UNSCRAMBLE THE SCRAMBLED EGGS!

All words should be related to what you have studied in this project

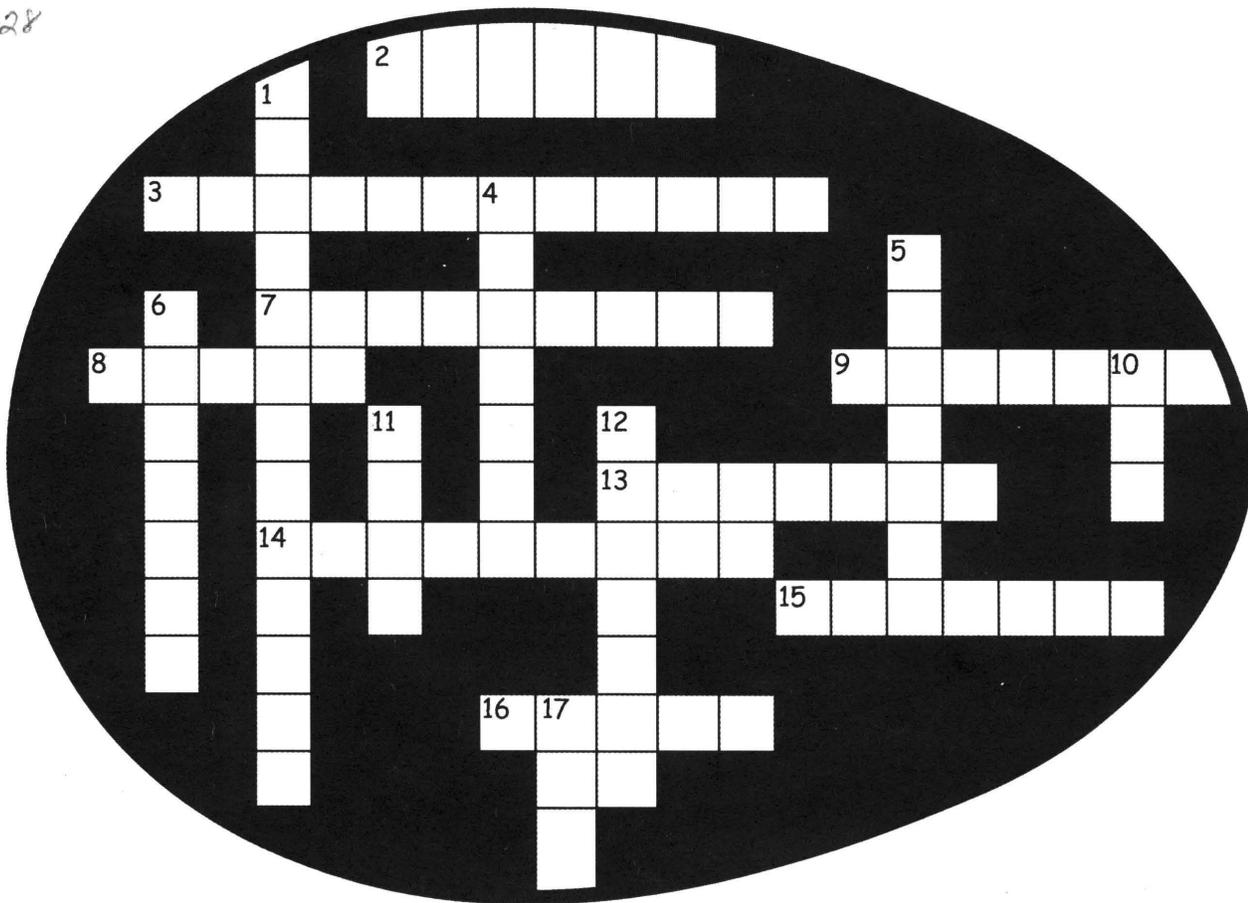

1. geg	2. hne	3. koyl
4. htcah	5. lehls	6. oymrbe
7. aekb	8. iecckhn	9. orcuibtna
10. ingsw	11. tapemertrue	12. izdeltirfe

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____
11. _____
12. _____

EGG CROSSWORD PUZZLE

Across

2. Term for developing chick
3. Location on yolk where development begins
7. Takes the place of the mother hen
8. Hard, protective covering
9. Source of heat to keep chicks warm after they hatch
13. Term for a male chicken
14. Membrane sac functions to provide breathing and removal of wastes
15. The component (part) of the shell
16. Term for a baby chick

Down

1. Occurs in the germinal disc
4. Term for egg white
5. Pocket of air where chick obtains its first breath
6. Protein fibers hold yolk in place
10. Made up of yolk, albumen and shell
11. Term for the yellow-orange part of the egg
12. Albumen is water and ? .
17. Term for a female chicken

MAKE IT UP!

Put these words in alphabetical order:

embryo	yolk	incubator	feathers	crack	thermometer
egg	white	blood vessels	chicken	beak	temperature
hen	chick	embryo	heart	egg tooth	wings
rooster	hatch	shell	toes	membrane	peeps
fertilizer	fluff	development	brooder	sac	comb

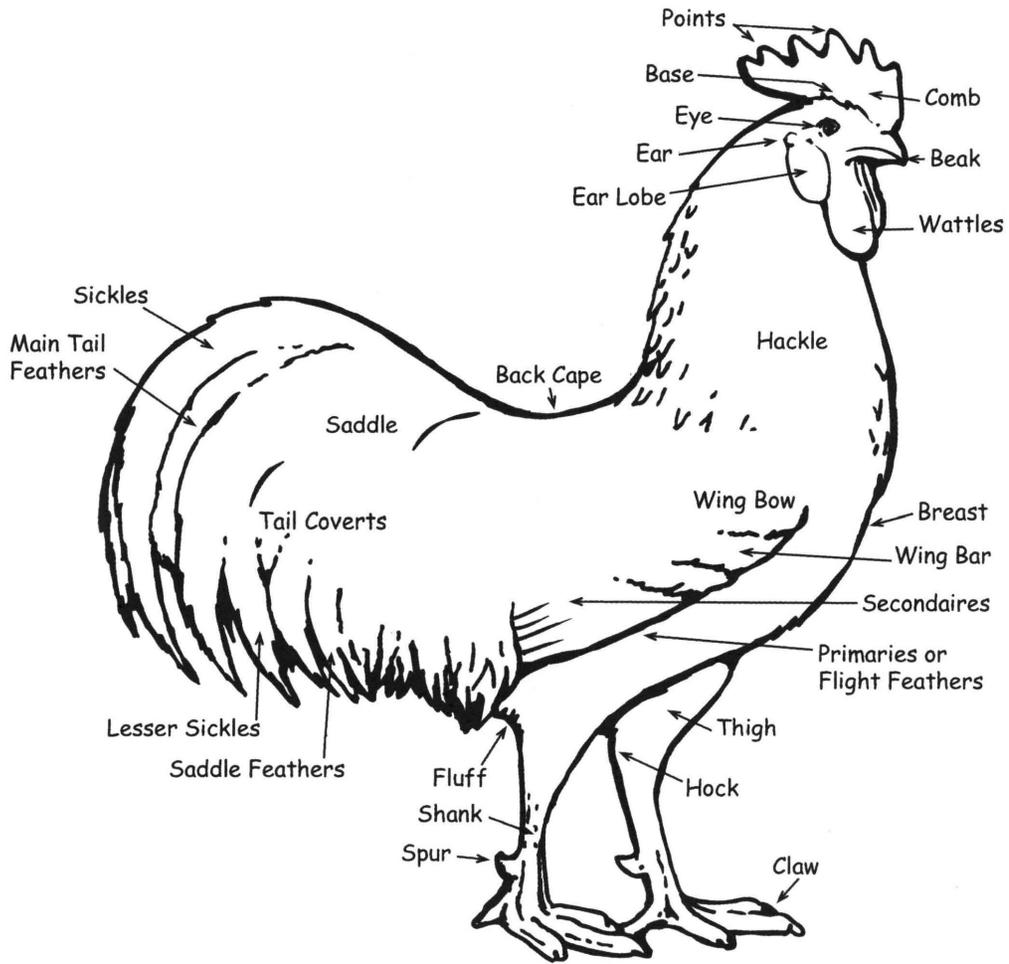

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____
11. _____
12. _____
13. _____
14. _____
15. _____
16. _____
17. _____
18. _____
19. _____
20. _____
21. _____
22. _____
23. _____
24. _____
25. _____
26. _____
27. _____
28. _____
29. _____
30. _____

Choose 10 vocabulary words and use each in a complete sentence.

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.
- 8.
- 9.
- 10.

EXTERNAL ANATOMY OF THE ROOSTER

Can you find the hidden words describing the external anatomy of the rooster listed in the letter square below? The words run in all directions - forward, backward, up, down, and diagonal.
