### COUNTY EXTENSION ORGANIZATION

The Halifax County Agricultural Advisory Council has been organized for four years and is purely an extension organization. Its membership is composed of the eight members of the Board of Supervisors, eighteen of the leading farmers representing different sections of the county, the county clerk, one banker, the editor of the county paper, and the two Smith-Hughes teachers.

The County Agricultural Advisory Council has worked with the agent wherever possible for the betterment of agricultural conditions in the County. The Civic Clubs and the county paper have helped the work by their support and encouragement.

### PLAN OF WORK

Much of the soil of Halifax County being well adapted to the growing of bright tobacco has put the county in what is commonly termed a one crop section. Some sections and some farmers have adopted a well diversified system of farming but the greater part of the county depends upon tobacco largely. As with most one crop sections soil washing and poor soil is altogether too common. Bright tobacco being a crop that does its best on a soil containing little organic matter and with most of the plant food from a commercial source has helped to deplete the soil, also. The plan that seems to work best here is to divide the farm according to soil types putting tobacco and crops that aid tobacco growing on the best tobacco soil. The portion of the farm less adapted to tobacco, luckily is most always better adapted to the growing of grass, grain and legumes and this is what the county agent and advisory council are advocating. With lime, legumes and a good crop rotation Halifax County soils are improved very rapidly.

Following is the plan of work made out at the beginning of the year with results accomplished.

Goals Established	Results Secured
BOY'S AND GIRL'S CLUB WORK	
10 Organized clubs	5 Organized
125 Members	58 Secured

#### PROJECTS

60 Corn	26 Members
20 Pig	32 "
20 Soybeans	0 "
10 Cotton	0 "
10 Calf	0 "
5 Bees	0 "

#### CLUB ACTIVITIES

60% Exhibit at county fair	35% Exhibited
1 County Rally	1 Was held
65 to State Short Course	2 Attended
100% Record books in	72% Turned in

#### LIVE AT HOME

Emphasize a live at home policy This was done.

#### AGRONOMY

Encourage the use of lime	22 Cars were used
Urge the use of good seed	Good increase
Promote better pastures	Was done where possible
Encourage the use of high analysis fertilizer.	Much was used
Conduct demonstrations with the use of lime, red and sweet clover.	20 Under way
Encourage growing soybean seed & Grew seed	

### AGRICULTURAL ENGINEERING

1 Terracing schools	1 Was held
Terracing demonstrations	106 Given

### HORTICULTURE

Encourage better gardens, better care of home orchards and the cultivation of more small fruits for home use. Much time was spent on this.

### POULTRY

Encourage the use of standard bred fowls, early hatching of pullets for winter layers, better feeding and housing.

This was done.

Build or remodel 10 poultry houses	16 Was built and remodeld
12 Calling demonstrations	18 Was held

### LIVESTOCK

Urge the production of more and better feed for livestock. This was done.

That each farm produce enough milk and butter for the individuals living on that farm. Some work was done.

That farmers produce more pork at a lower price per unit. Some work was done on this.

Encourage the use of purebred sires.

5 Bulls replaced	4 Replaced
6 Boars "	6 "
3 Rams "	5 "

### ORGANIZATIONS

Encourage farmers club work	Much work done
Conduct demonstrations with clubs	Largely done this way
To hold a get together day	This was done
Conduct a farm tour	Was not done

### SOILS

Twenty two cars of lime were used in the county this year. While this is a very small amount in comparison with what should be used, it is most twice as much as was used last year and there has been a steady gain each year for the last three years. Wherever lime has been used the agent has made it a point to see the users and stress their using it where legumes were to be seeded soon. In this way results that were easily measured were secured. In most instances red clover, alfalfa, sweet clover and soybeans were seeded on the limed fields. Due to dry weather in the spring clover yields were less than usual but demonstrators harvested from one to one and one half ton per acre on limed plots while unlimed plots yielded less than one half ton per acre. Soybeans yields were more than doubled on limed plots is the report from demonstrators. Many excellent stands of sweet clover have been secured where lime was used but in no case has a farmer reported a stand without lime.

#### WITH AND WITHOUT—DOES IT PAY?

These pictures show Mr. Ben Greenwood standing in different sections of the same field. One was limed the other was not.

Lime, legumes and a good crop rotation is the only hopes for getting much of the soil in Halifax County to where it will produce a paying crop of grain or hay.

### FARM CROPS

Too many fields are without cover crops during the winter months and the plant food washed and leached out exceeds the amount removed by crops many times. More fertilizer could be used profitably on grain and hay crops as demonstrations prove.

**CORN:** Corn demonstrations consisted of fertilization, cultural methods, seed selection and the use of better seed. The poorest crop of corn has been harvested this year in this section of any in many years due to the very unfavorable season. Low ground corn was washed away or ruined and on the uplands it was damaged by wind. In many instances it was hard to determine differences in yield on test plots. Reports gave 11 bushels increase on plots fertilized with 16% acid phosphate and sidedressed with nitrate of soda. Many farmers found out that corn cultivated level stood up as well or better than that ridged.

**WHEAT:** On the more sandy fields seeded to wheat Little Eed outyielded the larger grained varieties this year. Last year the large grained varieties gave the larger yield. On the clay soils V.P. I.No. 118 outyielded other varieties from 4 to 6 bushels per acre.

**RYE:** Demonstrations conducted with Abruzzi rye both as a cover crop and for seed during the past two years has practically driven other varieties from the county. Not only can Abruzzi rye be plowed down two weeks to a month earlier for tobacco but it supplies a greater amount of grazing for livestock during the winter and spring.

**SWEET CLOVER:** Demonstrations in sweet clover in most instances were very pleasing. Where good stands were secured an unusual amount of grazing was secured and the yield of hay was better than most other hay crops due to dry weather. Fields of from one to two tons per acre were secured. Where farmers failed to use lime and inoculate the crop was a total failure.

**RED CLOVER:** The agent has spent much time getting farmers to lime their land and then adopt a crop rotation with legumes. More farmers have chose to grow red clover once in three years than all other legumes. Native adapted seed have been encouraged and largely used. One demonstrator reports that he got more clover from one limed acre than he did from nine other acres in the same field that recieved no lime.

**SOYBEANS:** One demonstrator reports a yield of thirty two and one half bushels of seed per acre of George Washington beans saved. This field was limed and cultivated in rows. All farmers cultivating beans for seed this year are well pleased with results secured. Soybeans harvested for hay have yielded well. On a field half limed and the remainder unlimed the limed portion yielded slightly more than two tons of hay per acre while the unlimed portion yielded slightly less than one ton.

**TOBACCO:** Due to unfavorable weather conditions and disease Halifax County farmers have the poorest crop of tobacco produced in many years. If there is any one crop that gets its share of attention it is tobacco and this year the majority of farmers in the county will recieve less than cost of production for their crop. Practically no farmers here except those that diversify will make any money this year. Demonstrations were conducted in seed treatment, fertilization and topping high and priming. The seed were treated for mild-mild and angular leaf spot but due to the appearance of a severe attack of growth spot it was hard to be certain of the results and farmers as a whole do not distinguish between the two. Fertiliser demonstrations showed little results as they were conducted on tobacco topped to cut and most of it diseased to the point that it was almost worthless. Tobacco topped high for priming diseased less and was worth much more than that topped low.

### HORTICULTURE

**PEACH TREES:** The peaches from a three year old demonstration peach orchard of one acre were sold for \$220.00. Farmers having peaches for sale that were not sprayed and well cared for could hardly sell them at any price. This soil and climate is well adapted to peach growing but it is necessary that the trees and fruit be well cared for as is the case in any locality.

**GRAPES:** An enormous crop of grapes was produced on demonstration vineyards. Fruit from demonstration plots sold for \$960.00 per acre.

**SMALL FRUITS:** Dewberries were sold at the rate of \$1000.00 for the berries from one acre. A few plots of strawberries and raspberries are being started as a commercial project.

### LIVESTOCK

**DAIRY CATTLE:** There has been a great increase in the number of farmers shipping sour cream to creameries within the last year. Farmers producing their own feed and having good poultry or hogs to consume the skim milk have found this a profitable sideline. The great needs for dairying in Halifax County is better dairy cows, better pastures and the production of more and better feed. Purebred dairy sires to breed to native cows is the most logical solution as the improvement.

**PIGS:** While there has been considerable increase in the number of pigs raised in this county while prices have been low there has also been much improvement in the stock kept. Six purebred boars were purchased in place of grade or scrub boars. Four farmers started purebred herds.

**SHEEP:** The number of sheep have increased steadily in the county for the last three years. Sheep have paid well. Demonstrations with sheep have been on stomach worm treatment, the

care, breeding and feeding of ewes and lambs for early market and the improvement of stock by the use of better rams. Some farmers have been interested in pooling their wool. Five purebred rams were secured for farmers during the year.

POULTRY: Twenty eight culling demonstrations were put on during the year. Twelve new houses were built including old ones remodeled, according to plans furnished by the agent. Mongrel farm flocks are slowly giving way to purebreds.

#### AGRICULTURAL ENGINEERING

TERRACING: The average yield of hay and grain on an acre basis is too low to be profitable or more than pay the cost of production. This condition has been brought about by soil washing largely. Cover crops would help this condition some. But the general productivity of the county is growing worse until washing is checked. In the soil improvement program for the county terracing is put at the top of the list for why improve the soil to be carried away by the streams. Farmers that have built good terraces are controlling excess drainage water in such way that it does little or no harm. Around 100 farmers constructed terraces during the year. In one community every farmer has his farm or a part of it terraced. First terraces, second lime and third adopt a systematic crop rotation with legumes and sufficient fertilizer carrying a high percentage of plant food per unit. Runoff water was put into one farm line during the year.

### BOY'S AND GIRL'S CLUB WORK

Seventy two per cent of club members turned in complete records. The pig club members had very good animals and cared for them well but due to unfavorable weather conditions corn club members got low yields. Wherever good local leaders were secured good club work was done. Where no local leaders could be secured little was done. This very important phase of extension work should receive more attention in Halifax County but there are so many important things to be done many have to be neglected.

### ADULT CLUBS

Five men's clubs in the county are doing exceptionally good work. These clubs have a good organization with officers that really get things done. Each club puts on an agricultural program during the winter months, that is they discuss and have outside speakers to discuss the best farming practices for their sections. After plans are discussed the greater number of the members proceed to carry them out. These communities are taking the lead in adopting improved practices in their communities. Most of these community clubs own a level for laying off terraces. These clubs have lead the thirty five other communities in the county by using double the amount of lime. That is these five communities have used double the amount of lime that the thirty five other communities have. And their progress in the use of good seed, diversified farming, terracing and other activities for progress is as marked. These clubs have a membership of 438.

### EXTENSION WORK FOR 1929

The county agent hopes to further develop the community plan of doing extension work by organizing more communities during the coming year. Halifax County has an area of 960 square miles and a population of 41,374 therefore the agent can reach the people only through group meetings.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Halifax  
Report of C. L. Hall County Team Demonstration Agent  
(Name) (Title)  
From December 1, 1927 to November 30, 1928.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

## SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

### NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

#### SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
  - (1) Form of organization—changes and development.
  - (2) Function of local people, committees, or project leaders in developing the program of work.
  - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
  - (1) Factors considered and methods used in determining program of work.
  - (2) Project activities and results.
 

<ol style="list-style-type: none"> <li>(a) Soils</li> <li>(b) Farm crops</li> <li>    { Horticulture</li> <li>(c) Home gardens</li> <li>    { Beautification of home grounds</li> <li>(d) Forestry</li> <li>(e) Rodents, predatory animals, and birds.</li> <li>(f) Animal husbandry</li> <li>    { Dairy husbandry</li> <li>    { Home dairy</li> <li>(A) { Poultry husbandry</li> <li>    { Home poultry</li> </ol>	}	(including diseases and insects).
---	---	-----------------------------------

## SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT—Continued.

## IV. Program of work, etc.—Continued.

## (2) Project activities and results—Continued.

- (a) Agricultural engineering.
- (b) Agricultural engineering—home.
- (c) Agricultural economics, including farm management and marketing.
- (d) Home marketing.
- (e) Foods.
- (f) Nutrition.
- (g) Clothing.
- (h) Home management.
- (i) Home furnishings.
- (j) Home health and sanitation.
- (k) Community activities.
- (l) Miscellaneous.

## V. Outlook and recommendations, including suggestive program of work for next year.

## VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

## STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

## DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
  - A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonym: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and culling of poultry.
  - A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child-feeding, soil-culture, and orchard-management demonstrations.
7. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
9. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
10. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
11. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.

**DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.**

17. A **FARMERS' INSTITUTE** is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN **EXTENSION OR MOVABLE SCHOOL** is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. AN **EXTENSION SMOKE COURSE** differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **RECOGNITION** consists of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARM OR HOME PRACTICE ADOPTED** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Example: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

**GENERAL ACTIVITIES.**

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report. 1

C. L. Hall	County Extension Agent	Fulltime
<small>(Name.)</small>	<small>(Title.)</small>	<small>(Periods of service this year.)</small>
Howard E. Cox	Asst. County Agent	Part-time

11. County association, if any, fostering extension work. 11

(a) Name _____	
(b) Number of members _____	

2. Number of communities in county where extension work should be conducted. 40 2

2. Number of above communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 18 3

4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program with— 4

(a) Juniors _____	6
(b) Adults _____	26

5. Number of clubs carrying on extension work: 5 5

(a) Junior _____	5
(b) Adult _____	5

6. Membership in above clubs: 6

(a) Boys' _____	55	(c) Men _____	212
(b) Girls' _____	3	(d) Women _____	

7. Number of club members completing: 7

(a) Boys' _____	41	(c) Men _____	32
(b) Girls' _____	1	(d) Women _____	

8. Number of members in junior club work for four or more years: 8

(a) Boys _____	
(b) Girls _____	1

\* Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the project enrollments reported on pages 6 to 21, less any duplications due to the same boy or girl carrying on two or more subject-matter lines of work.

\*\* Exclude those boys and girls enrolled in club work so reported under 6(a) and 6(b) who have finished the work undertaken on each portion of it as it was planned to finish during the report year.

## GENERAL ACTIVITIES—Continued.

9. Number of junior teams trained	(a) Judging _____	9
	(b) Demonstration _____	
10. Number entering college this year who may have been club members		5 10
11. Total number of farm visits <sup>1</sup> made in conducting extension work		717 11
12. Number of different farms visited		447 12
13. Total number of home <sup>2</sup> visits made in conducting extension work		42 13
14. Number of different homes visited		27 14
15. Number of calls <sup>3</sup> relating to extension work	(a) Office _____	73 15
	(b) Telephone _____	206
16. Number of days agent spent in office		57 16
17. Number of days agent spent in field		292 17
17½. Number of news articles prepared for press <sup>4</sup>		66 17½
18. Number of individual letters written		542 18
18½. Number of bulletins distributed		325 18½
19. Number of fairs at which extension exhibits were made	(a) Community _____	19
	(b) County _____	1
20. Training meetings held for local leaders	(a) Junior work _____	1
	(1) Number _____	17
	(2) Leaders in attendance _____	1
	(b) Adult work _____	21
	(1) Number _____	
	(2) Leaders in attendance _____	
21. Method and result demonstration meetings <sup>5</sup> held (do not include meetings reported in number 20)	(a) Number _____	289 21
	(b) Attendance _____	3522
22. Farmers' institutes held	(a) Number _____	
	(b) Number of sessions _____	
	(c) Attendance _____	
23. Extension schools <sup>6</sup> and short courses held	(a) Number _____	1 23
	(b) Attendance _____	72
24. Encampments held	(1) Number _____	2
	(2) Attendance by club/ (a) Boys _____	15
	members (b) Girls _____	14
	(3) Total attendance _____	
	(1) Number _____	
	(2) Attendance by club _____	
	members	
	(3) Total attendance _____	
25. Other extension meetings attended and not previously reported	(a) Number _____	25
	(b) Attendance _____	
26. Number of meetings at which were shown	(a) Lantern slides _____	
	(b) Motion pictures _____	
	(c) Charts _____	

<sup>1</sup> Do not count the same visit as both a farm visit and a home visit.<sup>2</sup> See definition on page 2.<sup>3</sup> Include county and State press, agricultural journals, and home magazines. Do not count items relating to notices of meetings only.

## PROGRAM SUMMARY.

List below information on each project of the program of work for the year. If an assistant agent has been employed during the year, include his or her time with that of the agent. This page should not be filled out until the questions on the following pages have been answered.

Title of project.	Number of non- member participants <sup>1</sup>		Days available helped.		Days spent devoted to project.

<sup>3</sup>Home and club work should be distributed among the proper subject-matter headings and not entered as a separate project.

## FARM-DEMONSTRATION WORK.

SOILS.<sup>1</sup>

Report only this year's extension activities and results that are supported by records.

45. Number of method demonstrations given. (See definition 6, page 3.)	63	45
46. Number of result demonstrations started or under way. (See definition 6, page 3.)	122	46
47. Number of result demonstrations completed or carried through the year	66	47
48. Number of acres involved in these completed demonstrations	294	48
49. Number of farms adopting improved practices in the use of commercial fertilizer this year	90	49
50. Tons involved in preceding question	450	50
51. Number of farms taking better care of farm manures this year	6	51
52. Number of farms using lime or limestone for the first time	148	52
53. Tons of lime or limestone so used	460	53
54. Number of farms plowing under cover or other green manure crops for the first time	42	54
55. Acres of cover and green manure crops so plowed under	130	55
55½. Number of farms adopting other improved soils practices this year. (Specify below.)		55½
56. Total number of different farms adopting improved practices, relative to the soils work reported on this page. (Include questions 47, 49, 51, 52, 54, and 55½ less duplications.)	277	56

<sup>1</sup> For drainage, irrigation, land clearing, and stumping see "Agricultural Engineering," page 18.

CEREALS<sup>1</sup>

Report only this year's extension activities and results that are supported by records.

Item	94 Corn	95 Wheat	96 Oats	97 Rye	98 Barley	(7) Other <sup>2</sup>	
57. Number of method demonstrations given	9	13	2	1			57
58. Number of adult result demonstrations started or under way	16	18	5	3			58
59. Number of adult result demonstrations completed or carried through the year	8	11	5	2			59

	(2) Girls					
78. Number of members completing	(1) Boys					78
	(2) Girls					
79. Number of acres grown by junior club members completing						79
80. Total yield <sup>3</sup> of crops grown by junior club members	bu. tons	bu.	bu.	tons	X X X	bu. tons
81. Number of farms planting improved seed for the first time				2	3	81
82. Number of farms practicing seed selection for the first time					3	82
83. Number of farms inoculating for these crops for the first time						83
83 <sup>1</sup> . Number of farms adopting other improved practices for the first time. (Specify below.)						83 <sup>1</sup>
84. Total number of different farms adopting improved practices relative to the legumes and forage crops reported on this page. (Include questions 73, 75, 81, 82, 83, and 83 <sup>1</sup> less duplications.)				7	6	84

<sup>1</sup> In three crop by season.<sup>2</sup> Indicate whether yield in bushels of seed or tons of cured forage.<sup>3</sup> States which do not organize clubs on a project basis should not report on this question but should report on enrollment and completion.

8-5128

## HORTICULTURE.

Report only this year's extension activities and results that are supported by records.

Item.	(4)	(5)	(6)	(7)	(8)	(9)
	Tree fruits.	Bush and small fruits.	Grapes.	Market gardening, small and raising crops.	Home gardens.	Demonstrations of home gardens.
100. Number of method demonstrations given.	14	2	3		14	6
101. Number of adult result demonstrations started or under way.	6	4	6		12	8
102. Number of adult result demonstrations completed or carried through the year.	3	1	3		12	4
103. Acres involved in these completed demonstrations.	4	1/2	2		X X X	X X X
104. Increased yield per acre on demonstrations.	10 bu.	80 qts.	500 lb.	bu.	X X X	X X X
105. Number of junior clubs <sup>1</sup> .						
106. Number of members enrolled.						
	(1) Boys.					
	(2) Girls.					
107. Number of members completing.						
	(1) Boys.					
	(2) Girls.					
108. Number of acres grown by junior club members completing.						X X X
109. Total yield of crops grown by junior club members.	bu.	qts.	lbs.	bu.	bu.	X X X
110. Number of farms planting improved stock or seed for the first time.	3	4	2		4	2
111. Number of farms pruning for the first time.	31	8	18			2
112. Number of units involved in preceding question.	620 trees	116 acres	54 acres	X X X	X X X	X X X
113. Number of farms spraying or otherwise treating for diseases and insect pests for the first time.	4	2	5		2	6
114. Number of units involved in preceding question.	6 acres	1/2 acres	1 acre	acres	X X X	X X X
114 <sup>1</sup> . Number of farms adopting other improved practices for the first time. (Specify below.)						
115. Number of farms adopting improved practices relative to the horticultural work reported on this page. (Include questions 102, 107, 110, 111, 112, and 114 <sup>1</sup> less duplications.)	33	10	22		15	11

<sup>1</sup> States which do not organize clubs or groups as a project basis should not report on this question but should report on enrollment and completion.

## FORESTRY.

Report only this year's extension activities and results that are supported by records.

116. Number of method demonstrations given	6	116
117. Number of adult result demonstrations started or under way	4	117
118. Number of adult result demonstrations completed or carried through the year	4	118
119. Number of acres included in these completed demonstrations	6	119
120. Number of junior clubs <sup>1</sup>		120
121. Number of members enrolled	(a) Boys	121
	(b) Girls	
122. Number of members completing	(a) Boys	122
	(b) Girls	
123. Number of acres handled by junior club members		123
124. Number of forest or woodland plantations established this year		124
125. Acres involved in preceding question		125
126. Number of farms assisted in forest management this year	7	126
127. Acres involved in preceding question	12	127
128. Number of farms planting windbreaks this year		128
129. Number of farms attempting to control white-pine blister rust for first time		129
130. Number of acres involved in preceding question		130
130 <sup>1</sup> . Number of farms adopting other improved practices for the first time. (Specify below.)		130 <sup>1</sup>
131. Total number of farms adopting improved practices relative to the forestry work reported on this page. (Include questions 118, 122, 124, 126, 128, 129, and 130 <sup>1</sup> less duplications.)	13	131

RODENTS AND MISCELLANEOUS<sup>1</sup> INSECT AND ANIMAL PESTS.

Report only this year's extension activities and results that are supported by records.

Item.	(a)	(b)	(c)	(d)	
	Rodents.	Other animal pests. <sup>2</sup>	Grasshoppers.	Other insects. <sup>3</sup>	
132. Number of method demonstrations given				57	132
133. Number of result demonstrations started or under way				28	133
134. Number of such demonstrations completed or carried through the year				23	134
135. Number of acres in these completed demonstrations				7	135
136. Total number of farms cooperating in control measures this year				102	136
137. Number of acres involved in preceding question				19	137

<sup>1</sup> States which do not organize clubs on a project basis should not report on this question but should report an enrollment and completion. 8-508<sup>2</sup> Do not include work reported under "Crop" and "Livestock" headings.<sup>3</sup> Indicate by name.

## LIVESTOCK.

Report only this year's extension activities and results that are supported by records.

Item.	(1)	(2)	(3)	(4)	(5)	(6) Other <sup>1</sup>
	Dairy cattle	Beef cattle	Horses	Sheep	Poultry	
136. Number of method demonstrations given	16	1	43	8	72	136
139. Number of adult result demonstrations started or under way	8	1	4	7	21	139
140. Number of adult result demonstrations completed or carried through the year	4	1	14	4	14	140
141. Number of animals involved in these completed demonstrations	12	1	112	366	1430	141
142. Total profit or saving on demonstrations	\$2,000.00	\$750.00	\$300.00	\$150.00	\$200.00	142
143. Number of junior clubs <sup>2</sup>			6			143
144. Number of members enrolled	(1) Boys		27			144
	(2) Girls		3			
145. Number of members completing	(1) Boys		22			145
	(2) Girls		1			
146. Number of animals involved in junior club work completed			23			146
147. Number of farms assisted in obtaining purebred sires this year	3	1	4	5	8	147
148. Number of farms assisted in obtaining high-grade or purebred females this year	2		4	2	54	148
149. Number of farms culling herds or flocks for the first time	2		6	5	28	149
150. Number of animals in such herds or flocks	73		14	344	1430	150
151. Number of animals discarded	5		8	146	700	151
152. Number of bull, boar, ram, or stallion circles, clubs, or associations organized during the year					X X X	152
153. Number of members in preceding circles, clubs, etc.					X X X	153
154. Number of breed associations or clubs organized during the year						154
155. Number of members in these associations or clubs						155

<sup>1</sup> Indicate by name.<sup>2</sup> States which do not organize clubs on a project basis should not report on this question but should report on enrollment and completion.

9-2246

## AGRICULTURAL ENGINEERING.

Report only this year's extension activities and results that are supported by records.

167. Number of method demonstrations given	187	167
168. Number of result demonstrations started or under way	112	168
169. Number of result demonstrations completed or carried through the year	42	169
170. Number of farms installing drainage systems this year	1	170
171. Acres drained	5	171
172. Number of farms installing irrigation systems this year		172
173. Acres irrigated		173
174. Number of farms constructing terraces or soil dams this year	77	174
175. Acres on which soil erosion was so prevented	750	175
176. Number of dwellings constructed this year according to plans furnished		176
177. Number of dwellings remodeled this year according to plans furnished		177
178. Number of sewage-disposal systems installed this year according to plans furnished	4	178
179. Number of water systems installed this year according to plans furnished	6	179
180. Number of heating systems installed this year according to plans furnished		180
181. Number of lighting systems installed this year according to plans furnished	1	181
181½. Number of farms following suggestions on maintenance and repair of machinery	4	181½
181¾. Number of farms employing better types of machinery recommended by extension agent	13	181¾
	(a) Cultivators	4
	(b) Plows	
	(c) Tractors and gas engines	
181½. Number of machines involved in question 181½	(d) Sprayers	6
	(e) Harvesters and threshers	2
	(f) Other <i>Seed Cleaner</i>	1
182. Number of farms on which buildings other than dwellings were constructed or remodeled this year according to plans furnished	11	182
	(a) Barns	1
	(b) Hog houses	2
183. Number of buildings involved in preceding question	(c) Poultry houses	5
	(d) Silos	
	(e) Other	
184. Number of farms clearing land of stumps or boulders this year	3	184
185. Acres of land so cleared	12	185
185½. Number of farms adopting other improved practices for the first time. (Specify below.)		185½
186. Total number of different farms adopting improved practices relative to the agricultural engineering work reported on this page. (Include questions 169, 170, 172, 174, 176, 177, 178, 179, 180, 181, 181½, 181¾, 182, 184, and 185½ less duplications.)	138	186

## AGRICULTURAL ECONOMICS.

Report only this year's extension activities and results that are supported by records.

## FARM MANAGEMENT.

187. Number of method demonstrations given.....	12	187
188. Number of farm-account books distributed this year.....	3	188
189. Number of farmers keeping records in such account books throughout the year.....	2	189
190. Number of farmers assisted in summarizing and interpreting their accounts.....	1	190
191. Number of farmers making changes in their business as result of keeping accounts.....	2	191
192. Number of other farmers adopting cropping, livestock, or complete farming systems this year according to recommendations.....		192
193. Number of junior farm-management clubs <sup>1</sup> .....		193
194. Number of members enrolled.....		194
(a) Boys.....		
(b) Girls.....		
195. Number of members completing.....		195
(a) Boys.....		
(b) Girls.....		
196. Number of farmers advised relative to leases this year.....		196
197. Number of farm-management and farm-account schools held this year.....		197
198. Number of farmers assisted in keeping cost-of-production records this year.....		198
199. Number of farms adopting other improved farm-management practices this year.....		199
199. Total number of different farms adopting improved practices relative to the farm-management work reported on this page. (Include questions 189, 190, 191, 192, 195, 196, 198, and 199) less duplications.).....	5	199

## CREDIT.

200. Number of farm-loan or other credit associations organized this year with assistance of extension service.....	200
201. Membership in above associations.....	201
202. Number of other farmers assisted in obtaining credit.....	202

## MARKETING.

203. Number of method demonstrations given.....	203
204. List below the cooperative-marketing associations organized during this year upon suggestion or with counsel of the extension service.....	204

(a) Name of association or group.	(b) Number of members.	Supplies and products handled.	Supplies purchased.		Products sold.	
			(c) Value.	(d) Savings.	(e) Value.	(f) Profit.
			\$	\$	\$	\$
<b>TOTAL</b>						

<sup>1</sup>States which do not organize clubs on a project basis should not report on this question but should report on enrollment and completion. 8-228

## AGRICULTURAL ECONOMICS—Continued.

Report only this year's extension activities and results that are supported by records.

205. List below this year's results in connection with the cooperative-marketing associations in the county previously organized and with which the extension service counseled or advised. 206

(a) Name of association or group.	(b) Number of members.	Supplies and products handled.	Supplies purchased.		Products sold.	
			(c) Value.	(d) Savings.	(e) Value.	(f) Profit.
			\$	\$	\$	\$
TOTAL						

205j. Total number of different farms adopting improved marketing practices (include entries for questions 204 (a) and 206 (b) less duplications plus other farms not in cooperative associations) 206j

## COMMUNITY ACTIVITIES AND MISCELLANEOUS.

Report only this year's extension activities and results that are supported by records.

Use this space to include work on any other agricultural project not included in the preceding pages, such as bee-keeping, and similar work; i. e., any other information that can be reported statistically and that will help to give a complete account of the year's work.

Item	(a) Bookkeeping	(b) Household	(c) <sup>1</sup>
206. Number of method demonstrations given	14		206
207. Number of adult result demonstrations started or under way	5		207
208. Number of result demonstrations completed or carried through the year	5		208
209. Number of units in these completed demonstrations	71		209
210. Number of junior clubs <sup>2</sup>			210
211. Number of members enrolled	(1) Boys		211
	(2) Girls		
212. Number of members completing	(1) Boys		212
	(2) Girls		
213. Number of units involved in junior club work completed			213
214. Total number of different farms adopting improved practices relative to the miscellaneous work reported on this page	5		214
[Use space below to include other important data relating to miscellaneous work.]			

<sup>1</sup> Indicate name over column.<sup>2</sup> States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

## HOME-DEMONSTRATION WORK.

## FOODS.

Report only this year's extension activities and results that are supported by records.

## FOOD PREPARATION.

- |   |                  |     |
|---|------------------|-----|
