Hi Ms. Ballen,

I am a co-author on the article titled "Increased Lead in Water Associated With Particulate Iron". I would like to obtain permission to reuse this article as a part of my dissertation. I tried to follow the instructions in this link <http://www.liebertpub.com/reprints/environmental-engineering-science/15/> but whenever I click on "Reprints/Permission" it takes me to an email as opposed to allowing me to set up an account. Do you have any suggestions about how to obtain permission or how to set up the account?

Thanks
Sheldon

Dear Sheldon:

Copyright permission is granted for re-use of your article. Please use following credit line:

"Reprinted with permission from (title of journal, volume & issue numbers), pp. ____, published by Mary Ann Liebert, Inc., New Rochelle, NY."

Kind regards,

Karen Ballen
