

ACKNOWLEDGMENTS

I wish to thank Dr. Albert Wiswell, Dr. Harold Stubblefield, Dr. Marcie Boucouvalas, Dr. Leticia Combs, and Dr. K. C. Soares for their guidance and support. Their assistance provided me with an excellent learning experience.

My special appreciation is also extended to the Aristotle Foundation -- to each and every one of my fellow members, to Dr. Paul Nelson the leader, and to Dr. Judy Pearson Nelson for her continuing support of this group.

And, I am particularly grateful to my family members for their encouragement and understanding throughout this long process.
