COUNTY AGENT WORK

Annual Narrative Report of Dinwiddie County.

1923

A. W. Pogram, Local Agent.

Thos. B. Adams
District Agent

Table of contents.

Status of County Extension Organization

- (1) Advisory Board made up from leaders of community clubs in each magisterial district.
- (2) Community Clubs conveniently located so that the people can cooperate with the agent in carrying out the Program of Work.
- (3) The Advisory Board and clubs at times work together with other organizations for the good of all.

Club Boys

Made up of boys working crops with instructions from the Agricultural Extension Department and under the supervision of the county agent.

Progress Record.

Advisory Board good condition 3 meetings held.
Community clubs (11); organized 1 more member ship 350 net
including the new one.
County farmers conference: conference was held August 4th.
Club boys outing; was held Sept. 2nd.

Summary of Adult demonstrations.

Worked planned	Work accomplished.
1 Corn 14 demonstrators	14 demonstrators reporting
2 Oats 4 "	2 "
3 Soy Beans 4 "	3 "
4 Cotton 2 "	2 "
5 Poultry 10	10 "
6 Sanitary houses (2) to be built (3) were built	
7 Homes to be whitewashed (12) 25 homes whitewashed	
8 School grounds to be improved (1) school grounds improved 1	
9 Delegates to Hampton Farmers Conference (2) secured 4 delegates for Hampton Farmers Conference.	
10 Community clubs to be organized (2) clubs organized 1.	
11 Tours to see demonstrations, (1) tour conducted .	
12 To assist farmers in cooperative marketing (2) clubs organized to help them.	

Club Boys Project.

13 Corn demonstration	20	secured 30 who reported
14 Tobacco	10	" 7 "
15 Pigs	4	" 2 "

County Extension Organization.

Advisory Board.

Our county organization consists of an Advisory Board made up of leading farmers from the 4 magisterial districts, the board cooperating with the agent in the controlling force in all the activities put over in the county. It fixes the dates for principal events and directs all uplift and forward movements, as county fairs, farmers conferences, selects delegates to attend conferences held out of the county, distributes Xmas Seals for the T.B. Work, helps the county agent to select demonstrators and collect data for the "Clean up Work" and etc.

Community Clubs.

Our 11 community clubs in the county are in good working condition, having a membership of 380, cooperation between them and the Advisory Board resulted in sending 4 delegates to the Hampton Farmers Conference a side from other acts of helpfulness.

The clubs with the agent cooperating effected the sale of \$ 10.00 worth of Xmas seals for the T.B. Work.

One new club was organized this year and in addition to this (5) Tobacco Growers locals which have linked up with the clubs to advance the cause of Extension Work.

Tobacco locals must be confused with Community clubs.

Club Boys.

There are 3 clubs in the county and through these and the agent cooperating, ~~part~~ interest is kept up in the work. In these clubs are 41 boys and games have been taught them at their meetings, and 180 other boys besides; 14 boys exhibited at the State and Tidewater fairs, and an outing was given them on September 2nd.

In the rat campaign contest the club boys led the charge and strange to say the 5 prize winners in the 10 colored schools taking part were club boys.

Farmers Conferences.

Conferences afford opportunities for farmers to get acquainted with each other, exchange ideas with each other, discuss plans, methods and compare results in the various ways of doing things conferences through well laid plans lead on and up from discussion to cooperation and marketing & etc. and point the way to progress. Dinwiddie sent off 4 delegates to attend the Hampton Farmers Conference held in July.

The county farmers conference was held on August 4th. and was interesting and helpful from start to finish. 75 interested farmers turned out with their families and after listening to an able and helpful address from our District Agent Mr. T. B. Patterson proceeded to discuss different phases of our work until late in the afternoon.

County Tour.

It was thought advisable by our supervising force of Extension Workers to have a few leading farmers in one part of the county go see what farmers are doing in the other part or parts of the county. One trial here by the county agent proved the scheme to be helpful as it injects new life into the work. *With what results? Where was the time made &*

Cooperative Marketing.

In consideration of the difficulties encountered, the burdens borne and the economic discriminations made against the farmer, in that he pays the other fellow the price asked for his goods and is forced to sell or dump his farm products upon the market, whether he gains or loses, or returns home 80- 90 out of these chaotic depressing and unjust conditions has come cooperative marketing organizations to bring a new freedom to the farmer that will in the near future make rural life worth while.

The manner in which the coops are making themselves felt is by coming together pooling their various farm products, and waiting for them to advance to living prices. In connection with the Tobacco Growers Association, (2) were colored locals were organized with in the county this year making a total of (3) colored locals in the county one local has 60 members. On May the 25th. the Grubby Road local with 2 others cooperating gave a picnic and outing which was attended by 1000 people of which half was white, 10 new signers were recorded and 25 pledges made. Among the notable visitors and speakers at the picnic were two District Agents Messrs Farrer and Patterson, Mr. Thomas, President of the Dinwiddie Tobacco Growers Association. Mr. Joe Bollinger, County Agent .

Mr. R. Young member Board of Supervisors and many others.

5

Adult Corn Demonstration.

Here we stress the economic end, food supply and safety first idea. We contend that the essential factors in making of a good money saving corn crop, are fertile soil, extension cultural methods, good seed, conservation of moisture, proper use of commercial fertilizers and keeping down weeds. At the beginning of the extension work here the colored farmers averaged 12 bus. per. acre, the average now is 18 bus. per acre, while that of the demonstrators is 38 bus. per. acre. Each demonstrator used pure bred seed corn this year. Garfield Morgan of Dewitt # 1. will make 450 bus. on 10 acres. (One of his boys, a member of the club won a prize at the Tidewater Fair, Morgan says he is glad his boy came along in time to get this valuable training as he feels sure it will make him a stronger farmer than he would be otherwise.)

Boys Work.

statement belongs with club work

Address

We had 30 boys working corn each had pure bred corn and an acre in his plot. Good seed is becoming so popular with the boys that when one joins the club he haunts his father until he gets a his corn. One boy Besse Branch whose corn suffered much from drought says that he has selected and put away his seed to try it again next year, because what other boys can do he can also.

The 30 boys made 960 bus of corn, the largest yield was made by Rufus Tucker of Dewitt # 1, which was 45 bus. on his acre.

Oats (hay)

We secured 2 demonstrators who grew oats for hay and made exceptionally good yields. Demonstrator Besse Tucker, of Dewitt # 1. made an average yield of 1800 lbs. per. acre on his 4 acre plat. *How did he do it?*

Soy Beans.

We are stressing the growing of this crop to increase our feed & supply. We recommend the growing of this crop in rows so as to allow them to be fertilized and cultivated. We had 4 demonstrators in this line of work and 3 reported. Samuel Walker of Carson # 1, besides making 4 tons of hay on his 3 acre plat will have 25 or more bus. of seed that he saved to sell.

How did he treat soil to get results,

Cotton.

The presence of the Boll weevil in the South and approaching world shortage of this product has attracted the attention of the Extension workers to aid in its increase in whatever way we can. We stress the selection of good seed and same to be planted in May in rows 3 1/2 x 4 ft. a part worked by extension cultural methods. We had 2 men doing this work, one demonstrator made an average of 1000 lbs. on 5 acres. FARMERS IN eastern Dixie are planning to decrease acreage in tobacco and increase in cotton 1924.

How was he?

Boys Work.

Tobacco.

This work was done by club boys who work with their parents in growing tobacco. We find a splendid opportunity to help the boys here as many parents will let the boys sell their tobacco when they would keep or forbid the selling of the corn off their plats.

We have 7 boys growing 1 acre each in this line of work total value of the crop grown by these boys is \$ 1200 there are 10 club boys working with us who have money in the bank and 7 of these are tobacco boys.

How much money have they? Blank.

Pigs.

We had 4 boys to enroll for this work 2 dropped out because they could not get their pigs in time two are holding on with pigs in good condition.

Not definite

Poultry.

Our object for trying to develop this line of work was for the elimination of the mixed breeds, and development of a pure one, with a view of producing eggs to build up a cooperative marketing association in the near future.

After recognizing the Barred Plymouth Rock the chicken approved by the county live stock association, we set about and located a farmer who was in a position to fill orders cast by the agent for farmers from time to time, in egg lots of 16 per setting.

We were fortunate enough to distribute 30 settings of eggs in various communities, and of these only 24 eggs were lost, all others hatching.

orders are now on record for next Spring settings and the movement goes on. We had 2 culling demonstrations in the county this year eliminating 50 hens out of 2 lots of 120. We also treated one flock of 90 with Sodium Fluorid for lice. 3 cockerels were placed this year interanal improvement made on (3) modern houses built under supervision of the agent, with 4 calls on record for modern poultry houses. Demonstrator Everitt Lewis of Dinwiddie # 1, says that before he cast his order with us that he did not believe in the pure breeds but now he does he says that he always gets more for them on the market and has begun to get rid of his mixed breed

Pruning

Factors considered are height of tree, length of limbs, conveniences for sunlight and air, eliminating water sprouts, and limbs that cross one another dead limbs and etc. and thus make fruit bearing profitable in the execution of our plan of work we secured 2 men who pruned 124 trees. Besides these we were able to get 6 other farmers to do pruning the agent pruning 1 or more trees and the others by the farmers. One of our men an invalid who relies mostly upon his orchard for a living says that since he has had his pruning done through us his orchard receipts have increased 100 per cent.

Farmstead Improvement.

a. In our plan of work 2 sanitary houses were included and 3 were built with the agents help, 6 others under agents influence.

b 12 houses were to be whitewashed 25 houses whitewashed.

c. From compiled statistics resulting from a questionnaire sent out to local clean up campaign chairman I submit the following data. Houses painted 13, houses whitewashed 45, walls cleaned 28 toilets built 6, general cleaning 254, houses screened 36,

d. In the "T.S." movement for conservation of health \$ 10.00 worth of xmas. seals were sold by the agent and turned over to the county chairman.

e. In the campaign against rodents 24 meetings were held, 1200 people reached, 11 communities visited, 10 colored schools took part, 8 prizes won, 2900 rats killed, 400 lbs. Barium Carbonate distributed.

State or District Supervisor.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results secured (including assistance rendered by subject-matter specialists). The making of such a report is of great value to the county extension agent and the county people in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support. This blank form covers simply the statistical phases of the report, and should be supplemented by a full report in narrative form.

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results secured under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—distinctive features.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.
 - (a) Soils.
 - (b) Farm crops
 - (c) Horticulture } (including diseases and insects).
 - (d) Forestry
 - (e) Animal husbandry } (including diseases and pests).
 - (f) Dairy husbandry
 - (g) Poultry husbandry
 - (h) Rural engineering.
 - (i) Rodents, predatory animals, and birds.
 - (j) Agricultural economics—including farm management marketing, etc.
 - (k) Foods and nutrition.
 - (l) Clothing and millinery.
 - (m) Home health and sanitation.
 - (n) Household management and home furnishings.
 - (o) Community activities—other than those included under subject-matter headings.
 - (p) Miscellaneous.
- V. Outlook and recommendations, including suggestive program of work for next year.
- VI. Summary of activities and accomplishments in paragraph form, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if it is desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations may be of methods or of results.
Under method demonstrations include lecture demonstrations, practicums, etc., such as demonstrations of canning methods, home-mixing fertilizers, poultry culling, dress-form making, and the like, all involving short periods of time.
Under result demonstrations include demonstrations in which a substantial period of time is involved, records of results kept, and comparisons made, as in a child-feeding demonstration, corn-culture demonstration, pasture-improvement demonstration, and the like.
5. A DEMONSTRATOR is an adult or junior who, under the direction of the extension service, undertakes to show in his community by example the practical application of an established fact, and who keeps records and reports on the same.
6. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
7. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions in advancing some phase of the local program of extension work.
8. A COMMUNITY CLUB is an organization of men, women, boys, and girls to further community interests and to promote community recreation.
9. AN OFFICE CALL is a visit or telephone call by a farmer, or other person, seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
10. A DEMONSTRATION MEETING is a meeting held to give, inspect, or further a demonstration.
11. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the extension agent in office in connection with extension work.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.
17. A FARMERS' INSTITUTE is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN EXTENSION OR NOTABLE SCHOOL is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. A SNOOK COURSE differs from an extension school in that it is held at the college or other educational institution and usually for a longer period of time.
19. RECORDS consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.

GENERAL ACTIVITIES.

Report only results of extension activities that are supported by records.

1. List below the names, titles, and periods of service of all county extension agents whose work is included in this report. 12
- A. W. Pagnani Local Agent 11 yrs. 6 mos.
(Name.) (Title.) (Period of service.)

2. Total number of communities in county where extension work should be conducted (a) Men 24 (b) Women _____ 2
3. Number of communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 16 3
4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program (a) Adult work Men 16 Women _____ (b) Junior work Boys 14 Girls _____ 4
5. What is the name of the county organization cooperating in extension work. _____ 5

- | | Men. | Boys | Women. | Girls. | Boys and girls. | Community. |
|---|------|----------------|--------|--------|-----------------|------------|
| 6. Number of clubs carrying on extension work. | | 0 | | | | 11 |

POTATOES, COTTON, TOBACCO, AND OTHER SPECIAL CROPS.
Report only results of extension activities that are supported by records.

Item.	(1) Irish potatoes	(2) Sweet potatoes	(3) Cotton	(4) Tobacco	(5) Other*
85. Number of adult result demonstrations started or under way.....	2		2		
86. Number of such adult demonstrations completed or carried through the year.....	2		2		
87. Acres involved in these completed demonstrations.....	9		9		
88. Increased yield per acre on demonstrations due to better practices.....	15 bu.	bu.	520 lbs.	lbs.	
89. Number of boys' and girls' clubs.....					
90. Number of members enrolled.....				7	
(a) Boys.....					
(b) Girls.....					
91. Number of members completing work.....				7	
(a) Boys.....					
(b) Girls.....					
92. Number of acres grown by club members completing.....		✓		7	
93. Total yield of crops grown by club members.....	bu.	bu.	lbs.	385 lbs.	
94. Total value of crops grown by club members.....	\$	\$	\$	1800	\$
95. Total cost of crops grown by club members.....	\$	\$	\$	220	\$
96. Total number of farms influenced by adult or junior extension work to adopt better practices relative to the growing of these crops (include demonstrators).....	101		2	94	
97. Acres of these crops involved in question 96.....	18		9	470	
98. Number of farms planting improved or certified seed.....	8			38	
99. Number of farms growing improved or certified seed for sale.....					
100. Number of farms treating seed for disease.....				40	
101. Number of farms spraying or dusting for diseases and insects.....	101			44	
102. Number of storage houses constructed this year.....					
103. Total capacity of these storage houses.....					
104. Number of crop improvement associations organized during past year at suggestion of extension service.....					
105. Membership in above associations.....					
[Use space below to include other important data relating to potatoes, cotton, tobacco, and other special crops.]		✓			

*Indicate crop by name.

†Report yield of cotton in pounds of seed cotton.

‡See footnote on page 7.

8-4075

HORTICULTURE.

Report only results of extension activities that are supported by records.

Item.	(4) Tree fruits.	(5) Bush and small fruits.	(6) Grapes.	(6) Market gardening, truck, and raising crops.	(6) Vegetable gardens.	(7) Flowers, shrubs, and home grounds.	
106. Number of adult result demonstrations started or under way							106
107. Number of such adult demonstrations completed or carried through the year							107
108. Acres involved in these completed demonstrations	✓			_____			108
109. Increased yield per acre on demonstrations due to better practices	bu.	qts.	lbs.	bu.	bu.		109
110. Number of boys' and girls' clubs							110
111. Number members enrolled	(a) Boys						111
	(b) Girls						
112. Number of members completing	(a) Boys						112
	(b) Girls						
113. Number of acres grown by club members completing							113
114. Total yield of crops grown by club members	bu.	qts.	lbs.	bu.	bu.		114
115. Total value of crops grown by club members	\$	\$	\$	\$	\$	\$	115
116. Total cost of crops grown by club members	\$	\$	\$	\$	\$	\$	116
117. Total* number of farms or homes influenced by adults or junior extension work to change practices relative to these crops (include demonstrators)							117
118. Acres involved in question 117				✓			118
119. Number of farms planting selected or improved stock or seed							119
120. Number of farms pruning							120
121. Number of farms thinning							121
122. Number of farms spraying or otherwise treating for diseases and insect pests		✓					122
123. Number of farms following other improved cultural practices							123
[Unspace below to include other important data relating to horticulture.]							

LIVE STOCK.

Report only results of extension activities that are supported by records.

Item.	(6) Horses and mules.	(7) Dairy cattle.	(8) Beef cattle.	(9) Sheep.	(10) Swine.	(11) Poultry.
138. Number of adult result demonstrations started or under way.....						138
139. Number of such adult demonstrations completed or carried through the year.....						139
140. Number of animals involved in these completed demonstrations.....						140
141. Total profit or saving on demonstrations resulting from better practices.....						141
142. Number of boys' and girls' clubs.....						142
143. Number of members enrolled.....					4	143
(b) Girls.....						
144. Number of members completing.....					2	144
(b) Girls.....						
145. Number of animals involved in club work completed.....				1	2	145
146. Total value of animals raised by club members.....	\$	\$	\$	\$	\$ 30	\$
147. Total value of products produced by club members.....	\$	\$	\$	\$	\$	\$
148. Total cost of such animals and products.....	\$	\$	\$	\$	\$	\$
149. Total* number of farms influenced by adult or junior extension work to adopt better practices, relative to live-stock production (include demonstrations).....					40	149
150. Number of animals involved in question 149.....					260	150
151. Number of farms assisted in securing pure-bred sires.....					4	151
152. Number of pure-bred sires secured.....					2	152
153. Number of farms assisted in securing pure-bred females.....						153
154. Number of pure-bred females secured.....						154
155. Number of farms securing pure-bred animals for the first time.....					2	155
156. Number of farms culling flocks or herds.....						156
157. Number of stallion, bull, ram, or boar circles, clubs, or associations organized during the year.....						157
158. Number of members in preceding circles, clubs, etc.....						158

LIVE STOCK—Continued.

Report only results of extension activities that are supported by records.

Item.	(4) Horses and mules.	(5) Dairy cattle.	(6) Dust cattle.	(7) Sheep.	(8) Swine.	(9) Poultry.
155. Number of breed associations or clubs organized during the year.						155
156. Number of members in these associations or clubs.						156
161. Number of cow-testing associations organized or reorganized during the year.						161
162. Number of members in these associations.						162
163. Number of farms not in associations testing cows for production.						163
164. Number of cows under test by such associations and individual farms.						164
165. Number of homes assisted in the making of better and cheaper.						165
166. Number of farmers feeding better balanced rations.						166
167. Number of farmers controlling insect pests.					24	167
168. Number of farmers testing animals for tuberculosis.						168
169. Number of animals tested.						169
170. Number of herds accredited this year for the first time.						170
171. Number of farmers vaccinating animals for blackleg.						171
172. Number of animals vaccinated.						172
173. Number of farmers vaccinating animals for cholera.						173
174. Number of animals vaccinated.						174
175. Number of farmers controlling other live-stock diseases.						175
176. Number of animals involved in question 175.						176
[Use space below to include other important data relating to live stock.]						

RURAL ENGINEERING.

Report only results of extension activities that are supported by records.

177. Number of result demonstrations started or under way	_____	177
178. Number of such demonstrations completed or carried through the year	_____	178
179. Acres or other units involved in those completed demonstrations	_____	179
180. Total profit or saving on demonstrations resulting from better practices	_____	180
181. Number of farms installing drainage systems	_____	181
182. Acres drained	_____	182
183. Number of farms installing irrigation systems	_____	183
184. Acres irrigated	_____	184
185. Number of farms constructing terraces or soil dams	_____	185
186. Acres on which soil erosion was so prevented	_____	186
187. Number of dwellings constructed according to plans furnished	_____	187
188. Number of dwellings remodeled according to plans furnished	_____	188
189. Number of sewage disposal systems installed	_____	189
190. Number of water systems installed	_____	190
191. Number of heating systems installed	_____	191
192. Number of lighting systems installed	_____	192
193. Number of farms on which buildings other than dwellings were constructed or remodeled according to plans furnished	_____	193
	(a) Barns _____	} 194 ✓
	(b) Hog houses _____	
194. Number of buildings involved in preceding question	(c) Poultry houses _____	
	(d) Silos _____	
	(e) Other _____	
195. Number of farms assisted in the care and operation of machinery (tractors, power sprayers, milking machines, etc.)	_____	195
196. Number of farms clearing land	_____	196
197. Acres of land so cleared	_____	197

RODENTS AND MISCELLANEOUS* INSECT AND ANIMAL PESTS.

Report only results of extension activities that are supported by records.

Item.	Rodents.	Other animal pests.	Insect-pests.	Other insects.
198. Number of result demonstrations started or under way				198
199. Number of such demonstrations completed or carried through the year				199
200. Number of acres in these completed demonstrations.				200
201. Total saving or profit on demonstrations resulting from better practices				201
202. Total number of farms adopting control measures	160			202
203. Number of acres involved	4890			203
204. Number of pounds of poison bait used	400			204
[Use space below to include other important data relating to rodents and miscellaneous insect and animal pests.]				
<i>(Rodents) See Narrative Report Farmstead Improvements pages 3, 4</i>				

AGRICULTURAL ECONOMICS.

Report only results of extension activities that are supported by records.

FARM MANAGEMENT.

205. Number of farm account books distributed		205
206. Number of farmers keeping records in such account books throughout the year		206
207. Number of farmers assisted in summarizing and interpreting their accounts		207 ✓
208. Number of farmers making changes in their business as result of keeping accounts		208
209. Number of other farmers adopting cropping, live-stock, or complete farming systems according to recommendations		209
210. Number of boys' and girls' farm account clubs		210
211. Number of members enrolled...	(a) Boys (b) Girls	211
212. Number of members completing	(a) Boys (b) Girls	212
213. Number of farmers advised relative to loans		213
214. Number of farm management and farm account schools held		214
215. Number of farmers assisted in keeping cost of production records		215
LABOR.		
216. Number of farmers making better use of labor		216
217. Number of farmers securing tractors, sprayers, milking machines, or other machinery to economize labor		217

* Do not include work reported under "Crop" and "Live Stock" headings.

† Indicate by name.

8-5075

AGRICULTURAL ECONOMICS—Continued.

Report only results of extension activities that are supported by records.

CREDIT.

218. Number of farm loan or other credit associations organized with assistance of extension service _____ 218
219. Membership in above associations _____ 219
220. Number of other farmers assisted in securing credit 4 _____ 220

MARKETING.

221. List below the cooperative marketing associations organized during the year upon suggestion or with counsel of the extension service. 221

Name of association.	Number of members.	Supplies and products handled.	Supplies purchased.		Products sold.	
			Value.	Saving.	Value.	Profit.
<i>West Paragon</i>	<i>26</i>	<i>Tobacco</i>				
<i>Little Hill</i>	<i>14</i>	<i>"</i>				
TOTAL.						

222. Number of other cooperative marketing associations in the county with which the extension service counseled or advised. 3 222
223. Number of members in such associations 60 223
224. Total purchases of supplies by associations included in question 223: (a) Value _____ \$ _____ 224
(b) Saving _____ \$ _____
225. Total sales of products by associations included in question 223: (a) Value _____ \$ _____ 225
(b) Profit _____ \$ _____
226. Number of farmers and housewives assisted by extension service in buying and selling through other channels than cooperative associations _____ 226
227. Total purchases of supplies by farmers and housewives included in question 226: (a) Value _____ \$ _____ 227
(b) Saving _____ \$ _____
228. Total sales of products by farmers and housewives included in question 226: (a) Value _____ \$ _____ 228
(b) Profit _____ \$ _____
229. Number of farms grading or standardizing products _____ 229

[Use space below to include other important information relating to agricultural economics.]

255 (259b). Number of such demonstrations completed or carried through the year.....									255 (259b)	
256 (260). Total amount preserved	(a) Quarts canned.....									256 (260)
	(b) Pounds dried.....									
	(c) Amount brined and cured.....	qts.	qts.	qts.	qts.	lbs.	lbs.			
	(d) Other.....									

Item.	Women.		Girls.
260.1. Number of quarts of jelly.....			260.1
260.2. Number of quarts of preserves.....			260.2
260.3. Number of quarts of pickles.....			260.3
260.4. Number of quarts of fruit juices.....			260.4
260.5. Number of quarts of vinegar.....			260.5
261. Total value of products prepared by club members.....		\$	\$ 261
262. Total cost of products prepared by club members.....		\$	\$ 262
263. Total * number of homes influenced by home demonstration work to adopt better practices relative to food preservation (include demonstrators).....			263

[Use space below to include other important data relating to food preservation.]

CLOTHING.

Report of results of extension activities that are supported by records.

267.1. Number of members enrolled Women _____
Girls _____ 267.1

Item.	CLOTHING.						Military.		Other.		
	Selection.		Construction and remodeling.		Renovation.		Women.	Girls.	Women.	Girls.	
	Women.	Girls.	Women.	Girls.	Women.	Girls.					
267 (271b). Number of result demonstrations started or under way.											267 (271b)
268 (272b). Number of such demonstrations completed or carried through the year.											268 (272b)
273. Number of garments and hats made by club members completing.											273
274. Number of other articles made by club members completing.											274
275. Total value of garments, hats, and other articles made by club members.	\$	\$	\$	\$	\$	\$	\$	\$	\$	\$	275
276. Total cost of garments, hats, and other articles made by club members.	\$	\$	\$	\$	\$	\$	\$	\$	\$	\$	276
277. Number * of homes influenced by home demonstration work to improve practices relative to clothing (include demonstrators).											277
280. Number of dress forms made according to instructions.											280

[Use space below to include other important data relating to clothing work.]

* See footnote on page 1.

† Estimate by name.

HOUSEHOLD MANAGEMENT AND HOME FURNISHINGS.

Report only results of extension activities that are supported by records.

298.1. Number of club members enrolled in household management and home furnishings (a) Women _____
(b) Girls _____ 298.1

Item.	(a) Budget and amounts.		(b) Equipment.		(c) Kitchen arrange- ment.		(d) Work planning.		(e) Furnishing and decorating.		
	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	
	289 (2925). Number of result demonstrations started or under way.....										
290 (2935). Number of such demonstrations completed or carried through the year.....											290 (2935)
294. Number of household furnishings made or refinished by club members completing.....											294
297. Total* number of homes influenced by home demonstration work to change practices relative to home management and furnishings (include demonstrators).....											297

301. Number of homes installing new equipment other than heat, light, water, and sewage systems (see Rural Engineering, page 24)..... 301

302. New equipment involved in question 301:

- | | |
|---------------------------------|------------------------------------|
| (a) Hand washing machines..... | (g) Kitchen cabinets..... |
| (b) Power washing machines..... | (h) Wheel trays..... |
| (c) Fireless cookers..... | (i) Iceless refrigerators..... |
| (d) Pressure cookers..... | (j) Electric or gasoline iron..... |
| (e) Hand sweepers..... | (k)..... |
| (f) Power vacuum cleaners..... | (l)..... |

[Use space below to include other important data relating to household management and home furnishings.]

HOME HEALTH AND SANITATION.

Report only results of extension activities that are supported by records.

281.1. Number of members enrolled	{(a) Women _____ (b) Girls _____}	281.1
281. Number of result demonstrations started or under way	_____	281
282. Number of such demonstrations completed or carried through the year	_____	282
283. Number of homes given instruction in home nursing and first aid	_____	283
285. Total * number of homes influenced by extension service to adopt better sanitary practices	_____	285
286. Number of homes installing sanitary closets or outhouses	_____	286
287. Number of homes screened	_____	287
288. Number of homes following other methods of controlling flies, mosquitoes, and other insects	_____	288

[Use space below to include other important data relating to home health and sanitation.]

RURAL ENGINEERING.

Report only results of extension activities that are supported by records.

177. Number of result demonstrations started or under way	_____	177
178. Number of such demonstrations completed or carried through the year	_____	178
187. Number of dwellings constructed according to plans furnished	_____	187
188. Number of dwellings remodeled according to plans furnished	_____	188
189. Number of sewage-disposal systems installed	_____	189
190. Number of water systems installed	_____	190
191. Number of heating systems installed	_____	191
192. Number of lighting systems installed	_____	192

[Use space below to include other important data relating to rural engineering].

HORTICULTURE.

Report only results of extension activities that are supported by records.

 106.1. Number of members enrolled in horticulture (a) Women _____
(b) Girls _____ 106.1

Item.	(a)		(b)		(c)		(d)		
	Tree fruits.		Bush and small fruits.		Crops.		Market gardening and raising crops.		
	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	
106 (1114). Number of demonstrations started or under way.									106 (1114)
107 (1125). Number of demonstrations completed or carried through the year.									107 (1125)
114. Total yield grown by club members.	bu.	bu.	bu.	bu.	bu.	bu.	bu.	bu.	114
115. Total value of crops grown by club members.	\$	\$	\$	\$	\$	\$	\$	\$	115
115.1. Number selecting and saving seed and stock.									115.1
122. Number spraying or otherwise treating for diseases or insect pests.									122

Item.	(a) 1		(a) 2		(b) 1		(b) 2		
	Part-year garden.		All-year-round garden.		Flowers, shrubs.		Planting to a plan.

122. Number spraying or otherwise treating for diseases or insect pests.									122

 [Use space below to include other important data relating to horticulture.]

POULTRY.

Report only results of extension activities that are supported by records.

130f. Number of poultry breeders' associations or clubs organized during the year _____ 130f
 130k. Total number of pembers enrolled in poultry work (a) Women _____ 130k
 (b) Girls _____

Item	Standard bred egg.		Standard bred fowls.		Males to improve stock.		Culling flock.		Using incubators.		Other approved equipment.		
	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	
130f (143f). Number of result demonstrations started or under way in securing _____													130f (143f)
130f (144f). Number of such demonstrations completed or carried through the year _____													130 144f

	Women.	Girls.	
144.1F. Total number in flocks _____			144.1F
144.1W. Total number of flocks culled _____			144.1W
144.2F. Total egg production _____			144.2F
144.2F. Number of pounds of dressed poultry sold _____			144.2F
144.2H. Number of pounds of dressed poultry used at home _____			144.2H
144.2L. Number of pounds of live poultry _____			144.2L
144.2Y. Number of pounds of live poultry sold _____			144.2Y
144.2Z. Number of dozens of eggs sold _____			144.2Z
144.2X. Number of dozens of eggs used at home _____			144.2X
144.2P. Number of dozens of standard bred eggs used for hatching _____			144.2P
144.2H. Number of standard bred fowls sold for breeding purposes _____			144.2H
144.2T. Total value of all fowls sold _____	\$	\$	144.2T
144.2T. Total value of all fowls used at home _____	\$	\$	144.2T
144.2A. Total value of all eggs sold _____	\$	\$	144.2A
144.2A. Total value of all eggs used at home _____	\$	\$	144.2A

[Use space below to include other important data relating to poultry work.]

MARKETING.

Report only results of extension activities that are supported by records.

211. Number of club members standardizing products for markets 211.1

	(a) Women _____	
	(b) Girls _____	

221. List below the cooperative marketing associations organized during the year upon suggestion or counsel of the home demonstration agent: 221

Name of association.	Number.	Number of members operating.	Supplies and products handled.						Products sold.		Number selling to merchants or customers.	Number selling through parents, part of expense.	
			Pounds of poultry.	Dozens of eggs.	Pounds of butter.	Pounds of vegetables.	Pounds of sausage, meat, etc.	Canned goods, preserves, etc.	Miscellaneous.	Value.			Profit.
Curb markets.													
Stall markets.													
Egg circles.													

[Use space below to include other important data relating to marketing.]

MISCELLANEOUS.

Report only results of extension activities that are supported by records.

Use this page to include work on any other agricultural and home economics project not included in the preceding pages, such as bookkeeping, basket making, and similar work, i. e. any other information that can be reported statistically and that will help to give a complete account of the year's work.

305.L Number of members enrolled in miscellaneous work: (a) Women _____ (b) Girls _____ **305.L**
