

Model for Developing Data Management Policy Language

Research Data Access and Preservation, 2013

Wendy Mann
George Mason University

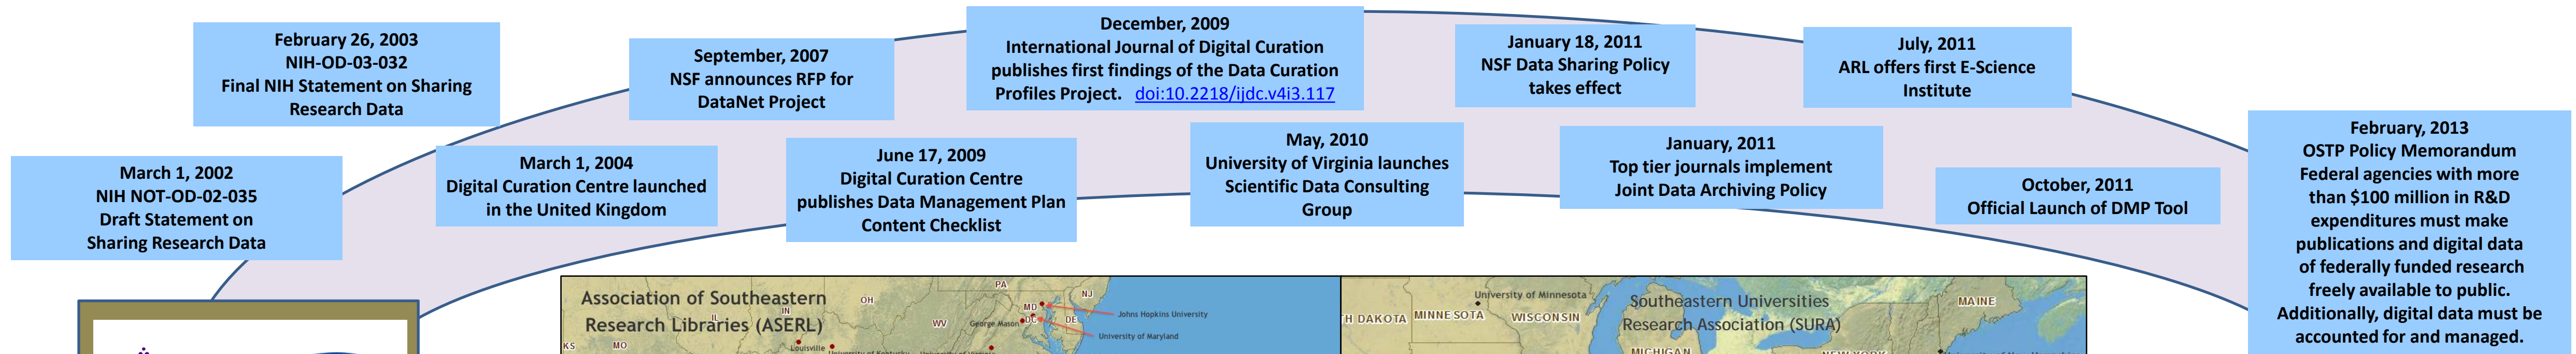

Bill Corey
University of Virginia

Tom Wilson
University of Alabama

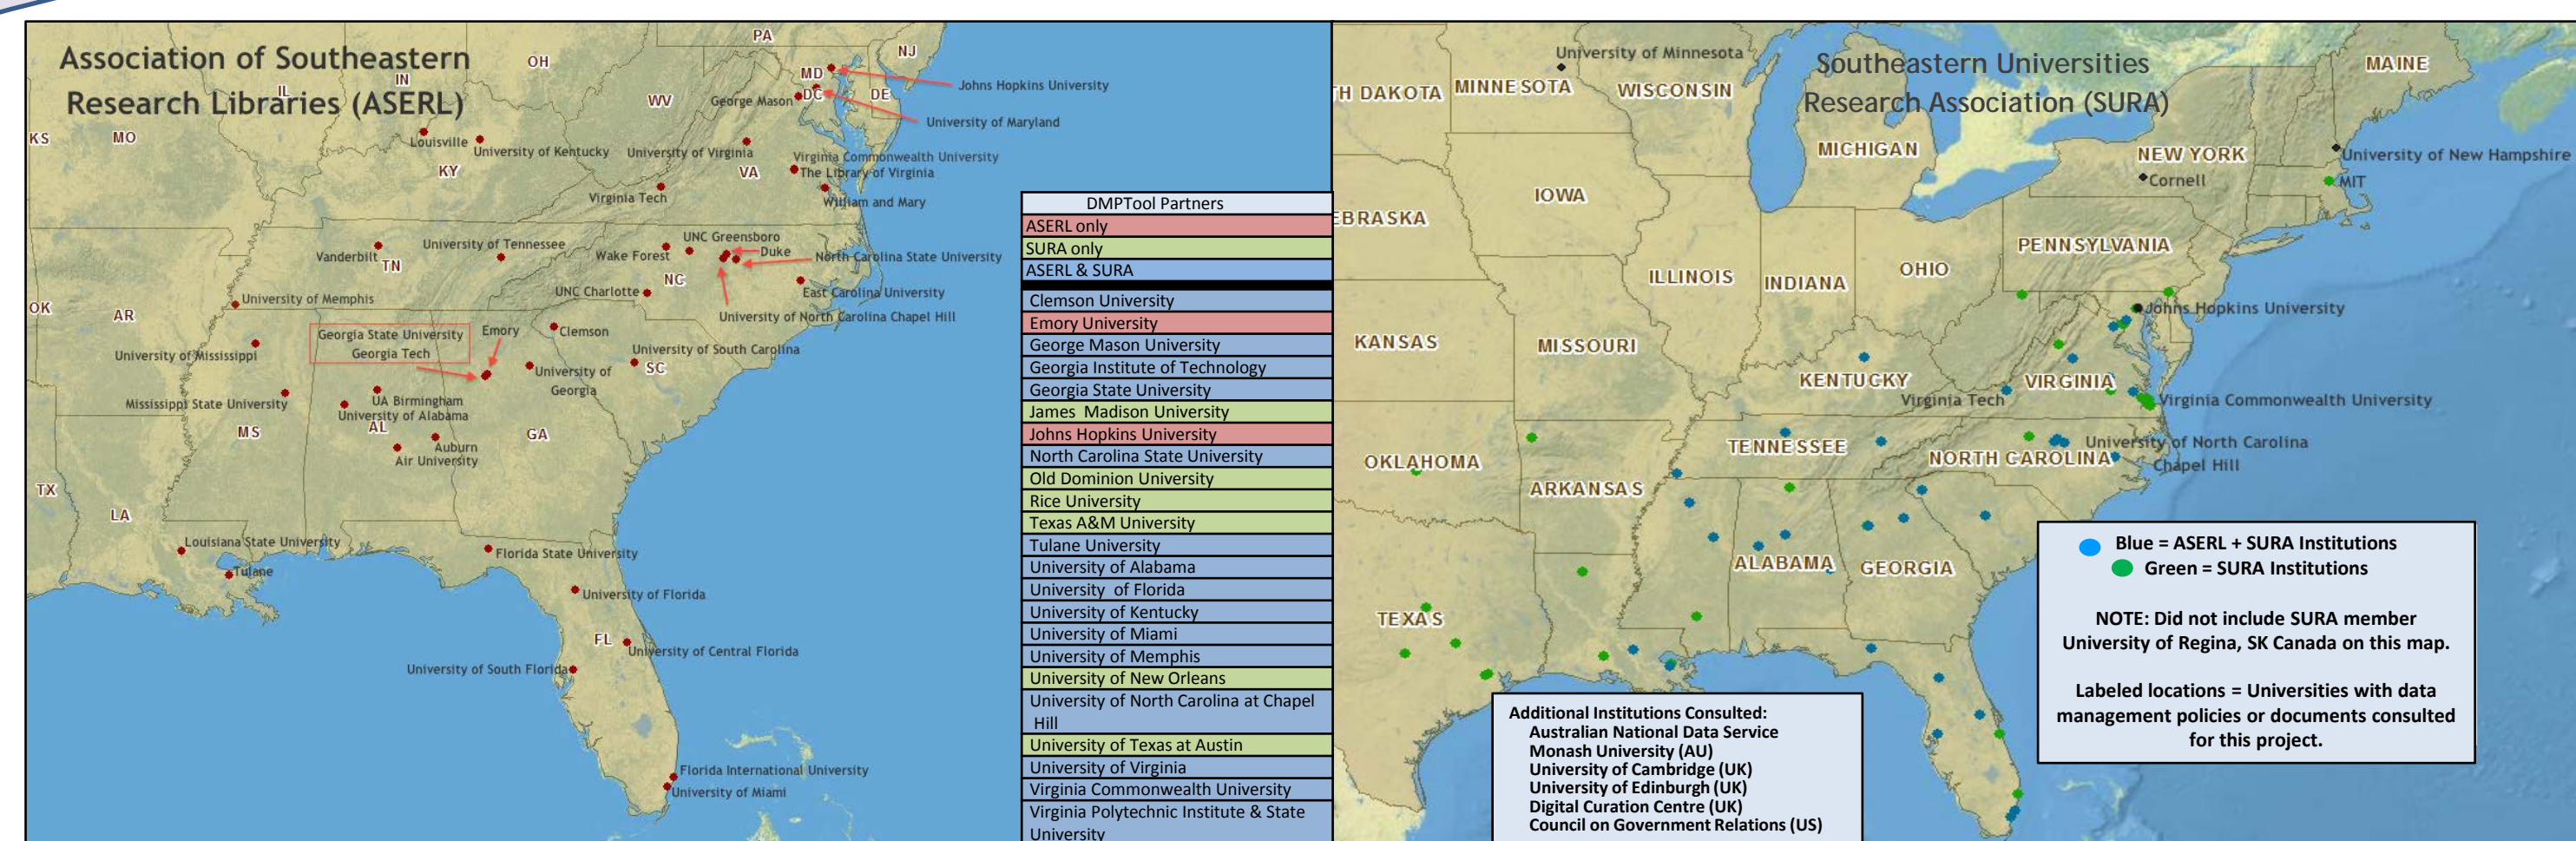

Nathan Hall
Virginia Tech

Representatives from four ASERL libraries analyzed existing institutional data management policies in order to develop model data management policy language. Outlined below is an illustration of data sharing and management milestones and a timeline of the ASERL Data Policy Working Group's process.

External Data Management Policy and Practice Context

ASERL & SURA logos and a snippet of the 'Model Language for Research Data Management Policies' document.

March 2011
SURA Information Technology Meeting:
Institutional Responses to
NSF DMP Requirements

April 2011
ASERL Spring Membership Meeting
Round-Robin discussion:
Roles for Libraries in Digital Curation,
Management and Compliance with
Federal Requirements presentation.

Draft Research Data Management Policy Language Process
