III. SUMMARY OF ACTIVITIES AND ACCOMPLISHMENTS.

A. Major Projects:

- 1. Corn-Hog and Tobacco Programs.
- 2. Corn-Hog contracts--61; Tobacco--28.
- 3. Acres reduced--Corn-Hog- 198; Tobacco-11.7.
- 4. Number hogs reduced--185.
- 5. Total AAA payments to date--\$4987.28.

B. Livestock Program:

1. Sheep and wool.	
2. Number sheep docked and castrated in County-----	6,000.
3. Increased value-----	\$3,000.
4. Number sheep treated for stomach worms-----	5,000.
5. Increased value-----	\$3,500.
6. Number producers shipping cooperatively (this year)-----	83.
7. Number producers shipping cooperatively (last year)-----	50.
8. Number sheep and lambs shipped this year-----	1,749.
9. Number sheep and lambs shipped last year-----	1,460.
10. Value of sheep and lambs shipped this year-----	\$10,362.51.
11. Increased price-----	\$1,271.52.
12. Number men pooling wool this year-----	81.
13. Number men pooling wool last year-----	30.
14. Number pounds pooled this year-----	11,705.
15. Number pounds pooled last year-----	3,000.
16. Value of wool pooled-----	\$3340.00.
17. Increased price due to pooling @3½¢ per lb.-----	\$409.67.
18. Number purebred rams placed-----	8.

C. Cattle:

1. Number calves vaccinated for Blackleg-----	1,178.
2. Value of calves saved by vaccination-----	\$500.
3. Number other animals treated-----	50.
4. Amount saved farmers by treatment-----	\$250.
5. Number cattle shipped by Association-3 loads-----	70.
6. Number purebred calves bought-----	10.

D. Hogs:

1. Number purebred hogs placed in County-----	Boars	3.
	Sows	3.

E. 4-H Clubs:

1. Number organized-----	4.
2. Number members-----	57.
3. Profits made by club members-----	\$685.

SHAW-WALKER PRINTING CO.

Minor Projects

1. Pasture improvement.	
2. Bland County Soil Conservation Association organized.	
3. Number farmers using phosphate-----	105.
4. Number of tons applied-----	370.
5. Total acres fertilized-----	5,975.
6. Value of phosphate @ \$40 per ton-----	\$14,800.
7. Number farmers using lime-----	75.
8. Number tons applied-----	300.
9. Number men sowing lespedeza-----	150.
10. Number pounds sowed in County-----	8,000.
11. Number pounds purchased cooperatively-----	3,500.
12. Saving in price of seed @ 1 1/2¢ per lb.-----	\$52.50.

IV. CHANGES IN COUNTY EXTENSION ORGANIZATION

(1) Form:

Mr. T. E. Mallory was made Assistant County Agent for Bland April 22nd.

As yet, no definite Advisory Council has been selected, but suggestions have been solicited from all the leading farmers of the County as to what lines of work should be emphasized.

(2) General Policies:

So far, it has been the policy of the agent to act on his own initiative in emphasizing better practices which are more helpful, and in demonstrating the use of improved methods in agronomy and animal husbandry.

(3) Procedure:

The procedure followed in these policies has involved mainly farm and home visits, office calls, circular letters, news articles, and actual demonstrations.

Efforts have been made to educate farmers as to the purposes of extension work and to encourage them to take every possible advantage of it.

V. COUNTY PROGRAM OF WORK.

AAA PROGRAMS

Extension activities for the year 1935 show a considerable increase over 1934 with a consequent increase in material benefits derived. While benefits from AAA programs were not as large as those in 1934, the payments received are in proportion to the smaller reduction--10% on hogs and 20% to 30% on corn as compared to 25% on hogs, and 20% to 30% on corn for 1934. There were only 61 corn-hog contract signers in 1935 as compared with 103 the year before. This reduction was partly offset by an increase in tobacco contracts from 18 to 28, bringing the total to 89.

The total benefits from AAA programs will be considerably in excess of \$5,000 for the year.

LIVESTOCK

A much greater amount of time was given to the regular extension program as reflected in the greater progress made.

The livestock program began with the docking and castrating of lambs. Very little of this work was done by the agent, but all progressive farmers practice it themselves, and it is estimated that at least 90% of the lambs of the County are docked and castrated. Eradication of parasites is one of the most important phases of the program and farmers are rapidly adopting the practice of treating their flocks regularly with nicotine and copper sulphate. About 6,000 head of sheep were treated by the agent and it is estimated that the value of the lamb crop was increased by \$3,500. The practice recommended was that of alternating between the two treatments at intervals of two weeks.

Proper care, feeding and management was emphasized by articles published in the paper, State and Government bulletins, circular letters, etc. Much loss can be avoided by Bland County farmers by better treatment of ewes during the winter.

The Bland County wool pool was organized at Bland Court House on June 12th, and a sales committee was elected. The wool was sold to the United Wool Grower's Association, the highest bidder, at 28 $\frac{1}{2}$ ¢. There was a total of 11,705 pounds netting \$3340.00. The pool benefitted cooperating members about \$409.67 at 3 $\frac{1}{2}$ ¢ per pound as it is thought that wool would not have brought more than 25¢ if there had been no pool.

Cooperative Marketing of Livestock

The Bland County Livestock Marketing Association was organized on June 12th, 1935 at Bland Court House. T. D. Hubble acted as chairman and the agent was elected manager, and committeemen were selected for each community. Following the organization meeting at Bland, local meetings were held in the smaller communities over the entire County for the purpose of explaining the organization set-up and extension work in general.

Eighty-three producers shipped 1,749 head of sheep and lambs during the season. This is the equivalent of 7 double decks, but a total of nine shipments were made. All lambs were graded and shipped the same day, thus cutting the driftage to a minimum.

Grades and prices received are as follows:

Number	Grade	Average price
593	Blue circles	\$9.74
915	Red circles	9.42
112	Medium	8.87
86	Common	6.50
19	Bucks	
3	Yrl. weathers	
21	Old ewes	

The total home weight of all lambs shipped was 127,152 pounds and the total net proceeds was \$9,182.32, giving an average net price of \$7.21 per hundred pounds. Giving the Association credit for one cent per pound over local prices this represents a saving of \$1,271.62 to the members. If boosted prices paid non-members are considered this figure could be made much larger.

Estimated total lamb production-----	6,000.
Shipped by Association-----	1,749.
Sold locally-----	4,251.
Estimated increased price per head-----	70%.
Increased returns due to association-----	\$4,247.22.

Purebred Sires

As nearly as can be estimated, 13 purebred rams were placed in the County. Two purebred Southdown flocks were started in the County with a view to the production of more ideal market lambs.

Cattle

A total of 1,178 calves have been vaccinated for blackleg. Assuming a loss of 2% without vaccination, this represents \$500. About 50 calves and other cattle were treated for lung worm, hemorrhagic septicemia, etc., and the value of such animals saved is estimated at \$250.00. In addition to this over 100 calves were castrated.

Three loads of cattle were shipped through the Association.

Ten purebred bulls were placed in the County.

Swine

Six purebred registered hogs have been placed on farms this year.

4-H Clubs

Four 4-H Clubs were organized in the County with 57 members completing their projects. 4-H Club records show a profit of \$685.00 and the total value of prizes won amounts to \$136.00.

The seven baby beeves produced by 4-H Club boys stood 2nd, 7th, 8th, 9th, 11th, 12th and 14th at Richmond. A junior heifer took 6th place at Baltimore, and was the only Bland County calf to place.

MINOR PROJECTS

Pasture Improvement

Pasture improvement has been emphasized since the beginning of extension work in Bland County. Very little progress had been made, however, until the agent called the attention of extension authorities to the fact that part of Bland County was included in the Tennessee Valley Water Shed. As a result the entire County was given advantage of the erosion control and pasture improvement program financed by the Tennessee Valley Authority and administered by the Extension Division. The Soil Conservation Association was organized, and committeemen were selected for each of the four districts of the County. These committeemen selected the original twenty unit demonstrators who agreed to cooperate in every way possible with the entire extension program. (This number was subsequently increased to forty). Later, under the spot area demonstration agreement an effort was made to distribute the fertilizer over all sections of the County to include all types of soil. Under this agreement the number of farmers who agreed to carry out demonstrations of pasture improvement and soil conservation was increased to 105. The total amount of T.V.A. phosphate received by December 1st was 370 tons. This material analyzes 45% phosphate and is valued at \$40.00 per ton. At these figures the total value of fertilizer received by Bland County amounts to \$14,800. The total cost has been \$2016.50 at \$5.45 per ton. The actual cash value of benefits received, therefore, is \$12,784.00. The acreage fertilized in this County to December 1st totaled 3,975. Bland County leads all others in acreage fertilized and fertilizer received.

Corn

About three bushels of purebred Golden Queen seed corn was secured from the agronomy department at Blacksburg and was planted by farmers in this County. It is hoped that enough seed can be had from this project to supply our needs in the future.

Poultry

Two demonstrations in caaponising were conducted by Harry L. Moore, Extension Poultry Specialist. If this practice is found profitable other poultry producers will be assisted in getting started and encouraged.

Bees

Six demonstrations in re-queening bees were given by the extension specialist, Mr. Weatherford.

Horticulture

Mr. D. A. Tucker made three trips to the County and held six demonstrations in pruning fruit trees and one in budding.

Bland County Fair

The Bland County Fair Association was re-organized in March and all officers were re-elected. At a later meeting an executive committee was elected and all administrative matters were placed in its hands. The Small and Bullock Amusement Enterprise was secured and to this fact and the 100% cooperation of the exhibitors is given the credit for an unusually successful fair.

Statement of transactions of 1935 fair and receipts.

Gate receipts-----	\$486.57.
Carnival returns (15% on rides, and \$5 each for 5 concessions)----	119.81.
Catalog advertisements-----	194.50.
Total receipts-----	\$802.88.

Expenses

Old note-----	\$ 98.00.
Premiums-----	354.50.
Bland Messenger Advertising-----	15.00.
Donaldson Lithographing Co.-----	12.42.
Printing catalog-----	101.05.
Postage-----	4.00.
Ribbons-----	20.60.
Ground rent-----	56.00.
Transformers-----	15.00.
Lights-----	26.26.
Sound truck-----	35.00.
Gate men and watchmen-----	26.00.
Judges-----	15.00.
Total expenses-----	\$778.73.

Total receipts-----	\$802.88.
Total expenses-----	778.73.
Balance-----	\$ 24.15.

TOTAL VALUATION OF ALL BENEFITS OCCURRING FROM EXTENSION WORK.

AAA Programs-----	\$5,000.00
Sheep parasite eradication-----	3,500.00
Wool pool-----	409.67
Cooperative lamb marketing-----	4,247.22
Vaccination of calves-----	500.00
Veterinary work on sick stock-----	250.00
4-H Club profits and prizes-----	301.00
Pasture improvement and erosion control-----	12,784.00
Total-----	\$26,991.89

PLAN OF WORK FOR BLAND COUNTY
IN 1936

T. M. Hepler, Agent

1. Major Projects.

A. AAA Programs

1. Corn-Hog
2. Tobacco

B. Livestock

1. Sheep
 - a. Docking and castrating.
 - b. External and internal parasite eradication. (May to November)
 - c. Cooperative shipping. (Organize in May)
 - d. Wool pool. (Organize in June)
 - e. Better feeding.
 - f. Purebred sire campaign.
 - g. Ewe flock improvement.
 - h. Better breeding practices.
 - i. Better housing and management.
2. Beef cattle
 - a. Vaccinating for blackleg.
 - b. Castrating.
 - c. Cow and calf herd work.
 - d. Purebred sire campaign.
 - e. Feeder cattle production.
 - f. Better feeding, housing, and management.
 - g. Vealing scrub calves.
 - h. Elimination of Jerseys from beef herds.
 - i. Cooperative shipping of tail cattle and heifers.
 - j. Explain the advantage of Eastern Livestock Marketing Association.
3. Dairy Cattle
 - a. Substitute shorthorns for jerseys in milk cow herds.
 - b. Encourage disposing of all jersey calves through local livestock market.
 - c. Encourage better sires in modern dairy herds.
4. Swine (Beginning January 1st)
 - a. Introduce better breeding stock. (Minimum 10 head purebred hogs)
 - b. Parasite eradication:
 - (1) Worm treatment (Chenopodium)
5. Horses
 - a. Encourage larger horse production.
 - b. Improve breeding quality of mares.
 - c. Suggestions for care and feeding of farm work horses.
 - d. Treatment of sick horses, prevention.

C. Organization of 4-H Clubs (December)

1. Re-organization of all clubs.
 - a. Membership drive.
2. Organize new clubs.
3. Aid in careful selection of projects best adapted to each individual member.
4. Outline of projects.
 - a. Baby beeves.
 - b. Beginner's flock (Sheep)
 - c. Hogs, purebred sow.
 - d. Poultry.
 - e. Bees.
 - f. Garden.
 - g. Corn--some new adapted variety, using fertilizer recommendations.
 - h. Soybeans and lespedeza.

II. Minor Projects

A. Agronomy (Beginning March)

1. Pasture improvement--lespedeza, lime and phosphate.
2. Encourage use of lime in every rotation.
3. Crops (April)
 - a. Corn
 - (1) Better yields by better preparation, fertilization and cultivation.
 - (2) Better selection of seed corn.
 - (3) Seed testing and seed treatment. (Demonstration, Feb. and Mar.)
4. Small grains.
 - a. Substitute barley for wheat in rotation. (Fall)
 - b. Encourage planting of adapted varieties.
 - c. Recommend later sowing of wheat to combat Hessian Fly.
5. Legumes (March)
 - a. Alfalfa.
 - b. Soybeans, plant with corn for hogging.
 - c. Crimson clover.
 - d. Red clover.

B. Poultry (Early spring)

1. General flock improvement campaign.
 - a. Getting rid of mixed breeds.
 - b. Encourage adherence to one general purpose breed or commercialization with specialized breed.
 - c. Culling and selection of types for breeding stock. (Sept. to Nov.)
 - d. Purebred sire campaign.
 - e. External and internal parasite control.
 - f. Improvement of housing and management.
 - g. Insist on feeding of laying rations.

C. Apiculture (Before honey flow starts)

1. Foul brood clean-up campaign.
 - a. Destroy all colonies infested with American foulbrood.
 - b. Re-queen and/or combine weak colonies or those which are infested with European foulbrood.
 - c. Transferring to modern hives.
 - d. Winter care and feeding.

D. Horticulture (Feb. to Mar.)

1. General apple orchard improvement campaign.
 - a. Pruning
 - b. Replacement of old and diseased trees.
 - c. Soil management program for the farm orchard.
 - (1) Cultivation.
 - (2) Rotation.
 - (3) Fertilization.
 - d. Spray program--demonstrations, April-June.
2. Small fruits.
 - a. Grapes, berries, etc.
3. Garden work--monthly garden letters and garden suggestions.

E. Agricultural Engineering

1. Erosion control.
2. Building construction.
3. Silo Construction.

F. Other activities:

1. County Fair. (August to September)

COOPERATIVE EXTENSION WORK IN AGRICULTURE AND HOME ECONOMICS

COMBINED ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is for use by county extension agents in making a combined statistical report on all extension work done in the county during the year. Agents resigning during the year should make out this report before quitting the service.

State Virginia County Blond

REPORT OF

(Name) Home Demonstration Agent. From _____ to _____, 193

4-H Club Agent. From _____ to _____, 193

J.M. Hepler J.E. Mallory Asst. Agricultr. Agent. From Dec. 1, 1934 to Nov. 30, 1935

READ SUGGESTIONS, PAGES 2 AND 3

Approved: _____

Date _____

State Extension Director.

2

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT

The annual report should be a summary, with analysis and interpretations, for presentation to the people of the county, the State, and the Nation of the extension activities in each county for the year, and the results obtained by the county extension agents assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agents and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support of extension work.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

STATISTICAL SUMMARY

Where two or more agents are employed in a county they should submit a single statistical report showing the combined activities and accomplishments of all county extension agents employed in the county during the year. Results obtained through assistance rendered agents by specialists should also be included. This report shows, insofar as possible, the part each agent has taken in forwarding the extension program. The county totals should be the sum of the activities and accomplishments of individual agents minus duplications due to two or more agents participating in the same activity or accomplishment. The county totals, when properly recorded, show the progress made in the county during the year in forwarding the entire extension program. Negro men and woman agents should prepare a combined statistical report separate from that of the white agents.

The statistical summary should be a report of this year's activities and results that can be verified by records on file in the county office. Where records are not available careful estimates are desired. Such estimates should be marked "Est."

NARRATIVE SUMMARY

A separate narrative report is desired from the leader of each line of work, such as county agricultural agent, home demonstration agent, boys' and girls' club agent, and Negro agent. Where an assistant agent has been employed during a part or all of the year, the report of his or her work should be included with the report of the leader of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked.

The narrative report should summarize and interpret, under appropriate subheadings, the outstanding results accomplished and the extension methods used for each project. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with necessary data from the statistical summary. Use a descriptive style of writing, giving major accomplishments first under each project. Give extension methods fully relating to outstanding results only, and where practicable illustrate with photographs, maps, diagrams, blueprints, or copies of charts and other forms used. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs and reasonably good margins. The pages should be numbered in consecutive order.

The following outline is merely suggestive of how the narrative report may be clearly and systematically presented. Each agent should prepare an outline to fit the situation and the work to be reported.

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT

- I. Cover and title page.
- II. Table of contents.
- III. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning of the narrative report.
- IV. Changes in county extension organization.
 - (1) Form.
 - (2) General policies.
 - (3) Procedure.
- V. County program of work.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.
Under appropriate headings and subheadings present in some detail for each major project or line of work the goals set up, the methods used, the results achieved, and the significance of these results in terms of improved farms and homes and of better community life.
- VI. Outlook and recommendations, including suggestive program of work for next year.

TERMINOLOGY

To insure reports which convey the intended meaning to others and to facilitate the compilation of satisfactory national statistics on extension, it is extremely important that terms be used in accordance with accepted definitions. The following definitions of extension terms have been approved by the United States Department of Agriculture and the Association of Land Grant Colleges and Universities. Agents should read these definitions before starting to write the annual reports.

DEFINITIONS OF EXTENSION TERMS

1. A program of work is a statement of the specific projects to be undertaken by the extension agents during a year or a period of years.
2. A plan of work is a definite outline of procedure for carrying out the different phases of the program of work. Such a plan provides specifically for the means to be used and the methods of using them. It also shows what, how much, when, and where the work is to be done.
3. A community is a more or less well-defined group of rural people with common interests and problems. Such a group may include those within a township, trade area, or similar limits. For the purpose of this report a community is one of the several units into which a county is divided for conducting organized extension work.
4. A project leader, local leader, or committeeman is a person who, because of special interest and fitness, is selected to serve as a leader in advancing some phase of the local extension program. A project leader may be either an organization or a subject-matter leader.
5. Demonstrations as contemplated in this report are of two kinds—method demonstrations and result demonstrations. A method demonstration is a demonstration given by an extension worker or other trained leader for the purpose of showing how to carry out a practice. Example: Demonstrations of how to can fruits and vegetables, mix spray materials, and cull poultry. A result demonstration is a demonstration conducted by a farmer, home maker, boy, or girl under the direct supervision of the extension worker, to show locally the value of a recommended practice. Such a demonstration involves a substantial period of time and records of results and comparisons, and is designed to teach others in addition to the person conducting the demonstration. Example: Demonstrating that the application of fertilizer to cotton will result in more profitable yields, that under-irrigation of certain children can be corrected through proper diet, that the use of certified seed in growing potatoes is a good investment, or that a large farm business results in a more efficient use of labor. The adoption of a farm or home practice resulting from a demonstration or other teaching activity employed by the extension worker as a means of teaching is not in itself a demonstration.
6. A result demonstrator is an adult, a boy, or a girl who conducts a result demonstration as defined above.
7. A cooperator is a farmer or home maker who agrees to adopt certain recommended practices upon the solicitation of an extension worker. The work is not directly supervised by the extension agent and records are not required, but reports on the success of the practices may be obtained.
8. A 4-H Club is an organized group of boys and/or girls with the objective of demonstrating improved practices in agriculture or home economics, and of providing desirable training for the members.
9. 4-H Club members enrolling are those boys and girls who actually start the work outlined for the year.
10. 4-H Club members completing are those boys and girls who satisfactorily finish the work outlined for the year.
11. A demonstration meeting is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
12. A leader-training meeting is a meeting at which project leaders, local leaders, or committeemen are trained to carry on extension activities in their respective communities.
13. An office call is a call in person by an individual or a group seeking agricultural or home-economics information, as a result of which some definite assistance or information is given. A telephone call differs from an office call in that the assistance or information is given or received by means of the telephone. Telephone calls may be either incoming or outgoing.
14. A farm or home visit is a call by the agent at a farm or home at which some definite information relating to extension work is given or obtained.
15. Days in office should include time spent by the county extension agent in the office, at annual and other extension conferences, and on any other work directly related to office administration.
16. Days in field should include all days spent on official duty other than "days in office."
17. Letters written should include all original letters on official business. (Duplicate letters should not be included.)
18. An extension school is a school usually of 2 to 6 days' duration, arranged by the Extension Service, where practical instruction is given to persons not resident at the college. An extension short course differs from an extension school in that it is usually held at the college or another educational institution and usually for a longer period of time.
19. Records consist of definite information on file in the county office that will enable the agent to verify the data on extension work included in this report.
20. The county extension association or committee is that county organization, whether a membership or a delegate body, which is recognized officially in the conduct of extension work in the county.

GENERAL ACTIVITIES

Report Only This Year's Extension Activities and Results That Can Be Verified

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report. Include time of assistants with that of regular agent.

AGENT	Total months of service this year	Days devoted to A.A.A. work	Days devoted to relief work	Total days in office	Total days in field
	(a)	(b)	(c)	(d)	(e)
(Name) Home demonstration agent.....	1				
Asst. home demonstration agent.....					
4-H Club agent.....					
Assistant 4-H Club agent.....	2				
Agricultural agent.....					
<i>J. M. Kepler</i> Agricultural agent.....	3	20	486	183	303
<i>J. E. Mallory</i> Assistant agricultural agent.....					

2. County extension association or committee:

(a) Agricultural extension:

(1) Name

(2) Number of members.....

(b) Home demonstration:

(1) Name

(2) Number of members.....

(c) 4-H Club:

(1) Name

(2) Number of members.....

3. Number of communities in county where extension work should be conducted..... 14

4. Number of above communities in which the extension program has been planned cooperatively by extension agents and local committees..... 6

5. Number of different voluntary county or community project leaders or committeemen actively engaged in forwarding the extension program:

(a) Adult work

(1) Men..... 25
(2) Women.....

(b) 4-H Club work

(1) Men..... 2 (3) Older club boys.....
(2) Women..... 2 (4) Older club girls.....

6. Number of different paid local leaders engaged in A.A.A. program, or in relief work.....

(a) Men..... 14
(b) Women.....

7. Number of clubs or other groups organized to carry on adult home demonstration work..... 7

8. Number of members in such clubs or groups..... 0

ITEM	Home demonstration agents (a)	4-H Club agents (b)	Agricultural agents (c)	County total (d)
9. Number of 4-H Clubs.....			4	4
10. Number of different 4-H Club members enrolled.....			22	22
(1) Boys*			35	35
(2) Girls*			16	16
11. Number of different 4-H Club members completing.....			18	18
(1) Boys*			18	18
(2) Girls*				

12. Number of different members enrolled in 4-H Club work for:

MEMBERS	1st year	2d year	3d year	4th year	5th year	6th year and over
(a) Boys.....	15	6				
(b) Girls.....	20	16				

* County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or accomplishment.

* Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the project enrollments reported on page 7 to 20, minus duplications due to the same boy or girl carrying on two or more subject-matter lines of work.

* Same as footnote 2 but refers to completions instead of enrollments.

* The total for this question should agree with county total, question 10.

ITEM	Home demonstration agents (a)	4-H Club agents (b)	Agricultural agents (c)	County total ² (d)	
15. Number of 4-H Club teams trained	(1) Judging				15
	(2) Demonstration				
16. Number of groups other than 4-H Clubs organized for extension work with rural young people 16 years of age and older					16
17. Members in groups reported in question 16	(1) Young men				17
	(2) Young women				
18. Total number of farm or home visits ³ made in conducting extension work			938	938	18
19. Number of different farms or homes visited			340	340	19
20. Number of calls relating to extension work	(1) Office		1126	1126	20
	(2) Telephone				
21. Number of news articles or stories published ⁴			54	54	21
22. Number of individual letters written			1481	1481	22
23. Number of different circular letters prepared (not total copies mailed)			44	44	23
24. Number of bulletins distributed			373	373	24
25. Number of radio talks made			3	3	25
27. Training meetings held for local leaders or committeemen	(1) Adult work	(a) Number			27
		(b) Men leaders			
		(c) Women leaders			
	(2) 4-H Club	(a) Number			
		(b) Total attendance			
		(b) Leaders			
28. Method demonstration meetings held (include all method demonstrations in both adult and 4-H Club work given by agents and specialists not reported under question 27)	(1) Number		322	322	28
	(2) Total attendance		837	837	
29. Meetings held at result demonstrations	(1) Number				29
	(2) Total attendance				

¹ The total for this question should agree with county total, question 10.² County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or event.³ Do not count a single visit to both the farm and home as two visits.⁴ Do not count items relating to notices of meetings only.

Note.—Questions 18-26 refer to the total number of different activities conducted this year. The totals should equal the sums of the corresponding information reported on following pages minus duplications where the same activity relates to two or more lines of work.

GENERAL ACTIVITIES—Continued

Report Only This Year's Extension Activities and Results That Can Be Verified

	(2) Total attendance					
34. Meetings held by local leaders or committeemen not participated in by agents or specialists and not reported elsewhere	(1) Adult work	(a) Number			34	
		(b) Total attendance				
	(2) 4-H club	(a) Number				
		(b) Total attendance				

SUMMARY OF EXTENSION INFLUENCE FOR YEAR

It is highly desirable for extension workers to consider the proportion of farms and farm homes in the county which have been definitely influenced to make some substantial change in farm or home operations as a result of the extension program for men, women, boys, and girls. It is recognized that this information is very difficult for agents to report accurately, so a conservative estimate based upon such records, surveys, and other sources of information as are available will be satisfactory. Such estimates should be marked "Est."

Include results of emergency activities as well as the regular extension program.

35. Number of farms in county	851	35
36. Number of farms on which changes in practices have definitely resulted from the agricultural extension program	26	36
37. Number of farm homes in which changes in practices have definitely resulted from the home demonstration program		37
38. Number of other homes in which changes in practices have definitely resulted from the home demonstration program		38
39. Number of farm homes with 4-H Club members enrolled	61	39
40. Number of other homes with 4-H Club members enrolled	5	40
41. Total number of different farm families influenced by some phase of the extension program (Include questions 35, 37, and 39, minus duplications.)	400	41
42. Total number of different other families influenced by some phase of extension program (Include questions 38 and 40, minus duplications.)	425	42

¹ County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or accomplishment.

NOTE.—Questions 18-34 refer to the total number of different activities conducted this year. The totals should equal the sums of the corresponding information reported on following pages minus duplications where the same activity relates to two or more lines of work.

CEREALS¹

Report Only This Year's Extension Activities and Results That Can Be Verified
