

## Appendix B Cyclic Connection Test Data

### B.1 – Cyclic Connection Test Data

The following data corresponds to all cyclic connection tests performed during this study. Each test was analyzed for strength and stiffness properties per Chapter 3, Section 3.5.7. See Figure B.1. Test identification can be cross-referenced to Table 3.1 based on Figure B.1.

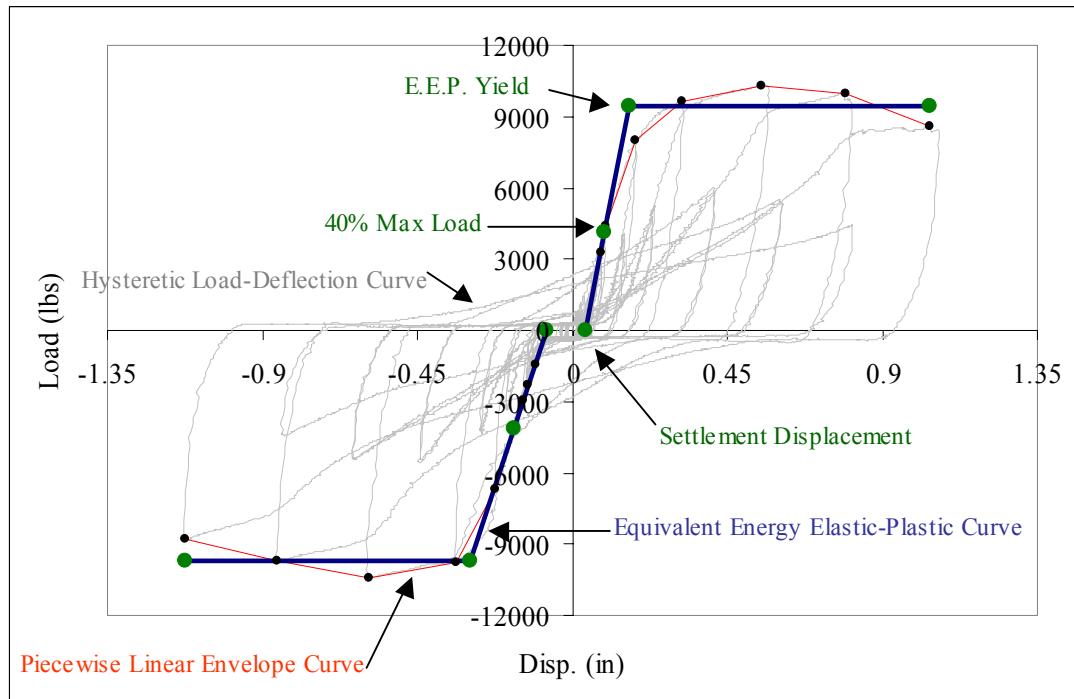

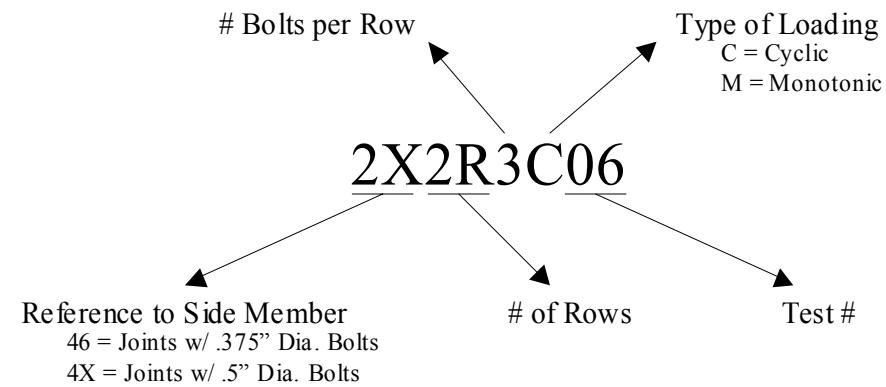

Figure B.1: Typical test identification and connection property definitions.

## **Vita**

(December, 2001)

Guy T. Anderson was born on April 11, 1977 in Fontana, California. After completing High School in Paso Robles, California he went on to obtain an Associate of Science degree in 1997 from Cuesta Community College in San Luis Obispo. In June of 2000, Guy graduated Cum Laude from California Polytechnic State University San Luis Obispo with a Bachelor of Science degree in Civil Engineering. He came to Virginia Polytechnic Institute and State University, Blacksburg, VA, in August of 2000 to pursue graduate studies in Structural Engineering.
