AV Monographs

analyzes in each issue a theme related to a city, a country, a tendency or an architect, with articles by leading specialists complemented by commentary on works and projects illustrated in detail. Published bilingually, with Spanish and English texts placed side by side.

Arquitectura Viva

covers current topics, taking stock of recent trends in set sections: cover story, works and projects, art and culture, books, technique and innovation. From 2013 on, monthly and bilingual, with Spanish and English texts printed side by side.

AV Proyectos

is the third member of the AV family: a bilingual publication essentially focussed on design projects (with special attention on competitions and construction details), heretofore only laterally dealt with in the other two magazines.
