To Whom It May Concern:

I am a M.S student at Electrical Engineering Department and am writing for permission to include in my thesis "D-q impedance identification in three phase systems using multi-tone perturbation". The thesis will be made available to the public through Virginia Tech's library. Please supply a signed letter granting me permission to use the work. You can mail the permission to 133 Lucas Drive, Blacksburg, VA 24060, or E-mail to zhouborobert@gmail.com.

Thank you for your help.

Sincerely,

Bo Zhou
