PAGE 2

ORGANIZATION

We maintain an Advisory Board of Representative men from each Magisterial District in the County.

We have one Local Farmers Union, one Local Grange organization, a County Ruritan organization composed of 50% of its membership farmers and 50% Business and Professional men, and during this year we have organized a County unit of the Farm Bureau Federation, composed of about 100 members, all of which are functioning and give liberal support to the County Agent work.

We have in 4 H-Club work three organized clubs, one in each High School in the County. They meet regularly each month, usually with a good program.

We finished up the Triple A work from 1936, and put across with great success a Soil Conservation Program for 1936, consisting of 425 work sheets. The payments for these have not as yet come in. We are planning for the New Soil Conservation Program for 1937.

MISCELLANEOUS

There are multitudinous services rendered by County Agents, that are never put on record. Miscellaneous in Character, but of great value.

May I say the "Live at Home" program has proven its merits in practice as is evidenced by the great number of improved, all year gardens seen at practically every farm home, and the continued good supplies of poultry, hogs, and family cows every where.

PAGE 3

FIELD WORK

Surry County from both soil and climate conditions, is well adapted to a large variety of field crops such as small grains, Corn, Peanuts, Cotton, field peas, soy beans, truck and garden vegetables, also various hay crops.

This has been a year when weather conditions have been very favorable except about planting time, which was delayed because of an extreme dry spell, which helped to curtail acreages planted to cotton and peanuts, because of acreage reduction in these crops by the above conditions in addition to the reduction by the Soil Conservation Program. The price returns of farm commodities have been much better, and farmers are much more optimistic, because of better incomes from their years experience and operations.

We are successful growers of soy beans for both hay and forage crops for stock, thousands of acres are planted in, and without corn for these purposes each year.

Small grains such as barley, rye, oats, and wheat are planted in considerable quantities for winter grazing, and forage crops for hogs.

Considerable acreages of crimson clover is seeded in the fall in the fields, of small grain, and also considerable acreages of Lespedeza is seeded in the spring the same way for spring and summer grazing by livestock especially hogs.

Corn is a very necessary field crop and is grown on every farm in the county, and responds to treatment as well as any crop grown here.

PAGE 3 CONTINUED

While the yields do not compare with the corn belt of the west, yet yields of a hundred bushels per acre have been realized. Corn is not commercially grown but is a necessary crop for every farm.

Peanuts are recognized here as the principal cash crop, and is more largely grown than any other crop for that purpose. The production in this section was considerably reduced 1st. because of a curtail by the Soil Conservation Program, 2nd. because of an exceedingly dry spell in May and early June, when considerable acreage could not be gotten in order for planting. The price at mills started out at 5¢ per lb. for Virginia type peanuts, and in about fifteen to twenty days the market had fallen to 3½¢ per lb. When a meeting of representative farmers and Extension workers from five ^{peanut} growing states was called in Washington on November 16th, headed by Mr. A. E. Oneal, National President of the Farm Bureau, who drafted a plan to help stimulate the price by going before the Peanut Division of the U. S. Department of Agriculture and asking for an Oil Diversion price of 4½¢ per lb., on 60% meat content, the price trend began immediately to go upward until the market has reached its market price at the beginning and a little more.

PAGE 4

POULTRY AND LIVESTOCK

A flock of good poultry is a great asset to any farm home, contributing largely to the daily menu in eggs and fowl meat, and lots of eggs and poultry with which to buy many other household necessities, although they are not produced for commercial purposes.

This office force, has to do a great deal of detailed work with poultry, in advising to combat poultry diseases and parasites, and in culling flocks for better egg production, and eliminating the nonprofitable individuals.

This has been a large hog producing county, but since the triple A program the production has been greatly reduced, and partly because of the mortalities in pigs at pig producing periods.

Much of our time is devoted to the treatment of swine for parasites, and disease control: especially Hog Cholera and Hemorrhagic Septicemia.

PAGE 5

4 H-CLUB WORK

Our 4 H-Club work is in good shape with three good organized clubs, one in each of the three consolidated schools, with an aggregate of about 85 members. These clubs were reorganized at the December meetings. We did not get to do the visiting we would have liked to, much due to the over press of work and a full change of office force. My assistant, Mr. F. E. Williard was promoted to County Agent in Floyd County, then came back and married my secretary, and took her away. I was supplied in June with an Assistant, and employed a new secretary, and my regular routine was much disrupted, because of all the work being new to my office help.

We did fairly well in collecting club projects reports, and there appears to be considerable enthusiasm among our members for this year.

Quite a few exhibits were displayed at the County Fair, and won considerable premiums. We are looking forward to a better year for club work in 1937.

PAGE 6

THE SOIL CONSERVATION PROGRAM

The Soil Conservation Program notwithstanding the disruption in our office personnel as mentioned on the previous page, we put across a very successful program, under the Soil Conservation set up.

We had a corps of capable committee that cooperated splendidly, with 425 work sheets signed up, and the farmers have cooperated most whole heartedly, and while no financial returns has as yet been received in the County, we are expecting splendid returns to the people of the county who participated in the program.

STATISTICAL REPORT

We wish to submit also a statistical report in part as follows:

Days work in field-----	294 $\frac{1}{2}$
Days work in office-----	163 $\frac{1}{2}$
Days sick-----	8
Days Annual Leave-----	6
National Holiday taken-----	6
Farm visits made-----	645
Number farms visted-----	616
Phone calls-----	1147
Office visits-----	3013
Letters gotten out-----	2061
Circular letters-----	26
Number copies, estimated-----	8500
Articles for publication-----	37
Miles traveled-----	22048
4 H-Club Meetings held-----	38
Attendance on same-----	1655
4 H-Club Demonstrations-----	17
Adult meetings held and attended-----	81
Attendance on same-----	14,250
Cows treated-----	91
Horses and mules treated-----	59

PAGE 7 CONTINUED

Hogs treated, Cholera and Etc-----	4,037
Lambs treated-----	35
Hogs downed-----	130
Cows posted-----	02
Hogs posted-----	13
Poultry culled-----	2,969

COMBINED ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is for use by county extension agents in making a combined statistical report on all extension work done in the county during the year. Agents resigning during the year should make out this report before quitting the service.

State Virginia County Surry

REPORT OF

(Name) *Home Demonstration Agent.* From _____ to _____, 193

A-H Club Agent. From _____ to _____, 193

D. M. Coates
Agricultural Agent. From Dec. 1st 35 to Nov. 30, 1936

READ SUGGESTIONS, PAGES 2 AND 3

Approved:

Date _____

State Extension Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT

The annual report should be a summary, with analysis and interpretations, for presentation to the people of the county, the State, and the Nation of the extension activities in each county for the year, and the results obtained by the county extension agents assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agents and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support of extension work.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

STATISTICAL SUMMARY

Where two or more agents are employed in a county they should submit a single statistical report showing the combined activities and accomplishments of all county extension agents employed in the county during the year. Results obtained through assistance rendered agents by specialists should also be included. This report shows, insofar as possible, the part each agent has taken in forwarding the extension program. The county totals should be the sum of the activities and accomplishments of individual agents *minus duplications due to two or more agents participating in the same activity or accomplishment.* The county totals, when properly recorded, show the progress made in the county during the year in forwarding the entire extension program. Negro men and women agents should prepare a combined statistical report separate from that of the white agents.

The statistical summary should be a report of this year's activities and results that can be verified by records on file in the county office. Where records are not available careful estimates are desired. Such estimates should be marked "Est."

NARRATIVE SUMMARY

A separate narrative report is desired from the leader of each line of work, such as county agricultural agent, home demonstration agent, boys' and girls' club agent, and Negro agent. Where an assistant agent has been employed during a part or all of the year, the report of his or her work should be included with the report of the leader of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked.

The narrative report should summarize and interpret, under appropriate subheadings, the outstanding results accomplished and the extension methods used for each project. Every statement should be clear, concise, forceful, and, where possible, reinforced with necessary data from the statistical summary. Use a descriptive style of writing, giving major accomplishments first under each project. Give extension methods fully relating to outstanding results only, and where practicable illustrate with photographs, maps, diagrams, blueprints, or copies of charts and other forms used. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs and reasonably good margins. This pages should be numbered in consecutive order.

The following outline is merely suggestive of how the narrative report may be clearly and systematically presented. Each agent should prepare an outline to fit the situation and the work to be reported.

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT

- I. Cover and title page.
- II. Table of contents.
- III. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning of the narrative report.
- IV. Changes in county extension organization.
 - (1) Form.
 - (2) General policies.
 - (3) Procedure.
- V. County program of work.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

Under appropriate headings and subheadings present in some detail for each major project or line of work the goals set up, the methods used, the results achieved, and the significance of those results in terms of improved farms and homes and of better community life.
- VI. Outlook and recommendations, including suggestive program of work for next year.

TERMINOLOGY

To insure reports which convey the intended meaning to others and to facilitate the compilation of satisfactory national statistics on extension, it is extremely important that terms be used in accordance with accepted definitions. The following definitions of extension terms have been approved by the United States Department of Agriculture and the Association of Land Grant Colleges and Universities. Agents should read these definitions before starting to write the annual reports.

DEFINITIONS OF EXTENSION TERMS

1. A program of work is a statement of the specific projects to be undertaken by the extension agents during a year or a period of years.
2. A plan of work is a definite outline of procedure for carrying out the different phases of the program of work. Such a plan provides specifically for the means to be used and the methods of using them. It also shows what, how much, when, and where the work is to be done.
3. A community is a more or less well-defined group of rural people with common interests and problems. Such a group may include those within a township, trade area, or similar limits. For the purpose of this report a community is one of the several units into which a county is divided for conducting organized extension work.
4. A project leader, local leader, or committeeman is a person who, because of special interest and fitness, is selected to serve as a leader in advancing some phase of the local extension program. A project leader may be either an organization or a subject-matter leader.
5. Demonstrations as contemplated in this report are of two kinds—method demonstrations and result demonstrations. A method demonstration is a demonstration given by an extension worker or other trained leader for the purpose of showing how to carry out a practice. Example: Demonstrations of how to can fruits and vegetables, mix spray materials, and call poultry.
6. A result demonstration is a demonstration conducted by a farmer, home maker, boy, or girl under the direct supervision of the extension worker, to show locally the value of a recommended practice. Such a demonstration involves a substantial period of time and records of results and comparisons, and is designed to teach others in addition to the person conducting the demonstration. Example: Demonstrating that the application of fertilizer to cotton will result in more profitable yields, that underweight of certain children can be corrected through proper diet, that the use of certified seed in growing potatoes is a good investment, or that a large farm business results in a more efficient use of labor.
7. The adoption of a farm or home practice resulting from a demonstration or other teaching activity employed by the extension worker as a means of teaching is not in itself a demonstration.
8. A result demonstrator is an adult, a boy, or a girl who conducts a result demonstration as defined above.
9. A cooperater is a farmer or home maker who agrees to adopt certain recommended practices upon the solicitation of an extension worker. The work is not directly supervised by the extension agent and records are not required, but reports on the success of the practices may be obtained.
10. A 4-H Club is an organized group of boys and/or girls with the objectives of demonstrating improved practices in agriculture or home economics, and of providing desirable training for the members.
11. 4-H Club members enrolled are those boys and girls who actually start the work outlined for the year.
12. 4-H Club members completing are those boys and girls who satisfactorily finish the work outlined for the year.
13. A demonstration meeting is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
14. A leader-training meeting is a meeting at which project leaders, local leaders, or committeemen are trained to carry an extension activities in their respective communities.
15. An office call is a call in person by an individual or a group seeking agricultural or home-economics information, as a result of which some definite assistance or information is given. A telephone call differs from an office call in that the assistance or information is given or received by means of the telephone. Telephone calls may be either incoming or outgoing.
16. A farm or home visit is a call by the agent at a farm or home at which some definite information relating to extension work is given or obtained.
17. Days in office should include time spent by the county extension agent in the office, at annual and other extension conferences, and on any other work directly related to office administration.
18. Days in field should include all days spent on official duty other than "days in office."
19. Letters written should include all original letters on official business. (Duplicated letters should not be included.)
20. An extension school is a school usually of 2 to 6 days' duration, arranged by the Extension Service, where practical instruction is given to persons not resident at the college. An extension short course differs from an extension school in that it is usually held at the college or another educational institution and usually for a longer period of time.
21. Records consist of definite information on file in the county office that will enable the agent to verify the data on extension work included in this report.
22. The county extension association or committee is that county organization, whether a membership or a delegate body, which is recognized officially in the conduct of extension work in the county.

GENERAL ACTIVITIES

Report Only This Year's Extension Activities and Results That Can Be Verified

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report. Include time of assistants with that of regular agent.

AGENT	Total months of service this year (a)	Days devoted to agr'l-conservation and adjustment programs (b)	Days devoted to relief work (c)	Total days in office (d)	Total days in field (e)
(Name) Home demonstration agent.....	1				
Asst. home demonstration agent.....					
4-H Club agent.....					
Assistant 4-H Club agent.....	2				
Agricultural agent.....					
Assistant agricultural agent.....	3	12	12	4

2. County extension association or committee:
 - (a) Agricultural extension:
 - (1) Name.....
 - (2) Number of members **425-**
 - (b) Home demonstration:
 - (1) Name.....
 - (2) Number of members.....
 - (c) 4-H Club:
 - (1) Name.....
 - (2) Number of members.....
3. Number of communities in county where extension work should be conducted..... **10**
4. Number of above communities in which the extension program has been planned cooperatively by extension agents and local committees..... **10**
5. Number of different voluntary county or community project leaders or committeemen actively engaged in forwarding the extension program:
 - (a) Adult work
 - (1) Men.....
 - (2) Women.....
 - (b) 4-H Club work
 - (1) Men.....
 - (2) Women.....
 - (3) Older club boys.....
 - (4) Older club girls.....
6. Number of different paid local leaders engaged in agricultural-conservation and adjustment programs:
 - (a) Men..... **20**
 - (b) Women..... **4**
7. Number of clubs or other groups organized to carry on adult home demonstration work.....
8. Number of members in such clubs or groups.....

ITEM	Home demonstration agents (a)	4-H Club agents (b)	Agricultural agents (c)	County total (d)
9. Number of 4-H Clubs.....			3	
10. Number of different 4-H Club members enrolled.....			29	
			41	
11. Number of different 4-H Club members completing.....			8	
			17	
12. Number of different members enrolled in 4-H Club work for: ^a				

MEMBERS	1st year	2d year	3d year	4th year	5th year	6th-year and over
(a) Boys.....	4	6	7	5	4	3
(b) Girls.....	6	8	10	7	6	4

^aCounty total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or accomplishment.
^bReport the total number of different boys or girls enrolled in club work. This total should equal the sum of the project enrollments reported on pages 7 to 9, minus duplications due to the same boy or girl carrying on two or more subject-matter lines of work.
^cSame as footnote ^b but refers to completions instead of enrollments.
^dThe total for this question should agree with county total, question 10.

		(b) Total attendance			
	(2) 4-H club	(a) Number			
		(b) Total attendance			

SUMMARY OF EXTENSION INFLUENCE FOR YEAR

It is highly desirable for extension workers to consider the proportion of farms and farm homes in the county which have been definitely influenced to make some substantial change in farm or home operations as a result of the extension program for men, women, boys, and girls. It is recognized that this information is very difficult for agents to report accurately, so a conservative estimate based upon such records, surveys, and other sources of information as are available will be satisfactory. Such estimates should be marked "Est."

Include results of emergency activities as well as the regular extension program.

35. Number of farms in county	800	35
36. Number of farms on which changes in practices have definitely resulted from the agricultural extension program	42	36
37. Number of farm homes in which changes in practices have definitely resulted from the home demonstration program		37
38. Number of other homes in which changes in practices have definitely resulted from the home demonstration program		38
39. Number of farm homes with 4-H Club members enrolled	50	39
40. Number of other homes with 4-H Club members enrolled	11	40
41. Total number of different farm families influenced by some phase of the extension program (Include questions 35, 37, and 39, minus duplications.)	600	41
42. Total number of different other families influenced by some phase of extension program (Include questions 38 and 40, minus duplications.)	21	42

¹ County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or accomplishment.

Note.—Questions 15-34 refer to the total number of different activities conducted this year. The totals should equal the sums of the corresponding information reported on following pages minus duplications where the same activity relates to two or more lines of work.
