ANNUAL NARRATIVE REPORT
of
ELEANOR COUNTY
Hessie Eyer
Home Demonstration Agent

County Extension Organization

A county council for home demonstration work was formed the first of May. This council of men and women are supporting the work and advising the agent. The council has raised money for the fall club fair and is assisting in putting across the poultry program for the year.

Tabulation of Clubs representing all projects being conducted

There are now 9 4-H clubs in the county with a subdivision of 6 poultry clubs, 6 sewing clubs, 1 cooking club, 1 garden club, 2 canning clubs, and 3 bread clubs. Several children who are not in organized clubs are doing regular club work. These clubs were organized in the fall and have a membership of 123.

Sewing Club Work

The 6 sewing clubs have a membership of 41, and 386 garments and articles have been made. Three of these clubs had good exhibits in the spring and all expect to exhibit at the county club fair and at the State fair in the fall.

Cooking Club Work

I have completed all work with one cooking club. The club equipment was purchased by the county board of supervisors, and the county school board. It may be moved from place to place at discretion of the home demonstration agent. These girls have studied the preparation of foods suitable for breakfasts; good service, and other relative food problems. On May 30th, the club served a breakfast to the patrons. Several members of the cooking club are doing summer work in the bread club.

Garden Club Work

There are 10 club members doing garden club work. Their gardens are of good size and have been well cultivated from five to six times. The members live in a corner in the county where tractors gather up produce once per week. In the fall, I am sure that these clubs will make a good financial showing with their work.

Poultry Work

Junior. The six poultry clubs in the county have a membership of 51. Several members are doing second year work. Two hundred dozen pure bred eggs were purchased for hatching purposes. Some of the members bought day old chicks. The clubs have 8 new poultry houses, three remodeled, and 19 brood coops, to their credit. They will have more by the end of the year. The poultry club members have 1445 fowls in their flocks at this time. We hope to have an exhibit from each club member at the club fair in September.

Adult. Forty-five women are enrolled in poultry work. All of these have been taught culling. The majority of them feed standard rations. Five members belong to the State egg laying contest. Seven new poultry houses have been built, and three remodeled. The better housing and feeding campaign shows good results to date.

The Farmers' National Bank extended splendid cooperation by supplying all club members and others interested with one or more sittings of pure bred eggs, with the understanding that in the fall they would return one of the best pullets for each sitting of eggs distributed. This resulted in the distribution of about 600 sittings of eggs and will mean quite an improvement in the county flocks. The bank will hold a poultry show in the fall and the birds brought in will be sold at auction.

Bread Work.

There are 27 girls enrolled in the bread work. These are working on a three months demonstration in making quick breads such as muffins and biscuits. There are 5 bread demonstration teams. One team will go to Blacksburg to the State Short Course to be especially trained to represent Caswell County in the district contest this fall.

Canning Work

There are two canning clubs with 18 members. At this time only a small amount of canning and preserving has been done, totaling 25 quarts fruits canned, 4 quarts jelly made, 45 quarts preserves made, and 18 quarts pickle made. The clubs are planning to put on a good canning club exhibit this fall.

Rally Day

On Saturday, June 9th, the 4-H clubs gathered in Caswell for their annual club rally. One hundred club members were present and about 200 adults. The program consisting of contests and speeches, was very interesting, and showed improvement in all lines of work. At the close of the program all lunches were put together a la picnic on the lawn at the court house. The W. C. T. U., the Civic League, and the Business Men's Club cooperated to make the day successful by furnishing a supplement to the lunch in the way of ice cream for refreshments. Also they furnished a moving picture for the day's program, and in addition helped out on the transportation question. In the afternoon the clubs got together and elected officers for the coming year.

Rat Killing Campaign

One of the most important phases of demonstration work completed this year was the county-wide rat killing campaign which was held in January. This campaign resulted in 5,016 rats and mice being turned in for prizes. An estimate of those killed and not banded in may be placed at 8,000. Caswell County came out second in the State, in number of rat tails actually turned in for counting. More rats than mice were killed. Authorities say that each rat does from \$1.00 to \$5.00 worth of damage in a year. The common rat multiplies from 6 to 10 times per year. The litter varies from 10 to 20, the average being 10. Counting half the rats and mice killed as rats, and taking the lowest number per litter, and the lowest number of times a rat produces young in a year, and counting the damage done at \$1.00, the lowest estimate, we have a saving of \$85,000,000 on rats alone. This is an estimate based on one half the number killed as rats, and seems enormous, but a much larger number of rats were killed than this estimate accounts for. If we allow 25 cents for each mouse killed, and estimate that only one half of those killed would have multiplied, we have a saving of \$18,750. Thus, using the lowest estimate possible we have a total saving of \$93,750. Counting the dead rats and mice, without allowing for any increase whatever, at \$1.00 for rats and 25 cents for mice, both lowest estimates, we have a saving to the county of over \$2,340, which amounts to more than twice the salary paid for home demonstration work.

Delegates to State Short Course

The county clubs are sending 14 delegates, including 2 demonstration teams, to the State short course which will be from July 30th to August 4th. These delegates will come back with inspiration fitting them to be better leaders in their respective communities.

At this date it is impossible to give a complete record of the work as it will not be completed in all phases until fall.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS
SPECIAL EDITION

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, negro agent, etc., reporting on their respective lines of work.

State Virginia County Tazewell
Report of Hester Ayer County Home Dem. Agent.
(Name) (Title)
From Jan. 1, 1923 to July 31, 1923

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

Extension Director

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results secured (including assistance rendered by subject-matter specialists). The making of such a report is of great value to the county extension agent and the county people in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support. This blank form covers simply the statistical phases of the report, and should be supplemented by a full report in narrative form.

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results secured under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—distinctive features.
 - (2) Function of local people, committee, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.
 - (a) Soils.
 - (b) Farm crops } (including diseases and insects).
 - (c) Horticulture }
 - (d) Forestry }
 - (e) Animal husbandry } (including diseases and pests).
 - (f) Dairy husbandry }
 - (g) Poultry husbandry }
 - (h) Rural engineering.
 - (i) Rodents, predatory animals, and birds.
 - (j) Agricultural economics—including farm management, marketing, etc.
 - (k) Foods and nutrition.
 - (l) Clothing and millinery.
 - (m) Home health and sanitation.
 - (n) Household management and home furnishings.
 - (o) Community activities—other than those included under subject-matter headings.
 - (p) Miscellaneous.
- V. Outlook and recommendations, including suggestive program of work for next year.
- VI. Summary of activities and accomplishments in paragraph form, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if it is desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations may be of methods or of results.
Under method demonstrations include lecture demonstrations, practicums, etc., such as demonstrations of canning methods, home-mixing fertilizers, poultry culling, dress-form making, and the like, all involving short periods of time.
Under result demonstrations include demonstrations in which a substantial period of time is involved, records of results kept, and comparisons made, as in a child-feeding demonstration, corn-culture demonstration, pasture-improvement demonstration, and the like.
5. A DEMONSTRATOR is an adult or junior who, under the direction of the extension service, undertakes to show in his community by example the practical application of an established fact, and who keeps records and reports on the same.
6. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
7. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions in advancing some phase of the local program of extension work.
8. A COMMUNITY CLUB is an organization of men, women, boys, and girls to further community interests and to promote community recreation.
9. AN OFFICE CALL is a visit or a telephone call by a farmer, or other person, seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
10. A DEMONSTRATION MEETING is a meeting held to give, inspect, or further a demonstration.
11. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the extension agent in office in connection with extension work.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.
17. A FARMERS' INSTITUTE is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN EXTENSION OR MOVABLE SCHOOL is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. A SHORT COURSE differs from an extension school in that it is held at the college or other educational institution and usually for a longer period of time.
19. RECORDS consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.

GENERAL ACTIVITIES.

Report only results of extension activities that are supported by records.

1. List below the names, titles, and periods of service of all county extension agents whose work is included in this report. 1

Hebbie M. Boyers Co. Home Demon. Agt. 2 year
(Name) (Title) (Period of service)

2. Total number of communities in county where extension work should be conducted (a) Men 20 2
 (b) Women 10 3

3. Number of communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 10 3

4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program (a) Adult work _____ Men _____ Women _____ 4
 (b) Junior work _____ Boys _____ Girls 27

5. What is the name of the county organization cooperating in extension work County Council for Home Demonstration 5

190. Number of water systems installed		190
191. Number of heating systems installed		191
192. Number of lighting systems installed		192
193. Number of farms on which buildings other than dwellings were constructed or remodeled according to plans furnished		193
	(a) Barns	194
	(b) Hog houses	
194. Number of buildings involved in preceding question	(c) Poultry houses	
	(d) Silos	
	(e) Other	
195. Number of farms assisted in the care and operation of machinery (tractors, power sprayers, milking machines, etc.)		195
196. Number of farms clearing land		196
197. Acres of land so cleared		197

[Use space below to include other important data relating to rural engineering.]

RODENTS AND MISCELLANEOUS* INSECT AND ANIMAL PESTS.

Report only results of extension activities that are supported by records.

Item.	Rodents.	Other animal pests.	Crustaceans.	Other insects.
198. Number of result demonstrations started or under way				198
199. Number of such demonstrations completed or carried through the year				199
200. Number of acres in these completed demonstrations				200
201. Total saving or profit on demonstrations resulting from better practices	\$	\$	\$	\$ 201
202. Total number of farms adopting control measures				202
203. Number of acres involved				203
204. Number of pounds of poison bait used				204
[Use space below to include other important data relating to rodents and miscellaneous insect and animal pests.]				

AGRICULTURAL ECONOMICS.

Report only results of extension activities that are supported by records.

FARM MANAGEMENT.

205. Number of farm account books distributed				205
206. Number of farmers keeping records in such account books throughout the year				206
207. Number of farmers assisted in summarizing and interpreting their accounts				207
208. Number of farmers making changes in their business as result of keeping accounts				208
209. Number of other farmers adopting cropping, live-stock, or complete farming systems according to recommendations				209
210. Number of boys' and girls' farm account clubs				210
211. Number of members enrolled	(a) Boys			} 211
	(b) Girls			
212. Number of members completing	(a) Boys			} 212
	(b) Girls			
213. Number of farmers advised relative to losses				213
214. Number of farm management and farm account schools held				214
215. Number of farmers assisted in keeping cost of production records				215
LABOR.				
216. Number of farmers making better use of labor				216
217. Number of farmers securing tractors, sprayers, milking machines, or other machinery to economize labor				217

* Do not include work reported under "Crop" and "Live Stock" headings.

[Use space below to include other important data relating to horticulture.]

I am sure that the ten demonstrations will be completed and that each demonstrator will make an exhibit at the county club fair which is to be held in September. I cannot give the yield or value of the crops at this time since they have not been gathered or sold. One girl, however, has sold \$35.00 in vegetables, off her plot, at this date.

MARKETING.

Report only results of extension activities that are supported by records.

221.1. Number of club members standardizing products for markets 221.1

(a) Women _____

(b) Girls _____

221. List below the cooperative marketing associations organized during the year upon suggestion or counsel of the home demonstration agent: 221

Name of association.	Number.	Number of members operating.	Supplies and products handled.							Products sold.		Number selling to merchants or customers.	Number selling through parrels post or express.
			Pounds of poultry.	Dozens of eggs.	Pounds of butter.	Pounds of vegetables.	Pounds of meats, meat, etc.	Canned goods, preserves, etc.	Miscellaneous.	Value.	Profit.		
Curb markets.													
Stall markets.													
Egg circles													

[Use space below to include other important data relating to marketing.]

MISCELLANEOUS.

Report only results of extension activities that are supported by records.

Use this page to include work on any other agricultural and home economics project not included in the preceding pages, such as bookkeeping, basket making, and similar work, i. e. any other information that can be reported statistically and that will help to give a complete account of the year's work.
