NARRATIVE REPORT OF FRANK MICHAUX COUNTY AGENT.

POWHEATAN COUNTY VA YEAR 1923.

SURVEY OF COUNTY 1920 CENSUS

Total acres in County	174.720
Total acres in farms.	125.648
Per cent acres in farms.	72.6
Acres in cultivation and in orchards.	26.824
Population.	6.582
Principal crops. Tobacco corn wheat.	
Production. Tobacco. Acres 2.597 lbs	1.178.663
Corn Acres 11.930. bushels	227.624
Wheat " 4.519 "	56.477
Food and feed needed.	1.381.827
Food and feed produced.	1.540.716
Excess in food and feed.	158.889

ORGANIZATION.

One Advisory board assisting extension work, composed of nine members. These members are also the directors of the County fair.

The Tobacco, Growers Cooperative, Association have one County organization and eight white and four colored locals, cooperating with the County Agents. These organizations opened up an opportunity for carrying out more easily and efficiently the various extension projects undertaken by the County Agent, and I wish to express my appreciation to the members of these locals for the full cooperation and help given me in my work as County agent.

PROJECT. WORK.

Corn: Wheat: Tobacco: Alfalfa: Soy beans: Lime: Fertilizers:
Soil fertility: Club work.
Corn, Project.

In securing result demonstrations I was disappointed as moisture was the limiting factor in maximum yields of this crop. on account of the early drought, followed by seasonable growing weather caused a good deal of late maturing corn some of which is now in the shocks unmeasured, consequently accurate result reports on yields could not be obtained. The demonstrations where followed were very noticeable in both the growth and yield over ordinary practices, and these results are giving beneficial results in the communities in which they are carried on.

WHEAT. PROJECT.

Results of demonstrations where better preparation of seed bed: better seed and a more liberal use of fertilizer shows that the wheat yields can be increased atleast 40%.

TOBACCO.

GOAL.

QUALITY. RATHER THAN QUANTITY.

While tobacco plants were very scarce and seasons late for planting the weather condition following was ideal for growing the heavy type olive tobacco. These conditions helped cause my goal to be reached in quality rather than quantity; still there were other factors as the farmers that have been in the habit of using from five to eight hundred pounds of fertilizer per acre now using from eight to twelve hundred pounds and in most cases of a higher grade. This was largely brought about by the experiments carried on at our experiment stations.

The result of these experiments reached a large per cent of the growers through the County agent and the tobacco growers locals. By this piece of work I am satisfied that the County agent has saved the tobacco growers his salary many times over.

Food and Feed.

GOAL. Grow food and feed for the County's requirements.

This has been accomplished this year largely through the efforts the extension division, with the help of the local organization of the County. The early hay crop was a very light one. This caused a more determined effort in pushing the soy bean campaign, ^{resulting in} ~~which~~ a large increase in this crop, which was followed by the best of growing weather.

There are but a few farms that do not grow some soy beans

AGRICULTURE

ALFALFA.

My goal is to increase production each year.

While the acre increase is moving up each year; in the past year the yield was below normal, as the dry spell very materially reduced the yield of both the first and second cuttings.

Fertilizers.

Goal. To encourage the use of a higher grade fertilizers on all money crops: to purchase cooperatively for cash rather than through local agents on crop time. Home mixing when materials can be bought reasonably.

This is a long time project but rapid progress is being made, as very many more farmers paid cash for this years fertilizers than ever before, and they are using more high grade fertilizer than usual, and can see results. Those that home mixed are well pleased, and this at a big saving for the same amount of plant food of a known origin over ready mixed goods. One tobacco grower told me recently that the most profitable evening he ever spent was at a local meeting last Spring when he carried home a copy of a fertilizer formula for home mixing that I gave out at that meeting for dark fired tobacco. Said he followed instructions to the letter and can show the tobacco to prove results.

Club, Work.

GOAL. Thirty five or ~~forty~~ Club members.

RESULTS. Fifteen members.

Handicaps. Small Schools. sparsely settled population.
Parents cant spare suitable acre of land. Boy not satisfied with
medium or poor acre. Farmers put best land in tobacco.
Not interested in pigs account poor price of porc.
Results. Club work has put the red hog all over the County.

SOILS.

Object. To make every farm more productive.

This is also a long time program, but a start has been made and results are noticeable. Methods used are through community locals Circular letters, and word of mouth: the more liberal use of fertilizers: The more general use of lime and more legume and live stock: A well worked out rotation system.

Farm Crop demonstrations.

A few demonstrations in every community with better cultural methods, and improved seed. Campaigns for more alfalfa and soy beans, and other legumes.

Results. To show others in these various communities just what good farming methods over ordinary methods will do. This should prove both profitable and educational.

MARKETING.

The County agent has assisted in every way possible the Tobacco Growers Cooperative Association which is the only marketing agency in the county. I am forever working to help keep up the moral of the members and to keep the locals alive and encouraging more members to join with the results that this County is said to be one of the best signed up Counties in the State with good satisfied and loyal members.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS
SPECIAL EDITION

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, negro agent, etc., reporting on their respective lines of work.

State Virginia County Powhatan
Report of Francis Michaux County County Agent.
(Name) (Title)
From Nov 30th 1922 to Dec 1st, 1923.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results secured (including assistance rendered by subject-matter specialists). The making of such a report is of great value to the county extension agent and the county people in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support. This blank form covers simply the statistical phases of the report, and should be supplemented by a full report in narrative form.

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results secured under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—distinctive features.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.
 - (a) Soils.
 - (b) Farm crops
 - (c) Horticulture (including diseases and insects).
 - (d) Forestry
 - (e) Animal husbandry
 - (f) Dairy husbandry (including diseases and pests).
 - (g) Poultry husbandry
 - (h) Rural engineering.
 - (i) Rodents, predatory animals, and birds.
 - (j) Agricultural economics—including farm management marketing, etc.
 - (k) Foods and nutrition.
 - (l) Clothing and millinery.
 - (m) Home health and sanitation.
 - (n) Household management and home furnishings.
 - (o) Community activities—other than those included under subject-matter headings.
 - (p) Miscellaneous.
- V. Outlook and recommendations, including suggestive program of work for next year.
- VI. Summary of activities and accomplishments in paragraph form, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if it is desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations may be of methods or of results.
Under method demonstrations include lecture demonstrations, practicums, etc., such as demonstrations of canning methods, home-mixing fertilizers, poultry culling, dross-iron making, and the like, all involving short periods of time.
Under result demonstrations include demonstrations in which a substantial period of time is involved, records of results kept, and competences made, as in a child-feeding demonstration, corn-culture demonstration, pasture-improvement demonstration, and the like.
5. A DEMONSTRATOR is an adult or junior who, under the direction of the extension service, undertakes to show in his community by example the practical application of an established fact, and who keeps records and reports on the same.
6. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
7. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions in advancing some phase of the local program of extension work.
8. A COMMUNITY CLUB is an organization of men, women, boys, and girls to further community interests and to promote community recreation.
9. AN OFFICE CALL is a visit or a telephone call by a farmer, or other person, seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
10. A DEMONSTRATION MEETING is a meeting held to give, inspect, or further a demonstration.
11. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the extension agent in office in connection with extension work.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.
17. A FARMERS' INSTITUTE is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN EXTENSION OR MOVABLE SCHOOL is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. A SHORT COURSE differs from an extension school in that it is held at the college or other educational institution and usually for a longer period of time.
19. RECORDS consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.

GENERAL ACTIVITIES.

Report only results of extension activities that are supported by records.

1. List below the names, titles, and periods of service of all county extension agents whose work is included in this report.

Frank Maschows (Name) County Agent (Title) 11 years (Period of service.)

2. Total number of communities in county where extension work should be conducted (a) Men 9 (b) Women _____
3. Number of communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 4
4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program (a) Adult work _____ Men 4 Women _____ (b) Junior work _____ Boys _____ Girls _____
5. What is the name of the county organization cooperating in extension work Advisory Board

Men	Boys	Women	Girls	Boys and girls	Community
<u>7</u>	<u>1</u>				
<u>15</u>					

6. Number of clubs carrying on extension work _____
7. Membership 15
8. Total number of farm visits made in conducting extension work 337
9. Number of different farms visited 176
10. Total number of home visits made in conducting extension work _____
11. Number of different homes visited _____
12. Number of office calls* relating to extension work 192
13. Number of days agent spent in office 66
14. Number of days spent in field 241
15. Number of individual letters written 442
16. Number of different circular letters prepared and sent out 5
17. Total number of copies of each circular letters 596
18. Number of extension articles written by agent and published in local papers 4
19. Number of community buildings established _____
20. Number of rest rooms provided for use of rural people _____
21. Number of fairs at which extension exhibits were made: Community State County 3

4-2775

7
FARM DEMONSTRATION WORK.
SOILS.

Report only results of extension activities that are supported by records.

38. Number of result demonstrations started or under way	126	35
39. Number of such demonstrations completed or carried through the year	57	30
40. Number of acres involved in those completed demonstrations	347	43
41. Total* number of farms influenced by extension work to change practices relative to soil management (include demonstrators)	200 1520	41
42. Acres involved in preceding question	1520	43
43. Number of farms following advice in the use of commercial fertilizer	75	43
44. Acres involved in preceding question	300	44
45. Number of farms home-mixing fertilizers according to advice	12	45
46. Tons of fertilizer so mixed	14 (30)	46
47. Number of farms taking better care of farm manures	30	47
48. Number of farms using lime or limestone according to advice	25	48
49. Tons of lime or limestone so used	210	49
50. Number of farms plowing under cover or other green manure crops for soil improvement according to advice	200	50
51. Acres of cover and green manure crops so plowed under	1,000	51

[Use space below to include other important data relating to soils.]

23 does not include results demonstrations on treating it that nor lime demonstrations.

Cannot give result of demonstrations on tobacco as crop is not yet weighed. Some Corn demonstrations not yet getting ready for Soybean demonstrations reported. Most of this crop is used for forage and demonstrations are carried on more to learn the best variety for forage.

I cannot support by records questions # 41-42-43 44-47-50-51 but am furnishing conservative estimates

* This question includes the farms listed under questions 43, 45, 47, 48, and 50, but does not necessarily equal the total of those questions since not all soil practices that might be included in question 41 are listed and there are farms which adopt two or more new practices. This is also true of similar questions throughout this report.

CEREALS.

Report only results of extension activities that are supported by research.

Item.	(1) Corn.	(2) Wheat.	(3) Oats.	(4) Rye.	(5) Barley.	(7) Others.
22. Number of adult result demonstrations started or under way	28	22	1	3		
23. Number of such adult demonstrations completed or carried through the year	17	16	1	3		
24. Acres involved in these completed demonstrations	137	90	2	15		
25. Increased yield per acre on demonstrations due to better practices	16.1	8.9	15	8		
26. Number of boys' and girls' clubs	1

116. Total cost of crops grown by club members.	\$	\$	\$	\$	\$	\$	116
117. Total* number of farms or homes influenced by adult or junior extension work to change practices relative to these crops (include demonstrations).	5			/			117
118. Acres involved in question 117.				/			118
119. Number of farms planting selected or improved stock or seed.							119
120. Number of farms pruning.	60						120
121. Number of farms thinning.							121
122. Number of farms spraying or otherwise treating for diseases and insect pests.	4	/					122
123. Number of farms following other improved cultural practices.							123

[Use space below to include other important data relating to horticulture.]

No commercial orchards and very little interest in home orchards

LIVE STOCK.

Report only results of extension activities that are supported by records.

Item.	(A)	(B)	(C)	(D)	(E)	(F)
	Horses and mules.	Dairy cattle.	Beef cattle.	Sheep.	Pigs.	Poultry.
136. Number of adult result demonstrations started or under way.....						138
138. Number of such adult demonstrations completed or carried through the year.....						139
140. Number of animals involved in those completed demonstrations.....						140
141. Total profit or saving on demonstrations resulting from better practices.....						141
142. Number of boys' and girls' clubs.....						142
143. Number of members enrolled.....						143
	(a) Boys.	(b) Girls.				
144. Number of members completing.....						144
	(a) Boys.	(b) Girls.				
145. Number of animals involved in club work completed.....						145
146. Total value of animals raised by club members.....	\$ ✓	\$	\$ ✓	\$	\$	146
147. Total value of products produced by club members.....	\$	\$	\$	\$	\$	147
148. Total cost of such animals and products.....	\$	\$	\$	\$ ✓	\$	148
149. Total* number of farms influenced by adult or junior extension work to adopt better practices, relative to live-stock production (include demonstrations).....		6 ✓				149
150. Number of animals involved in question 149.....		425				150
151. Number of farms assisted in securing pure-bred sires.....		1			✓	151
152. Number of pure-bred sires secured.....		3				152
153. Number of farms assisted in securing pure-bred females.....						153
154. Number of pure-bred females secured.....						154
155. Number of farms securing pure-bred animals for the first time.....		3				155
156. Number of farms culling flocks or herds.....						156
157. Number of stallion, bull, ram, or boar circles, clubs, or associations organized during the year.....						157
158. Number of members in preceding circles, clubs, etc.....						158

LIVE STOCK—Continued.

Report only results of extension activities that are supported by records.

Item	(a) Horses and mules	(b) Dairy cattle	(c) Draf cattle	(d) Sheep	(e) Swine	(f) Poultry
139. Number of breed associations or clubs organized during the year						139
140. Number of members in these associations or clubs						140
141. Number of cow-testing associations organized or reorganized during the year						141
142. Number of members in these associations						142
143. Number of farms not in associations testing cows for production						143
144. Number of cows under test by such associations and individual farms						144
145. Number of homes assisted in the making of butter and cheese						145
146. Number of farmers feeding better balanced rations						146
147. Number of farmers controlling insect pests						147
148. Number of farmers testing animals for tuberculosis						148
149. Number of animals tested						149
170. Number of herds accredited this year for the first time						170
171. Number of farmers vaccinating animals for blackleg						171
172. Number of animals vaccinated						172
173. Number of farmers vaccinating animals for cholera						173
174. Number of animals vaccinated						174
175. Number of farmers controlling other live-stock diseases						175
176. Number of animals involved in question 175						176
[Use space below to include other important data relating to live stock.]						
<i>Farmers are so much interested in tobacco growing that it seems impossible to start any demonstration work with live stock.</i>						

RURAL ENGINEERING.

Report only results of extension activities that are supported by records.

177. Number of result demonstrations started or under way	_____	177
178. Number of such demonstrations completed or carried through the year	_____	178
179. Acres or other units involved in those completed demonstrations	_____	179
180. Total profit or saving on demonstrations resulting from better practices	_____	180
181. Number of farms installing drainage systems	_____	181
182. Acres drained	_____	182
183. Number of farms installing irrigation systems	_____	183
184. Acres irrigated	_____	184
185. Number of farms constructing terraces or soil dams	_____	185
186. Acres on which soil erosion was so prevented	_____	186
187. Number of dwellings constructed according to plans furnished	_____	187
188. Number of dwellings remodeled according to plans furnished	_____	188
189. Number of sewage disposal systems installed	_____	189
190. Number of water systems installed	_____	190
191. Number of heating systems installed	_____	191
192. Number of lighting systems installed	_____	192
193. Number of farms on which buildings other than dwellings were constructed or remodeled according to plans furnished	_____	193
194. Number of buildings involved in preceding question	(a) Barns	} 194
	(b) Hog houses	
	(c) Poultry houses	
	(d) Silos	
	(e) Other	
195. Number of farms assisted in the care and operation of machinery (tractors, power sprayers, milking machines, etc.)	_____	195
196. Number of farms clearing land	_____	196
197. Acres of land so cleared	_____	197

RODENTS AND MISCELLANEOUS* INSECT AND ANIMAL PESTS.

Report only results of extension activities that are supported by records.

Item.	Rodents.	Other animal pests †	Cross- bitten.	Other insects †
198. Number of retail demonstrations started or under way				198
199. Number of such demonstrations completed or carried through the year				199
200. Number of acres in those completed demonstrations				200
201. Total saving or profit on demonstrations resulting from better practices				201
202. Total number of farms adopting control measures	400	400		202
203. Number of acres involved				203
204. Number of pounds of poison bait used	200	200		204

[Use space below to include other important data relating to rodents and miscellaneous insect and animal pests.]

*Below figures result of Rat Campaign
600 lbs. arsenic barium carbonate distributed to farmers.
I presume this County Home Extension Agent reported results.*

AGRICULTURAL ECONOMICS.

Report only results of extension activities that are supported by records.

FARM MANAGEMENT.

205. Number of farm account books distributed				205
206. Number of farmers keeping records in such account books throughout the year				206
207. Number of farmers assisted in summarizing and interposting their accounts				207
208. Number of farmers making changes in their business as result of keeping accounts				208
209. Number of other farmers adopting cropping, live-stock, or complete farming systems according to recommendations				209
210. Number of boys' and girls' farm account clubs				210
211. Number of members enrolled	(a) Boys			211
	(b) Girls			
212. Number of members completing	(a) Boys			212
	(b) Girls			
213. Number of farmers advised relative to loans				213
214. Number of farm management and farm account schools held				214
215. Number of farmers assisted in keeping cost of production records				15 215

LABOR.

216. Number of farmers making better use of labor				216
217. Number of farmers securing traction, sprayers, milking machines, or other machinery to economize labor				25 217

* Do not include work reported under "Crop" and "Live Stock" headings.

† Indicate by name.

5-2929

HOME DEMONSTRATION WORK. FOODS AND NUTRITION.

Report only results of extension activities that are supported by records.

228.1. Number of members enrolled in food and nutrition work 228.1
(a) Women _____
(b) Girls _____

FOOD SELECTION.

Item.	Women.	Girls.	
229. Number of result demonstrations started or under way.			229
231. Number of such demonstrations completed or carried through the year.			231
231.1. Number of method demonstrations.			231.1
232. Total* number of homes influenced by extension service to serve better selected food (include demonstrations)			232
233. Number of homes using more fruits in the diet.			233
234. Number of homes using more green vegetables in the diet.			234
235. Number of homes using more milk and other dairy products in the diet.			235
237. Number of homes using more poultry products in the diet.			237
238. Number of homes using more unrefined cereal products in the diet.			238

[Use space below to include other important data relating to food selection.]

FOOD PREPARATION.

Item.	(a) Breakmaking.		(b) Meal preparation.		(c) School lunches.		(d) Other.....†		
	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	
239 (242b). Number of result demonstrations started or under way.									239 (242b)
240 (243b). Number of such demonstrations completed or carried through the year.									240 (243b)
245. Number * of homes influenced by home demonstration work to adopt better practices relative to food preparation (include demonstrators).									245
245.1. Number of schools influenced by home demonstration work to adopt better practices relative to food preparation (include demonstrators).									245.1

[Use space below to include other important data relating to food preparation.]

FOODS AND NUTRITION—Continued.

Report only results of extension activities that are supported by records.

CHILD FEEDING AND CARE.

Item	Women		Girls	
	Women	Girls		
247. Number of result demonstrations started or under way				247
248. Number of such demonstrations completed or carried through the year				248
250. Number * of homes influenced by home demonstration work to change practices in child feeding and care (include demonstrators)				250
251. Number of children involved in question 250				251

[Use space below to include other important data relating to child feeding and care.]

FOOD PRESERVATION.

Item	(a) Fruits		(b) Vegetables		(c) Meats and Fish		(d) Other †		
	Women	Girls	Women	Girls	Women	Girls	Women	Girls
