(e). POULTRY.

(f). ORCHARD WORK.

(g). MISCELLANEOUS.

1. RAT CAMPAIGN.

2. EGG MARKETING ASSOCIATION.

3. SHORT COURSE.

III. OUTLOOK.

IV. SUMMARY.

STATUS OF COUNTY ORGANIZATION.

1. The extension organization of Bedford County is composed of a County Agricultural Agent and a County Home Demonstration Agent whose ~~work~~ is supported in a general way by certain organizations including the Farm Union and the Tobacco Growers Cooperative Marketing Association, and by a number of Fruit Growers, Livestock Men, and Poultrymen.
2. Members of the above organizations cooperate with the agents in the way of getting meetings for the purpose of putting before the people projects undertaken, and assist in the carrying out of these projects.
3. The County Agent endeavors to assist individuals and organizations in matters of production and in marketing their products in every way possible, and to interest farm boys and girls in some phase of production and to enroll them in clubs for this purpose. He also assists in holding local meetings of the above organizations, in trying to have good attendance and in working out programs for same.

II. PROGRAM OF WORK.

1. The County Agent being entirely unfamiliar with existing conditions, it seemed impractical to attempt a definite program of work the first year. However, after considering the projects which would likely affect the most people, the following were decided upon:-

A. PROJECT ACTIVITIES AND RESULTS.

(a). BOYS CLUB WORK.

Twenty five boys, representing eight communities, were enrolled in pig, corn, soy bean, and tobacco clubs. Twenty three of these completed the years work. The combined total value of the products raised by boys doing club work was \$175.40, produced at a total cost of \$575.87. The total value of prizes won was \$157.00.

(b). SOILS.

Thirty two result demonstrations with the use of fertilizer and lime were started, of which twenty four were completed during the year. Seventy six acres were involved in these completed demonstrations. The demonstrators seem well pleased with results obtained and a number of them will continue to follow practices recommended. The County Agent was instrumental in securing and having used several car loads of lime on which no records were kept.

(c). CROPS.

1. CEREALS.

(c). CROPS.

1. CEREALS.

Seventeen result demonstrations were started with corn, wheat, and rye, of which thirteen on corn were completed during the year, making a yield of about eighteen bushels more per acre than the average for the county. Two farmers have completed bar to row tests, and three will have certified seed for sale next year. The demonstrations on wheat and rye will not be complete until next year.

2. LEGUMES.

Thirteen result demonstrations were started with leguminous crops, five of which, on beans and peas, were completed. The soy bean demonstrators planted the beans in rows and cultivated them, harvesting the beans for seed. The average in seed saved was about sixteen bushels per acre. Two farmers joined in buying a combined harvester and thresher which saves the seed with much less expense and waste than by harvesting with mowing machine or binder.

3. TOBACCO.

Nine result demonstrations were started with tobacco, all of which were completed. These farmers used special care in the preparation of their seed beds, using high analysis fertilizers in larger amounts than is the general custom on most farms. One farmer who used 800 lbs. of fertilizer per acre, and cultivated six times, stated that he was convinced that his yield had been greatly increased and that he expects to continue the treatment in the future. All of these demonstrators are well pleased with results obtained.

(d). LIVESTOCK.

The County Agent has spent considerable time in trying to bring about a more general use of purebred sires in the County, and has assisted in securing same for five farms. Balanced rations have been worked out for use on two dairy farms and a number of others assisted in better feeding practices. Forty cattle have been vaccinated for blackleg by the agent and a number of farmers advised and assisted in securing vaccine. Mineral mixtures have been advised for use for hogs on seven farms.

(e). POULTRY.

Nine poultry culling demonstrations have been held by the Agent in different sections of the County. Five poultry raisers have been assisted in remodeling old poultry houses, and two in building new ones.

Forty men and women have been instructed as to balanced rations for winter feeding, and assistance has been given as to making poultry houses more sanitary by eliminating draughts, letting in fresh air, and thorough disinfection.

(f). ORCHARD WORK.

A list of the Fruit Growers in the County has been made up and spray service cards mailed out for eight sprays, stating what spray materials should be used and the date they should be applied. This service was rendered to 179 growers, most of whom sprayed several times, the commercial orchardists, in many cases, applying all the sprays recommended. Seven farmers are growing misc crops in their orchards as suggested by the Agent. Specialists from the state office were taken to four orchards where bitter rot and other diseases were prevalent and treatment recommended.

(g). MISCELLANEOUS.

1. RAT CAMPAIGN.

A Rat Killing Campaign was put on in the County in March as there was no Agent here in January at the time of the state-wide campaign. For this undertaking four hundred pounds of poisoned bait was obtained and distributed throughout the different communities. The Parks, Town Council, and Board of Supervisors gave the necessary funds for the purchase of this poison and the bags to put it up in. Merchants, Post Masters, and others assisted in having the poison sacked and distributed, and in directing it's use. Approximately 1000 rat tails were turned in by the school children, prizes being offered by several business firms to those turning in the largest numbers. It was estimated that 5000 rats were killed during this campaign.

2. EGG MARKETING ASSOCIATION.

Seven meetings were held in different sections of the County in October for the purpose of putting before the People the proposed Egg Marketing Association, now being organized in the state as the Virginia Poultry Producers Cooperative Association. A representative from the State Division of Markets was present at these meetings, explaining the object of the association and the contract. A few contracts were signed at these meetings, and others from time to time, but, owing to the rush of other work, no systematic canvass to push this organization has been made, up to this time. However, this will be done at an early date.

### 3. SHORT COURSE.

A two days Farmers Short Course was held in Bedford in March by representatives of The International Harvester Company, and under the auspices of The Bedford Board of Trade and the Extension Agents. Much of the preliminary work for this Short Course was done by the former County Agent who was still here at that time. During these two days addresses were delivered on subjects of general <sup>interest</sup> to farmers, including fruit growing and general orchard work.

Owing to bad weather and roads almost impassable, the attendance at these meetings was not large. Those who did attend were well rewarded for their trouble in doing so, and the Course was considered a decided success. There were six lectures in all with a total attendance of 900.

### III. OUTLOOK.

The success being met with by The Tobacco Growers Cooperative Association, and other farmers organisations, should teach the country people, to some degree, what may be accomplished by cooperation. If each Tobacco and Farm Union Local in the County could be made to see the benefits to be derived through cooperation along all lines for the general betterment of interests, much could be accomplished.

The extreme scarcity of labor in this section indicates, more than ever, the importance of trying to make larger yields per acre by the judicious use of lime, fertilizer, and manures. Also, of trying to keep the boys on the farms. Club work should help in this respect.

#### SUGGESTIVE PROGRAM FOR 1934.

##### Club Work.

##### Soils.

Lime and High Analysis Fertiliser.

More general use of Cover Crops to prevent Erosion.

Building up Old Pastures.

##### Horticulture.

Pruning, Spraying.

Marketing Fruit (especially for small growers).

##### Livestock.

More Sheep.

Better Bires.

Better Feeding.

##### Poultry.

Culling.

Better Housing and Feeding.

Marketing Products.

##### Crops.

Better Seed.

IV. SUMMARY.

Owing to many of the country schools having short terms, 1922-23, (from five to six months) a number of them closing in March, and to the fact that no boys club work has been done in the county for a number of years, the agent had some difficulty in getting this work started. Most of the boys were enrolled by making personal visits to their homes, which necessitated much time and travel.

Much work had been done in the county by the former Agent in increasing the use of lime, also of cow peas and soy beans. This has brought about a wonderful improvement throughout the county, and has materially helped the problem of roughness for stock feeding. It is said that more of these crops have been raised this year than ever before. The effort made to increase the use of High Analysis fertilizers seems to have brought about results that should warrant a more general use of them in the future.

Wheat growing in this section is a doubtful source of income, and should probably not be encouraged beyond the needs for home consumption. Some of the demonstrations on this crop will include cost of production.

While tobacco is the chief money crop of the county, and, as such, fills an important place, there is a tendency to neglect the food and feed crops in its favor. Hence any progress made towards larger yields per acre and a smaller acreage of this crop would seem to be a step forward.

The livestock industry of the county is much affected by the depressed and demoralized condition of the market on butcher and feeder cattle and hogs. This would indicate a good time to buy breeding animals, but it is hard to make the farmers see it.

Poultry raisers seem to be more interested in culling out the slackers and in better feeding and housing than heretofore, and the work done along this line during the past year should bring good results.

Spray service has been rendered to more fruit growers in 1923 than previously, and many of these growers have applied more sprays than has been their custom.

### COOPERATIVE EXTENSION WORK IN AGRICULTURE AND HOME ECONOMICS

Office of Cooperative Extension Work,  
Washington, D. C.

## ANNUAL REPORT OF COUNTY EXTENSION WORKERS SPECIAL EDITION

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, negro agent, etc., reporting on their respective lines of work.

State Virginia County Bedford  
Report of E. C. Jester County Agricultural Agent.  
(Name) (Title)  
From March 1st 1923 to Nov. 30th, 1923.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

Extension Director.

## SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results secured (including assistance rendered by subject-matter specialists). The making of such a report is of great value to the county extension agent and the county people in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support. This blank form covers simply the statistical phases of the report, and should be supplemented by a full report in narrative form.

### NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results secured under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

#### SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
  - (1) Form of organization—distinctive features.
  - (2) Function of local people, committees, or project leaders in developing the program of work.
  - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed and results achieved.
  - (1) Factors considered and methods used in determining program of work.
  - (2) Project activities and results.
    - (a) Soils
    - (b) Farm crops
    - (c) Horticulture } (including diseases and insects).
    - (d) Forestry
    - (e) Animal husbandry
    - (f) Dairy husbandry } (including diseases and pests).
    - (g) Poultry husbandry
    - (h) Rural engineering
    - (i) Rodents, predatory animals, and birds.
    - (j) Agricultural economics—including farm management marketing, etc.
    - (k) Foods and nutrition.
    - (l) Clothing and millinery.
    - (m) Home health and sanitation.
    - (n) Household management and home furnishings.
    - (o) Community activities—other than those included under subject-matter headings.
    - (p) Miscellaneous.
- V. Outlook and recommendations, including suggestive program of work for next year.
- VI. Summary of activities and accomplishments in paragraph form, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

## STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if it is desired. The statistical summary will grow naturally out of the field and office records.

## DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations may be of methods or of results.  
Under method demonstrations include lecture demonstrations, practicums, etc., such as demonstrations of sowing methods, home-mixing fertilizers, poultry culling, drug-form making, and the like, all involving short periods of time.  
Under result demonstrations include demonstrations in which a substantial period of time is involved, records of results kept, and comparisons made, as in a child-feeding demonstration, corn-culture demonstration, pasture-improvement demonstration, and the like.
5. A DEMONSTRATOR is an adult or junior who, under the direction of the extension service, undertakes to show in his community by example the practical application of an established fact, and who keeps records and reports on the same.
6. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
7. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions in advancing some phase of the local program of extension work.
8. A COMMUNITY CLUB is an organization of men, women, boys, and girls to further community interests and to promote community recreation.
9. AN OFFICE CALL is a visit or a telephone call by a farmer, or other person, seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
10. A DEMONSTRATION MEETING is a meeting held to give, inspect, or further a demonstration.
11. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the extension agent in office in connection with extension work.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.
17. A FARMERS' INSTITUTE is one of a series of meetings of one to two days' duration, arranged by a central State farmers' Institute agency, at which agricultural and home economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN EXTENSION OR MOVABLE SCHOOL is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. A SHORT COURSE differs from an extension school in that it is held at the college or other educational institution and usually for a longer period of time.
19. RECORDS consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.

## GENERAL ACTIVITIES.

Report only results of extension activities that are supported by records.

1. List below the names, titles, and periods of service of all county extension agents whose work is included in this report.

E. C. Jumper (Name.) County Agent (Title.) 9 mos. (Period of service.) 9

2. Total number of communities in county where extension work should be conducted (a) Men 12 (b) Women \_\_\_\_\_
3. Number of communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 5
4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program (a) Adult work Men 6 Women 10 (b) Junior work Boys \_\_\_\_\_ Girls \_\_\_\_\_
5. What is the name of the county organization cooperating in extension work? Farm Union, Jones Ave.

	Men.	Boys.	Women.	Girls.	Boys and girls.	Community.
6. Number of clubs carrying on extension work		<u>4</u>				
7. Membership		<u>20</u>				

8. Total number of farm visits made in conducting extension work 615
9. Number of different farms visited 220
10. Total number of home visits made in conducting extension work \_\_\_\_\_
11. Number of different homes visited \_\_\_\_\_
12. Number of office calls\* relating to extension work 573
13. Number of days agent spent in office 66 68 1/2
14. Number of days spent in field 165 1/2
15. Number of individual letters written 428
16. Number of different circular letters prepared and sent out 21
17. Total number of copies of such circular letters 1605
18. Number of extension articles written by agent and published in local papers 30
19. Number of community buildings established 0
20. Number of rest rooms provided for use of rural people 0
21. Number of fairs at which extension exhibits were made: Community \_\_\_\_\_ County 1

	Men.	Boys.	Women.	Girls.	Boys and girls.	Community.
22. Training meetings* held for local leaders (a) Number <u>1</u> (b) Attendance <u>6</u>			<u>2</u>			
23. Demonstration meetings held (a) Number <u>9</u> (b) Attendance <u>48</u>			<u>15</u>			
24. Farmers' institutes* held (a) Number _____ (b) Attendance _____						
25. Extension schools* and short courses held (a) Number _____ (b) Attendance <u>900</u>						<u>1</u>

\*The definition on page 2.

26. Junior club encampments and rallies held \_\_\_\_\_
- |                                |   |       |       |    |

3-402

FARM DEMONSTRATION WORK.  
SOILS.

Report only results of extension activities that are supported by records.

28. Number of result demonstrations started or under way	32	28
29. Number of such demonstrations completed or carried through the year	24	29
30. Number of acres involved in those completed demonstrations	76	30
31. Total* number of farms influenced by extension work to change practices relative to soil management (include demonstrators)	45	31
32. Acres involved in preceding question	175	32
33. Number of farms following advice in the use of commercial fertilizers	33	33
34. Acres involved in preceding question	85	34
35. Number of farms home-mixing fertilizers according to advice	2	35
36. Tons of fertilizer so mixed	10	36
37. Number of farms taking better care of farm manures	9	37
38. Number of farms using lime or limestone according to advice	8	38
39. Tons of lime or limestone so used	60	39
40. Number of farms plowing under cover or other green manure crops for soil improvement according to advice	19	40
41. Acres of cover and green manure crops so plowed under	29	41

[Use space below to include other important data relating to soils.]

A number of farmers in the County have used more fertilizer for acres on tobacco than has been their custom in the past, and are much pleased with results. Owing to scarcity of help it is hard to persuade anyone to mix his fertilizer at home. The County Agent has advised the use of, and assisted in getting much more lime than indicated in above record, several hundred tons having been used which are not indicated in records.

\* This question includes the farms listed under questions 40, 41, 42, 43, and 44, but does not necessarily equal the total of those questions since not all of practices that might be included in question 41 excluded and some operators might adopt two or more new practices. This is also true of similar questions throughout this report.

## CEREALS.

Report only results of extension activities that are supported by records.

Item.	(0)	(1)	(2)	(3)	(4)	(5)	(7)
	Corn.	Wheat.	Oats.	Rye.	Buckw.	Other.*

72. Increased yield* per acre on demonstrations due to better practices		5 Bns.				1 1/2 Bns.	72
73. Number of boys' and girls' clubs							73
74. Number of members enrolled	(a) Boys	1					74
	(b) Girls						
75. Number of members completing	(a) Boys	1					75
	(b) Girls						
76. Number of acres grown by club members completing		1					76
77. Total yield* of crops grown by club members		15					77
78. Total value of crops grown by club members	\$	52 <sup>3/4</sup>	\$	\$	\$	\$	78
79. Total cost of crops grown by club members	\$	18 <sup>3/4</sup>	\$	\$	\$	\$	79
80. Total number of farms influenced by adult or junior extension work to adopt better practices relative to these crops (include demonstrators)	10	50		2	10	10	80
81. Acres involved in question 80.	25	260		12	50	50	81
82. Number of farms planting selected or improved seed	4	10			10	8	82
83. Number of farms growing selected or improved seed for sale		2					83
84. Number of farms inoculating for these crops	10	50		1			84
[Use space below to include other important data relating to legumes and forage crops.]							
A large number of farmers were assisted in securing government inoculation for various legumes, the results of which are not given above.							

\* Indicate whether yield in bushels of seed or tons of cured forage.

[See footnote on page 7.]

8-5075

## LEGUMES AND FORAGE CROPS—Continued.

Report only results of extension activities that are supported by records.

Item.	(1) Value beans.	(2) Beans.	(3) Peas etc.	(4) Lupulins.	(5) Fava beans.	(6) Other.*	
69. Number of adult result demonstrations started or under way.	/		/			/	69
70. Number of such adult demonstrations completed or carried through the year.							70
71. Acres involved in those completed demonstrations.							71
72. Increased yield † per acre on demonstrations due to better practices.							72
73. Number of boys' and girls' clubs.							73
74. Number of members enrolled							74
75. Number of members completing.							75
76. Number of acres grown by club members completing.							76
77. Total yield † of crops grown by club members.							77
78. Total value of crops grown by club members.	\$	\$	\$	\$	\$	\$	78
79. Total cost of crops grown by club members.	\$	\$	\$	\$	\$	\$	79
80. Total ‡ number of farms influenced by adult or junior extension work to adopt better practices relative to these crops (include demonstrators).							80
81. Acres involved in question 80.							81
82. Number of farms planting selected or improved seed.							82
83. Number of farms growing selected or improved seed for sale.							83
84. Number of farmers inoculating for these crops.							84
[Use space below to include other important data relating to legumes and forage crops.]							

\* Indicate crop by name.

† Indicate whether yield is bushels of seed or tons of cured forage.

‡ See footnote on page 7.

A-4072

## POTATOES, COTTON, TOBACCO, AND OTHER SPECIAL CROPS.

Report only results of extension activities that are supported by funds.

Item.	(c)		(d)	(e)	(f)
	Irish potatoes.	Sweet potatoes.	Cotton.	Tobacco.	Other.*
85. Number of adult result demonstrations started or under way.				9	85
86. Number of such adult demonstrations completed or carried through the year.				9	86
87. Acres involved in those completed demonstrations.				25	87
88. Increased yield† per acre on demonstrations due to better practices.	bu.	bu.	bu.	300 lbs.	88
89. Number of boys' and girls' clubs.					89
90. Number of members enrolled.	[(a) Boys			15	90
	[(b) Girls				
91. Number of members completing work.	[(a) Boys			15	91
	[(b) Girls				
92. Number of acres grown by club members completing.				8	92
93. Total yield of crops grown by club members.	bu.	bu.	bu.	610 lbs.	93
94. Total value of crops grown by club members.	\$	\$	\$	113.02	94
95. Total cost of crops grown by club members.	\$	\$	\$	237.00	95
96. Total number of farms influenced by adult or junior extension work to adopt better practices relative to the growing of these crops (include demonstrators).				45	96
97. Acres of those crops involved in question 96.				16.0	97
98. Number of farms planting improved or certified seed.					98
99. Number of farms growing improved or certified seed for sale.					99
100. Number of farms treating seed for disease.				33	100
101. Number of farms spraying or dusting for diseases and insects.				15	101
102. Number of storage houses constructed this year.					102
103. Total capacity of these storage houses.					103
104. Number of crop improvement associations organized during past year at suggestion of extension service.					104
105. Membership in above associations.					105
[Use space below to include other important data relating to potatoes, cotton, tobacco, and other special crops.]					
Thirteen tobacco plant beds were inspected for wild fire & other diseases by the Extension Plant Pathologist & County Agent.					

\*Indicate crop by name.

†Report yield of cotton in pounds of seed cotton.

‡See footnote on page 7. 8-4733

## HORTICULTURE.

Report only results of extension activities that are supported by records.

Item.	(4) Tree fruits.	(5) Bush and small fruits.	(6) Grapes.	(7) Market gardening, truck, and raising crops.	(8) Vegetable gardens.	(9) Flower, shrub, and house grounds.
106. Number of adult result demonstrations started or under way						
107. Number of such adult demonstrations completed or carried through the year						
108. Acres involved in these completed demonstrations	/					
109. Increased yield per acre on demonstrations due to better practices	bu.	qts.	lbs.	bu.	bu.	
110. Number of boys' and girls' clubs						
111. Number members enrolled	(a) Boys	(b) Girls				
112. Number of members completing	(a) Boys	(b) Girls				
113. Number of acres grown by club members completing						
114. Total yield of crops grown by club members	bu.	qts.	lbs.	bu.	bu.	
115. Total value of crops grown by club members	\$	\$	\$	\$	\$	
116. Total cost of crops grown by club members	\$	\$	\$	\$	\$	
117. Total* number of farms or homes influenced by adult or junior extension work to change practices relative to these crops (include demonstrations)	125					
118. Acres involved in question 117				/		
119. Number of farms planting selected or improved stock or seed						
120. Number of farms pruning						
121. Number of farms thinning						
122. Number of farms spraying or otherwise treating for diseases and insect pests	125					
123. Number of farms following other improved cultural practices	7					
[Use space below to include other important data relating to horticulture.]						

[Use space below to include other important data relating to horticulture.]

The County Agent started work in the county too late for any pruning work last spring. A list of Fruit Growers<sup>(177)</sup> was secured and spray service cards mailed out indicating sprays to use and time of application throughout the fruit season. Mulch crops were sown in some orchards.

#### FORESTRY.

Report only the results of extension activities that are supported by records.

124. Number of adult demonstrations started or under way	_____	0	124
125. Number of adult demonstrations completed or carried through the year	_____		125
126. Number of acres included in those completed demonstrations	_____		126
127. Number of boys' and girls' clubs	_____		127
128. Number of members enrolled	{ (a) Boys _____ (b) Girls _____		128
129. Number of members completing	{ (a) Boys _____ (b) Girls _____		129
130. Number of acres handled by club members	_____		130
131. Total* number of farms influenced by adult or junior extension work to adopt better practices relative to forestry (include demonstrators)	_____		131
132. Acres involved in question 131	_____		132
133. Number of forest or wood-lot plantings made	_____		133
134. Acres involved in question 133	_____		134
135. Number of farms assisted in wood-lot management	_____		135
136. Acres involved in question 135	_____		136
137. Number of farms planting wind-breaks	_____		137

[Use space below to include other important data relating to forestry.]

## LIVE STOCK.

Report only results of extension activities that are supported by records.

Item.	(A) Horse and mules.	(B) Dairy cattle.	(C) Beef cattle.	(D) Sheep.	(E) Swine.	(F) Poultry.
138. Number of adult result demonstrations started or under way.						138
139. Number of such adult demonstrations completed or carried through the year.						139
140. Number of animals involved in these completed demonstrations.						140
141. Total profit or saving on demonstrations resulting from better practices.						141
142. Number of boys' and girls' clubs.					1	142
143. Number of members enrolled					6	143
(a) Boys.						
(b) Girls.						
144. Number of members completing					5	144
(a) Boys.						
(b) Girls.						
145. Number of animals involved in club work completed.					5	145
146. Total value of animals raised by club members.	\$ 1	\$	\$	\$	\$ 122	146
147. Total value of products produced by club members.	\$	\$	\$	\$	\$ 123	147
148. Total cost of such animals and products.	\$	\$	\$	\$	\$ 90	148
149. Total* number of farms influenced by adult or junior extension work to adopt better practices, relative to live-stock production (include demonstrators).		3	5		8	40
150. Number of animals involved in question 149.		60	40		27	600
151. Number of farms assisted in securing pure-bred sires.		3	5			
152. Number of pure-bred sires secured.		1	5			
153. Number of farms assisted in securing pure-bred females.					1	
154. Number of pure-bred females secured.					1	
155. Number of farms securing pure-bred animals for the first time.		3	1	1	1	9
156. Number of farms culling flocks or herds.						
157. Number of stallion, bull, ram, or boar circles, clubs, or associations organized during the year.						
158. Number of members in preceding circles, clubs, etc.						

\* See footnote on page 7.

8-5778

## LIVE STOCK—Continued.

Report only results of extension activities that are supported by records.

Item.	(4) Horses and mules.	(5) Dairy cattle.	(6) Beef cattle.	(7) Sheep.	(8) Swine.	(9) Poultry.
159. Number of breed associations or clubs organized during the year.						159
160. Number of members in these associations or clubs.						160
161. Number of cow-testing associations organized or recognized during the year.						161
162. Number of members in these associations.						162
163. Number of farms not in associations testing cows for production.						163
164. Number of cows under test by such associations and individual farms.						164
165. Number of homes visited in the making of butter and cheese.						165
166. Number of farmers feeding better balanced rations.		2	2		4	40
167. Number of farmers controlling insect pests.						
168. Number of farmers testing animals for tuberculosis.		2	1			
169. Number of animals tested.		60	2			
170. Number of herds accredited this year for the first time.						
171. Number of farmers vaccinating animals for blackleg.			4			
172. Number of animals vaccinated.			40			
173. Number of farmers vaccinating animals for cholera.						
174. Number of animals vaccinated.						
175. Number of farmers controlling other live-stock diseases.						15
176. Number of animals involved in question 175.						600
[Use space below to include other important data relating to live stock.]						

## RURAL ENGINEERING.

Report only results of extension activities that are supported by record.

177. Number of result demonstrations started or under way	177		
178. Number of such demonstrations completed or carried through the year	178		
179. Acres or other units involved in these completed demonstrations	179		
180. Total profit or saving on demonstrations resulting from better practices	180		
181. Number of farms installing drainage systems	181		
182. Acres drained	182		
183. Number of farms installing irrigation systems	183		
184. Acres irrigated	184		
185. Number of farms constructing terraces or soil dams	185		
186. Acres on which soil erosion was so prevented	186		
187. Number of dwellings constructed according to plans furnished	187		
188. Number of dwellings remodeled according to plans furnished	188		
189. Number of sewage disposal systems installed	189		
190. Number of water systems installed	190		
191. Number of heating systems installed	191		
192. Number of lighting systems installed	192		
193. Number of farms on which buildings other than dwellings were constructed or remodeled according to plans furnished	193		
194. Number of buildings involved in preceding question	(a) Barns	194	
	(b) Hog houses		
	(c) Poultry houses		7
	(d) Silos		2
	(e) Other		
195. Number of farms assisted in the care and operation of machinery (tractors, power sprayers, milking machines, etc.)	195		
196. Number of farms clearing land	196		
197. Acres of land so cleared	197		

[Use space below to include other important data relating to rural engineering.]

*Estimates have been made by the Extension Engineering Dept. for 3 water systems which have not yet been installed.*

## RODENTS AND MISCELLANEOUS\* INSECT AND ANIMAL PESTS.

Report only results of extension activities that are supported by records.

Item.	Rodents.	Other animal pests.	Crustaceans.	Other insects.
198. Number of rural demonstrations started or under way	1			198
199. Number of such demonstrations completed or carried through the year	1			199
200. Number of acres in these completed demonstrations				200
201. Total saving or profit on demonstrations resulting from better practices	\$ 1000	\$	\$	\$ 201
202. Total number of farms adopting control measures	1000			202
203. Number of acres involved				203
204. Number of pounds of poison bait used	400			204
[Use space below to include other important data relating to rodents and miscellaneous insect and animal pests.]				
<i>A meeting was held and plans made for the control of the Porcupine Corn Stalk Borer in a section where considerable damage has been done by this pest during the past season.</i>				

## AGRICULTURAL ECONOMICS.

Report only results of extension activities that are supported by records.

## FARM MANAGEMENT.

205. Number of farm account books distributed		205
206. Number of farmers keeping records in such account books throughout the year		206
207. Number of farmers assisted in summarizing and interpreting their accounts		207
208. Number of farmers making changes in their business as result of keeping accounts		208
209. Number of other farmers adopting cropping, live-stock, or complete farming systems according to recommendations		209
210. Number of boys' and girls' farm account clubs		210
211. Number of members enrolled	(a) Boys (b) Girls	211
212. Number of members completing	(a) Boys (b) Girls	212
213. Number of farmers advised relative to loans		213
214. Number of farm management and farm account schools held		214
215. Number of farmers assisted in keeping cost of production records		215
LABOR.		
216. Number of farmers making better use of labor		216
217. Number of farmers securing traction, sprayers, milking machines, or other machinery to economize labor		217

\* Do not include work reported under "Crop" and "Live Stock" headings.

† Indicate by name.

9-4070

## AGRICULTURAL ECONOMICS—Continued.

Report only results of extension activities that are supported by records.

## CREDIT.

218. Number of farm loan or other credit associations organized with assistance of extension service \_\_\_\_\_ 218
219. Membership in above associations \_\_\_\_\_ 219
220. Number of other farmers assisted in securing credit \_\_\_\_\_ 220

## MARKETING.

221. List below the cooperative marketing associations organized during the year upon suggestion or with counsel of the extension service. \_\_\_\_\_ 221

Name of association.	Number of members.	Supplies and products handled.	Supplies purchased.		Products sold.	
			Value.	Saving.	Value.	Profit.
			\$ _____	\$ _____	\$ _____	\$ _____
TOTAL						

222. Number of other cooperative marketing associations in the county with which the extension service counseled or advised \_\_\_\_\_ 2 222
223. Number of members in such associations \_\_\_\_\_ 1200 223
224. Total purchases of supplies by associations included in question 222 (a) Value \_\_\_\_\_ \$ \_\_\_\_\_ 224  
(b) Saving \_\_\_\_\_ \$ \_\_\_\_\_
225. Total sales of products by associations included in question 222 (a) Value \_\_\_\_\_ \$ \_\_\_\_\_ 225  
(b) Profit \_\_\_\_\_ \$ \_\_\_\_\_
226. Number of farmers and housewives assisted by extension service in buying and selling through other channels than cooperative associations \_\_\_\_\_ 226
227. Total purchases of supplies by farmers and housewives included in question 226 (a) Value \_\_\_\_\_ \$ \_\_\_\_\_ 227  
(b) Saving \_\_\_\_\_ \$ \_\_\_\_\_
228. Total sales of products by farmers and housewives included in question 226 (a) Value \_\_\_\_\_ \$ \_\_\_\_\_ 228  
(b) Profit \_\_\_\_\_ \$ \_\_\_\_\_
229. Number of farms grading or standardizing products \_\_\_\_\_ 229

[Use space below to include other important information relating to agricultural economics.]

*Some meetings were held preliminary to organizing an Egg Marketing Association in the county. Considerable work has been done during the year with the Tobacco Growers Association in the way of helping to organize new locals and reorganizing old ones.*

## HOME DEMONSTRATION WORK.

## FOODS AND NUTRITION.

Report only results of extension activities that are supported by records.

230.1. Number of members enrolled in food and nutrition work (a) Women \_\_\_\_\_  
(b) Girls \_\_\_\_\_ } 230.1

## FOOD SELECTION.

Item.	Women.		Girls.	
230. Number of result demonstrations started or under way.				230
231. Number of such demonstrations completed or carried through the year.				231
231.1. Number of method demonstrations.				231.1
232. Total* number of homes influenced by extension service to serve better selected food (include demonstrators).				232
233. Number of homes using more fruits in the diet.				233
234. Number of homes using more green vegetables in the diet.				234
235. Number of homes using more milk and other dairy products in the diet.				235
237. Number of homes using more poultry products in the diet.				237
238. Number of homes using more unrefined cereal products in the diet.				238

[Use space below to include other important data relating to food selection.]

## FOOD PREPARATION.

Item.	(a) Breadmaking.		(b) Meal preparation.		(c) School lunches.		(d) Other.....†		
	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	
239 (2425). Number of result demonstrations started or under way.									239 (2425)
240 (2435). Number of such demonstrations completed or carried through the year.									240 (2435)
245. Number * of homes influenced by home demonstration work to adopt better practices relative to food preparation (include demonstrators).									245
245.1. Number of schools influenced by home demonstration work to adopt better practices relative to food preparation (include demonstrators).									245.1

[Use space below to include other important data relating to food preparation.]

## FOODS AND NUTRITION—Continued.

Report only results of extension activities that are supported by funds.

## CHILD FEEDING AND CARE.

Item.	Women.	Girls.	
247. Number of result demonstrations started or under way			247
248. Number of such demonstrations completed or carried through the year			248
250. Number * of homes influenced by home demonstration work to change practices in child feeding and care (include demonstrators)			250
251. Number of children involved in question 250			251

[Use space below to include other important data relating to child feeding and care.]

## FOOD PRESERVATION.

Item.	(a) Fruits.		(b) Vegetables.		(c) Meats and Fish.		(d) Other †		
	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	
254 (2584). Number of result demonstrations started or under way									254 (2584)
256 (2596). Number of such demonstrations completed or carried through the year									256 (2596)
256 (260). Total amount preserved	(a) Quarts canned								256 (260)
	(b) Pounds dried								
	(c) Amount brined and cured	qts.	qts.	qts.	qts.	lbs.	lbs.		
	(d) Other								

Item.	Women.	Girls.	
260.1. Number of quarts of jelly			260.1
260.2. Number of quarts of preserves			260.2
260.3. Number of quarts of pickles			260.3
260.4. Number of quarts of fruit juices			260.4
260.5. Number of quarts of vinegar			260.5
261. Total value of products prepared by club members	\$	\$	261
262. Total cost of products prepared by club members	\$	\$	262
263. Total * number of homes influenced by home demonstration work to adopt better practices relative to food preservation (include demonstrators)			263

[Use space below to include other important data relating to food preservation.]

### CLOTHING.

Report of results of extension activities that are supported by records.

267.L. Number of members enrolled 267.L  
 { Women \_\_\_\_\_  
 { Girls \_\_\_\_\_

Item.	CLOTHING.						Military.		Other †		
	Selection.		Construction and remodeling.		Renovation.		Women.	Girls.	Women.	Girls.	
	Women.	Girls.	Women.	Girls.	Women.	Girls.					
267 (2715). Number of result demonstrations started or under way.											267 (2715)
268 (2725). Number of such demonstrations completed or carried through the year.											268 (2725)
273. Number of garments and hats made by club members completing.											273
274. Number of other articles made by club members completing.											274
275. Total value of garments, hats, and other articles made by club members.	\$	\$	\$	\$	\$	\$	\$	\$	\$	\$	275
276. Total cost of garments, hats, and other articles made by club members.	\$	\$	\$	\$	\$	\$	\$	\$	\$	\$	276
277. Number * of homes influenced by home demonstration work to improve practices relative to clothing (include demonstrators).											277
280. Number of dress forms made according to instructions.											280

[Use space below to include other important data relating to clothing work.]

.....

.....

.....

.....

\* See footnote on page 1.

† Indicate by name.

### HOUSEHOLD MANAGEMENT AND HOME FURNISHINGS.

Report only results of extension activities that are supported by records.

293.1. Number of club members enrolled in household management and home furnishings 293.1

(a) Women \_\_\_\_\_  
(b) Girls \_\_\_\_\_

Item.	(a) Budget and accounts.		(b) Equipment.		(c) Kitchen arrange- ment.		(d) Work planning.		(e) Furnishing and decorating.		
	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	
293 (2925). Number of result demonstrations started or under way.....											293 (2925)
293 (2935). Number of such demonstrations completed or carried through the year.....											293 (2935)
294. Number of household furnishings made or refinished by club members completing.....											294
297. Total * number of homes influenced by home demonstration work to change practices relative to home management and furnishings (include demonstrators).....											297

301. Number of homes installing new equipment other than heat, light, water, and sewage systems (see Rural Engineering, page 24) \_\_\_\_\_ 301

302. New equipment involved in question 301:

- |                                 |                                    |
|---------------------------------|------------------------------------|
| (a) Hand washing machines.....  | (g) Kitchen cabinets.....          |
| (b) Power washing machines..... | (h) Wheel trays.....               |
| (c) Fireless cookers.....       | (i) Iceless refrigerators.....     |
| (d) Pressure cookers.....       | (j) Electric or gasoline iron..... |
| (e) Hand sweepers.....          | (k) _____                          |
| (f) Power vacuum cleaners.....  | (l) _____                          |

[Use space below to include other important data relating to household management and home furnishings.]

## HOME HEALTH AND SANITATION.

Report only results of extension activities that are supported by records.

281. Number of members enrolled	(a) Women	_____	} 281.1
	(b) Girls	_____	
281. Number of result demonstrations started or under way		_____	281
282. Number of such demonstrations completed or carried through the year		_____	282
283. Number of homes given instruction in home nursing and first aid		_____	283
285. Total* number of homes influenced by extension service to adopt better sanitary practices		_____	285
286. Number of homes installing sanitary closets or outhouses		_____	286
287. Number of homes screened		_____	287
288. Number of homes following other methods of controlling flies, mosquitoes, and other insects		_____	288

[Use space below to include other important data relating to home health and sanitation.]
