III. PERSONAL REPORT SUMMARY

Checking our reports we find that the Agent spent 222 days on the field, visiting homes and farms, planning with local leaders and visiting demonstrations. A total of 7696 miles were traveled to 35 different homes. Many of such visits were of a special nature when the Agent was called in on three occasions to help out a helpless family when members were ill, and on two occasions when members had died. About every side of home life is touched when making such visits, which gives the Agent an opportunity to converse, console and help plan with the family, learning intimately of their circumstances and inclinations which group meetings would fail to reveal. This sort of sympathetic understanding often paves the way for greater Extension activities, constraining some hard-boiled husbands to agree to help his wife carry out her desired project. The Agent is expected to know how to advise or handle any problem from healing the sick children and stock to raising food and feed for all animals. Office days totalling 61 were spent in reading valuable material for use on field, tabulating results, making reports, and receiving calls for personal interviews on various problems. 151 such calls were made to the office for above stated reasons. 455 bulletins were distributed all of which helped out in the home or on the farm, sometimes serving as a visit where the Agent could not go in person. Letters to individuals totalled 290 while 45 circular letters were prepared with 455 copies circulated.

IV. STATUS OF COUNTY EXTENSION ORGANIZATION

For nine years Extension work has been conducted in Louisa county under the leadership of a Home Demonstration Agent whose major duties center around the home where women and girls are taught better methods for making the home more convenient attractive and livable, while learning how to grow, prepare and serve foods and to make their own clothes more attractive as well as economical. There are at present one Community club, Seven 4-H clubs and nine Home Demonstration Clubs, organized in 18 different communities, and four sagisterial districts, with 14 leaders carrying out the Extension program which comprises one major project and 6 minors. There are working in this phase of work 86 men, 136 4-H club members 108 women whose homes and farms show evidence of valuable ideas gained through Extension methods and being carried out.

-4-

IV. Status of County Extension Organization- continued

1. For the past two years the County Board of Supervisors has been responsible for the local appropriation for Home demonstration work. This board has always received the committee with the best spirit and have not withheld their praise and appreciation for improvements seen on farms and in homes where there are workers. When the appropriation was asked for this year one member arrested the motion saying his unheadiness was that the amount being considered was not enough for the work that is being done through the county.

2. Representatives from four Magisterial districts, men and women, ministers teachers and local leaders, coming from eight communities, make up the membership of the County Advisory Board.

(1) The County Advisory Board is directly responsible for the local appropriation, and each year sends a committee to the Board of Supervisors, receiving the amount and paying same through Advisory Board treasury. The membership of this Board is secured by leaders first showing interest in community and county problems, and a willingness to help carry the County program out.

This board also takes the initiative in making plans for the county activities; planning the time and place for all public meetings. It raises money for the representation of delegate who represent the Board at the Farmer's Conferences and the State Advisory Board meeting. This year the Board has met each month, save when it was felt unnecessary, a total of nine meetings being held this year.

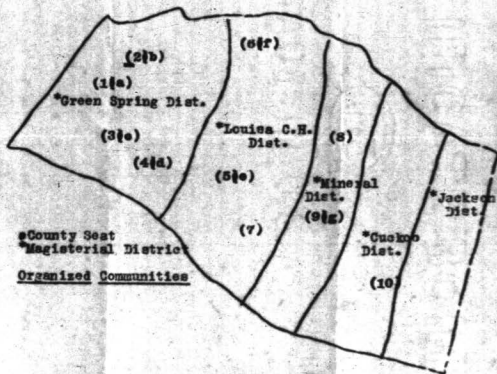

(2) The 4-H club council makes plans for the development of club activities and keeps a close relationship and keen interest and competition among all clubs. These members are outstanding and are chosen by their club-mates to represent on the council. A delegate is sent to represent the council and the State Short Course. Two meetings were held this year at the Training school, this being the central place for meeting

3. The County Extension organizations maintain a friendly relationship between all other organizations in the county, and on three occasions this year have held joint programs with school and church organizations.

V. PROGRAM OF WORK--Continued

Extension School

Two outstanding pieces of work done by the County Advisory Board were the Second Extension School held January 9-10, and the County Rally Candle Lighting service on Sunday night says.

The first public Extension meeting held in 1930 was the Extension school held January 9-10 at the Mt. Gilliam Baptist Church, Louisa, Va, which proved a success and benediction in that community. There was a good audience for both days, and the movies were shown to a packed house on Thursday night. We were fortunate in securing the services of the three District Agents, Miss L.A. Jenkins, T.B. Patterson and J.L. Gharity, and of Mr. A.C. Sims and Mr. J.S. Higgingsbotham of the Hampton Institute faculty. The spirit of school was entered into and those attending gave interest in asking questions and citing experiences, in return receiving the solution to many farm and home problems.

Dist. Agt. Patterson spoke on soil building and through his convincing discourse, backed up by figures on the snare, made many minds revert homeward to manure piles and washing soils. Miss Jenkins told the women and men each their duties in helping solve the home problems, putting more beauty, comfort, convenience and real pleasure in home-life of every-day living. A miniature model poultry house was shown by Dist. Agt. J.L. Gharity while he explained the major points in successful poultry production. The beautifully planned home and church yard, demonstrated by Mr. A.C. Sims, with little expense, but thoughtful planning, made many realize the wealth of Evergreens and shrubs around them and to see faults in their present plans. Nine well-grown green vegetables shown by Mr. J.S. Higgingsbotham convinced his audience of possibility for plenty greens throughout winter under normal conditions, thus insuring variety in diet, and a healthy vigorous family.

"Beans or Beetles" "Poor Mrs. Jones" and "Pioneer Women" were the thoughtfully chosen reel which also bore out the Extension story as it was seen by the crowd attending.

Candle Lighting Rally

The Advisory Board felt the need of finance and to make it a county project and assisted by all, struck the Candle Lighting Rally idea presented by a member. Ten captain bearers were chosen who chose as many followers, each trying to secure all funds possible. The Rally day was May 15 at which time all taking part wore white, bearing a candle and reciting a special verse or quotation bearing on "Light", marched to music and presented her offering. All the songs sung were appropriate. At the end there was a total of \$48.00 realized. Leaders expressed themselves saying that truly Extension work had been "a light unto their paths" giving instances where they had been helped over some particular problem.

V. PROGRAM OF WORK - continued

Work of Junior Council

The best work done by the Junior Council this year was the calling together a representation of all the clubs for a recreational meeting. This meeting not only gave an opportunity for the joint learning of songs and games, but acted as a get-acquaintance occasion where every body knew everybody. The representative to the state short course was also chosen at this meeting.

2. WOMEN'S WORK

The major project for Louisa county was Food-Nutrition. Women and girls had always preserved a commendable quantity of foods, and many were fast learning the necessity of a year-round garden. Despite these facts there were a great number of undernourished children and poorly balanced meals, so it was felt that such a project would be of great value. Therefore some food work was done in each club though not to a satisfactory degree.

(a) The Poindexter N.D. Club's work stands out as each member had her note book and between lessons would collect "paper" food to represent her meals as she had planned and studied compositions and combinations. One member said she truly felt that she was in school with all her books and all her lessons.

(b) Child Care and Training

No members enrolled in this work but 24 parents were reminded of children's defects and of probable handicaps and who had same corrected through clinics.

(c) Clothing

Forty women did clothing work and for the first time 22 women improved their methods in wardrobe planning and care. Among the demonstrations given were "Problems of Garment Construction", "Clothing Cost, Construction, Care" "Short Cuts in Home Sewing" and "Pattern alteration" Pictures, samples of materials, color and prices were given much consideration. There were many shapes and sizes of figures and demonstrations and discussions were not embarrassing but each woman said that her ideas of dressing herself and family had been enlightened as special points were discussed.

(d) Home management

Six women, all members of Louisa N.D. Club enrolled for home management, five of this number completing. Four leaders were trained, and the following was accomplished. Four women purchased labor-saving devices or built them. The working surface in one kitchen was adjusted to worker. One

(d) Home Management--Continued

cellar and one spring-box was improved for storing foods and two refrigerators were purchased. The walls of four kitchen were improved, and as many were rearranged for convenience. These same women for the first time allotted a daily time for self improvement. All six women subscribed to The Farmer's Wife and really read and enjoyed magazine reporting hints and suggestions used.

(e) Home Furnishing

No members enrolled for home furnishing but the work done deserves mention. Four groups participated---12 members compacting, sixteen women improving selection and arrangement of furnishings, nine improved color, or finish of wall and wood work. 21 rooms were involved in this improvement. Six women turned spare moments and old rags into attractive new scatter rugs.

(f) Home-Health-Sanitation

Twenty-eight women enrolled to do work and all 28 white-washed or painted premises. Seven sanitary toilets were installed and nine homes were screened, while 20 homes followed recommended practice in controlling insects. Mrs. Annie Price, Trevilian #1, says she never enjoyed a summer of freedom from flies and mosquitoes before she screened her back porch and windows and used fly trap. The Agent assisted three communities in the construction of 6 fly traps. One 4-d member, Freddie Baker built a fly trap at the State Short Course and has taught many others.

(g) Home Gardens

This was an unusually difficult year for gardens, however there were six creditable early gardens. Mrs. Ada Young, Louisa #1, says, "My husband means to have a garden at any cost after seeing those nice green vegetables brought to our extension school by Mr. Higgingsbotham. When seed failed to come up he kept planting. At last he chose a low cool place and we have some winter greens and nobody around us has". A total of nine new or untried vegetables were planted by members this year, and were successful, all agreed that the family enjoyed having them for a change.

(h) Beautification Of Home grounds

Perhaps more work was done in beautification of home ground than any previous year. Ten women enrolled and early in the spring this work got under way. Trees were cut down and cavities filled in, shrubbery rearranged or pruned, trees pruned, grass seed sown, lawns fertilized, walks laid, trellises built, native evergreens found and used for plantings. Mrs. Hannah Thurston, Louisa #1, deserves credit. She was chosen community chairman of Better Homes in America, and

Home beautification-continued

set the pace for her workers. She dug up two large trees from the front which were unsightly, graded grass on spots, set out hedge and shrubbery and rearranged her yard according to plans furnished besides remodeling an old-time house. The accompanying photographs tell her story.

(i) Home Poultry

Poultry work was done with 29 women with satisfactory results. Two sanitary poultry houses were built, and six remedied. Ten women improved flocks by culling, baby chicks, or by adding cockrels. Demonstrations were given in culling, selection of eggs for setting, and in setting the broody hen. Mrs. Hannah Thurston of Louisa #1, purchased 100 day-old chicks in January and her success was gratifying. She has sold breeding stock and is now selling eggs to a county hatchery and is also supplying a northern customer.

(j) Home Marketing

Surplus commodities when properly handled find a ready local market. Butter and milk products, eggs, poultry, berries, water-cress, sumac, Jamestown leaves and wood are the means for bringing in pocket-change and supplying many home needs. Two men are at the suggestion of the Agent, cultivating water-cress for a larger market.

(k) Community Activities

The Agent has helped out with seasonal programs in both churches and schools. She has helped girls and boys in getting started in boarding schools. One school yard was planned, most of the work being done by 4-H club members.

(2) Leader Training

In all projects carried leaders were trained to help with the demonstrations, and to hold meetings at the absence of the Agent. A total of 14 leaders were trained, some doing double and triple duty, and distributed as follows: Poultry---4, food-nutrition 6, Clothing---7, Home management---2, Home furnishing-----1
Demonstrations given in each project were Woods---5, Beautification of Home grounds -----7, Poultry-4, Clothing ---8 and in Home management---2. Total number demonstrations given by Agent and leaders-56, number leaders helping Agent to give demonstrations ---6, Number demonstrations given in which leader helped Agent---12

V. PROGRAM WORK--Continued

3. Girls' Work

(a) Foods

Forty-eight girls carried the same major project as women--Food-Nutrition but did some work in other projects. Their food work centered around Foods for Health, Meal Planning, food conservation, and The School Lunch. Because of the necessity for emphasis, leaders and Agent gave 26 demonstrations, while girls gave 16 before groups. During the foods preservation period 36 girls canned or preserved 2088 quarts of fruits and vegetables, and 43 girls improved their practice in meal planning, and service. Sarah Guy, Louisa #5, a Pioneer club member won the prize offered by the Hazel-Atlas Company at the state fair on fruits and vegetables.

(b) Clothing

Six groups with 49 members enrolled for clothing. 26 completing. Agent and 5 leaders gave 38 demonstrations in Construction, Care, styles, Cleaning, Mending, Remodeling and dyeing. 33 of the 38 girls did mending and cleaning for family. 32 did own sewing while 42 helped with family sewing. Mothers and fathers have repeatedly told me of the value clothing work was being to the entire family. These 49 girls made 193 articles, valued at more than \$300. Nine girls either made garment bags or improved storage space for clothing.

(c) Home Improvement

No girls enrolled for Home Improvement but the work that 14 members, 10 girls and 4 boys in four groups did is commendable. 16 of these members made improvements in selection and arrangement of furnishings. 21 articles were remodeled or refinished. Seven articles were made, among them, 2 dressing tables, and one wash stand. Seven improved walls. Three brothers sharing the same room painted walls, furniture and beds and are enjoying an attractive bed-room, taking more pride in keeping their room clean and tidy. There were 10 homes involved in the improvements reported.

(d) Gardening

39 of the 50 boys and the one girl enrolled for gardening finished work and under the conditions fair returns were realized. In each garden an untried vegetable was planted a total of nine been tried. Six clubs were engaged in garden work every member doing some work. 14 group meetings where discussions and demonstrations in Soil Preparation, seeding, Cultivation, Harvesting and grading were given. Three garden members specialized in corn, one boy raising more on his acre than his father on two. Elsworth Williams, Trevilians #1, had success with his potatoes.

W. PROGRAM WORK-CON.

(d) Gardening Continued

and sent a sample to the state fair capturing first prize of \$3.00 in their class. A net profit of vegetable sales sold, eaten, canned or on hand amount to \$683.25.

(e) Poultry

19 boys and 3 girls in 6 groups held twelve group meetings, trained five demonstration teams, gave four public demonstrations, hatched 421 chicks, purchased 125 chicks, raised 136 chicks and collected 128 dozen eggs, sold or used poultry valued at \$210. receiving in all \$459.00. Nathaniel Brown, Green Springs, built a sanitary poultry house besides raising his stock. He plans to enlarge his flock for this year. Through demonstrations and lessons, members learn to judge profitable birds, proper grading of eggs for market, selection of eggs for setting, setting the broody hen and proper housing and feed for flock.

(2) Leader Training

A total of 12 leaders attended 8 meetings and helped with 4-d club work. They are divided as follows: Food-----2
Clothing-----2, Gardening-2, Poultry-----3. Three leaders conducted meetings without Agent. 3 gave 4-d demonstrations for Agent, two assisted Agent in giving 6 demonstrations. Of this number three are older club members.

(3) 4-d Club Activities

The most successful club year was enjoyed by the Louisa 4-d club, which has the banner enrollment, four demonstration teams for girls and boys. Their plan of work was: Met twice monthly, paid nickel once a month, help business meeting once a month, one demonstration each of interest to girls and boys were given at meetings, a definite period was always allotted to recreation, games and songs, club reports were written out and passed to secretary, but were also given orally by members.

VIII. BRIEF SUMMARY

While the work done this year shows progress, and some satisfactory accomplishments, we are not satisfied with enrollments and results. Besides the financial depression, drought situation the Agent was out of the county a great deal, being out the entire month of August, which handicapped progress in work especially in foods where there were not sufficient trained leaders to carry new type of work on. Another reason for unsatisfactory accomplishments was the attempting of too many projects. Home Beautification and Poultry show the greatest progress for this year.

IX. PLANS FOR 1931

With the coming of 1931 we have made out the following plan:

1. Secure more Advisory Board members from unorganized territory.
2. Develop Junior Council into stronger body.
3. Secure more adult members.
4. Secure more 4-H members.
5. Attempt fewer projects.
6. Train more leaders.
7. Make demonstrations more effective.
8. Reach larger area of people.
9. Plan achievement day early in the year.
10. Plan tour to outstanding demonstrations.

REPORT OF EXTENSION SCHOOL ATTENDED

The Agent spent the entire month of August attending a summer school held at the State College, Orangeburg, South Carolina for Extension workers. This school was made possible by Mr. Julius Rosenwald, and the State and United States Extension Departments.

The courses offered were those of most importance to Agents, preparing them for better service in their counties. The Agent chose Foods, Food Conservation, Marketing, Extension Methods, Dairying, Home Beautification, Home Poultry, News Writing and Reports, Rural Organization and Home Improvement. Miss Guthrie of Tennessee taught the value of foods, meal planning, preparation of meals, giving meats, vegetables, breads and beverages separate consideration and demonstrations. In these lessons we learned how to present these food facts. Miss Thursby of Florida Extension Dept. gave demonstrations on the conserving of foods giving the most important points to be considered with special emphasis on the use and value of the steam-pressure cooker for canning as well as for meal preparation.

Miss Hayden of Texas taught by demonstration, the special features of importance in marketing products setting up a model market correctly named with products of fine desired quality. Miss Hill and Mr. Watkins presented better methods of organizing our work for results. In home Dairying Miss Forney of Texas gave demonstrations and suggestions for handling milk so as to make quality products on the farm. Home Beautification by Mr. Williston of Alabama gave us definite knowledge of the plants and shrubs on the campus, their family, inclinations, place in the setting and their care. Mr. Selmyler of New York patiently gave us the correct way of reporting the interesting and worth while features of our work. Miss Sims of Louisiana and Mr. Humbles of Virginia Extension Service told us how to set the Extension machine to work for results. Perhaps the most outstanding work was done in Home Improvement under Miss Hanna of Alabama, when a dilapidated poorly arranged home, under her instruction, was converted into a cheerful, colorful and convenient home. Rooms, hall, doors, windows, paint and pictures were added and the "after" picture was unbelievable startling.

The entire course was more than helpful and we are appreciative for the information gained and contacts made feeling that this Extension school should prepare us for larger and better service with a broader knowledge of the task before us.

The Agent also took part in a pageant given during the session entitled "The Feast of The Tomato".

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

Revised July 7, 1930

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Louisa
Report of Ethel Lewis Banks County Home Demonstration Agent
(Name) (Title)
From December 1, 1929 to November 30, 1930

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

State Extension Director

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT

The annual report should be a summary, with analysis and interpretations, for presentation to the people of the county, the State, and the Nation of the extension activities in each county for the year and the results obtained by the county extension agent, assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support of extension work.

Separate statistical and narrative reports are desired from each leader of a line of work, such as county agricultural agent, home demonstration agent, boys' and girls' club agent, and negro agent, regardless of title. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more agents are employed in a county, each a leader of a line of work, statistics should not be duplicated.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. The report to the Washington office should be sent through the State extension office.

NARRATIVE SUMMARY

The narrative report should summarize and interpret the outstanding results accomplished and the extension methods used, under appropriate subheadings, for each project. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with necessary data from the statistical summary. Use an interesting style of writing, giving major accomplishments first under each project. Give extension methods fully relating to outstanding results only, and where practicable illustrate with photographs, maps, diagrams, blue prints, or copies of charts and other forms used. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented. Each agent should adapt the outline to the situation and the work to be reported.

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—changes and development.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work; listing goals set up, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

<ol style="list-style-type: none">(a) Cereals.(b) Legumes and forage crops.(c) Potatoes, Irish.(d) Cotton.(e) Tobacco and other special crops.(f) Home gardens and home beautification.(g) Market garden and truck crops.(h) Fruits.(i) Forestry.(j) Rodents and miscellaneous insects.(k) Agricultural engineering and home engineering.(l) Poultry.	<ol style="list-style-type: none">(m) Dairy.(n) Other livestock.(o) Farm management.(p) Marketing, farm and home.(q) Foods and nutrition.(r) Child training and care.(s) Clothing.(t) Home management.(u) Home furnishings.(v) Home health and sanitation.(w) Community activities.(x) Miscellaneous.
--	--
- V. Outlook and recommendations, including suggestive program of work for next year.
- VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting:

DEFINITIONS OF TERMS USED IN THIS REPORT

1. A program of work is a statement of the specific lines of extension work to be undertaken by the extension agent during a year or a period of years.
2. A plan of work is a definite outline of procedure for carrying out the different phases of the program of work. Such a plan provides specifically for the means to be used and the methods of using them. It also shows what, how much, when, and where the work is to be done.
3. A community is a more or less well-defined group of rural people with common interests and problems. Such a group may include those within a township, trade area, or similar limits. For the purpose of this report a community is one of the several units into which a county is divided for conducting organized extension work.
4. A project leader, local leader, or committeeman is a person who, because of special interest and fitness, is selected to serve as a leader in advancing some phase of the local extension program. A project leader may be either an organization or a subject-matter leader.
5. Demonstrations as contemplated in this report are of two kinds—method demonstrations and result demonstrations. A method demonstration is a demonstration given by an extension worker or other trained leader for the purpose of showing how to carry out a practice. Examples: Demonstrations of how to can fruits and vegetables, mix spray materials, and cull poultry. A result demonstration is a demonstration conducted by a farmer, home maker, boy, or girl under the direct supervision of the extension worker, to show locally the value of a recommended practice. Such a demonstration involves a substantial period of time and records of results and comparisons, and is designed to teach others in addition to the person conducting the demonstration. Examples: Demonstrating that the application of fertilizer to cotton will result in more profitable yields, that underweight of certain children can be corrected through proper diet, or that the use of certified seed in growing potatoes is a good investment.
6. The adoption of a farm or home practice resulting from a demonstration or other teaching activity employed by the extension worker as a means of teaching is not in itself a demonstration.
6. A result demonstrator is an adult, boy, or girl who conducts a result demonstration as defined above.
7. A cooperator is a farmer or home maker who agrees to adopt certain recommended practices upon the solicitation of an extension worker. The work is not directly supervised by the extension agent and records are not required, but reports on the success of the practices may be obtained.
8. A 4-H Club is an organized group of boys and/or girls with the objectives of demonstrating improved practices in agriculture or home economics, and of providing desirable training for the members.
9. 4-H Club members enrolled are those boys and girls who actually start the work outlined for the year.
10. 4-H Club members completing are those boys and girls who satisfactorily finish the work outlined for the year.
11. A demonstration meeting is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
12. A training meeting is a meeting at which project leaders, local leaders, or committeemen are trained to carry on extension activities in their respective communities.
13. An office call is a call in person or by telephone by an individual or group seeking agricultural or home-economics information, as a result of which some definite assistance or information is given.
14. A farm or home visit is a call by the agent at a farm or home at which some definite information relating to extension work is given or obtained.
15. Days in office should include time spent by the county extension agent in his office, extension conferences, and any other work directly related to office administration.
16. Days in field should include all days spent on official duty other than those spent in office.
17. Letters written should include all original letters on official business. (Duplicated letters should not be included.)
18. An extension school is a school usually of two to six days' duration, arranged by the extension service, where practical instruction is given to persons not resident at the college. An extension short course differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time.
19. Records consist of definite information on file in the county office that will enable the agent to verify the data on extension work included in this report.

GENERAL ACTIVITIES

Report Only This Year's Activities and Results that can be Verified

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report.

Mrs. Ethel Lewis Rankin Home Demon Agent 12
(Name) (Title) (Months of service this year)

2. County extension organization or association

(a) Name County Advisory Board
 (b) Number of members (1) Men 22
(2) Women 36

3. Number of communities in county where extension work should be conducted 37

4. Number of above communities in which the extension program has been cooperatively worked out by extension agents and local committees 18

5. Number of different voluntary county or community local leaders or committeemen actively engaged in forwarding the extension program.

(a) Adult work (1) Men 2
(2) Women 8
 (b) 4-H Club work (1) Men 2
(2) Women 8
(3) Older club boys 1
(4) Older club girls 1

6. Number of clubs or other groups organized to carry on adult home demonstration work 10

7. Members in above clubs or groups 74

8. Number of 4-H Clubs 7

9. Number of different 4-H Club members enrolled 67

10. Number of different 4-H Club members completing 48

11. Number of members now enrolled in 4-H Club work for:

	1st Year	2d Year	3d Year	4th Year	5th Year	6th Year and Over
(a) Boys <u>50</u>	<u>17</u>					
(b) Girls <u>37</u>	<u>13</u>	<u>15</u>	<u>1</u>			<u>2</u>

12. Number of 4-H Club members according to age.

Age	10	11	12	13	14	15	16	17	18	19	20
Boys	<u>10</u>	<u>8</u>	<u>10</u>	<u>10</u>	<u>10</u>	<u>7</u>	<u>7</u>	<u>3</u>	<u>2</u>		
Girls	<u>12</u>	<u>9</u>	<u>9</u>	<u>10</u>	<u>7</u>	<u>12</u>	<u>6</u>	<u>1</u>	<u>2</u>		

1 Report the total number of different boys or girls enrolled in club work. The total should equal the sum of the project enrollments reported on pages 1 to 20, less any duplications due to the same boy or girl carrying on two or more subject-matter lines of work.

GENERAL ACTIVITIES—Continued

Report Only This Year's Extension Activities and Results that can be Verified

13. Number of 4-H Club members in school	116	Out of school	19	13
14. Number of 4-H Club teams trained		(a) Judging	8	14
		(b) Demonstration	14	
15. Number of groups organized for extension work with rural young people above the 4-H Club age			1	15
16. Members in above groups		(a) Young men	5	16
