7. Publication Costs: The *Journal of Dairy Science* offers two options for publication of articles: Standard Page Charges and Open Access.
Standard Page Charges: The current charge for publication is \$85 per printed page in the journal for articles if at least one author is a professional member of ADSA. If no authors are ADSA members, the publication charge is \$140 per journal page. The cost to publish a color figure is \$995 (per figure) plus an offprint surcharge. There is charge for all offprints and reprints. An offprint order form will be sent to the corresponding author with the author proof.
Open Access: Under the new open access (OA) policy, authors may choose to pay the OA fee in lieu of standard page charges when author proofs are returned so that their paper becomes freely available upon publication in an online issue. The OA fee is \$1750 if at least one author is a professional member of ADSA or \$3500 if no authors are ADSA members.
 Open access articles will be freely accessible through the journal's website (<http://www.journalofdairyscience.org/>) at the time of publication. All other (non-OA) articles become freely available without a subscription 12 months after publication.
Articles for Deposit: Author(s) publishing articles under open access shall bear sole responsibility for meeting the specific posting requirements of their funders. Upon payment of the journal's OA fee, authors may deposit the accepted (peer-reviewed pre-typeset only) manuscript in a repository. The embargo period before deposit in a repository is 12 months (or the embargo period specified by the funder) after publication in a journal issue.
