

**An Evaluation of Population Restoration and Monitoring Techniques for Freshwater  
Mussels in the Upper Clinch River, Virginia, and Refinement of Culture Methods for  
Laboratory-Propagated Juveniles**

Caitlin S. Carey

Thesis submitted to the faculty of the Virginia Polytechnic Institute and  
State University in partial fulfillment of the requirements for the degree of

Master of Science

in

Fisheries and Wildlife

Jess W. Jones, Chair

Eric M. Hallerman

Marcella J. Kelly
