To: Tara Davis <davis@smenet.org>, "Ripepi, Nino" <nripepi@vt.edu>

Good morning Tara,

I hope this email finds you well.

I am graduating from my PhD this spring and I need to include one of my already published papers in my dissertation.

The paper is entitled "Automated Discontinuity Extraction Software Versus Manual Virtual Discontinuity Mapping: Performance Evaluation in Rock Mass Characterization and Rockfall Hazard Identification" and was published on the Mining, Metallurgy and Exploration Journal volume 38, Issue 3.

Please see the link to the article below:

<https://link.springer.com/article/10.1007/s42461-021-00416-9>

Please, let me know if it would be possible to include this article it in my dissertation.

Sincerely,

Juan J. Monsalve

Mining and Metallurgical Engineer

M.S. in Mining Engineer

PhD. Candidate

Virginia Tech

Tara,

I would also like to have permission to include in my dissertation the paper I published in the proceedings of the 39th International Conference on Ground Control in Mining, entitled "A Preliminary Investigation on Stochastic Discrete Element Modeling for Pillar Strength Determination in Underground Limestone Mines from a Probabilistic Risk Analysis Approach".

Please, see the file attached below.

Let me know if it is also possible to include this paper in my PhD dissertation.

Regards,

Juan.

Cc: Chee Theng <theng@smenet.org>

I have copied the Journal staff contact, Chee Theng. So long as the paper is cited I cant imagine a problem.....

Many congratulations, Juan! Yes, please feel free to include the article in your dissertation as long you cite it (citation as follows): 😊

Monsalve, J.J., Pfreunds Schuh, A., Soni, A. et al. Automated Discontinuity Extraction Software Versus Manual Virtual Discontinuity Mapping: Performance Evaluation in Rock Mass Characterization and Rockfall Hazard Identification. *Mining, Metallurgy & Exploration* 38, 1383–1394 (2021). <https://doi.org/10.1007/s42461-021-00416-9>

Thanks so much, Tara! You are right, as usual! 😊

Wishing you all a healthy and safe week ahead!

Take care,

Chee
