What phases of work different from that in other districts was carried on in your district?

Albemarle County has been used as a training county for Home Demonstration Agents, and so far, without exception, each girl trained by Miss Dumm is making good.

I think we have more girls away at school on club scholarships than any other district in Virginia.

Miss Dumm of Albemarle solicited from a very public spirited man a five hundred dollar scholarship for Girls' Club Work in that county. He gave this scholarship and became so interested that he himself solicited from other citizens, and in all they offered six scholarships, one of \$500 and five of \$300 each. These will be offered each year for the next three years. Thus a scholarship is given in each phase of Girls' Club work, viz: Canning, Cooking, Sewing, Girls' Room Improvement, Garden and Poultry. This not only enabled six girls to continue their education but was a wonderful incentive to club work in the county, there being a much larger enrollment and more excellent work done than ever before.

In addition to these scholarships, one Club girl in Augusta county and one in Albemarle are away at school on scholarships won through Dr. Hatcher of Southern Woman's Educational Alliance. Another Augusta girl is completing her second year at the Harrisonburg Normal on the State Canning Club Scholarship.

The Girls' Room Improvement Club has probably developed to a little more marked degree in my district. There was such splendid work done in this line in Albemarle that the judges in deciding upon the winners of scholarships recommended that the \$500 scholarship be divided between two girls who had done such excellent work in improving their rooms. Then, a member of a Room Improvement Club in Prinos William won the prize at State Fair on Girls' Room Improvement Club Set consisting of a bedspread, pillow cases, dresser scarf, table runner, etc. She also took prizes on these at Community and County Fairs. The Supervisor of that Magisterial District said that he remarked to several persons that the one girl had won in prizes almost the amount equal to what his district put up for Home Demonstration work.

In practically every case the money used in improving rooms was earned by the girls themselves.

Give general history of your work in your district with what impresses you as most effective work done:

I find it a pleasure to work with my agents. Have tried to assist them in every way possible, not only in planning their work but in putting it into effect.

I do not have many organized counties so have done quite a bit of work in other parts of the state.

I consider some of my most effective work has been that of assisting new agents in becoming established. Three weeks were given to Miss Birmingham who succeeded me in Norfolk County, ten days to Miss Byer who took up work as Home Demonstration Agent in Fawcett County, and quite a bit of time has been spent with Miss Teas who is substituting in Augusta County during Miss Moffett's illness. I feel that the success of a new agent greatly depends upon the district agent.

Last February I was very fortunate in having a week's course in Washington in the butchering, curing and canning of pork. I have given several demonstrations along that line, and we are planning quite a bit of work in the canning of pork during the next month.

In the absence of Miss Hughes, State Girls' Club Agent, I was put in charge of the girls at the State Short Course at Blacksburg, July 25-30 inc. We had an attendance of 127 girls and 218 boys - the largest gathering of Club boys and girls ever held in Virginia. While this was a rather hard task, I feel it gave me opportunity for experience along lines other than those in my usual work.

As stated above, I have made a number of visits to unorganized counties, but due to the great financial depression have not as yet gotten any of these counties lined up for Home Demonstration work. There are two counties I hope will soon come in.

What phases of work different from that in other districts was carried on in your district? Princess Anne, Henrico and James City Counties have new home demonstration agents so much time has had to be spent with them giving assistance along many lines. Give general history of your work in your district with what impresses you as most effective work done:

Visits to unorganized counties in my territory.

Henrico - August - Met the Bread Club Girls for the County Contest at the Y.W.C.A., Richmond. Spent several days helping Miss Ferguson with details of the county work, met clubs, went over files and gave demonstrations.

September - Met the Advisory Board for Home Demonstration work on the 8th. We had a splendid meeting. Plans for the fall meeting of the Federation of Clubs were discussed. Attended the County Teachers Meeting the 15th. Presented Home Demonstration Club work. Also attended the Varina Home Demonstration Club Meeting. Judged at the Varina Community Fair.

October - The Henrico County Federation of Home Demonstration clubs met in Richmond October 11th. It was an interesting meeting and well attended. Visited several schools with Miss Ferguson in interest of club work.

November - Attended the Curles Neck Home Demonstration Club meeting, also the "Achievement Day" meeting of the Boys' and Girls' Agricultural and Home Economics Clubs. The work in Henrico is very well started

on its fall and winter program. Miss Ferguson seems to have the proposition in hand.

- Goodland - September - Attended a home demonstration club meeting.  
October - Spent two days judging and assisting with the fair which was an event in Goodland County. Fully 600 people were present. Much interest was manifested. It was the result of splendid hard work on the part of the home demonstration agent.
- Chesterfield - August - Attended a bread and cooking club meeting at Elkhart. One hundred percent of the membership were present.  
October - Judged and assisted with the County Fair. Although Chesterfield Club work did not show up much at the State or Petersburg Fairs, the work at the County fair was splendid. Miss Walker deserves much credit for the hard work done and good results secured there.  
November - Visited the people who are going to enter their flocks in the egg laying contest.
- New Kent - August - Attended a home demonstration club meeting at Liberty.  
September - Judged and gave a demonstration at the New Kent Exhibit and Club Rally. This was a splendid meeting. About 400 people attended. It was the first of its kind ever held in the county and certainly deserves special mention on account of its success.  
October - Met the board of supervisors. After some meditation they put the home demonstration work on a permanent basis. This board did exactly what I am hoping each one in the district will do during the year. This action was due to the hard, conscientious work on the part of the home demonstration agent.
- James City - Miss Hamerley resigned October 1st. Several visits have been made to the county during the past few months in order to help with the work. A new home demonstration agent entered upon her duties Nov. 15th. I have never seen more interest manifested in the work than in this county. It is a splendid field.
- Princess Anne - August - The last three days of the month were spent with the home demonstration agent making plans and meeting people.  
October - Judged the exhibits at the fair.
- Norfolk - August - Attended a county meeting of the Home Demonstration Clubs.  
September - Spent three days assisting with and judging the Norfolk County Fair. The home demonstration club exhibits were especially good and received a great deal of commendation.  
October - Returned to Norfolk to judge the exhibits at the Great Bridge Field Day. The work in the county is on a firm foundation, I think. A county organization of the Home Demonstration Clubs was effected in Nov.
- Sussex - I have only been able to visit this county for one day. Expect to spend more time there in the future.
- Middle - August - Spent one day helping Miss Gleaton with some plans and visiting the Home community.  
November - Attended a County Farmers' Union Meeting and presented Home demonstration work.

- Brunswick - September - Spent two days with Miss Socks giving special steam pressure cookery work.  
I was not able to attend the County Fair but know the Home Demonstration Club exhibits were very good.
- Mecklenburg - August - Gave a steam pressure cookery demonstration at a Live Stock Association Picnic.
- September - Spent two days helping to work out plans and becoming acquainted with the county.
- October - Presented Home Demonstration work at a meeting of the Mecklenburg County Teachers' Association.

VISITS TO UNORGANIZED COUNTIES IN MY TERRITORY.

- Powhatan - October - Judged the womens' exhibit and met prominent people at the County Fair.
- Amelia - October - Judged the womens' exhibit at the County Fair. Discussed Home Demonstration work with several.

VISITS TO COUNTIES OUTSIDE OF MY TERRITORY.

The week of November 7th was spent presenting club work in Taswell County. This was a most enjoyable experience.

OTHER MEETINGS.

The weeks of August 1st and October 31st were spent at Blacksburg attending agents' meeting.  
Assisted with the work at the State Fair during the week of October 3rd.

Report of Eldon Oliver.

What phase of work different from that in other districts was carried on in your district A cow was owned by steam pressure method in Henry County.

there were 89 "All-day" rally days with the old time "dinner-on-ground",  
fun and demonstrations.

Give general history of your work in your district with what impresses you as most effective work done.-----Definite annual plans of work made in January. Monthly checked plans in order to ascertain how we are progressing. On first of every month each agent received a summary (made from all annual plans of agents) of possible activities for that particular month, this inspired the agents, and also suggested to them the necessity of carefully planning in advance. Each agent collected and compiled statistics in her county showing: financial, agricultural, industrial, educational, and social conditions (various organizations)

MINIST OF  
Lula Y. Walker,  
Home Economics Specialist in Foods.

Phases of Work carried on.

I. Office Work.

Consisting of

1. Getting acquainted with work

- a. through conferences
- b. through reports
- c. bulletins

2. Preparation for field work.

- a. demonstrations
- b. lectures
- c. exhibits.
- d. food work for girls' clubs, womens' clubs.

II. Field Work.

Consisting of

- 1. Short Courses
- 2. Fairs
- 3. Meetings for women
- 4. Meetings for Home Demonstration Agents
- 5. Visits to homes.

Types of Work done.

I. In foods -

- 1. Canning
- 2. Bread
- 3. Uses of fruit in diet
- 4. School lunches
- 5. Foods for infancy and childhood
- 6. Use of fireless cooker.

II. In clothing -

- 1. Care and selection of clothes
- 2. Requisites for a well dressed girl.

III. In the House -

- 1. Better kitchens
- 2. Home Decoration.

IV. Community -

- 1. Relation of club work to school work
- 2. Community betterment through Home Demonstration Work.

HOW THE WORK WAS DONE.

The Home Economics Specialist entered the Extension Service in June 1921. The demand for her services was so insistent that she had to go immediately out in the field, and had to carry out a program that had been mapped out previous to her arrival.

After one month, spent in Short Courses, she was granted a six weeks' leave of absence, without pay, in order to finish up work for a M. A. Degree, at Teachers' College, Columbia University. Returning to the work in August, she had been compelled to try to meet the existing problems during September, October and November.

Now definite food program is being planned for 1922.

Short Courses:

The Specialist attended 4 short courses, and gave 14 demonstrations in Canning, Bread and Clothes to 136 girls.

Methods Employed:

The bread work was being stressed in the Bread Clubs. First, a demonstration of the making, baking and judging of bread was given by Specialist. Each step in the demonstration was accompanied with the "Whys" for so doing. Bulletin No. 1136 was used in connection with the work and interpreted as work progressed.

By this method, the club members had the advantage of associating the written directions with the observation. Whenever equipment was available the demonstrations were followed by actual participation of the girls in making a loaf of bread under the direct supervision of the Specialist. All the bread was judged the next day by the girls grouped in teams. Most of the mistakes in bread work can be traced to two causes: First, baking; second, flour. Therefore it is recommended that special study be given to the fuels and stoves and to the flour produced by local mills.

The bread work in Short Courses was followed up by a mimeographed sheet on the "Whys" in bread making, which was sent out to every bread club member.

Clothing:

By means of talks and demonstrations the proper clothing for club girls was presented at one short course.

The work was particularly effective because the girls themselves gave the demonstrations.

Under the direction and advice of the Specialist and the District Agent suitable clothes for different occasions were selected from those brought by the

girls. The girls thus dressed (to suit the occasion, as well as the wearer) became the illustrative material for the demonstration lecture which followed. The club girl was presented traveling to the Short Course, going to demonstrations in the morning, going to field sports, going to social affairs in the afternoon and evening, and prepared for retiring at night, represented in the fashion show.

#### Fairs:

The Home Economics Specialist attended 8 fairs of different types: Community, County, Tri-County and State.

The work at Fairs consisted of planning educational exhibits, putting up exhibits, judging exhibits, holding bread contests. The educational exhibits planned were two: better kitchens, and uses of sweet potatoes in the diet.

These exhibits were not only planned, but executed by the Specialist. Mimeographed material of the plans was distributed 3 to 4 thousand copies. The judging was sometimes done alone and many times by assisting others. The work was Girls' Club work, Womens' Club work, white and negro.

It consisted of cooking, canning, bread, serving, needlework, composition, record books, organized club booths.

#### Meetings for Women:

The Specialist addressed and gave demonstrations at 3 meetings on bread, home decoration, and the use of fruit in the diet.

In three counties Extension Schools for women were held. Eleven places were selected and at these demonstrations or demonstration lectures were given by the Specialist to 270 women.

The topics were School Lunches, Home Decoration, Foods for Children, Needs of Farm Women, Foods in Relation to Physical Welfare, Community Betterment through Home Demonstration Clubs.

The most important phases of WOPK seem to have been:

1. The Extension Schools held with the Women.
2. The work with the Bread Clubs.

Suggestions for food work for 1922.

- I. To have women recognize their own needs.-

1. By setting standards

In Foods

In equipment.

In order to get it before women.

1. Have a "Better Kitchen" contest in every county.
2. Have a "Better Bread" campaign for Club Girls and Club Women in every county.
3. Promote a study of the local food products with the idea of improving their quality.

- II. To have women recognize the extreme importance of an adequate diet for the family for the school child.

Get it before women.

1. By a study of the actual and normal physical development of the child.
2. By the effect on development of the child by school lunch.
3. Stress the uses of milk, green vegetables and fruit in diet.
4. Have a school lunch campaign in every county.
