Annual Report
Prince George Co., Virginia
Dec. 1st, 1925 - Dec. 1st, 1926

2

Miss Jean Cody, Co. Home Dem. Agent.

Introduction

December 1, 1926 ends my second year's work as home demonstration agent in Prince George County, and while I have not been able to accomplish everything planned, I feel that Home Demonstration work has been worth while in the county. The actual enrollment this year is smaller than last, but more members have finished the year's work and have shown better results than during the year 1925.

County Extension Organizations:

Advisory Council: The principal organization relative to Home Demonstration work in Prince George County is the Advisory Council composed of eighteen representative women from all parts of the County.

When the present agent first started work in 1925 this council was made up of six members from each of the five districts in the county. These members were appointed by the school board, but at the first meeting in 1926, after consulting the school board, it was decided to cut the membership down. So the organization was changed, a county wide chairman, secretary and publicity chairman were elected, and then each one of the five districts were organized with a chairman and two members from each district, thus cutting the membership down to the ones actually interested and willing to help with the work. Two county wide meetings are held yearly and district meetings as needed to plan and discuss the work. Three district meetings and three regular and one called county wide meetings have been held this year.

The county chairman and five district chairmen compose the executive board of the county. This council has been very helpful to the agent in carrying out the year's plan of work, and has rendered valuable assistance in helping to enroll members and secure prizes for Room Improvement contest for girls run during the summer and the poultry improvement contest now going on in the county. As their part in the National Better Homes celebration, they asked the local merchants to put up window exhibits of model kitchen, bed room, bath room, dining room and sun parlor. One merchant had a window of draperies and pictures for the home. This council also sponsored a county wide dental clinic. Two hundred and forty children in the county schools were treated as a result of this clinic.

4-H Clubs: On the recommendation of Miss Hicks, Acting State Club Agent for girls at the time, it was decided to drop the Junior organization of 4-H Club officers for the present. Only children under high school age are doing club work in the county, and they are too young to be of much help along that line. There are six organized 4-H Community Clubs, one in each school in the county. Each of these clubs holds regular monthly meetings. At the December meetings all clubs were reorganized and a plan of work made out for the year. These plans have been carried out in nearly all respects except summer meetings, it being almost impossible for some of the children scattered in all parts of the county to get to meetings after the close of school. Club leaders in two of the clubs were a great help.

On account of the schools being consolidated the groups in each club were too large for the agent to handle at one time. At project meetings the club was broken up into groups, each group elected a chairman and secretary. These officers took charge of their own meetings; conducting meetings according to parliamentary law and the club spirit was fostered in the younger club members. At each meeting some member gave a demonstration in work being done.

Sewing: Seventy-four girls enrolled for sewing work; thirty-two finished first year work; seven second year work; two third year work; and six finished fourth year work, making 56 out of the 74 enrolled completing the year's work and turning in records to the agent. These girls followed the regular outline in sewing. Besides this they made lamp shades, runners, candle sticks, bed spreads, aprons, luncheon sets and several other articles. Exhibits were made by these girls at the State and district fairs, several prizes being won by them. Three hundred garments and 480 patches and darns was the work reported by these girls. Profit on these amounted to \$448.37. Three demonstration teams were trained in sewing.

HOME DEMONSTRATION WORK

Cooking and Better Food Clubs:- Twenty-five girls enrolled in cooking work. One club of ten members completed the second year work. Another club of 15 had four demonstrations, after which the school stove got into such bad condition that the work could not go on. These girls enrolled in Better Foods Club after regular cooking work stopped, and took a great deal of interest in it. They also helped serve hot lunch at the school once each week.

Another better foods club of 36 members enrolled and carried on this work for six weeks. Some of the mothers of these children have reported quite an improvement in the children's food habits. One mother told the agent she had not realized the importance of doing these things each day herself until she began to look over her daughter's score. She said her whole family had improved.

Demonstration teams were trained in cooking. One team gave a public demonstration on Table Setting and Service at the Country Club Rally. Four meals were served by these groups to guests; one luncheon to members of the county school board being very highly praised by them.

Breads:- Twenty-four girls enrolled for bread work; nineteen finished the year's work. They were doing 1st, 2nd and 3rd year work and were given demonstrations by the agent in the making of quick breads, cakes and pies and yeast breads. Meetings were held each month. Exhibits were made at the county School Fair and at the District Fair.

Canning:- Twenty-nine girls enrolled for canning. Twelve meetings were held; 14 girls finished the work. These girls were given demonstrations in canning vegetables and fruits and in making preserves, jellies and pickles. 1606 containers were reported put up and a profit of \$260.60 realized. Exhibits were made at both state and district fairs and several prizes won.

Garden:- Twenty boys and girls enrolled in garden work. These were all first year members; 8 meetings were held, profit of \$129.66 was reported. One boy won first prize on his garden exhibit at the district fair.

Room Improvement:- Eight girls entered a room improvement contest; only 4 girls actually completed the work. All rooms entered in this contest were bed rooms. Three floors were refinished by staining and one by paint varnish. The woodwork in 3 rooms was refinished by painting. Three walls were refinished. Rugs were made or bought. New cream shades replaced the old green ones. Six good pictures were bought and correctly hung. Two pieces of furniture were made, 7 pieces were mended, and 12 pieces were refinished. Two closets and wardrobes were improved. Three book cases made, 1 window seat made, 2 waste baskets, 10 flower containers, book ends, candle sticks secured or painted, 8 bed spreads, scarfs, runners and pillow covers made. This contest started in April and ran until October. The lowest improvement made in any room being 20 1/2 points and the highest was 70 points.

Four prizes were given in this contest and were presented to the girls by the chairman of the County Advisory Council at the County Club Rally in October. Two of these prizes were secured by members of the Advisory Council. The girl winning the first prize made 70 points improvement. She refinished her room at a total cost of \$4.75 and made all the money herself by taking care of her sick grandmother, doing farm work for an uncle and by selling eggs from her small flock of poultry. This piece of work has done more than any other one thing to arouse interest in the work. People from all parts of the county have visited this room and have been loud in their praise of the improvement accomplished. The girl exhibited her bed spread and curtains at the District Fair and won far more in prizes on that and her poultry exhibits than she spent in improving her room.

Poultry:- Twenty boys and girls enrolled for poultry work; 14 of these met all requirements. These members reported a profit of \$211.67. Eleven members exhibited at the Petersburg Fair winning prizes amounting to \$28.56. Three new poultry houses have been put up and several remodeled as a result of poultry club work.

Short Courses:- Four girls from the county attended the district short course in Petersburg. These girls were given work in foods, health, use of steam pressure cooker, hand work and basketry. Only 2 girls attended the State Short Course in Blacksburg, but all these girls are now leaders in their local clubs, and have been of great help to the members not privileged to attend. The short courses do more than anything else to develop leadership, and it is the aim of the clubs of Prince George to have a larger number attending both next year.

Women's Work:

Two Home Demonstration Clubs have been working this year. These clubs have an enrollment of 89 members. A definite program of foods, clothing, canning, poultry, gardening, and home improvement was carried out by the Grater Club. This club bought playground equipment for the school, and canned vegetables for the school hot lunch as their community work for the year. They also paid the expenses of a girl to the State Short Course. These members did excellent work in home improvement, painting furniture, floors and walls, making rugs, lamp shades and household linen. They exhibited a booth at the district fair. The other club did not follow a program of work, but did some home improvement work. They have improved the school grounds, bought books for a school library, helped with the dental clinic and furnished a rest room for the teachers at school.

Food Unit:- Two groups of women numbering 18 have completed the food unit work for 1925. They had demonstrations in the preservation of food, using the steam pressure cooker, use of vegetables and fruit in the diet, salad making and milk dishes.

Clothing Unit:- Four groups number 46 finished the clothing unit work, the demonstration given them being the use of patterns, household linens, selection of color and style, household arts and renovating and remodeling. Two cleaning days were held in connection with this demonstration all the women in the neighborhood brought winter garments that needed cleaning. These ranged from gloves and hat trimmings up to men's suits. Suggestions were made by the agent for making over old garments into things of newer style or into childrens clothes. Many of these suggestions have been carried out.

Adult Poultry Work:- Nine adults enrolled in a poultry improvement contest. These have been visited several times by the agent. This contest ends in February. All the contestants have made great improvements. Two new houses have been erected and several have bought new stock. Twenty flock owners have reported culling this year.

Publicity Methods:

The work was kept before the public by newspaper articles in the local papers and by home visits by the agent. Members of the Advisory Council also agreed to give the work as much publicity as possible in all ways. They have been a great help in this respect. A total of 114 newspaper articles were published in Hopewell, Petersburg and Richmond papers.

Meetings Attended by Agent:

Annual Meeting of Agents:- In January I spent 10 days at the State meeting of Home Demonstration Agents in Blacksburg. A very helpful program of work in foods, clothing and room improvement had been arranged. I got very practical and definite help from the meetings, as I also did from 5 days poultry school conducted by the heads of the V. F. I. Poultry Department.

Petersburg Short Course:- The week from July 12th-17th was spent at Petersburg Short Course. I taught a group of girls and leaders each day in lamp shade making and helped with the regular camp work.

Farmers' Institute and Homemakers Association:- It was my privilege to attend a meeting of the Farmers' Institute and Virginia Homemakers Association from July 26th-29th.

State Short Course:- I chaperoned all the girls from the Eastern District to the State Short Course which was held in Blacksburg from August 2nd-7th. While there I helped with the routine work. I enjoyed the demonstrations in food, clothing and health which the girls attended each day and received much help for my own work therefrom. I returned home feeling like I had been on a delightful vacation instead of doing a hard weeks work.

Outlook and Recommendations:-

Some form of Home Improvement work seems to be the greatest need for the coming year. A county wide Better Kitchen campaign will be carried on beginning in February and coming to a close with the Better Homes celebration in May. Publicity will be given this campaign through the use of lectures and lantern slides at school league meetings and other meetings through the months of December and January.

Room Improvement work for the girls will be carried on as project and also in the form of a contest during the summer months.

Food work will be stressed and where it is impossible to do regular cooking club work Better Food Clubs will be organized. Two schools in the county have already started the hot lunch project in a small way. Next year it is hoped these schools will serve lunches every day during the coldest weather. The home demonstration clubs and the girls canning clubs will help by canning soup mixture and vegetables during the summer.

The county schools being consolidated means that only girls in the grades have an opportunity to do club work during the school months. Many of the club girls who have gone into high school would like to keep up the work. An effort will be made to organize these girls into Junior Home Demonstration Clubs holding meetings once a month outside school hours, carrying on a program of work in foods, clothing, canning and room improvement.

More garden and poultry work should be done. Excellent markets can be had in Petersburg and Hopewell for all vegetables and poultry raised. An effort will be made by the agent to arouse more interest in these projects both with the club members and adults.

Summary of Work:

During the year I have made 301 home visits to 158 different homes; have traveled 18,286 miles; have written 317 letters in connection with my work; held 142 demonstration meetings with an attendance at meetings of 1,947 people; and have given 146 demonstrations.

Prince George County Plan of Work for 1926:

Goals

County Wide -
Room Improvement Contest
20 contestants
Poultry Improvement Contest
15 contestants
Better Homes Celebration during
National Better Homes Week

County club rally

County wide dental clinic put on through the efforts of the Advisory Council and Home Demonstration Clubs.
100% club members completing work and turning in reports to agent.
Members exhibiting at Petersburg Fair

Delegates to Farmers' Institute and Virginia Homemakers Association
Delegates to District and State Short Courses

Accomplishments

Room Improvement Contest
8 contestants
Poultry Improvement Contest
9 contestants
Had exhibits in local store windows and special club programs all during week. It was estimated that 200 people saw the exhibits.
Held rally October 30th with an interesting program put on by the club members.
Clinic was held and around 240 children in the county schools were treated.
70% completed work and turned in records.
Exhibits made at the Petersburg Fair, also State Fair at Richmond.
Did not have delegates at the Farmers' Institute and Va. Homemakers Ass'n.
Four delegates to the Petersburg Short Course and 2 at the State Short Course at Blacksburg.

State or District Supervisor.

State Extension Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—change and development.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

<ol style="list-style-type: none"> (a) Soils (b) Farm crops (c) Horticulture (d) Home gardens (e) Beautification of home grounds (f) Forestry (g) Rodents, predatory animals, and birds. (h) Animal husbandry (i) Dairy husbandry (j) Home dairy (k) Poultry husbandry (l) Home poultry 	}	(including diseases and insects).
---	---	-----------------------------------

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT—Continued.

IV. Program of work, etc.—Continued.

(2) Project activities and results—Continued.

- (i) Rural engineering.
- (j) Rural engineering—home.
- (k) Agricultural economics, including farm management and marketing.
- (l) Home marketing.
- (m) Foods.
- (n) Nutrition.
- (o) Clothing.

- (q) House furnishings.
- (r) Home health and sanitation.
- (s) Community activities.
- (t) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMITTEE, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
 - A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonym: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and culling of poultry.
 - A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child-feeding, corn-culture, and orchard-management demonstrations.
7. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
9. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
10. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
11. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.

DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.

17. A **FARMERS' INSTITUTE** is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN **EXTENSION OR MOVABLE SCHOOL** is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. AN **EXTENSION SMOKE COURSE** differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **RECORDS** consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARM OR HOME PRACTICE ADOPTED** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hay making.

GENERAL ACTIVITIES.

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report. 1
- | | | |
|------------------------------|---|---------------------------------------|
| <i>Jean Cooley</i>
(Name) | <i>County Home Demonstration Agent</i>
(Title) | (Months of service in year) <i>12</i> |
|------------------------------|---|---------------------------------------|
2. Number of communities in county where extension work should be conducted. 8 2
3. Number of above communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 8 3
4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program with— 4
