of Textile Family" was given by members of the Shawsville Club. An increase of nine girls attending the short course this year over last.
- IV Three Community Fairs were held in Montgomery County during 1929. The Riner Community Fair was put on and sponsored by the Riner Home Demonstration Club, which raised \$57.00 to defray expenses. The fair was much larger this year than before, and much more interest was displayed, but improvement is still necessary in handling the exhibits. With increasing interest it will be necessary to provide

more space for handling exhibits for another year. The greater part of the work done at the fair this year was done by the Riner Home Demonstration Club. Work was exhibited by both the women and girls which had been done in the club.

The Blacksburg Community Day was put on by the Blacksburg Federated Council which is working for the purpose of getting better cooperation between the town of Blacksburg and Blacksburg District. In this case also it will be necessary to provide more space for exhibits with increased interest. The 4-H Clubs put on a club exhibit displaying the type of club work which has been done in Blacksburg District.

The Snowville Community Fair was put on by the Snowville Home Demonstration Club for the first time in the Community of Snowville. It was thought by all that a Community Fair in this community would not be a success, since there has never been one held there before. Twenty dollars was raised to defray expenses by the club, and all of the work and responsibility was taken care of by the club. This Fair was considered one of the best Community Fairs ever judged by judges who were present. More space will be required in handling the exhibits next year, since much interest will be taken in the event. The Canning Exhibit was a most outstanding exhibit for a Community Fair.

Advisory Board federated with Virginia Homemakers Association.	Advisory Board federated with Virginia Homemakers Association.
Follow up work done on Water Works Campaign	Follow up work done on Water Works Campaign
Increase publicity.	Publicity increased. 187 publicity articles sent in for year.

VI Since a full time agent has been employed in Montgomery County a more accurate account of work done can be secured. It is felt that the time spent on publicity, and making visits into the homes of the people in the county, has helped more than anything else in promoting extension work in the county. An increase in club completions, and a higher type of work had been established through thorough club work.

Work with the women has been carried on, in five communities, two of which have had Home Demonstration Clubs organized during the year. Work in clothing, cooking, gift units and basketry work have been carried with the women. More and better work has been accomplished in the women's clubs, and an outstanding increase in interest on the part of the women is readily seen. The clubs have carried heavy plans of work, finishing them 100%.

Club members were enrolled in Better Foods, Clothing, Canning, Cooking, Bread, Garden and Room Improvement. It is felt that a higher type of 4-H Club work has been accomplished this year than ever before. A much higher per cent of completions were turned into the Club Department, with high honors won in some cases.

VII It is hoped that for the year of 1930 a more active Advisory Council will be had in Montgomery County, and that through this Advisory Board assistance may be rendered in promoting Extension work, increasing work with the women, and doing more and better work with the boys and girls of the county.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. The report to the Washington office should be sent through the State extension office.

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with simple data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—change and development.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.
 - (a) Soils
 - (b) Farm crops
 - (c) Horticulture
 { Home gardens
 { Beautification of home grounds
 - (d) Forestry
 - (e) Rodents, predatory animals, and birds.
 - (f) Animal husbandry
 - (g) Dairy husbandry
 { Home dairy
 { Poultry husbandry
 { Home poultry

(including diseases and insects).

(including diseases and insects).

IV. Program of work, etc.—Continued.

(2) Project activities and results—Continued.

- (6) Agricultural engineering.
- (7) Agricultural engineering—home.
- (8) Agricultural economics, including farm management and marketing.
- (9) Home marketing.
- (10) Foods.
- (11) Nutrition.
- (12) Clothing.
- (13) Home management.
- (14) Home furnishings.
- (15) Home health and sanitation.
- (16) Community activities.
- (17) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PRIORITY is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER or LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
7. A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonym: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and culling of poultry.
8. A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl, under the direct supervision of the extension worker, to point out locally the value of a recommended practice. Such a demonstration involves a substantial period of time, records of results, and comparison, and is designed to teach others in addition to the person conducting the demonstration. It should not be confused with the adoption of a farm or home practice resulting from a demonstration or other teaching activity, but which is not employed by the extension worker as a means of teaching. Examples: Demonstrating that the application of fertilizer on cotton will result in more profitable yields; that under-planting of certain children can be corrected through proper diet; or that the use of certified seed in growing potatoes is a good investment.
9. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
10. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
11. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
12. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
13. AN OFFICE CALL or TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
14. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
15. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
16. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
17. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
18. LETTERS WRITTEN should include all single letters on official business.

DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.

17. A **FARMERS' INSTITUTE** is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN **EXTENSION OR MOVABLE SCHOOL** is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. AN **EXTENSION SHORT COURSE** differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **RECORDS** consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARM OR HOME PRACTICE ADOPTED** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

GENERAL ACTIVITIES.

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report.

reports
 Edith M. Vaughan (Name) County Home Econ Agent Dec 1st to Nov 30 (Time) (Months of service this year.)

11. County association, if any, forwarding extension work. 11

(a) Name Advisory Board (1914-1915)

(b) Number of members 16

2. Number of communities in county where extension work should be conducted. 59

3. Number of above communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 21

4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program with— 4

(a) Juniors 14
