Dear Scott Dewhirst:

I am completing a master's thesis at Virginia Tech entitled "Evaluating the use of manganese oxidizing bacteria in surface water treatment plants." I would like your permission to reprint in my thesis a schematic of the Lee Hall water treatment plant that was provided to me by your organization. I have attached the image for your reference.

The requested permission extends to any future revisions and editions of my thesis, including non-exclusive world rights in all languages, and to the prospective publication of my thesis by UMI Company. These rights will in no way restrict republication of the material in any other form by you or by others authorized by you. Your emailed reply will also confirm that your company owns the copyright to the above-described material.

If these arrangements meet with your approval, please reply to this email indicating that you grant permission for my use of this image. Thank you very much.

Sincerely,

Victoria Hoyland
