Calvin Bullock, Principal
Windsor Middle School
Isle of Wight Public Schools

Calvin;

Permission is granted for you to use the Cash-Earthman Theoretical Model for explaining relationships between school building condition and student achievement in your dissertation. The Theoretical Model was first published in Carol Cash's dissertation of 1993 entitled "School Building Condition and Student Achievement and Behavior", Virginia Tech. I served as the chair of the dissertation committee.

/s/
Glen I. Earthman
Committee Chair
