

## **Copyright Release**

Jier Yang Han

This document has been requested by the Signature Approval System hosted by the Virginia Tech Graduate School (<https://ess.graduateschool.vt.edu/>) and is submitted along with a PDF copy of my dissertation, “Generation of Multi-Scale Thermoplastic Composites for Use in Injection Molding and Fused Filament Fabrication”, in partial fulfillment of the requirements for the degree of Doctor of Philosophy in Chemical Engineering.

I, Jier Han, claim copyright protection for my Ph.D. dissertation, “Generation of Multi-Scale Thermoplastic Composites for Use in Injection Molding and Fused Filament Fabrication” (2020). In accordance with VT Graduate School requirements, I hereby grant to Virginia Tech and its agents the non-exclusive license to archive and make accessible, after one year, my thesis or dissertation [in whole or in part in all forms of media], now or hereafter known. I retain all ownership rights to the copyright of the thesis or dissertation. I also retain the right to use in future works (such as articles or books) all or part of this thesis or dissertation.
