

Chapter 3: Development of a Rapid HILIC UPLC-MS/MS Method for Procyanidins with Enhanced Ionization Efficiency

Published in Journal of Chromatography A

The screenshot shows the RightsLink interface for a specific article. At the top left is the Copyright Clearance Center logo. To its right is the RightsLink logo. Further right are navigation buttons for 'Home', 'Create Account', and 'Help', along with a speech bubble icon. On the left side, there is a thumbnail of the journal cover for 'JOURNAL OF CHROMATOGRAPHY A'. The main content area displays the following information:

- Title:** Development of a rapid ultra performance hydrophilic interaction liquid chromatography tandem mass spectrometry method for procyanidins with enhanced ionization efficiency
- Author:** Kathryn C. Racine, Andrew H. Lee, Amanda C. Stewart, Kenneth W. Blakeslee, Andrew P. Neilson
- Publication:** Journal of Chromatography A
- Publisher:** Elsevier
- Date:** Available online 4 February 2019

At the bottom of the article details, it states: © 2019 Elsevier B.V. All rights reserved.

On the right side of the article details, there is a 'LOGIN' button and a text box that reads: 'If you're a copyright.com user, you can login to RightsLink using your copyright.com credentials. Already a RightsLink user or want to learn more?' with a link to 'learn more?'.
