ANNUAL NARRATIVE REPORT

FAIRFAX AND ARLINGTON COUNTIES

DECEMBER 1, 1923 - DECEMBER 1, 1924

HOME DEMONSTRATION WORK

NARRATIVE REPORT OF HOME DEMONSTRATION WORK
FAIRFAX AND ARLINGTON COUNTIES

LUCY STEPTON
CO. HOME DEM. AGENT
CLIFTON STATION, VA.
NOVEMBER 29, 1924.

By means of the excellent assistance and cooperation of the County Advisory Council and the county people Demonstration work has reached the majority of the communities of Fairfax county and a few of Arlington county and has played a worthy part in bringing about improved conditions. Since Arlington county is almost entirely suburban, the greater part of the work is done in Fairfax where the need is greater.

The Advisory Council is composed of sixteen women from different sections of the two counties. This Council has developed into a strong functioning body which aids materially in the planning and execution of Demonstration work. Not only do the members assist in the work, but they have lined up many local people who have helped to carry forward the program of work. School leagues, Citizens' associations, teachers, and other influential individuals have given their hearty cooperation in the cause.

With the exception of emergency work done during the late war period, Demonstration work has existed in these counties only two and one-half years. Throughout this time the interest, response, and cooperation of the people has steadily increased.

While considerable time has been devoted to adult work, the greater amount of attention has been directed to club work among girls and boys. There are fifteen organized clubs carrying on work in the following projects: clothing, poultry, canning, bread, cooking, garden, and room improvement with a total membership of 317.

During last winter there were ten clothing clubs with a membership of 128 girls, 81 completing the course. A total of 350 garments and articles were made and 85 mended, netting a total saving of \$245.00. One of the first year members won first prize on her sewing exhibit at the State Fair. So well pleased was the State Clothing Specialist with the quality of her work that she is now having her to make the complete exhibit for the four years of clothing club work. Two sewing machines have been bought by the clubs, the money for same having been raised by means of entertainments and club prizes. . The majority of the girls who were in the clothing clubs last winter are continuing the work this year, and in addition, two new clubs have been organized.

Sixty-five boys and girls belong to poultry clubs, but owing largely to the unfavorable seasons only 33 completed the year's requirements. Due to the same cause, also, a large percentage of their chickens died, though they realized a total profit of \$849.93 from their year's efforts. Two new poultry houses and many coops were built.

As a result of the canning club work carried on by the 41 members during the summer, 1408 quarts of fruits and vegetables, 245 quarts of jellies and preserves, 281 quarts of pickle and seven quarts of fruit juice have been preserved, with a total valuation of \$908.95.

Forty girls are now making better bread as a result of their experiences in bread club work. Two bread judging teams and two demonstration teams were trained. The judging teams took part in two tri-county contests and won first prize in each.

The two cooking clubs were composed of 18 members. The stove and equipment for one of the clubs was purchased by the School League. A new cooking club of 40 members has been recently organized in a large high school. Domestic science was taught there several years ago so the club is already supplied with most of the necessary equipment.

The one room improvement club was located in a small town near Washington and did not offer a field for much improvement work to be done by girls, so with the exception of bed linens, scarfs, and hangings there was not much accomplished along this line.

Nine well cared for gardens netting a total profit of \$510.75 were the outcome of the garden clubs.

Five girls and one club leader attended the State Short Course in Blacksburg in the summer and all came back filled with enthusiasm for club work. In every club that was represented at the Short Course there has been a most decided increase of interest and improvement in general club activities among all the members. Funds for financing the trip to Blacksburg were raised by means of entertainments that were conducted by the girls themselves.

While the attendance at the County Short Course was not as large as hoped for, there being 28 girls in attendance, yet the results achieved fully justified the time and energy expended for it. It can be truly said that nothing has had such a decided influence in bettering the general status of club work in the county as the State and County Short Courses. The County Course was held in a large community that was well equipped with all necessities, and a nearby Friend's meeting house. The cooperation of the people of the community in which it was held was most excellent. They gave the use of these buildings with their equipment, donated supplies, and assisted with the manual labors. The girls were given courses in bread-making, home nursing, basketry, table service, and etiquette for special occasions. While the practical side was emphasized, the recreational features were by no means lost sight of. The playground director of Alexandria took charge of recreation each evening after supper. We were exceedingly fortunate in having excellent instructors for all the courses, and splendid leaders and chaperons. The girls were divided into two Indian tribes, the Choctaws and Chicasaws and each girl was given an Indian name. Each tribe was scored throughout the week and on the last day the winning tribe was crowned by the losing one. The last day of the course was known as the County Rally day which consisted of a trip to Mt. Vernon, a picnic dinner, and a program given by the girls which set forth the type of work given during the course. A large number of parents and friends were present for this occasion.

A County Council of club officers and leaders has been recently organized. This organization has not been in existence long enough to make its influence greatly felt yet, though the indications are that it will be an important factor in improving the general condition of club work all over the county.

Adult Work

The principal activities carried on with the adults have been a kitchen improvement contest, food and clothing courses, poultry work, and assistance with fairs.

The kitchen contest was attended with very gratifying results and has been a most valuable help in showing the public the benefits and possibilities of demonstration work. This contest was made possible through the excellent cooperation and assistance of the Advisory Council, which helped to line up the contestants, secure prizes, encourage the contestants in making their improvements, and plan and carry out a program for a Get-together day at the end of the campaign. There were forty-six members in the contest located in twenty-one communities. Of these, 40 made improvements. 29 prizes ranging from a Hoosier kitchen cabinet to a colander were donated by the merchants of Alexandria, Washington, and local towns. These prizes, together with educational material on demonstration work, were displayed in a booth in Alexandria during a Trade Exhibit that was held by the merchants during the week previous to the first scoring of kitchens. The contest covered a period of about three months. All scoring was done by the State Agent. During the contest the demonstration agent made 284 visits in connection with the kitchens. The total cost of all improvements including two new ranges at \$139.00 each, was \$644.54. Many of the kitchens were entirely transformed by the improvements made and others were made so much more convenient and attractive as a result of the campaign. Among some of the biggest improvements were 20 painted walls, 5 ceiled, 7 calcimined, 4 plastered, and 3 papered; 22 oiled or painted floors, 5 with linoleum, woodwork in 28 painted, 1 pitcher pump added, two barrel systems, 4 sinks, 11 drainboards; 25 new homemade cabinets and cupboards, 22 high stools, 24 pantries rearranged, 30 tables painted, 22 valsparrred, 12 woodboxes painted with rollers added; 9 kitchens and 11 porches screened, three tea wagons made, glass put in 3 kitchen doors, 10 breakfast nocks and 10 rest corners added; and many other smaller improvements.

The Get-together day which was held at Fairfax Court House at the end of the contest was quite a success. It was well attended by the contestants with their families and friends. Several representatives from the Extension Service, Washington, D.C. and Dr. Kate Waller Barrett were present and made talks. A very interesting feature of the occasion was the reports given by the contestants concerning the improvements they made.

The true value of an Advisory Council was well proved by this contest for without it the results would have been very disappointing.

Two unit courses in foods consisting of four demonstrations each were given to two groups of women with a membership of 25; and two unit courses in clothing consisting of four demonstrations each were given to two other groups of women with a membership of 19. One of the food unit groups was so anxious to continue the meetings after the course was completed that the organization of a home demonstration club was suggested and all were heartily in favor of such a movement, so it is the plan to organize a club during the early part of the New Year.

Poultry

There were five members in the State Egg-laying contest, three remaining in until the end of the year. Five members for the coming year, three of whom are the present members, have been secured.

A poultry culling campaign was conducted during the early part of October by the County Agent and Home Dem. Agent. The Dem. Agent gave six demonstrations with an attendance of 42. The county has been well covered with these demonstrations during the last few years so there is not now a great need for instruction along this line. Last winter two demonstrations in the selection of breeding pens were given, also.

Eight new poultry houses have been built this year and two remodelled at a total cost of about \$1400.00. Four of these new houses belong to members of the Egg-laying contest and two to poultry club members.

The agent assisted with three district and community fairs and one county fair at all of which exhibits were made by club members. One man who is very much interested in club work gave \$25.00 as first and second prizes to the clubs that made the best showing in exhibits at the County fair. This stimulated considerable interest among the club members. He has made the same offer for another year.

In connection with the above activities, the agent has made 945 home visits, has held a total of 206 method demonstration meetings and 198 meetings at result demonstrations, attended two Agents' meetings at Blacksburg and one week's short course on poultry work, has written 985 letters, written, or had written, 155 newspaper articles, traveled 12,194 miles, spent 240 days in the field and 51 in office.

COOPERATIVE EXTENSION WORK IN AGRICULTURE AND HOME ECONOMICS

U. S. Department of Agriculture
and State Agricultural Colleges

Extension Service,
Office of Cooperative Extension Work,
Washington, D. C.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Fairfax and Arlington
 Report of Judy Steptoe County Home Dem Agent
(Name) (Title)
 From December 1, 1923 to December, 1924.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

HOME DEMONSTRATION WORK

Approved:

Date Dec 19th 1924 Mrs. M. M. Davis
State or District Supervisor.

Date _____ _____
State Extension Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—changes and development.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

<ol style="list-style-type: none"> (a) Soils (b) Farm crops (c) Home gardens (d) Forestry (e) Rodents, predatory animals, and birds. (f) Animal husbandry (g) Poultry husbandry (h) Home poultry 	} (including diseases and insects).
--	-------------------------------------

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT—Continued.

IV. Program of work, etc.—Continued.

(2) Project activities and results—Continued.

- (i) Rural engineering.
- (j) Rural engineering—home.
- (k) Agricultural economics, including farm management and marketing.
- (l) Home marketing.
- (m) Foods.
- (n) Nutrition.
- (o) Clothing.
- (p) Home management.
- (q) House furnishings.
- (r) Home health and sanitation.
- (s) Community activities.
- (t) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
 - A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonym: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and culling of poultry.
 - A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child-feeding, corn-cultures, and orchard-management demonstrations.
7. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
9. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
10. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
11. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conference, and any other work directly related to office administration.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.

4

DEFINITIONS OF TERMS USED IN THIS REPORT--Continued.

17. A **FARMERS' INSTITUTE** is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN **EXTENSION OR MOVABLE SCHOOL** is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. AN **EXTENSION SHORT COURSE** differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **RECORDS** consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARM OR HOME PRACTICE DEMONSTRATION** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

GENERAL ACTIVITIES.

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report. 1

<u>Wm. J. Steptoe</u> (Name)	<u>Home Dem. Agent</u> (Title)	<u>12</u> (Months of service this year)
------------------------------	--------------------------------	---

2. Number of communities in county where extension work should be conducted. 2

31

3. Number of communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 3

26

4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program with-- 4
