STATUS OF COUNTY EXTENSION ORGANIZATION

The Advisory Board which consists of 14 members is operating in order to assist in promoting Extension work. These members represent 8 magisterial districts. The board has held three meetings this year. At the first meeting two members were selected to meet the Board of Supervisors to ask that the annual appropriation of \$200.00 be made towards the support of Extension Work in the County. When the chairman saw the committee he said that if they had come to ask for an appropriation they need not ask, because it had already been made. It was made in January. At the last meeting members made report of improvement done in their respective communities, as a direct result of their influence which was as follows: 8 sanitary privies, 3 open front poultry houses, one new dwelling house, two new stables built; 4 homes remodeled, 7 houses painted, 12 houses whitewashed.

Mr. Jennings, who represents the Birch Creek District, invited the County Farmers' Conference for 1928 to the New Arbor Community. The Conference will be held at the New Arbor church, Paces, Virginia. The invitation was accepted.

On request made by the Home Agent, the County Supervisor gave \$10.00 to be used for prizes to women making the greatest improvement on home grounds in the special contest.

Through Home Makers and Home Demonstration clubs, Home makers and Community Leaders are trained in order that Home Surroundings and Community Development might be improved.

It is possible for such Community work to be done which is due to the friendly relationship which exists between the Extension Organizations and the School Improvement Leagues. This year these organizations bought a tract of land for a High School and paid \$280.00 cash for it. A committee of which the County Agent is chairman has raised \$90.00 on the building fund; \$5.00 for the Piedmont Sanatorium, Home Makers clubs donated \$10.00 to the County Training School on matron's salary.

FACTS CONSIDERED AND METHODS USED IN DETERMINING A PROGRAM OF WORK.

In order that a program of work be planned, it is necessary to study community needs and conditions. Create interest by making visits to churches, schools and homes. In each case explain what the Department of Agriculture and Home Economics is standing ready and willing to do. Examples are given of some farmer or farm woman or house keeper who has followed improved practices relative to farming, beautification of home grounds and surroundings, or house keeping. If pictures of result demonstration are available, they are shown. When sufficient interest has been aroused, either a Junior or a Adult club is organized. Junior Clubs adopt a Program that is planned for them. Adult clubs make a program that will best suit the needs of a particular community. This program is then adopted and submitted to the Advisory Board for their approval.

Extension Work should be conducted in 60 communities. It is being cooperatively worked out in 11 communities, through 11 Junior clubs and 3 adult clubs, with 8 leaders assisting. In these clubs are enrolled 144 girls, 28 women. 79 girls and 28 women completed their requirements for the year. 12 judging teams and 8 demonstration teams were trained and judged breads, canned goods, jelly, and sewing. Demonstrations were given in jelly making, bread making, canning, and sewing. 12 girls entered Higher Schools this fall. These girls planned to enroll in a canning club during summer months.

During this year I have made visits to homes in conducting extension work. These visits were made in 137 different homes. 291 farm visits were made to 174 different farms. 250 calls were made to office relative to Extension Work. 83 days were devoted to office work and 223 days devoted to field work. 18 news articles were published in order to help create interest, to report results of Advisory Board Activities, to boost Farmers' Conference, and to give a public report of all extension meetings and result of same. 331 individual letters were written in interest of Extension Work. 780 bulletins on Food Preparation, Food Preservation, Selection and Construction of Garments and Articles, Gardening, Home Management, and Community Organization have been distributed among our people. 5 clubs held community fairs. Members of each organized club exhibited at 1 County Fair. 136 method and result demonstration meetings were held with a total attendance of 1,126 numbers.

COUNTY FARMERS' CONFERENCE

500 farm men and women from 19 communities, representing 8 registrator Districts, met and held a Conference at the Bold Spring Church, with Mr. Joseph Crasley presiding. A discussion on Home Conveniences was entered into by farm women. They brought out the point that a more convenient water supply, a better lighting system, and better conveniences in the kitchen are necessary. The men's discussion was "Live At Home." Farmers present decided to try to raise more home supplies, feed for cattle, get rid of scrub cattle and hogs, and replace them with improved stock. Since the conference, Mr. James Palmer, and Charlie Robinson have purchased pure bred hogs. District Agent John L. Charity, gave an interesting address on "Why Pay Board For Your Hens." He demonstrated to the farmers that proper feeding and housing of Standard Bred Poultry Flock would increase the average egg production from 48 eggs per hen to at least 200 eggs per hen. Dr. J. H. Anderson, who is following Extension methods in carrying on a Poultry Demonstration, gave a report of his project which he started in May 1926. His report showed that he netted a profit and had 99 good laying hens, 100 broilers for spring sales, 200 two weeks old baby chicks, and 300 eggs in the hatchery. Corn Judging teams from Blackwalnut District, and Bannister District gave a demonstration in corn judging. Bannister District won 1st prize which was \$1.00, Blackwalnut District, second prize, \$.50. 300 useful things such as Certe, Setine, Softie, LaFrance, Sand-aid, Monite ointment, mentholatum, Johnson's baby cream, Baby Soap, Welch's Bathasweet, and Homepi, were distributed among people present. Conference adjourned after which dinner was served in Picnic Style. The conference was so enjoyed that Roanoke, Staunton, Bannister, and Birch Creek Districts asked for it in 1928.

5

SHORT COURSE

Girls representing four different clubs in four Districts, attended the Short Course at Hampton Institute, in August. These girls made a report of the most outstanding work that had been done in their clubs during the year. They were taught new songs and yells.

Hankins Hamilton, from the Co. Boston club gave a demonstration in making yeast breads. Bessie Tusk entered the Dress Making Contest, in which she made a dress. Other girls were given instructions in Poultry Culling, Canning, the care of the hair and scalp in order to have a healthy scalp, were taught how to make ornamental handkerchiefs. Each girl had a handkerchief to take home with her. Miss Lucy Jones from the school Library loaned to the girls and gave a demonstration in the Use Of Pictures. Educational Motion Pictures were shown on three nights. The Short Course closed with a Stunt Program which consisted of stunts from club members from the different Counties.

12

FAIRS

20 women made 67 exhibits at the State, County, and Tidewater fairs, and won 68 prizes which were valued at \$81.25. Mamie Roberts made 6 entries at the County Fair and won first prize on each entry. In each case where there were exhibits made by club women, they received first prize. Dr. J. A. Anderson, So. Boston, who started his poultry work last year exhibited two pallets and a pair of cockfolds at the Co. Fair and won first premiums on each. Halifax Exhibitors, sent to the State Fair 1944 were such that Mrs. M. N. Davis awarded the Co. Agent a \$10.00 gold piece.

187 4-H club girls made 148 exhibits at fairs, and won money prizes valued at \$130.00. 27 girls won \$42.00 at the State Fair. Mrs. M. N. Davis, State Agent, awarded the agent a \$5.00 gold piece for having the best 4-H Club exhibits at the State Fair.

Ella Marable, who is working at the hospital, exhibited at the state and county fairs, and won prizes at each. I returned her work to her at the Hospital when I went in four of the nurses were in the kitchen. They said, please let us see Ella's work. It certainly is good work. How do you get her to do such neat work? Her stitches are beautiful. We certainly want Ella to do some sewing for us. If she can sew as well as that, she certainly can make our uniforms. In December, Ella is going to begin making Nurse's uniforms, and I am going to see that they are well done.

One of the prize-winners mentioned above.

JUNIOR COUNCIL

A Junior council, which consists of all of the Junior clubs in the county was organized at the County Training School, on July 18, 1927. 28 parents and club leaders, and 59 club members were in attendance. The program consisted of songs, prayer, yells, reports from each club. Elaine West, So. Boston Club told the story of the Five Mill Fairies. Hankins Hamilton from the same club, gave a demonstration in making and baking yeast breads. Girtky Murphy, Blushing Grove Club, gave a demonstration in making apple jelly. She had small paper cups in which she passed samples of jelly to visitors for their criticism, and test. Bessie Tusk, Wall Mine Club gave a demonstration in laying patterns, and in using sewing machine attachments. Miss Cowling, representing the Singer Sewing Machine Company, Danville, conducted the Sewing Demonstration. Three sewing machines, which were lent us by the Singer Company, So. Boston, were in use. Three white Singer Sewing Machine Agents were present and they assisted us in every way possible. Mr. Leary, from the Hardware Store Halifax, lent us a new gasoline range that we used for baking bread and making jelly. Five cooking club girls prepared and served hot rolls, fried chicken, potato salad, lettuce and tomato. Mr. Edmond, from the So. Boston Ice Cream Company gave us 3 gallons of ice cream which was served free with the dinner. After dinner, the Bold Spring club and Wall Mine Club played base ball. Miss Cowling complimented the agent on having such an interesting meeting. She was especially interested in making rolls, because she did not know how to make yeast bread. We gave her the recipe that we use in our club work. She also asked me to let her know when the next meeting will be held so that she might attend. Principal Sykes and Mrs. Sykes spoke highly of the meeting and invited us to meet at the Training School Annually.

HOME DEMONSTRATION CLUB WORK

We have 25 women thoroughly interested in community and County Improvement. These women represent 3 clubs, in 3 different Districts. Last year there were 2 clubs with only 10 members. Any one of these women will assist in anything for the betterment of her community. So much so, that the pastor of the White Oak church said that when any good program, literary or financial, is carried out successfully, in his church, a club member is the leader.

(Adult)

FOOD PREPARATION

One woman visited the White Oak cooking club, one day and saw the girls prepare and serve some salads. She became quite interested and said that women needed to know how to make salads also. The next month 8 women met and enrolled for salad making, and vegetable cookery. One other adult group organized for the same thing. In the two clubs were enrolled 19 women. These women met 6 times with a total attendance of 52. They received 41 demonstrations and prepared and served 27 different salads and vegetables. Women used recipes 172 different times. 19 women completed and adopted improved practices in vegetable cookery.

Mrs. Mary Goods, Sutherland, Route 2, said that she did not remember ever having eaten lettuce, mustard greens, cabbage, or any leafy vegetable. Now she feels as though she cannot do without something green. Before she joined the club she ate only fried foods. She has a fall or winter garden in which she has lettuce, turnip greens, and collards. She wrote me last week that she had set out 200 cabbage slips. She said that before she became a club member, she had to take some kind of medicine every day. Now she does not need medicines, and feels better than she has felt for a long while.

(Junior)

Sensing a need of more salads and greens in the diet of our rural people it was decided to study their place and value in the family diet, using demonstrations of the making of many different salads. I planted a large patch of lettuce especially for use in my clubs, as so few of the girls raised lettuce. We made such salads which called for fruits and vegetables that are grown on most farms. We made plain lettuce, salad, potato water-cress, asparagus, green sweet pepper, radish, sliced tomato, stuffed tomato, onion and cucumber, shredded cabbage, grated carrot, left over cooked vegetables, apple and grape, and chicken salads. Each of the girls liked some one or two of the salads. Now, 66 girls are eating lettuce, when in the beginning only 2 girls liked it. Each club member has learned to make mayonnaise dressing, french dressing and cream dressing.

Rosetta Brooks, Route 3, So. Boston, said, " I make a salad once each week and every member in our family likes it. When there are left over vegetables, I combine them and use cream dressing with them. This saves me from cooking supper quite often, and keeps the family from eating so much meat. We do not throw away near so much food as we did before you came."

2 clubs prepared and served breakfast foods. 17 girls, at their last meeting said, " We eat cereal every morning, and drink cocoa instead of coffee. We drink either sweet milk or butter milk once every day." 9 of these girls carry a bottle of milk to school for their lunch.

FOOD PREPARATION CONTINUED

17 girls made yeast breads and held a Community Contest. Small prizes were awarded. Hankins Hamilton scored highest, which entitled her to enter the state contest which was held at Hampton Institute. She sent a pan of rolls and a loaf of bread. She won first prize which was \$10.00. Hankins also gave a demonstration in making Yeast Breads at the State Short Course at Hampton, last August.

Dr. Fuller in charge of the So. Boston Hospital, So. Boston, said, He wanted to congratulate the Agent on her work, as Ella Marealis, who was assisting with the cooking at the Hospital, makes the best bread he has ever eaten. He said he and his nurses can just enjoy eating the bread alone. Since Ella is working at the Hospital, I am giving her special training in preparing trays for the sick.

In 6 clubs 68 girls are enrolled. 63 completed their years work in cooking. 17 completed requirements in Bread Making. 63 girls are assisting with the family baking and cooking. 27 group meetings were held. 12 demonstrations given by agent. Recipes used at home 939 times, 10 meals were served by groups. 63 girls adopted improved methods of making breads and preparing and serving meals.

FOOD PRESERVATION

(Adult)

Some parents realize that eating suitable foods is one necessity in order to have good health. Since fruits and vegetables play such an important part, our club women decided to can a sufficient quantity to last from November 1st. through April, by using winter greens at intervals. These 19 families require 7,800 quarts of fruits and vegetables; 488 quarts of preserves and jellies, for 106 people.

They saved:

8,752	quarts of	fruits and vegetables		
1,085	"	"	"	jelly and preserves
61	"	"	"	fruit juice
232	"	"	"	pickles
1,519	pounds of	dried fruits and vegetables.		

The shortage in canned goods was due to the shortage in vegetables.

Mrs. Clara Stephens, Hickory Grove, who canned her first foods two years ago, reports that she is having excellent luck. Foods canned by club women already, make a good showing at the County Fair. Mrs. Stephens made an exhibit of 12 jars of fruits and vegetables at our county fair in October. Miss Sellie Davis, white District Agent Judged at our fair. When she saw the collection, she said, "This collection was canned by a club member. I can point out all of the work in here that was done by club members."

19 women enrolled in Food Preservation; 18 completed their requirements, and adopted improved methods of food preservation.

\$79.68 was cost of products canned \$640.00 value of goods.

CLOTHING
(Junior)

9 clothing clubs enrolled 94 girls with 79 completing their requirements.
38 first year members enrolled, 31 completed requirements
41 second " " " " 34 " " "
10 third " " " " 8 " " "
6 fourth " " " " 6 " " "

Certificates have been awarded those completing the 4th. yr. sewing.
89 meetings at which were given 641 demonstrations .
6 demonstration teams were trained. 10 demonstrations were given by members.

2 girls from Five Fork Club gave a demonstration in darning hose, and two from Hickory Grove gave demonstration in making a french seam, at the County Industrial Exhibit. Miss Butler, of the State College, heard these demonstrations and said that she thought they were well chosen, and that they were well given. She said if more people darned their hose, they would save money as well as look neater, and as the same holds true in the case of making french seams, that will hold the garments together.

Bessie Tuck, a third year club member entered the dress making contest at the Hampton Short Course. She made a rose colored linen dress with insets in the front. She bound the seams using the slider.
Bessie sent her dress to the State Fair and won first prize on it.
A community meeting was held at Virgilina. A short program was rendered, after which Bessie Tuck gave a demonstration in using singer machine attachments. She demonstrated the use of 5 attachments. Mrs. Lettie Brooks has 5 children to sew for. She said that she is very glad to learn some short cuts in sewing. She has had a machine for years, but had never had any one to show her how to use them. She said she did not know the names of the attachments, and perhaps never would have known if it had not been for the Home Agents.

Last year 12 clubs with 129 members had only 56 members to complete their work. They made only 364 garments. This year 79 girls completed work and made 89 dresses and coats, 151 undergarments, 228 other garments and articles. Mended 676 articles and garments. Cleaned 68 articles and garments. Remodeled 40 garments and articles.
The cost of articles and garments made was \$324.00
The value of " " " " is 664.00

A Patching Contest was held at the Hickory Grove Club among the members. To create interest, a prize was offered the girl mending the greatest number of garments and articles during the month of May. The smallest girl in the club, Dorothy Fringle, won the prize, which was a sewing box, containing 3 spools of cotton, a darning egg, 1 package of needles, and a pair of scissors. Dorothy mended 14 pieces. The total number of garments mended in the club was 72.

HOME MANAGEMENT

Through visits made to homes and by talking with women's husbands, two kitchen cabinets, one diamond iron, 6 kitchen stoves, have been placed in farm homes. Mr. Bates, Star Route, South Boston, ate dinner at my home one Saturday. On his return home he asked his wife why she did not prepare appetizing meals like the County Agent does. I told Mrs. Bates that I would answer his question the first time I saw him. I told Mr. Bates if he'd buy a decent cook stove and make a cabinet for his wife, he would have well prepared meals. Mr. Bates bought a large range, and made a kitchen cabinet. He seems to be perfectly satisfied.

7 different homes have adopted improved methods.

HOUSE FURNISHING (Adult)

Mrs. Jennie Tuck, Virgilina, lived in a log hut which had never been whitewashed or painted. She had one room down stairs, a kitchen, and an attic room. She was not able to build a better dwelling, and asked me to help her fix it up so that it would look better. First she white washed the house on the outside. Then she white coated the walls using a mixture of lime and white clay; The kitchen was papered with brown manila paper. Mrs. Tuck painted her two bed room floors, and covered her kitchen with linoleum. She bought one large rug for the down stairs room, bought 4 window shades; Made 2 pr. draperies, 3 pr. curtains, 1 heater. Her home is very neat and she likes for people to visit her so as to see the improvement. The cost of the improvement, was \$21.63

(Junior)

More has been done in room improvement this year than last. The enrollment increased from 14 members to 27 members, representing 4 communities. 23 girls finished what they set out to do, and adopted improved practices in house furnishing. 16 White Oak girls planned to make burlap rugs; 10 girls made them. Wood Grove, Wall Mine, and Bold Spring members planned to make house hold linens, rugs, finish floors, walls, and improve their kitchens. As a result of House Furnishing 24 bed rooms improved, 21 walls treated, 6 floors treated, 3 pieces of furniture bought, 9 pieces of furniture refinished, 29 draperies and linens made; 6 draperies and linens made over; 12 pieces of other furnishings improved. The cost of the improvement was \$21.00. The club members value their improvement as being a total of \$40.00.

Home Health

11

18 White oak girls became members of a Health Club in January and followed the following rules through the month of May: ate something green at least three times each week, drank milk daily, cleaned their teeth after meals, took out-door exercise, slept in ventilated rooms, and kept their bodies clean. 14 girls took special care of their hair. All of the members were examined by the County Nurse, Miss Colson. 14 girls measured up to Five Points in Health, and were awarded Health Certificates on May 2nd. at the celebration of Child Health Day.

Part of a health program that was sent to me from the State Health Department, coupled with folk dances, physical exercises, free-hand drills, tamborine drills, base ball games, and a Play Without Words was rendered at the County Fair Grounds on May 2, 1927. Three Four H. Clubs took part. All who took part in the festival, entered a parade, which consisted of 25 decorated cars, all of which were furnished free of charges. A four piece orchestra headed the parade. Club girls who presented the Health Play, carried placards bearing Health Rules that they had observed. Two representatives from the Health Department said that they thought the play was very good and suited to the occasion. The object of having the health celebration was to stimulate interest in observing health rules, and in improving health conditions.

A small fee was charged at the gate and receipts were used as follows:

1st. Baptist Mission Circle -----	\$18.00
High School Fund -----	5.00
Training School -----	10.00
Sanatorium Fund -----	19.10
On delegates expenses to Short Course -----	12.00
Total -----	\$1.00

SANITATION (Adult)

Mr. Charlie Robinson, representing the Hickory Grove Community, said that he wanted a sanitary toilet at every home in his community. Last year there were only two in the community. 5 were built this year. There are only 7 families in the community, which means 100% for Hickory Grove.

5 different homes have been screened for the first time. 150 different homes destroyed breeding places, kept foods put away where flies could not crawl over it, and sprayed, in order to be rid of flies.

Mrs. Clara Stephens, Route 1 Hickory Grove, reported that the cost of whitewashing her home inside and out, 2 new screen doors, and building a toilet was only \$4.00. She used timber from her place for the toilet, bought wire and strips for hinges, springs, nails & for the door.

RURAL ENGINEERING - HOME

3 new dwelling houses have been constructed in the Wood Grove Community according to plans furnished by Agent. 3 houses have been remodeled according to suggestions made by agent. One at Virgilina, One in the Zion Hill Community, One in the Wood Grove Community, and One in the So. Boston Community.

3 open front poultry houses have been built as a direct result of the demonstration given at the Farmers' Conference, by District Agent, John L. Charity.

10 homes have adopted improved practices relative to rural-engineering.

* 5-756, 28330

BEAUTIFICATION OF HOME GROUNDS

More Home-Grounds were beautified, and more whitewash used than in any previous year. This was due to a Contest that was held in the Bold Spring Community. Out of 24 families living in the Bold Spring Community, 22 beautified their home grounds, by cleaning, moving falling down buildings, arranging flowers, grading, whitewashing trees and fences, and sowing grass seeds. 2 people painted their houses, 8 whitewashed. The object was to improve the community so that farmers from other sections of the County could be inspired to do likewise. The County Conference was held in this community.

The deacons of the Bold Spring church, worked the road that leads from the highway to the church, they built a new bridge, graded and cleaned the church grounds. The women assisted with the work at the church and planted shrubbery and flowers at the school. With trees in 22 yards whitewashed, and yards cleaned, church and school grounds whitewashed, the mail carrier said that the Community looked like a White City. Prizes were given to those making the best improvement. The following pictures are of some of the prize winning homes. The Boston Lumber Company and the Ice Cream Company, each gave a barrel of lime towards this improvement. As a direct result of the Contest, Zion Hill cleaned 17 home grounds, remodeled 1 home, dug one well, cleaned and covered the church well, painted the church. Pleasant Grove whitewashed 8 homes, painted one; Wood Grove whitewashed six homes; Finney Grove whitewashed church grounds.

8 women enrolled and completed their work in Beautification of Home Grounds. 47 grounds were beautified, 16 method demonstrations were completed; 2 home grounds planted according to a landscape plan.

Halifax County

Pictures of improvements made during Home
Improvement Campaign

HOME GARDENS

Summer vegetables, such as string beans, beets, potatoes, peas, onions, carrots, butter beans, tomatoes, lettuce and corn were grown and cared for, by 29 girls representing 3 different groups. 12 girls submitted complete reports, and took sole charge of their parents' gardens. 32 method demonstrations were given by agent. \$.45 was spent for carrot and lettuce seeds. Other seeds were furnished by the girls' parents. The gardens were valued at \$105.00

1.8 girls have winter gardens for the first time.

Dorothy Fringle, Hickory Grove Community, prepared and served a meal to her club, which consisted of five different vegetables that grow in her garden. Mrs. Fringle said that her garden was in better shape last summer than formerly, which is due to thorough cultivation. Dorothy did not give grass a chance to grow. She worked the garden each week, until her vegetables were ripe. Then she kept the grass out by pulling it out for the pigs. Mrs. Fringle said that they ate more vegetables than usual, because her daughter was so proud of her garden that she gathered and prepared 3 vegetables every day for the mid-day meal. She has also started her people eating buttered carrots, creamed carrots, and grated carrot salad.

Miscellaneous

The graduating class of the County Training School decided to have baskets to carry their flowers in. We ordered 4 pounds of reed at \$.80 per pound, and \$1.00 worth of orange shellas. The class of 15 girls, each made a basket. Two girls also made wall baskets. These baskets, when finished were valued at \$31.50. The baskets costed only ~~\$4.00~~ \$4.20. Mr. Watkins, Superintendent of Schools in Halifax County, mentioned how well the class looked marching in with baskets of flowers. When he was told that the girls made them under the instructions of the agent, he was well pleased and said that the results were excellent, and he hope that the girls will do as well at teaching as they had done at making baskets.

Home Poultry

Two women have realized the advantage of having standard bred poultry and have placed orders for Barred Rock Cookfels at Hampton Institute.

SUMMARY (Adult Work)General Activities

12 judging teams trained
 6 demonstration teams trained
 291 farm visits made
 174 different farms visited
 362 home visits made
 137 different homes visited
 250 office calls made
 10 telephone calls

 53 days spent in office
 223 days spent in field

 15 news articles prepared
 331 individual letters written
 780 bulletins distributed

Exhibits made at one county fair and two state fairs

136 meetings held
 1126 attendance at meetings

 1 farmers' conference held
 400 persons attended

 1 State Short Course held
 8 attended from this county

 1 Junior Council held
 94 persons attended

 3 Home Demonstration Clubs
 25 members enrolled

Food Preparation

2 clubs enrolled 19 members
 19 completed yrs. work
 41 demonstrations given
 27 different salads prepared and served
 172 recipes used

Food Preservation

2 clubs enrolled 19 members
 19 completed their work
 6837 qts. of fruits, vegetables, jellies and preserves stored
 .51 qts. fruit juice, 232 qts. pickles, and 1,519 pounds of vegetables & fruits.
 \$79.00 was cost of products canned
 \$40.00 value of goods canned

5 poultry houses built according to plans
10 homes adopted improved practices in home poultry

Beautification of Home Grounds

5 sanitary toilets have been built
8 members enrolled for Beautification of Home Grounds
16 method demonstrations were given
47 home grounds have been beautified
17 houses ~~and~~ whitewashed
2 houses painted
1 school grounds planted 2 home grounds planted
2 church grounds graded and whitewashed
1 church painted

Home Poultry

2 pure bred cockerels have been purchased
3 homes adopted improved practices relative to Home Poultry.

Summary Continued (Junior)

Home Furnishings

4 clubs enrolled 27 members
 23 completed their work
 12 rugs were made (10 burlap and 2 rag rugs)
 22 bed rooms were improved
 2 dining " "
 2 kitchens " "
 6 floors were treated
 21 walls were either papered or white coated
 16 table runners, 11 pra. curtains and draperies, and 2 pra. pillow cases
 were made
 12 pieces of furniture were refinished

Cost \$20.00
 Value 34.00
 Profit 14.00

Home Health

1 club enrolled 18 members
 14 completed their work
 54 health demonstrations were given
 14 Health Certificates were awarded to members by County Nurse
 18 adopted the use of health score cards, good posture, prevention of colds
 18 good elimination, and 14 adopted care of teeth, hair, and skin.

Home Gardens

3 clubs enrolled 29 girls
 12 completed their work
 61 demonstrations were given
 10 different vegetables were grown in the gardens
 \$.45 was spent for seeds
 Gardens were valued at \$105.50
 Profit: \$105.05

Miscellaneous

1 club enrolled 15 members
 15 completed their work
 15 baskets were made

Cost: \$4.20
 Value: 31.50

COOPERATIVE EXTENSION WORK IN AGRICULTURE AND HOME ECONOMICS

U. S. Department of Agriculture
and State Agricultural Colleges
Cooperating

Extension Service,
Office of Cooperative Extension Work,
Washington, D. C.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Halifax
Report of Marian E. Snyder County Local Home Dem. Agent
(Name) (Title)
From December 1, 1926 to November 30, 1927
(Date) (Date)

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

READ DEFINITIONS, PAGES 3 AND 4

NEGRO EXTENSION WORK
HOME DEMONSTRATION WORK

Approved:

Date Nov. 30, 1927 L. G. Jenkins
State or District Supervisor.

Date Dec 9th 1927 M. M. Davis
State Highway Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. The report to the Washington office should be sent through the State extension office.

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—changes and development.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

<ol style="list-style-type: none"> (a) Soils (b) Farm crops (c) Horticulture Home gardens Beautification of home grounds (d) Forestry (e) Rodents, predatory animals, and birds. (f) Animal husbandry (g) Dairy husbandry Home dairy (h) Poultry husbandry Home poultry 	}	(Including diseases and insects).
---	---	-----------------------------------

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT—Continued.

IV. Program of work, etc.—Continued.

(2) Project activities and results—Continued.

- (i) Rural engineering.
- (j) Rural engineering—home.
- (k) Agricultural economics, including farm management and marketing.
- (l) Home marketing.
- (m) Foods.
- (n) Nutrition.
- (o) Clothing.
- (p) Home management.
- (q) House furnishings.
- (r) Home health and sanitation.
- (s) Community activities.
- (t) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMITTEE, for the purpose of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
 - A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonyms: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and culling of poultry.
 - A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child-feeding, crop-culture, and orchard-management demonstrations.
7. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
9. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
10. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
11. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economic information, as a result of which some definite assistance or information is given.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.

4

DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.

17. A **FARMERS' INSTITUTE** is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN **EXTENSION OR MOVABLE SCHOOL** is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. AN **EXTENSION SCHOOL COURSE** differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **RECORDS** consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARM OR HOME PRACTICE ADOPTED** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hick making.

GENERAL ACTIVITIES.

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report.

_____ Marion E. Snyder Local Home Dev. Agent 12
(Name.) (Title.) (Months of service this year.)

14. County association, if any, fostering extension work. 11

(a) Name County Advisory Boards 1
 (b) Number of members 14

2. Number of communities in county where extension work should be conducted. 2

3. Number of above communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 3

4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program with— 4

(a) Juniors 5
 (b) Adults 3

5. Number of clubs carrying on extension work: 5

(a) Junior 11
 (b) Adult 3

6. Membership in above clubs: 6

(a) Boys' — (c) Men —
 (b) Girls' 144 (d) Women 25

7. Number of club members completing: 7

(a) Boys' — (c) Men —
 (b) Girls' 79 (d) Women 25

8. Number of members in junior club work for four or more years: 8

(a) Boys —
 (b) Girls 6

*Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the project enrollments reported on page 8 and 9. See any explanations due to the same boy or girl carrying on two or more distinct summer lines of work.
 *Include those boys and girls enrolled in club work as reported under 4(a) and 4(b) who have finished the work undertaken on each portion of it as was planned to finish during the report year.

GENERAL ACTIVITIES—Continued.

9.	Number of junior teams trained	(a) Judging	8	9
		(b) Demonstration	12	
10.	Number entering college this year who may have been club members		-	10
11.	Total number of farm visits ¹ made in conducting extension work		-	11
12.	Number of different farms visited		-	12
13.	Total number of home ² visits made in conducting extension work		262	13
14.	Number of different homes visited		137	14
15.	Number of calls ³ relating to extension work	(a) Office	252	15
		(b) Telephone	10	
16.	Number of days agent spent in office		53	16
17.	Number of days agent spent in field		223	17
17½.	Number of news articles prepared for press ⁴		15	17½
18.	Number of individual letters written		331	18
18½.	Number of bulletins distributed		757	18½
19.	Number of fairs at which extension exhibits were made	(a) Community	5	19
		(b) County	1	
20.	Training meetings held for local leaders	(1) Number	-	20
		(2) Leaders in attendance	-	
	(a) Junior work	(1) Number	-	
		(2) Leaders in attendance	-	
	(b) Adult work	(1) Number	-	
		(2) Leaders in attendance	-	
21.	Method and result demonstration meetings ⁵ held (do not include meetings reported in number 20)	(a) Number	136	21
		(b) Attendance	1126	
22.	Farmers' institutes held	(a) Number	-	22
		(b) Number of sessions	-	
		(c) Attendance	-	
23.	Extension schools ⁶ and short courses held	(a) Number	-	23
		(b) Attendance	-	
24.	Encampments held	(1) Number	-	24
		(2) Attendance by club members	-	
		(3) Total attendance	-

TOTAL	X X X	X X X			

¹ The individual entries in this column should not exceed entry for question 2, page 4.

² The individual entries in this column should not exceed entry for question 4, page 4.

³ Boys' and girls' club work should be distributed among the proper subject-matter headings and not entered as a separate project.

8-524

FARM-DEMONSTRATION WORK.

SOILS.*

Report only this year's extension activities and results that are supported by records.

45. Number of method demonstrations given. (See definition 6, page 3.)	45
46. Number of result demonstrations started or under way. (See definition 6, page 3.)	46
47. Number of result demonstrations completed or carried through the year.	47
48. Number of acres involved in these completed demonstrations.	48
49. Number of farms adopting improved practices in the use of commercial fertilizer this year.	49
50. Tons involved in preceding question.	50
51. Number of farms taking better care of farm manure this year.	51
52. Number of farms using lime or limestone for the first time.	52
53. Tons of lime or limestone so used.	53
54. Number of farms plowing under cover or other green manure crops for the first time.	54
55. Acres of cover and green manure crops so plowed under.	55
55 $\frac{1}{2}$. Number of farms adopting other improved soils practices this year. (Specify below.)	55 $\frac{1}{2}$
56. Total number of different farms adopting improved practices, relative to the soils work reported on this page. (Include questions 47, 49, 51, 52, 54, and 55 $\frac{1}{2}$ less duplications.)	56

* For Design, Irrigation, Land clearing, and terracing see "Rural Engineering," page 16.

HORTICULTURE.

Report only this year's extension activities and results that are supported by records.

Item.	60	60	60	60	60	67
