Mr. C. E. Seitz
Head, Agricultural Engineering Department

Dear Mr. Seitz:

Submitted herewith is a copy of the Annual Report of work done in Soil and Water Conservation Research under the Bankhead-Jones projects numbered 51 and 71. These projects are in cooperation with the Research Division of the Soil Conservation Service of the United States Department of Agriculture.

This report, in the absence of any Experiment Station staff member and at your request, was prepared by the Project Supervisor of the Soil Conservation Service staff.

Respectfully submitted,

T. W. Edminster
Project Supervisor
